STEEL ENERGY 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

1 – DESCRIPTION OF PLAN

GENERAL

The Steel Energy 401(k) Plan (the “Plan”) is a defined contribution plan and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (“ERISA”). The Plan was established on January 1, 2016, for the benefit of eligible employees of Steel Energy Services, Ltd., Rogue Pressure Services, and Black Hawk Energy Services (collectively, the “Company” or “Plan Administrator”). The Plan’s trustee is Reliance Trust Company (the “Trustee”). Automatic Data Processing, Inc. Retirement Services serves as the record-keeper of the Plan. The following description provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

ELIGIBILITY AND PARTICIPANT ACCOUNTS

Employees become eligible for participation on the first day of the month following two months of consecutive employment, as defined by the Plan document. Subject to certain limitations on annual additions, each participant’s account was credited with employee elective deferrals, Company matching and discretionary profit sharing contributions, and an allocation of Plan earnings and charged with certain administrative expenses.

CONTRIBUTIONS

The Plan is funded through employee elective deferrals and Company matching contributions. A participant may elect to contribute a portion of his or her pretax compensation of 1% up to 90%, subject to certain maximum limitations imposed by the Internal Revenue Code (“IRC”) (\$18,000 for 2017). Employees who are eligible to make elective deferrals under the Plan and who attained the age of fifty before the close of the Plan year are also eligible to make catch-up contributions subject to the maximum limitation imposed by the IRC (\$6,000 for 2017). Rollover contributions representing distributions from other qualified defined benefit or defined contribution plans are permitted.

The Plan allows for Company matching contributions and discretionary profit sharing contributions in amounts to be determined by the Company. In 2017, the Company elected to make matching contributions in the amount of 50% of employees’ salary deferral amounts on the first 2% of employees’ eligible compensation. No discretionary profit sharing contributions were made during 2017.

VESTING

Participants are immediately vested in employee elective deferrals and rollovers, plus actual earnings, thereon. Vesting in the Company’s matching and profit sharing contributions and any earnings thereon, will vest 20% per year beginning after one year of services and are 100% vested after five years or upon occurrence of the participant’s retirement, death or disability, as defined by the Plan document.

INVESTMENT OPTIONS

The Plan provides for participants to direct both employee and employer contributions into a variety of mutual funds of registered investment companies and common collective trusts in accordance with participant investment elections and the provisions of the Trust agreement. Participants should refer to the Plan website for additional fund information.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

1 – DESCRIPTION OF PLAN, CONTINUED

DISTRIBUTIONS TO PARTICIPANTS

Participants may withdraw amounts from their account during the year for reasons of disability, retirement, death, or terminations, and are entitled to their vested account balance. Participants are permitted to make hardship withdrawals on the balance of their account related to their elective deferral contributions. Upon termination, for vested account balances greater than \$5,000, participants may elect a distribution in the form of a single lump sum payment. For vested account balances less than \$5,000, amounts are distributed as elected by the applicable terminated participant within a reasonable time after terminating employment or are rolled over to an individual retirement account.

FORFEITURES

Forfeitures of terminated participants' non-vested accounts are used to pay administrative expenses or reduce employer contributions. These amounts are reported as a component of net assets available for benefits. At December 31, 2017 and 2016, forfeited non-vested accounts available for future use totaled \$21,909 and \$17,346, respectively. During 2017, no forfeitures were used to reduce employer contributions or to pay administrative expenses.

NOTES RECEIVABLE FROM PARTICIPANTS

Participants may borrow from their fund accounts a minimum of \$1,000 up to a maximum of the lesser of 50% of their vested account balance, subject to certain restrictions as defined by the Internal Revenue Service ("IRS"). The notes are secured by the balance in the participant's account and bear interest at a rate based on the prime rate published in the *Wall Street Journal* plus 1% on the day the loan was initiated. Notes must be repaid within five years, unless for a purchase of a primary residence, in which case the Plan Administrator may permit a longer repayment term. Repayments are made through payroll deductions and are reinvested in the participant accounts according to individual investment elections. At December 31, 2017, maturity dates on existing notes receivable from participants ranged from February 2018 through September 2043 and had interest rates from 4.25% to 5.50%. At December 31, 2016, maturity dates on existing notes receivable from participants ranged from February 2017 through November 2021 and had interest rates from 4.25% to 5.50%.

PLAN TERMINATION

Although the Company expects to continue the Plan, the Company may terminate the Plan at any time subject to the provisions of ERISA. In the event the Plan is terminated, each of the participants will have a non-forfeitable 100% vested interest in his or her account balance, including all Company contributions, subject to payment of liquidation costs and expenses.

ADMINISTRATIVE EXPENSES

Certain transaction-based fees are charged directly to the requesting participant's account. All other costs and expenses of the Plan and its administration, including all fees and expenses of the Trustee are paid by the Company but may be paid by the Plan.

2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

BASIS OF ACCOUNTING

The financial statements have been prepared under accrual basis in accordance with accounting principles generally accepted in the United States of America (“U.S. GAAP”).

ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with U.S. GAAP requires the Plan’s management to make estimates and assumptions that affect certain reported amounts of assets and liabilities, changes therein, and associated disclosures. Accordingly, actual results may vary from the estimates used in preparing the accompanying financial statements.

