1 – DESCRIPTION OF PLAN

General

The Med Fusion 401(k) Plan (the “Plan”) is a voluntary defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended. The Plan was established on January 1, 2015, and covers substantially all employees of Med Fusion, LLC (the “Company” or “Plan Sponsor”). Transamerica Life Insurance Company (“Transamerica”), serving as the agent for Reliance Trust Company, serves as the Trustee and Record-keeper of the Plan. The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

On January 9, 2018, the Plan merged all assets into The Profit Sharing Plan of Quest Diagnostics Incorporated.

Eligibility and Participant Accounts

The Plan covers all employees of the Company, except those employees classified as a union employee, certain nonresident aliens, or leased employees. Employees become eligible for participation after attaining the age of 21 and completion of one month of service as defined by the Plan document. Employees are enrolled in the Plan upon meeting the eligibility criteria on a monthly basis. Subject to certain limitations on annual additions, each participant’s account is credited with employee elective deferrals, Company safe harbor matching and discretionary contributions, and an allocation of Plan earnings and charged with certain administrative expenses.

Contributions

The Plan is funded through employee pre-tax elective deferrals, Roth deferrals, rollover contributions, and Company contributions. A participant may elect to contribute a portion of his or her pretax compensation from 1% to 80%, subject to certain maximum limitations imposed by the Internal Revenue Code (“IRC”) (\$18,500 and \$18,000 for the years ended 2018 and 2017, respectively). Employees who are eligible to make elective deferrals under the Plan and who have attained the age of fifty before the close of the plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC (\$6,000 for the years ended 2018 and 2017). Rollover contributions representing distributions from other qualified defined benefit or contribution plans are permitted and may be made prior to meeting the eligibility requirements for participation in the Plan.

The Plan allows for safe harbor matching contributions in the amount of 100% of pretax contributions on the first 5% of the participant’s compensation. Company safe harbor matching contributions totaled \$0 and \$874,462, for the period from January 1, 2018 through January 9, 2018, and for the year ended December 31, 2017, respectively.

Distributions to Participants

Upon normal retirement age, death, disability, or termination, a participant’s benefits are payable in a lump-sum amount equal to 100% of the participant’s vested account balance. All benefit payments are made in lump sum disbursements. Account balances of \$1,000 or less at the time of distribution will be “cashed out” as either an involuntary lump-sum payment or by direct rollover into an individual retirement account. Employees may also make hardship withdrawals on the balance of their account related to their elective deferral contributions.

1- DESCRIPTION OF PLAN, CONTINUED

Investment options

The Plan provides for contributions to be invested by the participants among a variety of mutual funds of registered investment companies and a pooled separate account in accordance with participant investment elections and the provisions of the trust agreement. Participants should refer to the Plan website for additional fund information.

Vesting

Participants are immediately 100% vested in elective deferrals, rollover contributions, Company safe harbor match contributions, and qualified non-elective contributions plus actual earnings, thereon.

Forfeitures

Forfeitures of terminated participants' nonvested accounts are used to reduce future employer contributions or pay administrative expenses. At January 9, 2018, December 31, 2017, and December 31, 2016, there were no forfeitures available. No forfeitures were used to reduce employer contributions or pay Plan expenses during the period from January 1, 2018 through January 9, 2018. During the year ended December 31, 2017, \$178 of forfeitures were used to pay plan expenses.

Notes Receivable from Participants

Borrowings are available for all participants. Notes receivable from participants are limited to a minimum of \$1,000 up to a maximum of the lesser of \$50,000 or 50% of their vested account balance, subject to certain restrictions as defined by the Internal Revenue Service ("IRS"). Participants may have up to two loans outstanding at any given time. The notes are secured by the balance in the participant's account and bear interest at a rate determined reasonable by the Plan administrator. Any note must be repaid within five years unless for the purchase of a primary residence, in which case the repayment period may not exceed fifteen years. Repayments are made through payroll deductions and are reinvested in the participant accounts according to individual investment elections. There was no outstanding notes receivable from participants as of January 9, 2018. Notes receivable from participants as of December 31, 2017, have rates from 4.25% to 5.25% and maturities from February 2018 through November 2032. Notes receivable from participants as of December 31, 2016, have interest rates from 4.25% to 4.50% and maturities from February 2017 through August 2022.

