G.S. WIRING SYSTEMS, INC. SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following brief description of *G.S. Wiring Systems, Inc. Savings Plan* (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

Description of the Plan

General

The Plan is a defined contribution plan established on July 1, 1992, and amended from time to time thereafter, for the benefit of eligible employees of *G.S. Wiring Systems, Inc.* (the "Company"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year participants may make elective deferral contributions to the Plan, subject to annual limitations pursuant to the Internal Revenue Code. Participants may also contribute amounts representing rollovers from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan includes an auto-enrollment provision, whereby all newly eligible employees are automatically enrolled in the Plan on the employee's date of hire and will be eligible for the employer matching contribution. The amount of the automatic deferral is 3% of the participant's compensation from each payroll period. The participant may enter into a salary deferral agreement at any time to select an alternative deferral amount or to elect not to contribute to the Plan.

The Company may contribute to each eligible participant's account a discretionary matching contribution subject to certain limitations. For the years ended December 31, 2017 and 2016, the Company elected to match 50% of the first 5% of each participant's deferral contribution. In addition, the Company may make an annual discretionary profit sharing contribution in an amount determined by the Board of Directors. There were no discretionary profit sharing contributions in 2017 or 2016. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's matching contribution (when made) and an allocation of (a) the Company's profit sharing contribution (when made) (b) Plan earnings (losses) and (c) charged with an allocation of administration expenses, if any. Participants who initiate a loan or benefit payment are charged a fee for that transaction. Allocations are based on participant compensation, account balances or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

G.S. WIRING SYSTEMS, INC. SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company matching and profit sharing contributions is based on years of continuous service. Participants vest at 20% for each year of credited service, becoming 100% vested after five years of credited service.

Notes Receivable from Participants

Participants may borrow from their accounts, subject to certain conditions and limitations specified by the Plan. Notes receivable are repaid on a bi-weekly or more frequent basis, including interest over a period not to exceed five years, unless the loan is for the purchase of a primary residence in which case the term can exceed five years. The notes receivable are secured by the balance in the participant's account and bear interest at 5.25% to 6.25%, which is commensurate with local prevailing rates at the time the notes are issued, as determined by the Plan Administrator. Repayments of notes, including the interest portion thereof, are reinvested on the participants' behalf in accordance with their then current choice of investment fund options.

The Plan was amended and restated effective February 1, 2017. The Plan was amended to allow for participants to have two loans outstanding at a time.

Payment of Benefits

Upon retirement, or death or disability if earlier, or termination in the case of vested benefits, the account balance will be distributed to the participant or participant's beneficiary in a lump sum. Further, the Plan Administrator may permit a participant who experiences a qualified financial hardship, as defined, to receive a lump-sum distribution of a portion of the participant's account balance.

Termination of Plan

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

Forfeited Accounts

Forfeited non-vested accounts are used to reduce future employer contributions or reduce expenses of the Plan that are paid by the Company. The Plan must reinstate the participant's non-vested account balance if the participant is re-employed prior to five consecutive one-year service breaks. At December 31, 2017 and 2016, forfeited non-vested accounts totaled approximately \$1,220 and \$510, respectively. In 2017 and 2016, the Company used forfeitures of approximately \$16,200 and \$5,850, respectively, to reduce its employer contributions.

G.S. WIRING SYSTEMS, INC. SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Administrative Expenses

The Plan's administrative expenses are paid either by the Plan or the Company, as provided by the Plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Transaction fees charged by the record keeper are paid by the Plan. Participants are charged directly for loan fees and fees related to certain distribution types.

Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for Plan benefits during the reporting year. Accordingly, actual results could differ from those estimates

Investment Valuation and Income Recognition

Investments are recorded at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation (depreciation) in fair value of investments includes the Plan's aggregate gains and losses on investments bought and sold as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in mutual funds, pooled separate accounts and a common collective trust are deducted from income earned on a daily basis and are not separately reflected. Consequently, such management fees and operating expenses are reflected as a reduction of net appreciation or an addition to net depreciation in the fair value of such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the Plan Administrator deems the note receivable to be in default, the participant note receivable is reduced and a benefit payment is recorded.

G.S. WIRING SYSTEMS, INC. SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

Contributions

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become obligations of the Company.

Benefits Paid to Participants

Benefit payments to participants are recorded when paid.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2017, the most recent statement of net assets available for benefits presented herein, through October 2, 2018, the date these financial statements were available to be issued. No such significant events or transactions were identified.

2. TAX STATUS

The Company's Board of Directors adopted by the Principal Financial Group Prototype for Savings Plan document. The prototype plan document has received an opinion letter from the Internal Revenue Service dated March 31, 2014, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan's Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, that the Plan is qualified and the related trust is tax exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

3. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee and Trust Company, doing business as Principal Trust Company, and Principal Life Insurance Company ("Principal"), as custodian, has certified the completeness and accuracy of the investment information reflected in (1) the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, (2) the December 31, 2017 schedule of assets (held at end of year), and (3) the related investment activity reflected in the statements of changes in net assets available for benefits during 2017 and 2016. Principal has also certified the completeness and accuracy of notes receivable from participants and the related interest income as of and for the years ended December 31, 2017 and 2016.

G.S. WIRING SYSTEMS, INC. SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

4. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value at the reporting date.

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are used only when Level 1 or Level 2 inputs are not available.

The following is a description of the valuation methodologies used for assets measured at fair value.

Mutual funds: Shares held in mutual funds are valued at quoted market prices that represent the net asset value ("NAV") of shares held by the Plan at year end and are classified as Level 1. The NAV is based on the value of the underlying assets owned by the fund, less its liabilities, then divided by the number of shares outstanding. Mutual funds held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily NAV and to transact at that price and, therefore, are deemed to be actively traded.

Pooled separate accounts: These investments are valued using the NAV of units held by the Plan at year-end as provided by the insurance company and are not assigned a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the account, net of investment management fees. The practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV.

Common collective trust: This investment is valued at the NAV of units of a collective trust and are not assigned a level in the fair value hierarchy. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The NAV would not be used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV. If the Plan initiates a full redemption of the collective trust, the issuer reserves the right to require a 12 month notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

G.S. WIRING SYSTEMS, INC. SAVINGS PLAN

Total investments, at fair value	<u>\$1,300,870</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 3,689,110</u>	<u>\$ 4,989,980</u>

(1) Certain investments are measured at NAV per share (or its equivalent) on a market that is not active and have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. Plan management evaluates the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. There were no transfers of assets between levels for the years ended December 31, 2017 and 2016.

The following tables set forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

2017				
Investment Type	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are managed by Principal. Principal is the custodian of the Plan and, therefore, transactions related to these investments qualify as party-in-interest. Fees paid by the Plan for investment management services are included in net appreciation/(depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

6. RISKS AND UNCERTAINTIES

The Plan invests in various mutual funds, pooled separate accounts and a common collective trust with the underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the fair values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.