BENEFITS

Benefits are recorded when paid.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. The income earned on participant accounts is allocated on a daily basis using the previous day’s ending account balance. Net appreciation includes realized gain and losses on the investments bought and sold, during the year, as well as, appreciation of the investments held at the end of the year.

NOTES RECEIVABLE FROM PARTICIPANTS

Notes receivable from participants are measured at their unpaid principal balances plus any accrued but unpaid interest, which approximates fair value. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

3 – FAIR VALUE MEASUREMENTS

RECENT ACCOUNTING PRONOUNCEMENTS

In May 2015, the Financial Accounting Standards Board (“FASB”) issued Accounting Standards Update (“ASU”) No. 2015-7, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities that Calculate Net Asset Value (“NAV”) per Share (or its Equivalent). The update removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share as the practical expedient. The update also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share as the practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. ASU 2015-7 is effective for fiscal years beginning after December 15, 2015 for public entities and after December 15, 2016 for all other entities with early adoption permitted. Plan management adopted the ASU in the 2017 financial statements, with no material financial statement impact.

NOTES TO FINANCIAL STATEMENTS

3 – FAIR VALUE MEASUREMENTS, CONTINUED

INVESTMENT VALUATION AND LEVELING

FASB Accounting Standards Codification (“ASC”) Topic 820 for Fair Value Measurements and Disclosures provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Investments measured and reported at fair value are classified and disclosed in one of the following categories:

- | | |
|---------|---|
| Level 1 | Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets. |
| Level 2 | <p>Significant observable inputs other than quoted prices in active markets for which inputs to the valuation methodology include:</p> <ul style="list-style-type: none">• Quoted prices for similar assets or liabilities in active markets;• Quoted prices for identical or similar assets or liabilities in inactive markets;• Inputs other than quoted prices that are observable for the asset or liability;• Inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p style="margin-left: 40px;">If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.</p> |
| Level 3 | Inputs to the valuation methodology are unobservable and significant to the fair value measurement. |

The asset’s or liability’s fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In establishing a fair value hierarchy for the Plan’s investments in accordance with ASC 820, the following value methodologies were used for each type of investment:

Mutual funds of registered investment companies: Valued at the NAV or quoted market prices of shares held by the Plan at year end.

Common collective trusts: Valued at NAV of units of a bank collective trust, as provided by the Trustee. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the Plan Administrator reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. The Plan believes its valuation methods are appropriate and consistent with other market participants; even so, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4 – FINANCIAL INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE (UNAUDITED)

The Company elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Company instructed the independent auditors not to perform any auditing procedures with respect to the following information certified as complete and accurate by the Trustee and party-in-interest as defined by ERISA, as of December 31, 2017 and 2016, and for the year ended December 31, 2017, except for comparing such information certified by the Trustee to information included in the Plan's financial statements and supplemental schedule. This information consists of the following:

	<u>2017</u>	<u>2016</u>
Mutual funds of registered investment companies	\$ 5,665,191	\$ 4,668,392
Common collective trusts	297,529	254,346

Interest on notes receivable from participants	<u>\$ 11,073</u>	
Net appreciation in fair value of investments	<u>\$ 677,499</u>	

5 – RISKS AND UNCERTAINTIES

The Plan provides for various investment options in mutual funds of registered investment companies and common collective trusts. Investment securities are exposed to various risks, such as interest rate, market risk, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities could occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

STEEL ENERGY 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2017 AND 2016

6 – TAX STATUS OF THE PLAN

The Plan, developed by Automatic Data Processing, Inc. as a prototype plan, received a favorable opinion letter dated July 16, 2014, from the IRS stating that the Plan constitutes a qualified plan under Section 401 of the IRC. The Company believes the Plan, as adopted and amended, is operating within the guidelines of the IRC, and continues to be tax exempt. Accordingly, no provision for federal income taxes has been provided in the accompanying financial statements.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Department of Labor or IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examination for years prior to 2014.

7 – EXCESS CONTRIBUTIONS PAYABLE

The Plan failed the discrimination test for the year ended December 31, 2017. As a result, excess contributions payable are recorded as a liability in the accompanying Statements of Net Assets Available for Benefits and as a reduction to contributions in the related Statement of Changes in Net Assets Available for Benefits.

8 – RECONCILIATION TO THE FORM 5500

The following are reconciliations of net assets available for benefits per the financial statements and the Form 5500 as of December 31:

	<u>2017</u>	<u>2016</u>
Net assets available for benefits per the financial statements	\$ 6,102,845	\$ 5,130,911
Add: excess contributions payable	50,336	-
Net assets available for benefits per the Form 5500	<u>\$ 6,153,181</u>	<u>\$ 5,130,911</u>

The following is a reconciliation of net income in net assets available for benefits between the financial statements and the Form 5500 for the year ended December 31, 2017:

Net increase in net assets available for benefits per the financial statements	\$ 971,934
Add: 2017 excess contributions payable	50,336
Net increase in net assets available for benefits per the Form 5500	<u>\$ 1,022,270</u>

9 – SUBSEQUENT EVENTS

In accordance with FASB ASC 855, "Subsequent Events", the Company has evaluated events or transactions occurring after December 31, 2017, the Statements of Net Assets Available for Benefits date, through October 2, 2018, the date the financial statements were ready to be issued, and determined there were no events or transactions that would impact the financial statements as of and for the year ended December 31, 2017.
