Note 1 – Description of the Plan

The following description of the Liniger, Inc. (the “Company,” “Plan sponsor,” or "Plan administrator") 401(k) Profit Sharing Plan (the “Plan”) provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan’s provisions.

General. The Plan is a defined contribution plan established by Liniger, Inc. under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"). The Plan went into effect January 1, 2015, and is generally available to all employees of the Company and Participating Employers (collectively, the "Employer"). The Plan's Participating Employers are Comegys Acquisition Company dba Grand Prix Motor Sports; Mile High Highway Dreams, LLC dba Mile High Harley-Davidson; Big Iron Sports; Foothills Imports; Liniger Household; Sanctuary, Inc; and, effective February 1, 2017, Grand Prix Guns, LLC. The Plan excludes collectively bargained employees, non-resident aliens, leased employees, and part-time / seasonal / temporary employees whose regularly scheduled service is less than 1,000 hours during a Plan year. The Plan's general eligibility requirements are one year of service, attainment of age 21, and semi-annual entry dates. However, certain Participating Employers have alternative eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Plan Amendment. Effective February 1, 2017, the Plan ceased being a multiple-employer plan and became a single employer plan. Also, effective February 1, 2017, Grand Prix Guns, LLC was added as a Participating Employer.

Contributions. The following types of contributions are allowable under the Plan:

- Salary Deferral Contributions – Participants may contribute a percentage of their pre-tax compensation, as defined in the Plan document, subject to limitations. Additionally, participants may contribute a percentage of their after-tax compensation and designate it as a Roth deferral contribution. A participant’s total salary deferral contribution cannot exceed $18,000 ($24,000 if 50 or older) in calendar year 2017.
- Discretionary Employer Contributions - The Employer may make a discretionary Employer contribution each Plan year to eligible participants based on an employee group allocation method whereas each employee is in his/her own allocation group. For the year ended December 31, 2017, the Employer did not make a discretionary Employer contribution.
- Discretionary Employer Matching Contributions – The Employer may make a discretionary Employer matching contribution each Plan year to eligible participants based on a uniform percentage of salary deferral contributions or a flat amount for each eligible participant. For the year ended December 31, 2017, the Employer did not make a discretionary Employer matching contribution.
- Safe Harbor Employer Matching Contributions – The Employer makes safe harbor matching contributions each payroll period to eligible participants equal to 100% of salary deferral contributions up to the first 3% of compensation, plus 50% of salary deferral contributions up to the next 2% of compensation.
- Rollover Contributions – Certain amounts distributed to participants from other qualified employee benefit plans may be rolled into the Plan.

All contributions are allocated to the Plan’s investment funds at the direction of the participants.

***Investment Options*.** Participants may direct their investments into various pooled separate accounts and an unallocated insurance contract.

Note 1 – Description of the Plan (continued)

***Participant Accounts*.** Each participant's account is credited with the participant's contributions (pretax, catchup, Roth, and rollovers, if any) and an allocation of (a) the Employer's contribution (discretionary, discretionary matching, and safe harbor matching), if any, (b) fund earnings or losses, and (c) administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Forfeitures. When certain terminations of participation in the Plan occur, the non-vested portion represents a forfeiture. Forfeitures are used to reduce Employer contributions or are used to pay Plan expenses. During 2017, forfeitures of $577 were used to reduce Employer contributions and $7,832 were used to pay Plan expenses. As of December 31, 2017 and 2016, unutilized forfeitures were $0 and $2,465, respectively.

***Vesting*.** Participants are immediately vested in their salary deferral contributions, safe harbor Employer matching contributions, and rollover contributions and related earnings thereon. Vesting in discretionary Employer and discretionary Employer matching contributions occur according to the following schedule:

Years of Vesting Service	Vested Percentage
1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Additionally, certain of the Plan's Participating Employers have diffferent vesting schedules for discretionary Employer and discretionary Employer matching contributions as provided for in the Plan document. Furthermore, participants, while employed, become 100% vested in their Employer contribution portion of their accounts upon the following events:

- Participant's death;
- Participant becomes disabled as defined under the Plan;
- Participant attains normal retirement age of 65; or
- Plan termination or partial Plan termination.

