Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Libbey Inc. Salaried Cash Balance Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by State Street Bank and Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in these financial statements, other than that derived from the information certified by the trustee, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Libbey Inc. Salaried Cash Balance Pension Plan

Notes to Financial Statements

December 31, 2017 and 2016

1. Description of the Plan

The following description of the Libbey Inc. Salaried Cash Balance Pension Plan (the Plan) is provided for general information purposes only. Participants should refer to the summary plan description or plan document for more complete information about the Plan, including the vesting and benefit provisions and the benefit guarantee of the Pension Benefit Guarantee Corporation (PBGC). Copies of these documents are available at the corporate office of Libbey Inc. (the Company, Plan Sponsor, and Plan Administrator).

General

The Plan is a cash balance defined benefit plan established to provide normal and early retirement, termination, and death benefits to salaried employees. Effective January 1, 2006, the Plan was amended to restrict enrollment to new employees. Effective January 1, 2013, the Plan ceased annual company contribution credits to the cash balance accounts. Interest credits continue to accrue. Effective December 31, 2015, the Company merged two other Company defined benefit plans into the Plan to reduce administrative costs. In connection with the merger, the Plan assumed the obligation to pay benefits to the former participants of the two Syracuse China Company merged plans. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1976 (ERISA), as amended.

The Employee Benefits Committee (the Committee) is responsible for the general administration of the Plan. The Committee is comprised of several employees of the Company and reports to the Board of Directors of the Company. The trustee of the Plan is State Street Bank and Trust (State Street).

Benefits

Benefits are calculated based on whether the participant was originally in one of the salaried cash balance pension plans or the union pension plan.

Salaried Cash Balance Pension Plans

Salaried cash balance pension plan participants accrue benefits in a defined notional cash balance account. Interest is credited to participant cash balance accounts based on the beginning of the year balances. The annual interest crediting rate is based on the 30-year US Treasury Securities rate for the month of October immediately preceding the plan year. The Plan has a minimum interest crediting rate of 5% and a maximum crediting rate of 10%. Participant cash balance accounts were also credited on an annual basis with a percentage of their eligible earnings, with the percentage determined based on age and service, as defined by the Plan, until January 1, 2013 (for original Libbey Inc. salaried participants) or April 9, 2009 (for original Syracuse China Company salaried participants).

A participant is entitled to pension benefits beginning at normal retirement age (65) primarily based upon levels of compensation and years of service under the Plan. Benefits are paid at the option of the participant in the form of a lump sum or recurring payments. Accrued benefits become vested after completion of three years of credited service or the attainment of normal retirement age. Benefits are payable beginning at normal retirement age or in reduced amounts upon early retirement. Participants 55 years of age or older with five or more years of credited service are entitled to early retirement benefits. Retirement benefits are based on the immediate cash balance account determined as of the participant's pension starting date. Benefits are also payable upon disability, death, or termination of employment.

Union Pension Plan

Participants of the legacy Syracuse China Company Union Pension Plan, a traditional defined benefit plan, accrue benefits based on credited service times a per month amount specified in the collective bargaining agreement.

These participants are entitled to pension benefits beginning at normal retirement age (65) based on a benefit formula amount stipulated by union class in the applicable union contract multiplied by the participant's years of credited service under the Plan. Benefits are paid to the participant in the form of a recurring payment. Accrued benefits become vested after completion of 5 years of credited service or the attainment of normal retirement age. Benefits are payable beginning at normal retirement age or in reduced amounts upon early retirement and the completion of 15 years of credited service. Benefits are also payable upon disability, death, or termination of employment.

Funding

The Company contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to participants and satisfy the ERISA minimum funding requirements. The Plan has met the ERISA minimum funding requirements for 2017 and 2016.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder, and the Plan document.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits, should the Plan be terminated at some future time, will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid, and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guaranty, while other benefits may not be provided for at all.