Administrative expenses

Certain transaction based fees are charged directly to the requesting participant's account. All other costs and expenses of the Plan and its administration, including all fees and expenses of the Trustee, are paid by the Company.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right under the Plan to discontinue its contributions and terminate the Plan. In the event of termination of the Plan, the participants become fully vested in their accounts, which will be distributed to the participants of the Plan in accordance with the provisions of ERISA.

2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

Estimates and Assumptions

The preparation of financial statements in conformity with U.S. GAAP requires the Plan’s management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, changes therein, and associated disclosures. Accordingly, actual results may vary from the estimates used in preparing the accompanying financial statements.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The income earned on participant accounts is allocated on a daily basis using the previous day’s ending account balance. Net appreciation (depreciation) includes the Plan’s gains and losses on investments bought and sold, as well as held during the year.

Benefits

Benefits are recorded when paid.

Notes Receivable from Participants

Notes receivable from participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon terms of the Plan document or loan policy of the Plan.

3 – FAIR VALUE MEASUREMENTS

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or its Equivalent). The update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as the practical expedient. The update also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share as the practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-07 is effective for fiscal years beginning after December 15, 2015 for public entities and after December 31, 2016 for all other entities with early adoption permitted. Effective January 1, 2017, the Plan adopted ASU 2015-07 with no material impact to the Plan.

3 – FAIR VALUE MEASUREMENTS – CONTINUED

Investment Valuation and Leveling

Financial Accounting Standards Board (“FASB”) Accounting Standards Codification (“ASC”) Topic 820 for Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- | | |
|---------|--|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets. |
| Level 2 | Significant observable inputs other than quoted prices in active markets for which inputs to the valuation methodology include: <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability. |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds of registered investment companies: Valued at quoted market prices which represent the net asset value (“NAV”) of shares held by the Plan at year end.

Pooled separate account: Valued at the NAV of shares held by the Plan at year end, as determined by Transamerica. The NAV, as provided by Transamerica, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The methods previously described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Plan believes its valuation methods are appropriate and consistent with other market participants; even so, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4 – FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (UNAUDITED)

The Company has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Company instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by the Trustee as defined by ERISA, as of January 9, 2018, December 31, 2017, and December 31, 2016, and for the period from January 1, 2018 through January 9, 2018, and for year ended December 31, 2017, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedules. This information consists of the following:

MED FUSION 401(K) PLAN
Notes to Financial Statements
January 9, 2018, December 31, 2017, and December 31, 2016

5 – PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in a pooled separate account which is managed by Transamerica. Transamerica acted in capacity as Trustee and record-keeper during the period from January 1, 2018 through January 9, 2018, and during the year ended December 31, 2017; therefore, these investments qualify as party-in-interest investments. Fees paid by the Plan for various administrative expenses, including investment management services, amount to \$586 and \$31,520 for the period from January 1, 2018 through January 9, 2018, and for the year ended December 31, 2017, respectively.

6 – TAX STATUS OF THE PLAN

The Plan is based on a volume submitter plan developed by Transamerica Retirement Solutions, which received a favorable opinion letter dated March 31, 2014, from the IRS stating that the volume submitter plan constitutes a qualified plan under Section 401 of the IRC. The Company believes the Plan, as adopted and amended, is operating within the guidelines of the IRC, and continues to be tax exempt. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the DOL or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examination for years prior to 2014.

7 – RISKS AND UNCERTAINTIES

Investment securities are exposed to various risks, such as interest rate, market, and credit risk. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the value of the investments will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the statement of net assets available for benefits.

8 – DELINQUENT CONTRIBUTIONS

During 2017, employee withholdings totaling \$49,155 were inadvertently not remitted to the Plan on a timely basis due to unintentional delay. The Company remitted lost earnings and interest calculated following the DOL guidelines for late deposits identified during 2018.

9 – SUBSEQUENT EVENTS

In accordance with FASB ASC 855, “*Subsequent Events*”, the Company has evaluated events or transactions occurring after December 31, 2017, the Statements of Net Assets Available for Benefits date, through July 26, 2018, the date the financial statements were ready to be issued, and determined no such events or transactions would impact the financial statements for the period from January 1, 2018 through January 9, 2018.