Notes Receivable from Participants. Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of (i) $50,000 or (ii) 50% of their vested account balance. Loan terms range from 1 month up to a maximum of 5 years (a longer term up to 15 year is available if used for the purchase of a participant's principal residence). The loans are secured by the balance in the participant's account and bear a rate of interest equal to the Prime Rate plus 2% at the time the loan is granted. Principal and interest payments are paid ratably through payroll deductions.

***Payment of Benefits*.** Benefits to participants or beneficiaries generally are payable as a lump sum or direct rollover equal to the value of their vested account balance upon retirement, disability, death or termination of the participant. Additionally, participants may request in-service withdrawals of their rollover contributions account, upon attainment of age 59½, or upon incurring a financial hardship, as defined in the Plan document, if certain criteria are met.

Note 2 – Summary of Significant Accounting Policies

***Basis of Accounting and Use of Estimates*.** The financial statements of the Plan are prepared using the accrual method of accounting. The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's management to use estimates and assumptions that affect the accompanying financial statements and disclosures. Actual results could differ from those estimates.

***Investment Valuation and Income Recognition*.** The Plan's investments are reported at fair value, except for the Plan's investment in the unallocated insurance contract which is stated at contract value (see Note 4). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Net appreciation in fair value of investments includes the Plan's gain and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants. Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Benefits Payments. Benefits are recorded when paid.

***Expenses*.** Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivables from participants are charged directly to the participant's account and are included in administrative expenses. Also included in administrative expenses are recordkeeping, investment management, accounting, and other fees. Certain investment related expenses are included in net appreciation in fair value of investments.

New Accounting Pronouncement. In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent) ("ASU 2015-07"), which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments in ASU 2015-07 are effective for fiscal years beginning after December 15, 2016 and interim periods within those fiscal years. The amendments in ASU 2015-07 should be applied retrospectively to all periods presented. During 2017, Plan management adopted ASU 2015-07.

Note 3 – Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Note 3 – Fair Value Measurements (continued)

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

There have been no changes in the methodologies used at December 31, 2017 and 2016. The following is a description of the valuation methodologies used for assets measured at fair value:

- Pooled Separate Accounts ("PSAs") are valued at the net asset value ("NAV") of units held by the Plan at year end. The NAV, as provided by the custodian, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the PSAs less their liabilities. This practical expedient is not used when it is determined to be probable that the PSAs will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 3 – Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Fair Value Measurements at December 31, 2017			
	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total
Total Assets in FV Hierarchy	**$ -**	**$ -**	**$ -**	**$ -**
Investments Measured at NAV				**3,957,430**
Total Assets at Fair Value				**$ 3,957,430**

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	Fair Value Measurements at December 31, 2016			
	Quoted Prices in Active Markets for Identical Assets Level 1	Significant Other Observable Inputs Level 2	Significant Unobservable Inputs Level 3	Total
Total Assets in FV Hierarchy	$ -	$ -	$ -	$ -
Investments Measured at NAV				3,311,622
Total Assets at Fair Value				$ 3,311,622

Changes in Fair Value Levels. The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Company evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2017, there were no significant transfers in or out of levels 1, 2 or 3.

Note 3 – Fair Value Measurements (continued)

Investments in Certain Entities that Calculate NAV per Unit. The following table for December 31, 2017 and 2016, sets forth a summary of the Plan's investments with a reported NAV:

Investment	Fair Value December 31, 2017	Fair Value December 31, 2016	Unfunded Commitments	Redemption Frequency and Other Redemption Restrictions	Redemption Notice Period
Pooled Separate Accounts (a)	**$ 3,957,430**	$ 3,311,622	None	Daily (b)	None

(a) Various intermediate / long term bond, small / mid / large cap stock, international stock, and multi-asset / other investment strategies that invest mainly in mutual funds.