2. Basis of Accounting

The accompanying financial statements of the Plan have been prepared using the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Most significantly, estimates are used in determining the actuarial present value of accumulated plan benefits and in determining the fair value of investments (see Note 3 for further details). Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's assets are stated at fair value and are included in the Master Trust along with the assets of another pension plan of the Company. Each participating plan has an undivided interest in the Master Trust. The Master Trust assets are allocated among both plans by assigning to each plan those transactions (primarily contributions, benefit payments, and plan-specific expenses) that can be specifically identified and by allocating among both plans, in proportion to each plan's beneficial interest in the Master Trust, income and expenses resulting from the collective investment of the assets of the Master Trust. The Master Trust holds an investment in the Harbor Capital Group Trust for Defined Benefit Plans (Group Trust). The Group Trust is under a separate trust agreement, along with the assets of other third party pension plans. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). See Note 3 for further details.

Earnings of the Group Trust are allocated to each plan based on the relative market values of each plan's net assets. These financial statements reflect the Plan's total interest in the net assets and transactions of the Group Trust as allocated by the trustee and any such other investments and transactions related solely to the Plan. This Group Trust is designed to diversify risk by investing in a variety of asset classes including: cash, domestic and foreign corporate equity and debt issues, government securities and real estate investment trusts.

The Master Trust also holds investments in hedge funds and short-term investments. The hedge funds are multi-strategy hedge funds. The investment objective is to achieve long-term equity-like returns with significantly less volatility than the equity markets. The Master Trust seeks to accomplish this investment objective by investing in a diversified portfolio of hedge funds.

The Committee is responsible for determining the Plan's valuation policies and analyzing information provided by the investment custodians and issuers that is used to determine the fair value of the Plan's investments. In addition, the Committee determines guidelines for the long-term asset allocation of the Master Trust while considering diversification and pension plan liability structure. The diversified asset allocation is intended to maintain an appropriate balance of risk and return.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

3. Fair Value of Investments

Our investment valuation policy is to state the investments at fair value. All investments are valued at their respective net asset value (NAV) as a practical expedient and calculated by the trustee, except for certain hedge fund investments valued at NAV (not as a practical expedient). Valuation techniques and inputs used to measure fair value are as follows:

Short-term investments - valued using NAV as a practical expedient.

Group Trust - valued at the unit prices established by the trustee, also referred to as NAV as a practical expedient. The underlying securities in the Group Trust include real estate funds, equity securities and fixed income investments. The underlying securities in the Group Trust are valued as follows:

Real estate funds - valued based on valuation of the fund as determined by periodic appraisals of the underlying investments owned by the respective fund.

Equity securities - valued at the last reported readily available sales price on their principal exchange on the valuation date or official close for certain markets.

Fixed income investments - valued on a basis of valuations furnished by a trustee-approved pricing service, which determines valuations for normal institutional-size trading units of such securities which are generally recognized at fair value as determined in good faith by the trustee.

Hedge Funds - valued using NAV as a practical expedient by applying estimated month-end NAV and performance numbers provided by the fund administrator.

Restrictions on redemption - The plan is required to provide a month's advance written notice to liquidate its entire share in the Group Trust. Certain investments in the hedge funds can only be liquidated on either a quarterly or semi-annual basis, require advance notification and are subject to audit holdback provisions.

All investments measured at NAV as a practical expedient for fair value have been excluded from the fair value hierarchy, in accordance with U.S. GAAP. The table below presents the Master Trust investments at fair value as of December 31.

	Measured at NAV as a practical expedient	
	2017	2016
Master Trust investments:		
Short-term investments	\$ 8,061,494	\$ 8,766,289
Hedge funds	36,662,933 ⁽¹⁾	48,875,787
Investment in Group Trust:		
Real estate	16,389,909	15,811,697
Equity securities	156,434,011	148,302,085
Debt securities	125,671,236	96,658,111
Total	<u>\$ 343,219,583</u>	<u>\$ 318,413,969</u>

⁽¹⁾ Includes \$9.1 million of hedge funds valued daily at NAV which is considered to be a Level 2 investment in the fair value hierarchy.

See Note 5 for further information as to the Plan's interest in the Master Trust and the Group Trust.

4. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to service rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated vested employees or their beneficiaries and (b) present employees or their beneficiaries.

The Plan's actuary estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of benefit payments (by means of decrements for such factors as death, withdrawal, or early retirement) between the valuation date and the expected date of payment.

