1. DESCRIPTION OF PLAN:

General

The following brief description of the Reliable Castings Corporation Profit Sharing and Retirement Savings Plan (the "Plan") is provided for general information only. Participants should refer to the Plan document for a more complete description of the Plan's provisions. The Plan sponsor is Reliable Castings Corporation (the "Company" or "Employer"). The trustee of the Plan assets is Fidelity Management Trust Company ("Fidelity"). An employee of the Company acts as the Plan administrator. The Plan is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Participation

The Plan provides for participation upon completion of 3 months of employment with the Company for all employees.

Contributions

Active participants may contribute 1% to 60% of their compensation to the Plan on a before-tax basis. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participant deferral contributions are also subject to Internal Revenue Code ("IRC") limitations.

The Company may make discretionary matching and profit sharing contributions. The Company elected not to make a profit sharing contribution for 2017. From January 1 to January 31, 2017, the Company matched 100% of every dollar of employee contributions up to 2% of eligible compensation and an additional 50% of every dollar of employee contributions up to 4%. From February 1 to August 17, 2017, the Company matched 100% of every dollar of employee contributions up to 5% of eligible compensation. On August 17, 2017, the Company suspended the match indefinitely.

Participants may also contribute amounts representing distributions from other qualified plans.

Participant accounts

Participants determine the allocation of their contributions to the various investment alternatives offered by the Plan. Each participant's account is credited with the participant's contribution and employer matching contributions, as well as allocations of the employer's profit sharing contribution, if any, and Plan earnings. Allocations of employer matching contributions are based on deferrals, as defined by the Plan. Profit sharing contributions are allocated based on the participant's eligible compensation as a percentage of total eligible compensation, and are credited only to participants employed by the Company on the last day of the plan year and who have earned at least 1,000 hours of service during the plan year, as defined by the Plan. Allocations of Plan earnings are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and forfeitures

Participants are immediately vested in their contributions plus actual earnings or losses thereon. Additionally, participants have vested interests in employer contributions in increments of 20% over six years, starting with the second full year of service. The Plan provides that forfeitures of employer contributions are to be used to offset future employer contributions. At December 31, 2017 and 2016, forfeited non-vested amounts available to offset future employer contributions totaled \$22,876 and \$14,

respectively. The Company will use forfeitures to reduce future Company contributions.

Notes receivable from participants

Participants may borrow from their fund accounts subject to certain minimum and maximum limitations set forth in the Plan document. Loans are repayable within 5 years (except for certain home-related loans, payable over not more than 30 years). The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through payroll deductions.

Payment of benefits

Upon termination of service, death, disability or retirement (or attaining age 65), a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual or more frequent installments. Participants may withdraw, at any time, upon substantial financial hardship as defined in the plan documents, any portion of the balance in their account, which is attributable to their voluntary tax-deferred contributions and earnings. Participants are prohibited from making contributions to the Plan for six months following receipt of a hardship withdrawal. All distributions are subject to the applicable provisions of the plan agreement.

2. SUMMARY OF ACCOUNTING POLICIES:

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the trustee. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded at December 31, 2017 and 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Benefits are recorded when paid.

Administrative expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through the date of the report, which is the date the financial statements were available to be issued.

3. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
- quoted prices for similar assets or liabilities in active markets;
 - quoted prices for identical or similar assets or liabilities in inactive markets;
 - inputs other than quoted prices that are observable for the asset or liability;
 - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Common/collective trust: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value.

The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Participant directed brokerage accounts: Accounts primarily consist of interest bearing cash and mutual funds (and common stocks in 2016) that are valued on the basis of readily determinable market prices.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value:

4. INFORMATION CERTIFIED BY TRUSTEE:

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Fidelity Management Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, the schedule of assets (held at end of year) as of December 31, 2017, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2017.

5. RELATED PARTY TRANSACTIONS:

Certain Plan investments are shares of investment funds managed by Fidelity Investments. Fidelity Investments is an affiliate of Fidelity Management Trust Company, the trustee of the Plan. Therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Certain Plan expenses were paid by the Company. The Company provides certain accounting, recordkeeping and administrative services to the Plan for which it is not compensated.

6. INCOME TAX STATUS:

The Company adopted a volume submitter defined contribution plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Services (IRS) dated March 31, 2014. The IRS stated in the letter that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. While the Company has not obtained its own determination letter on the Plan, management believes that the Plan currently is designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

8. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. RECONCILIATION OF THE FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of the amounts reported in the financial statements as of December 31, 2017 and 2016, and those reported on the Form 5500:
