THE WILLIAM FALL GROUP, INC. 401(K) PLAN

Notes to Financial Statements

1. DESCRIPTION OF THE PLAN AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following description of *The William Fall Group, Inc. 401(k) Plan* (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

Description of the Plan

General

The Plan is a defined contribution plan established on August 1, 2002, and amended from time to time thereafter, for the benefit of eligible employees of The William Fall Group, Inc. (the “Company”). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions

The Plan adopted an automatic deferral election whereby all employees who are not excluded employees are automatically enrolled in the plan on the first day of the quarter following the completion of three months of service. The automatic deferral is 3% of the participant’s compensation from each payroll period and will increase by 1% each year up to a maximum of 6% of plan compensation, unless the participant completes a salary reduction agreement. The participant may enter into a salary reduction agreement at any time to select an alternative deferral amount or to elect not to defer into the Plan. Effective January 1, 2018, the Plan was amended to remove the provision for the automatic contribution arrangement.

With certain limitations, a participant may also transfer into the Plan a rollover contribution or other assets from another qualified retirement program.

The Company may contribute to each eligible participant’s account a discretionary matching contribution subject to certain limitations as well as a discretionary profit sharing contribution allocated based on participants’ compensation. The Company has not contributed matching or profit sharing contributions to the Plan in 2017 and 2016. The Plan currently offers pooled separate accounts and a fund held in insurance company general account as investment options for participants, under a group annuity contract offered by Standard Insurance Company (“Standard”), the custodian of the Plan’s assets. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

Participant Accounts

Each participant’s account is credited with the participant’s contribution, the Company’s matching contribution, if any, and an allocation of (a) Plan earnings (losses), (b) Company discretionary profit sharing contributions, if any, and (c) administrative expenses, if any. Allocations are based on participant compensation, account balance or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

THE WILLIAM FALL GROUP, INC. 401(K) PLAN

Notes to Financial Statements

Vesting

Participants are immediately vested in their 401(k) voluntary contributions plus actual earnings thereon. Vesting in the Company matching and profit sharing contributions is based on years of continuous service. A participant is 100% vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their vested account balance a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50% of their account balance. The notes receivable are secured by the balance in the participant's account and bear interest at rates ranging from 3.25% to 4.25%, which are commensurate with local prevailing rates at the time notes are issued. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

Upon termination of service due to retirement, death or disability, if earlier, or termination, a participant will receive a lump-sum equal to the value of the participant's vested interest in his or her account. Further, the Plan administrator may permit a participant who experiences a qualified financial hardship, as defined, to receive a lump-sum distribution of a portion of the participant's account balance.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right, under the Plan agreement, to amend any or all provisions, as well as discontinue its contributions and to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions. Any unallocated assets of the Plan would be allocated to participant accounts and distributed in such a manner as the Company may determine.

Forfeited Accounts

Forfeitures of terminated participants' non-vested accounts are used first to reduce the Plan's administrative expenses and then to reduce future employer contributions. There were no forfeited non-vested accounts at December 31, 2017 and 2016.

Administrative Expenses

Fees related to the administration of the Plan or associated with the investment of Plan assets may be paid by the Plan or by the Plan Sponsor. If the Plan Sponsor does not pay Plan related expenses, such fees or expenses will generally be allocated to the accounts of participants. Fees incurred as a result of the participant's investment decision will be allocated to that participant. Participants are charged processing fees directly against their accounts for distributions, including in-service distributions, hardship distributions and loan originations and these fees are included in administrative expenses.

THE WILLIAM FALL GROUP, INC. 401(K) PLAN

Notes to Financial Statements

Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires Plan management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for Plan benefits during the reporting year. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determined the Plan's valuation policies utilizing information provided by the investment advisor and custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation (depreciation) in fair value of investments includes the Plan's aggregate gains and losses on investments bought and sold as well as held during the year and includes any interest and dividends on investments in pooled separate accounts.

Management fees and operating expenses charged to the Plan for investments in pooled separate accounts are deducted from income earned on a daily basis and are not separately reflected. Consequently, such management fees and operating expenses are reflected as a reduction of net appreciation or an addition to net depreciation in the aggregate fair value of such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If the participant ceases to make loan repayments and the Plan administrator deems the note receivable to be in default, the participant note receivable is reduced and a benefit payment is recorded.

Contributions

Participant contributions are recorded when withheld from compensation. Employer contributions are recorded in the period in which they become the obligations of the Company.

THE WILLIAM FALL GROUP, INC. 401(K) PLAN

Notes to Financial Statements

Benefits Paid to Participants

Benefit payments to participants are recorded when paid.

Subsequent Events

In preparing these financial statements, Plan management has evaluated, for potential recognition or disclosure, significant events or transactions that occurred during the period subsequent to December 31, 2017, the most recent statement of net assets available for benefits presented herein, through October 4, 2018, the date these financial statements were available to be issued. No such significant events or transactions were identified.

2. TAX STATUS

The Company's Board of Directors adopted by the Standard Retirement Services, Inc. Volume Submitter 401(k) Profit Sharing plan document. The prototype plan document has received an opinion letter from the Internal Revenue Service dated March 31, 2014, stating that the written form of the underlying prototype plan document is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under 401(a) of the Code. The Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, that the Plan is qualified and the related trust is tax exempt.

The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that, as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or asset or disclosure in the financial statements. The Plan may be subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

3. INVESTMENTS

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Standard, as custodian, has certified the completeness and accuracy of the investment information reflected in (1) the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, (2) the December 31, 2017 schedule of assets (held at end of year), and (3) the related investment activity reflected in the statements of changes in net assets available for benefits during 2017 and 2016.

THE WILLIAM FALL GROUP, INC. 401(K) PLAN

4. FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurements. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. For financial assets recorded at fair value, the description includes an indication of the level of the fair value hierarchy in which the assets are classified.

Pooled separate accounts: These investments are valued using the net asset value ("NAV") of units held by the Plan at year-end as provided by the insurance company and are not assigned a level in the fair value hierarchy. The NAV is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying assets owned by the account, net of investment management fees. The practical expedient is not used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV.

Funds held in insurance company general account: These investments are valued at the NAV of units of an insurance company general account and are classified as "other" and are not assigned a level in the fair value hierarchy. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The NAV would not be used when it is determined to be probable that the investment will be sold for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the funds, the issuer reserves the right to require a 12 month notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

THE WILLIAM FALL GROUP, INC. 401(K) PLAN

Notes to Financial Statements

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although Plan management believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth additional disclosures for the fair value measurement of investments in certain entities that calculate net asset value per share (or its equivalent) as of December 31:

Investment Type	2017			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 3,118,213	\$ -	Daily	Daily
Funds held in insurance company general account	\$ 13,594	\$ -	Daily	12 months

Investment Type	2016			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Notice Period
Pooled separate accounts	\$ 2,685,542	\$ -	Daily	Daily
Funds held in insurance company general account	\$ 37,124	\$ -	Daily	12 months

5. RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are managed by Standard, the custodian and, therefore, transactions related to these investments qualify as party-in-interest. Fees paid by the Plan for investment management services are included in net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than a direct payment.

6. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities with underlying assets consisting of any combination of stocks, bonds, fixed income securities, and other investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and statements of changes in net assets available for benefits.
