1. PLAN DESCRIPTION

The following description of the Power & Construction Group, Inc. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Power & Construction Group, Inc. (P&CG), KBH Environmental, LLC, and Valley Sand and Gravel, Inc. (collectively, the Company). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration

P&CG is the administrator of the Plan. The president of P&CG is the trustee of the Plan, and John Hancock Life Insurance Company of New York (John Hancock) serves as the custodian to the Plan. Northeast Benefits Services, Inc. (Northeast) is the Plan's third-party administrator and provides record-keeping services for the Plan.

Eligibility

Employees of the Company are eligible to participate in the Plan upon the attainment of 21 years of age and completion of one year of service (1,000 hours, as defined in the Plan document), who are not party to a collective bargaining agreement and who are not non-resident aliens. Contributions begin on the first day of the quarter following completion of each of these eligibility requirements. Eligibility for any of the Company's discretionary matching contributions requires the participant to be employed on the last day of the Plan year.

Contributions

Participants may make voluntary tax-deferred contributions in the form of salary reductions, subject to certain limitations of the Plan and the Internal Revenue Code (IRC). The Company makes discretionary matching contributions on behalf of the Plan's participants. The Company elected to match 25% of employee contributions up to the first 4% of their eligible compensation for the Plan years ended December 31, 2017 and 2016. The Company made discretionary contributions of $85,097 and $75,668 during the years ended December 31, 2017 and 2016, respectively. During 2017 and 2016, the Company calculated $52,873 and $46,339, respectively, of corrective contributions to adjust prior contributions to be in accordance with the Plan agreement, as more fully described in Note 8. Participants may direct the investment of their contributions and the Company's contributions into various investment options offered by the Plan.

The Plan includes an automatic enrollment provision. Newly eligible employees who have otherwise not affirmatively opted out of enrolling in the Plan are automatically enrolled. Employees enrolled as a result of this provision defer 3% of their compensation to the Plan.

1. PLAN DESCRIPTION (Continued)

Participant Accounts

Participants direct the investment of their contributions and the Company's discretionary matching contributions into the various investment options offered by the Plan. Participant accounts are credited participant contributions, the Company's discretionary matching contributions, and actual earnings and losses thereon. Plan expenses are allocated based on participant account balances, according to specific terms provided by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in all employee contributions and actual earnings and losses thereon. Participants become 20% vested in the Company's contributions after two years of service and vest ratably over the ensuing four years, becoming 100% vested in such contributions after six years of service.

Benefit Payments

The Plan provides for benefit payments upon termination of service due to death, disability or attainment of retirement age. Participants may elect disbursement of their vested account balance in either a lump-sum amount, in installments, or direct rollover into an individual retirement account or another qualified plan. The normal retirement age is the date a participant reaches the age of 65. Actively-employed participants that have reached the age of 60 may elect to receive in-service distributions. The Plan requires in-service distributions to actively-employed participants that have reached the age of 70 ½.

Benefit payments from the Plan will be made in a lump sum distribution if the balance is less than $1,000 and the participant does not direct the Plan otherwise.

Hardship Withdrawals

Hardship withdrawals from the Plan are permitted from a participant's account under certain circumstances. All hardship withdrawals must comply with the rules relating to hardships, which are uniformly applicable to all participants.

Notes Receivable from Participants

Participants may borrow up to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from one to five years, unless they are used to purchase a primary residence, in which case repayment may be made over a reasonable period of time that may exceed five years. The loans are secured by the balance in the participant's account and bear interest at the prime rate plus 2% per annum. Principal and interest are paid ratably through payroll deductions.

Administration Expenses

The Plan pays certain administrative expenses associated with the administration of the Plan. Certain administrative expenses are paid by the Company.

Forfeitures

Forfeitures of non-vested account balances are used to reduce the Company's matching contributions or pay Plan expenses. Forfeited non-vested accounts totaled $1,897 and $1,322 at December 31, 2017 and 2016, respectively. The Company did not apply any forfeitures toward Company matching contributions or Plan expenses during 2017 and 2016.

1. PLAN DESCRIPTION (Continued)

Plan Termination

Although the Company has not expressed any intent to do so, the Company has the right to terminate the Plan at any time, subject to the provisions of ERISA. In the event of Plan termination, all participant accounts would become fully vested.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America.

Cash

The Plan maintains its cash in bank demand deposit accounts. At times, the amounts in the bank demand deposit accounts may exceed federally insured limits. The Plan has not experienced any losses in these accounts and believes it is not exposed to any significant credit risk with respect to cash.

Investments and Income Recognition

Investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Investments are exposed to various risks, such as interest rate and market risk. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in the value of investments, it is at least reasonably possible that changes in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Fair Value Measurements – Definition and Hierarchy

The Plan uses various valuation techniques in determining fair value. Financial Accounting Standards Board Accounting Standards Codification 820 (ASC 820) establishes a hierarchy for inputs used in measuring fair value that maximizes the use of observable inputs and minimizes the use of unobservable inputs by requiring that the observable inputs be used when available. The hierarchy is broken down into three levels based on the reliability of inputs as follows:

- Level 1 – Valuations based on quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

- Level 2 – Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, directly or indirectly.