The significant assumptions underlying the actuarial valuation (as of and for the years ended December 31, 2016 and 2015) are:

Assumed rate of return	2016 - 7.00% annually 2015 - 7.25% annually
Mortality basis	2016 - RP-2014 Sex Distinct Mortality Table (with generational projection scale MP 2016) 2015 - RP-2014 Sex Distinct Mortality Table (with generational projection scale MP 2015)
Retirement age	Based on company experience varying from ages 55 to 70
Actuarial cost method	Projected unit credit

These actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The accumulated plan benefit information as of December 31, 2016 is as follows:

Actuarial present value of accumulated plan benefits:

Vested benefits:	
Participants currently receiving benefits	\$ 31,463,948
Other participants	33,607,362
Non-vested benefits	728,252
Total	<u>\$ 65,799,562</u>

The non-vested benefits above are attributable to early retirement subsidies for active participants who are assumed to retire early with subsidized retirement benefits.

Changes in the present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits as of December 31, 2015	\$ 66,634,804
Decrease attributable to:	
Actuarial gains	(468,764)
Interest due to decrease in the discount period	4,512,248
Benefits paid	(5,575,354)
Assumption changes	696,628
Net decrease	<u>(835,242)</u>
Actuarial present value of accumulated plan benefits as of December 31, 2016	<u>\$ 65,799,562</u>

5. Investment in Master Trust - Information Certified by Trustee

Certain information related to investments for the Plan and the Master Trust in the accompanying financial statements as of December 31, 2017 and 2016, as well as the Plan's share of net investment gain from the Master Trust for the years then ended, was obtained or derived from information provided to the Plan Administrator. At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 25.7% and 26.4%, respectively.

The following table presents the fair value of the investments for the Master Trust at December 31:

	<u>2017</u>	<u>2016</u>
Master Trust:		
Short-term investments	\$ 8,061,494	\$ 8,766,289
Hedge funds*	36,662,933	48,875,787
Group Trust	298,495,156	260,771,893
Total	<u>\$ 343,219,583</u>	<u>\$ 318,413,969</u>
Plan's value of interest in the Master Trust:		
Short-term investments	\$ 2,069,388	\$ 2,313,457
Hedge funds*	9,411,385	12,898,506
Group Trust	76,623,789	68,818,692
Total	<u>\$ 88,104,562</u>	<u>\$ 84,030,655</u>

* State Street's certification does not apply to these assets. This is a change from the 2016 presentation where the hedge funds should not have been disclosed as being certified as complete and accurate and unaudited.

Investment gain from the Master Trust is as follows for the years ended December 31:

	2017	2016
Net appreciation in fair value of investments*	\$ 47,627,752	\$ 21,625,593
Interest and dividend income*	847,073	42,450
Net investment gain in the Master Trust	<u>\$ 48,474,825</u>	<u>\$ 21,668,043</u>
Plan's share of net appreciation from the Master Trust*	\$ 12,438,631	\$ 5,706,356
Plan's share of interest and dividend income from the Master Trust*	218,029	11,211
Plan's share of net investment gain from the Master Trust	<u>\$ 12,656,660</u>	<u>\$ 5,717,567</u>

* Information was certified as complete and accurate by State Street and is unaudited with the exception of net appreciation and interest and dividend income related to the hedge funds, which was immaterial. This is a change from the 2016 presentation where the income from the hedge funds should not have been disclosed as being certified as complete and accurate and unaudited.

See Note 3 for further information on the fair value measurements of the Plan's investments which is also unaudited except for information related to hedge funds.

Administrative expenses of the Master Trust are as follows for the years ended December 31:

	2017	2016
Administrative expenses of the Master Trust	<u>\$ (879,772)</u>	<u>\$ (694,098)</u>
Plan's share of administrative expenses from the Master Trust	<u>\$ (274,775)</u>	<u>\$ (221,851)</u>

6. Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated February 4, 2014, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and, therefore, the related trust is tax-exempt. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The Plan Administrator believes the Plan operates in compliance with the applicable requirements of the Code and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2014.

In September 2017, the Company filed an application with the IRS for a compliance statement under the IRS's Voluntary Correction Program (VCP), seeking IRS approval of the method in which the Company has corrected or proposed to correct compliance issues it discovered in the administration of the Plan. In June 2018, the IRS approved the VCP application as originally submitted. These issues included incorrect calculations of certain benefits paid in the form of a level income option, incorrect calculations of certain benefits paid in the form of joint and survivor/contingent annuitant options, failure to make required minimum distributions, failure to actuarially adjust certain late retirement pensions for delayed commencement dates, and failure to timely execute a plan amendment within the first 90 days after receipt of the most recent IRS determination letter. The Company took proactive steps to resolve these matters and filed the plan amendment with the IRS. Additionally, the Company corrected benefit payments and notified affected participants of the corrections. The impact of these compliance issues have been reflected in the Plan financial statements.

7. Transactions With Parties in Interest

Certain of the Plan's assets are invested in funds managed by the primary investment manager of the Plan's assets. These transactions qualify as party-in-interest transactions; however, they are exempt from the prohibited transaction rules under ERISA.

8. Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

The Plan's contributions are made and the actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Administrative Expenses

The Plan incurs administrative expenses directly related to the Plan, which consist primarily of PBGC fees, actuarial fees, investment consulting, and system administration, including expenses related to the Master Trust which are allocated to the Plan. Expenses relating to purchases, sales, or transfers of the Plan's investments are charged to the particular investment fund to which the expenses relate and are reflected in the net investment gain from Master Trust. All other administrative expenses are paid by the Company on behalf of the Plan. See Note 5 for the administrative expenses incurred by the Master Trust and the Plan's share of these administrative expenses.

10. Subsequent Events

Management evaluated subsequent events for the Plan through October 1, 2018, the date the financial statements were available to be issued.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

The valuation software used to produce the actuarial information in this report has been changed and such modification may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under IRC §430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS announcement 2010-3.

59	5.00	70	100.00

Benefit commencement date:

- ▶ Preretirement death benefit The later of the death of the active participant or the date the participant would have attained age 55.
- ▶ Deferred vested benefit Age 65.
- ▶ Disability benefit Upon disablement.
- ▶ Retirement benefit Upon termination of employment.

Form of payment

Approximately 90% of eligible participants are assumed to elect a lump sum; remainder are assumed to elect life annuity. Lump sums were valued using the substitution of annuity form under IRS Regulation §1.430(d)-1(f)(4) without application of generational mortality.

Annuities were calculated from the cash balance accounts using the required methodology in IRS Regulation §1.430(d)-1(f)(5).

Percent married

80% of participants.

Spouse age

Wife three years younger than husband.

Covered pay

N/A

Administrative expenses

Target normal cost loaded with prior year expenses, adjusted according to expectations.

Timing of benefit payments

Annuity payments are payable monthly at the beginning of the month and lump sum payments are payable on date of decrement.

Methods

Valuation date	First day of plan year.
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during plan year plus plan-related expenses expected to be paid from plan assets during plan year as required by regulations under IRC §430.
Actuarial value of assets	<p>Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of fair value, including discounted contributions receivable (discounted using the effective interest rate for the 2016 plan year).</p> <p>The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a bias to produce an actuarial value of assets that is below the market value of assets.</p>
Benefits not valued	Benefits for participants who have terminated without vested rights, but may be rehired, were not valued. The preretirement survivor annuity for terminated vested participants was not explicitly valued. The enhanced retirement benefit was not valued.

Assumptions Rationale - Significant Economic Assumptions for Contributions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Expected return on plan assets	We understand that the expected return on assets assumption reflects the plan sponsor's estimate of future experience for trust asset returns, reflecting the plan's current asset allocation and any expected changes during the current plan year, current market conditions and the plan sponsor's expectations for future market conditions. In addition, this assumption is net of investment and administrative expenses paid from the trust.
Cash balance interest crediting rate	The plan credits interest to cash balance accounts using the greater of the 30-year Treasury rate and 5%. The plan sponsor has selected an expected future interest crediting rate of 5.50% for 2017. After examining historical variability in this rate, we believe that the selected assumption does not significantly conflict with what would be reasonable based on a combination of market conditions at the measurement date and future expectations consistent with other economic assumptions used, other than the discount rate.
Lump sum conversion rate	As required by IRC §430, lump sum benefits are valued using "annuity substitution", so that the interest rates assumed are effectively the same as described above for the discount rate.

Annuity conversion rate	As required by IRC §430, annuity benefits are valued by converting accounts to annuities using the current IRC §430 interest rates, so that the interest rates assumed are effectively the same as described above for the discount rate.
Administrative expenses	Administrative expenses are estimated by determining the actual expenses paid from the trust the preceding year for the pension plans, adjusted according to expectations.

Assumptions Rationale - Significant Demographic Assumptions

Healthy Mortality	Assumptions were selected by the plan sponsor from among choices prescribed by law and represent a best estimate of future experience.
Disabled Mortality	Assumptions were selected by the plan sponsor from among choices prescribed by law and represent a best estimate of future experience.
Termination	This assumption was selected based on the plan sponsor's best estimate of future experience. In addition, this assumption has not been a significant source of actuarial gain/loss in recent years.
Disability	This assumption was selected based on the plan sponsor's best estimate of future experience. In addition, this assumption has not been a significant source of actuarial gain/loss in recent years.
Retirement	This assumption was selected based on the plan sponsor's best estimate of future experience. In addition, this assumption has not been a significant source of actuarial gain/loss in recent years.

Source of Prescribed Methods

Funding methods	The methods used for funding purposes as described in this attachment, including the method of determining plan assets, are "prescribed methods set by law", as defined in the actuarial standards of practice (ASOPs). These methods are required by IRC §430, or were selected by the plan sponsor from a range of methods permitted by IRC §430.
-----------------	---

Changes in Assumptions and Methods

Change in assumptions since prior valuation	<p>The funding interest rate basis was changed from the segment interest rates as of September 2015 to the segment interest rates as of September 2016.</p> <p>The required mortality table used to calculate the funding target was updated to include one additional year of projected mortality improvements.</p>
Change in methods since prior valuation	<p>The valuation software used to produce the actuarial information in this report has been changed and such modification may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under IRC §430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS announcement 2010-3.</p>

Immediate cash balance account annuity Annual amount of retirement income calculated as:
 (a) Cash Balance Account divided by
 (b) Immediate annuity factor for one dollar of annual benefit under a life annuity option, based on actuarial assumptions in Appendix A of the plan document and age at pension starting date.

Deferred cash balance account annuity Projected annual amount that would be payable on NRD determined by:
 (a) Current Cash Balance Account projected at interest rate equal to Interest Credit compounded annually for number of years and months to NRD divided by
 (b) Immediate annuity factor for one dollar of annual benefit under a life annuity option, based on actuarial assumptions in Appendix A of the plan document at Normal Retirement Age.

Pension benefit	Greater of:
	(a) Immediate Cash Balance Account Annuity
	or
	(b) Minimum Accrued Benefit (set forth below)

Eligibility for Benefits

Normal retirement	Retirement on NRD.
Early retirement	Retirement before NRD and on or after both attaining age 55 and completing three years of vesting service.
Postponed retirement	Retirement after NRD.
Deferred vested retirement	Termination for reasons other than death, disability or retirement after completing three years of vesting service.
Preretirement death	Death while vested and prior to receive a retirement benefit. Benefit may be paid to spouse or other beneficiary.

Benefits Paid Upon the Following Events

Normal retirement	Pension benefit as of NRD.
Early retirement	Pension benefit as of early retirement date.
Postponed retirement	Pension benefit as of postponed retirement date.
Deferred vested termination	Pension benefit as of early retirement date or later.
Preretirement death	Pension benefit as of death date payable as immediate annuity or lump sum (a surviving spouse may choose to defer payment). Benefit to spouse shall not be less than actuarial equivalent of 50% joint and survivor annuity amount.
Payment forms	Single life, 50%, 75% or 100% Joint and Survivor, Lump Sum, Level Income Payment forms are calculated using conversion factors assuming the 1983 Group Annuity Mortality Unisex table for both the participant and the beneficiary and 7.00% interest. Spousal consent is required if a married participant chooses any option other than joint and survivor annuity.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective.

Minimum Accrued Benefit

Eligible employees	<ul style="list-style-type: none">▶ Libbey Glass Inc. employee at December 31, 1997.▶ As of December 31, 1997:<ul style="list-style-type: none">– Age 45– Ten or more years of Service– Combined age and years of Service equal 65 or more.
