BHP NEW MEXICO COAL 401K PERSONAL SAVINGS PLAN
Notes to Financial Statements
December 29, 2017 and December 31, 2016

1. Description of Plan

The following description of the BHP New Mexico Coal 401K Personal Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that was established effective December 1, 1998, under Sections 401(k) and 401(a) of the Internal Revenue Code (IRC) of 1986, as amended. The Plan is sponsored by BHP Billiton New Mexico Coal Inc. (the Company) and covers hourly employees of the Company and all members of its controlled group, which includes San Juan Transportation Company, BHP Billiton Mine Management Company and San Juan Coal Company, (collectively "Affiliated Group"), who are subject to a collective bargaining agreement between the Company and the International Union of Operating Engineers, Local No. 953 (Union). The Plan does not have an age or service requirement to participate in the Plan.

Effective February 1, 2016, San Juan Coal Company and San Juan Transportation Company (collectively "San Juan Companies") were sold to Westmoreland Coal Company and the Plan was amended to remove the San Juan Companies as members of the Affiliated Group. Plan assets of participants employed by the San Juan Companies were transferred out of the Plan during 2016.

Effective December 31, 2016, the BHP Billiton Mine Management Company was sold to the Navajo Transitional Energy Company, LLC, and the Plan was amended to remove the BHP Billiton Mine Management Company as a member of the Affiliated Group. As a result of the transaction, the Plan experienced a partial termination and as such the Plan was amended to fully vest any impacted participants. The Plan was amended to clarify that a participant may elect to roll over an outstanding loan as part of an eligible rollover distribution from the Plan to an eligible retirement Plan.

The Plan was most recently amended and restated January 1, 2013 to revise certain Plan provisions. The Plan is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Effective December 29, 2017, the Plan was merged into the BHP Retirement Savings Plan. Assets of \$10,535,724 were transferred out of the Plan and into the BHP Retirement Savings Plan at the end of the calendar day on December 29, 2017.

Administration

Vanguard Fiduciary Trust Company (Trustee) serves as trustee for the Plan, and Vanguard Group, Inc. serves as recordkeeper for the Plan. The Company serves as the Plan administrator. Certain duties, on behalf of the Plan's sponsor, are carried out by the BHP USA Retirement Advisory Committee.

Contributions

All new employees are automatically enrolled in the Plan based on a pre-tax contribution rate of 6% unless the employee elects to waive immediate automatic enrollment.

Each year, participants may make pre-tax and/or Roth contributions to the Plan through payroll withholding of any whole percentage up to 50% of his or her base pay and/or any whole percentage up to 100% of his or her bonus pay, not to exceed the limitation (\$18,000 in both in 2017 and 2016) set forth in Section 402(g) of the IRC. Each participant may also elect to make after-tax contributions to the Plan equal to any whole percentage up to 44% of his or her base pay if his or her pre-tax and Roth contributions continue at a rate not less than 6% of base pay. The total of pre-tax, Roth, and after-tax contributions may not exceed 50% of base pay.

1. Description of Plan, continued

Contributions, continued

Participants may make catch-up contributions (pre-tax contributions that exceed the annual elective deferral limit) during any calendar year ending on or after the participant's 50th birthday. A participant's total catch-up contribution was limited to a maximum of \$6,000 in both 2017 and 2016. Such catch-up contributions are also eligible for matching. Participants may also make rollover contributions from other qualified plans.

Company Matching Contributions are made on behalf of all participants who are production or maintenance employees of the San Juan Coal Company Underground Mine (Underground Operations) and on behalf of participants who are employed in BHP's surface mining operations (Surface Operations), in an amount equal to the lesser of 4.5% of the total of base pay and bonus pay and 75% of pre-tax deferrals for the year. Catch-up contributions are subject to the same matching provisions. Total Company Matching Contributions amounted to \$12,759 and \$696,760 in 2017 and 2016, respectively.

