Beech Brook Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of Plan

The following description of Beech Brook Retirement Savings Plan provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General: The Plan, a participant-directed defined contribution plan, was established January 1, 2000 and covers substantially all employees of Beech Brook (the Company and plan sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Eligibility: Employees are eligible to participate in the Plan on the entry date following completion of 90 days of service. As of June 1, 2015, this requirement changed to 3 months of service. The entry date is the first day of each calendar quarter following the date on which he or she has met the eligibility requirements.

Contributions: Participants may elect to make voluntary pre-tax contributions of their compensation subject to certain limitations of the Plan and the Internal Revenue Code (the Code). Effective June 1, 2015, Roth contributions were added as an allowable type of elective deferral. Contributions must be in 1% increments or a fixed dollar amount. Participants who have attained age 50 before the end of the Plan year are eligible to contribute additional catch-up contributions as defined by the Code. In addition, participants may contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Plan includes an "Automatic Election" by which employees who do not complete a salary reduction agreement form are automatically enrolled in the Plan with a 3% pre-tax deferral as of the first Plan entrance date upon meeting eligibility requirements. Effective June 1, 2015, the Plan agreement was amended to include an automatic deferral increase feature, whereby all participant deferral percentage elections are increased by 1% on May 7th of each year, up to a maximum deferral rate of 6% unless participants opt out of the deferral increase program.

The Company may from time to time, at its discretion, make contributions equal to a fixed percentage of each participant's eligible compensation or as a matched percentage of each participant's elective salary deferral. Only participants who have met the Plan's eligibility requirements to participate in the Plan and are actively employed on the day on which the contribution is made will be eligible to share in the Company discretionary contributions. There were no discretionary contributions made for the periods ended December 31, 2017 and 2016.

Contributory participants also receive matching contributions equal to 33% of their salary deferrals, up to 6%, provided they are employed by the Company on the last day of the plan year.

Participant accounts: Each participant's account is credited with an allocation of (a) his or her elective deferral, (b) the Company's contributions, if applicable, (c) Plan earnings and (d) an allocation of administrative expenses, if any. The benefit to which a participant is entitled is the benefit that can be provided from his or her vested account.

Vesting: A participant has a 100% non-forfeitable vested interest in his or her contributions and earnings thereon. Vesting in the participant's portion of Company contributions is based on years of credited service commencing on the participant's employment date and each anniversary date thereafter.

Beech Brook Retirement Savings Plan

Notes to Financial Statements

Note 1. Description of Plan (Continued)

Participants who complete an hour of service under the Plan beginning after December 31, 2001 and participants who have a termination date on or after January 1, 2007, will be vested in the Company matching contributions and Company discretionary contribution as follows: 20% vested after two years of service, 40% vested after three years of service, 65% vested after four years of service and 100% vested after five years of credited service. Participants who terminated from service with the Company prior to January 1, 2007 will be vested in the matching contributions and Company discretionary contributions as follows: 30% vested after three years of service, 65% vested after four years of service and 100% vested after five years of credited service.

Notes receivable from participants: The Plan permits limited borrowing by a participant against the value of his or her account. The loan must be a minimum of \$1,000 and up to a maximum of \$50,000 or 50% of a participant's vested account balance under the Plan, whichever is lower, determined immediately at origination of the loan. Any loan granted or renewed under this program shall bear a reasonable interest rate, as determined by the Plan Administrator and is secured by the participant's account. The maximum payment term is generally five years. All expenses associated with the establishment and administration of the loan will be paid by, or charged to, the participant's account. Principal and interest is paid ratably through payroll deduction.

Forfeitures: Forfeitures can be used to pay administrative expenses, reduce employer contributions and restore forfeited accounts. At December 31, 2017 and 2016, forfeited nonvested accounts totaled approximately \$16,779 and \$44,478, respectively. Forfeitures of approximately \$10,700 and \$12,200 were used to reduce employer contributions receivable for the years ended December 31, 2017 and 2016, respectively.

Funding policy: The employer's funding policy is to make the participants' salary deferral contributions to the Plan as soon as administratively feasible. All employer contributions are discretionary and may be made annually or more frequently, at the Company's discretion.

Payment of benefits: Benefits are paid in a lump sum as soon as administratively feasible following a participant's termination or the approval of a permitted financial hardship withdrawal. The Plan provides for the immediate payout of a participant's separate account upon retirement, death, or other termination unless the balance of the account exceeds \$5,000 and the participant has not attained age 65, in which instance, payout will not occur without the participant and their spouses, if applicable, written consent.

Plan termination: Although they have not expressed intent to do so, the Company has the right, at any time, to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Beech Brook Retirement Savings Plan

Notes to Financial Statements

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Administrative expenses: All expenses of the Plan are paid by the Plan or by the Company, at the Company's option.

Benefit payments: Benefits are recorded when paid.

Risks and uncertainties: The Plan holds various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent events: The Plan has evaluated subsequent events for potential recognition and/or disclosure through September 27, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by the Charles Schwab Bank

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016 and for the years then ended, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

Note 4. Fair Value Measurements

Accounting standards established a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy under accounting standards are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Note 4. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Self-directed brokerage account: Valued at the closing price reported on the active market on which the individual securities are traded.

Money market account: Valued at cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets measured at fair value at December 31:

	2017			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 10,113,226	\$ -	\$ -	\$ 10,113,226
Self-directed brokerage accounts	163,798	-	-	163,798
Money market account	305,859	-	-	305,859
Total assets in fair value hierarchy	\$ 10,582,883	\$ -	\$ -	\$ 10,582,883

	2016			
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 9,713,265	\$ -	\$ -	\$ 9,713,265
Self-directed brokerage accounts	140,007	-	-	140,007
Money market account	359,413	-	-	359,413
Total assets in fair value hierarchy	\$ 10,212,685	\$ -	\$ -	\$ 10,212,685

To assess the appropriate classification of assets within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of assets from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Company evaluates the significance of transfers between levels based upon the nature of the asset and size of the transfer relative to total net assets available for benefits. For the years ended December 31, 2017 and 2016, there were no transfers in or out of Levels 1, 2, or 3.

Note 5. Tax Status

Effective June 1, 2015, the Plan adopted a non-standard form of a prototype plan sponsored by Schwab Retirement Plan Services, Inc. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. As of December 31, 2017 and 2016, management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the financial statements.