(b) The ability to exchange units of a PSA may be restricted in the event that a sponsor or participant engages in trading patterns which are detrimental to the PSA account or underlying investment. Certain PSAs are subject to trading restrictions. Transfers into certain PSAs are restricted for a rolling 30-day period once a transfer out has been made. Trading restrictions apply to transfers into an investment fund. Transfers out of a PSA account are allowed at any time.

Note 4 – Investment Contract with Insurance Company

In 2015, the Plan entered into a traditional benefit-responsive investment contract, the Transamerica Stable Value Focus Account ("SVF"), with Transamerica Financial Life Insurance Company ("Transamerica"). Transamerica maintains the contributions in its general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. Prior to January 1st and July 1st, the effective annual rate of interest is established for the corresponding six month period. Interest is credited, based upon the daily balance, at a rate that is the daily equivalent of the effective annual rate of interest applicable for the six month period. There is no stated minimum or maximum interest rate.

This contract meets the fully benefit-responsive criteria and, therefore, is reported at contract value. Contract value is the relevant measurement attribute for fully benefit responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by Transamerica, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The contract value of the investment contract at December 31, 2017 and 2016, was $3,810 and $530,333, respectively. The investment contract does not have a defined maturity specified in the contract.

Certain events may limit the ability of the Plan to transact at contract value with the issuer. For example, Transamerica may impose a hold period at the contract level in the event of a full contract discontinuance or partial contract discontinuance. Additionally, an asset-based surrender / discontinuance charge may apply for a limited number of deposit years upon total or partial discontinuance of the investment contract.

Note 5 – Certified Information

The Plan administrator has elected the method of annual reporting and compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedules is complete and accurate:

- Investments, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016;
- Notes receivable from participants, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016;
- Investment amounts as shown in Notes 3 and 4;
- Investment income, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017;
- Interest income on notes receivable from participants, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017;
- The investment information presented in the Schedule of Assets (Held at End of Year) as of December 31, 2017, as shown in the supplemental schedules.

The Plan's independent auditors did not perform auditing procedures with respect to this information except for comparing such information to the related information included in the financial statements and supplemental schedules.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination or partial termination, affected participants will become 100% vested in their accounts.

Note 7 – Tax Status

The Plan sponsor has adopted a United Retirement Plan Consultants Volume Submitter Profit Sharing Plan Document ("volume submitter plan"). The volume submitter plan received a favorable opinion letter from the IRS on March 31, 2014, which stated that the volume submitter plan is qualified under the applicable sections of the Internal Revenue Code ("IRC"). Although the volume submitter plan and the Plan have been amended since receiving the IRS opinion letter, the Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan sponsor believes that the Plan is qualified under Section 401(a) of the IRC and the related Trust is tax exempt as of December 31, 2017 and 2016. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8 – Party-In-Interest Transactions

The Company provides to the Plan certain accounting and administrative services for which no fees are charged

Certain Plan investments are units of pooled separate accounts and an unallocated insurance contract offered by Transamerica. As Transamerica is the custodian of the Plan, these transactions qualify as party-in-interest transactions. Additionally, the Plan maintains notes receivable from participants. Fees paid for services rendered by parties-in-interest were based on customary and reasonable rates for such services.

Note 9 – Nonexempt Prohibited Transactions

During 2016 and 2017, the Company had nonexempt prohibited transactions related to participant contributions and loan repayments not remitted to the trust in a timely manner as listed in the aggregate on Schedule H, Line 4a: Schedule of Delinquent Participant Contributions. The principal amount of the late contributions have been paid into the Plan's trust. The Plan Sponsor intends to remit lost earnings into the Plan's trust in order to correct these transactions and file all applicable IRS Forms 5330 *Return of Excise Taxes Related to Employee Benefit Plans* as soon as administratively feasible.

Note 10 – Risks and Uncertainties

The Plan provides for various investment options in pooled separate accounts and an unallocated insurance contract. Investment securities, in general, are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts presented in the statements of net assets available for benefits.

Additionally, some investments held by the Plan are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

Note 11 – Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through September 4, 2018, which is the date the financial statements were available to be issued.

During 2018, Grand Prix Guns, LLC ceased operations. As a result, they are no longer participating in the Plan.