The Company shall also make an Employer Funded Contribution to the Plan on behalf of all eligible participants who are not participants of the Company's defined benefit plans. Eligible participants of Surface Operations are those who are first employed, rehired or transferred to Surface Operations after June 30, 2004. Effective January 1, 2005, eligible Surface Operations participants include employees who made a one-time election to receive the Employer Funded Contribution in lieu of participation in the Navajo Mine Retirement Plan, a defined benefit plan formerly sponsored by the Company. Eligible participants of Underground Operations are those who were hired after May 1, 2006, or who made a one-time election, for service after May 1, 2006, to receive the Employer Funded Contribution in lieu of participation in the Navajo Mine Retirement Plan. The Company shall make an Employer Funded Contribution of \$3,500 and \$3,000 per year, pro-rated weekly, for each eligible participant of the Surface Operations and Underground Operations, respectively. Total Employer Funded Contributions for both groups amounted to \$6,798 and \$404,501 in 2017 and 2016, respectively.

Participant Accounts

Each participant's account is credited with the participant's contributions, the Company Matching and Employer Funded Contributions, and an allocation of investment income (loss), net of administrative expenses. Investment income (loss) allocations are based on the performance of the funds in which the participant has directed his or her accounts to be invested. Upon the occurrence of a distributable event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's vested balance in his or her account.

Investment Options

The Plan offers mutual funds and a common collective trust fund as investment options to participants. Participants may change their investment options at any time.

Vesting

Participants are vested immediately in their contributions and Company Matching Contributions, plus earnings thereon. Each participant who is an employee of Surface Operations will vest in their Employer Funded Contributions upon completion of six months of vesting service or attainment of age 65 as an employee, whichever occurs first. All other participants vest in his or her Employer Funded Contribution account (if any) upon completion of three years of vesting service or attainment of age 65 as an employee, whichever occurs first.

1. Description of Plan, continued

Forfeitures

All Employer Funded Contributions credited to a participant's account, but not vested, are forfeited by the participant upon distribution of the full vested value of his or her account (or his or her designated beneficiary in the event of death). Forfeitures are applied (i) first to reinstate any Plan benefits that are required to be reinstated, (ii) any remaining forfeitures are used to pay administrative expenses of the Plan, and (iii) thereafter, to offset future employer contributions. At December 29, 2017 and December 31, 2016, forfeited non-vested amounts available totaled \$0 and \$37,189, respectively. Forfeited amounts of \$45,105 were used to pay administrative expenses during 2017. Forfeited amounts of \$18,015 and \$2,768 were used to pay administrative expenses and to offset employer contributions, respectively, during 2016.

In-Service Withdrawals

A participant may take an in-service withdrawal of all or any portion of the balance in his or her after-tax account, rollover account and/or Roth rollover accounts; provided that the amounts from the Roth rollover account satisfy the five-year holding period and age requirement for Roth contributions.

Notes Receivable from Participants

Participants may borrow from the vested portions of their account balances a minimum of \$1,000 up to a maximum equal to the lesser of 1) 50% of the participant's vested account balance, 2) 100% of the participant's pre-tax, after-tax and rollover accounts, or 3) \$50,000, reduced by the excess of the highest outstanding balance of loans during the 12-month period ending on the day before the date the loan is made. Loan terms range from 6 months to 5 years unless used for the purchase of a primary residence, which cannot exceed 10 years. Only one loan may be outstanding at any time. The loans are secured by a portion of the participant's vested account balance, not to exceed 50%, and bear interest at a fixed rate equal to one percentage point above the published prime rate at the date of the loan. Notes receivable from participants as of December 29, 2017 and December 31, 2016 was \$0 and \$2,124,154, respectively, and bore interest rates ranging from 4.25% to 9.25% per year during the period from January 1, 2017 through December 29, 2017 and the year ended December 31, 2016. Principal and interest were paid ratably through payroll deductions.