- Level 3 – Valuations based on inputs that are unobservable and significant to the overall fair value measurement.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fair Value Measurements – Definition and Hierarchy (Continued)
A description of where the Plan's investments fall within the hierarchy is presented in Note 4.

In certain cases, the inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy is determined based on the least reliable input that is significant to the fair value measurement.

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. As of December 31, 2017 and 2016, no allowance for credit losses has been recorded. If a participant does not make loan repayments and the plan administrator considers the participant loan to be in default, the loan balance is reduced, and the delinquent participant note receivable is recorded as a benefit payment based on the terms of the Plan document.

Benefit Payments
Benefit payments are recorded when paid.

Estimates
The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. CERTIFIED INVESTMENT INFORMATION

The following information was certified as complete and accurate by the custodian of the Plan's assets as of and for the years ended December 31:

	2017	2016
Cash	$ 1,897	$ 1,322
Investments, at fair value	$ 4,983,493	$ 4,026,295
Notes receivable from participants	$ 140,798	$ 59,985
Investment income	$ 739,507	$ 261,511
Interest on notes receivable from participants	$ 5,012	$ 2,884
Schedule of assets (held at end of year)	Schedule I	

4. FAIR VALUE MEASUREMENTS

The Plan's assets at fair value, within the fair value hierarchy, are as follows at December 31:

2017	Level 1	Level 2	Level 3	Total
Guaranteed interest accounts	$ -	$ 73,221	$ -	$ 73,221
Investments, at net asset value				4,910,272
Total investments				$ 4,983,493

2016	Level 1	Level 2	Level 3	Total
Guaranteed interest accounts	$ -	$ 66,016	$ -	$ 66,016
Investments, at net asset value				3,960,279
Total investments				$ 4,026,295

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodology used at December 31, 2017 and 2016.

Pooled Separate Accounts: valued at net asset value per share practical expedient, which is based on quoted market prices of the underlying investments using a market approach.

Guaranteed Interest Accounts: valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

Investment in Entities that Calculate Net Asset Value
The Plan is invested in pooled separate accounts that calculate net asset value on a daily basis. Units are issued and redeemed as of the end of each day at the daily net asset value.

The Plan's investments in pooled separate accounts are invested in global and domestic equity and fixed income based investments. The net asset value of these investments is derived from the market value of the underlying investments. The net asset value of the funds are then calculated and reported by John Hancock each day. Pooled separate account units may be redeemed on a daily basis to meet benefit payments and other participant-initiated withdrawals permitted by retirement plans invested in the pooled separate accounts, however, participants are limited to a maximum of two redemptions of a pooled separate account per month. The Plan's investments in pooled separate accounts do not have any unfunded commitments.

The methods described above may produce fair value calculations that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. INCOME TAX STATUS

The Plan uses a prototype plan document developed by Northeast. Northeast received an opinion letter from the Internal Revenue Service (IRS) dated December 6, 2014, which states that the prototype document satisfies the applicable provisions of the IRC. The Plan itself has not received a determination letter from the IRS. However, the Plan's management and tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the accompanying financial statements.

6. PARTY-IN-INTEREST TRANSACTIONS

John Hancock is the custodian of the Plan assets. As such, transactions involving John Hancock and the Plan qualify as party-in-interest transactions. Additionally, transactions involving notes receivable from participants qualify as party-in-interest transactions.

7. RECONCILIATION TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to net assets available for benefits per Form 5500 at December 31:

	2017	2016

7. RECONCILIATION TO FORM 5500 (Continued)

The following table provides a reconciliation of the change in net assets available for benefits per the financial statements to Form 5500 for the years ended December 31:

Change in guaranteed interest account recorded at contract value per Form 5500	(1,773)	1,530
Change in corrective employer contributions receivable in the current year	46,333	-

Change in corrective employer contributions receivable in the previous year	-	(3,622)
Change in net assets available for benefits per Form 5500	$ 1,109,447	$ 824,992

8. VOLUNTARY CORRECTION PROGRAM

During October 2015, the Plan Administrator discovered that in certain instances the determination of compensation was not in accordance with the Plan document during the 2010 through 2014 Plan years. This resulted in incorrect contributions being made by certain participants. In its application utilizing the Department of Labor's Voluntary Correction Program (VCP), the Plan Administrator calculated the corrective adjustment, including lost earnings, to be $52,873 and $46,339 as of December 31, 2017 and 2016, respectively. Accordingly, the amounts have been reflected as a component of the employer contributions receivable in the accompanying statements of net assets available for benefits at both December 31, 2017 and 2016. Effective April 5, 2018, the Plan received a compliance statement from the IRS approving of the Plan's corrective methods and revised administrative procedures. On August 30, 2018, the Plan Administrator remitted $52,873 to the Plan under the VCP.

9. SUBSEQUENT EVENTS

Subsequent events have been evaluated through October 4, 2018, which is the date the financial statements were available to be issued.