Payment of Benefits

Upon retirement or other termination of employment, the participant (or his or her beneficiary in the event of death) will receive the value of the vested balance in his or her account according to the following four distribution options: (i) a single, lump-sum distribution in cash, (ii) two or more installments over such period of time as the participant or beneficiary elects, but not extending beyond the life expectancy of the participant and his or her surviving spouse or designated beneficiary, (iii) two or more partial withdrawals at the election of the participant or beneficiary, or (iv) a combination of the methods specified in (i), (ii) and (iii). If a participant's account balance is greater than \$5,000, the participant is paid at any time following termination upon request of the participant, as long as distribution occurs by April 1 of the calendar year following the year in which the participant turns 70 1/2 years of age or retires, whichever occurs later. If the participant's vested balance is between \$1,000 and \$4,999, the Trustee will roll the account balance into an Individual Retirement Account in the participant's name. For balances less than \$1,000, the Trustee will make a lump-sum distribution as soon as practicable.

1. Description of Plan, continued

Administrative Expenses

Fees related to the administration of notes receivable from participants are charged directly to the participant's account. Investment related expenses are included in net appreciation (depreciation) of fair value of investments. Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

Expense Offset Arrangements

Fees incurred for the investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Use of Estimates

The preparation of financial statements in accordance with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold during the year as well as on investments held at the end of the year.

Benefit Payments

Benefits are recorded when paid.

2. Summary of Significant Accounting Policies, continued

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is accrued as earned. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the Plan document.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. ASU No. 2015-07 applies to reporting entities that elect to measure the fair value of an investment using the net asset value (NAV) per share (or its equivalent) as a practical expedient. Under the amendments in this update, investments for which fair value is measured using NAV per share (or its equivalent) as the practical expedient should not be categorized in the fair value hierarchy. Removing those investments from the fair value hierarchy not only eliminates the diversity in practice resulting from the way in which investments measured at NAV per share (or its equivalent) with future redemption dates are classified, but also ensures that all investments categorized in the fair value hierarchy are classified using a consistent approach. Investments that calculate NAV per share (or its equivalent), but for which the practical expedient is not applied, will continue to be included in the fair value hierarchy. A reporting entity should continue to disclose information on investments for which fair value is measured at NAV (or its equivalent) as a practical expedient to help users understand the nature and risks of the investments and whether the investments, if sold, are probable of being sold at amounts different from NAV. ASU No. 2015-07 is effective for fiscal years beginning on or after December 15, 2016 on a retrospective basis. Early adoption is permitted and accordingly, Plan management elected to adopt ASU No. 2015-07 early during the 2015 Plan year. The adoption of ASU No. 2015-07 in 2015 impacted disclosures only by removing those investments measured at fair value using NAV as a practical expedient from classification in the fair value hierarchy in Note 3.

3. Fair Value Measurements

FASB Accounting Standards Codification Topic 820 (ASC 820), *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

BHP NEW MEXICO COAL 401K PERSONAL SAVINGS PLAN
Notes to Financial Statements
December 29, 2017 and December 31, 2016

3. Fair Value Measurements, continued

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

In determining fair value, the Plan uses the market approach, which uses prices and other relevant data based on market transactions involving identical or comparable assets and liabilities.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2016. The Plan held no assets at December 29, 2017.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust: Valued at the NAV of units of a collective trust. The NAV, as provided by the Trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawals from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan's administrators believe its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value on a recurring basis as of December 31, 2016:

	Investments at Fair Value as of December 31, 2016			
	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
Mutual funds	<u>\$ 35,832,949</u>	<u>\$ -</u>	<u>\$ -</u>	\$ 35,832,949
Investment measured at NAV ^(a)				<u>687,179</u>
Investments, at fair value				\$ 36,520,128

(a) In accordance with ASU 2015-07, certain investments that were measured at NAV per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

4. Information Certified by the Plan's Trustee (Unaudited)

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements, including investments and notes receivable from participants held at December 29, 2017 and December 31, 2016, and net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee.

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements.

5. Party-in-Interest Transactions

The Plan invests in shares of mutual funds and a common collective trust fund, which are managed by an affiliate of the Trustee and the Plan issues notes receivable from participants. These transactions qualify as party-in-interest transactions, as defined by ERISA. However, such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

6. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated August 20, 2014, that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving this determination; however, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan was tax exempt as of the financial statement dates.
