Profit Sharing Plan for Salaried Employees

Notes to Financial Statements

December 31, 2017 and 2016

1. Description of the Plan

The following description provides general information on the provisions of the CC Industries and Affiliates Profit Sharing Plan for Salaried Employees (the “Plan”), a multiple-employer plan, sponsored by Henry Crown and Company, d/b/a CC Industries, Inc. (the “Company”). Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan, a profit sharing plan, was established effective October 1, 2012. On this date, the Plan accepted the transfer of the profit sharing contributions of each employee who was a participant in the CC Industries and Affiliates Retirement Savings Plan for Salaried Employees.

The Plan currently covers all salaried employees of the Company and Longview Asset Management, LLC (each as “Employer”) who have completed 30 days of service with no minimum age requirement.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”), as amended.

Contributions

The Plan is noncontributory. The annual profit sharing contribution is determined by each participating Employer that has adopted the Plan. The contribution made by each Employer is allocated among the participants employed by that Employer based on the ratio of the participant’s eligible compensation (as defined) to the total eligible compensation of all participants employed by that Employer.

Vesting

A participant becomes 20% vested in their profit sharing account after completion of two years of service (as defined) and continues to vest annually until 100% vesting is attained after six years of service.

Participant Accounts

Each participant’s account is credited with the Employer’s profit sharing contribution and an allocation of (1) investment earnings and losses after allocation of investment management fees and (2) forfeitures of terminated participants’ nonvested accounts. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s account.

Participants who terminate will not be eligible to share in that year’s profit sharing contribution unless they are active on the last day of the plan year, except participants who die, retire, or become totally and permanently disabled during the plan year will continue to be eligible to share in the profit sharing contribution for the plan year in which they die, retire or become disabled.

Forfeitures

Forfeited nonvested accounts are reallocated to current participants in the same manner as the Employers’ contributions. The forfeiture balance as of December 31, 2017 and 2016 amounted to \$125,602 and \$8,328, respectively. Forfeitures in the amount of \$8,328 were reallocated to participants during 2017.

Description of the Plan - Continued

Investment Options

The Company administers the Plan. Principal Trust Company ("Principal") is the trustee of the Plan. Principal Financial Group is the recordkeeper of the Plan.

The Plan's investments are nonparticipant-directed and invested at the discretion of the Company's investment managers primarily in a portfolio of publicly traded equity securities, corporate bonds and an interest-bearing cash account.

Payment of Benefits

On termination of service, retirement or total and permanent disability, a participant may elect to receive payment in the form of either a lump-sum distribution, annual installments or a direct rollover to an Individual Retirement Account ("IRA") or another Internal Revenue Service ("IRS") qualified plan equal to the value of the participant's vested account. Participants with vested account balances of \$5,000 or more can take a distribution or defer the distribution. Participants with a vested account balance greater than \$1,000 but less than \$5,000 must make a distribution election within 60 days otherwise the balance is automatically rolled to an IRA. Balances of \$1,000 or less but greater than \$100 require a distribution election within 60 days otherwise a check is issued for the balance. Balances less than \$100 are issued a check. Under Federal law, benefit payments must begin on the April 1st following the calendar year in which the participant reaches age 70 ½. Employees who are working at age 70 ½ can defer a distribution of their account.

Benefit payments received before age 59 ½ may be subject to a 10% tax penalty unless the amount is rolled over. Participants who are age 59 ½ and 100% vested are permitted to make an in-service withdrawal which can be rolled over to an IRA or another IRS qualified plan, such as the CC Industries and Affiliates Retirement Savings Plan for Salaried Employees. In the event of death, the participant's beneficiary will receive a lump-sum distribution.

Administrative Expenses

Expenses of administration, such as legal, accounting, recordkeeping and trustee fees, are paid entirely by each Employer. Investment management fees are paid from the assets of the Plan.

Plan Termination

Although they have not expressed any intent to do so, each Employer has the right under the Plan to discontinue their contributions at any time and the Company has the right to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be fully vested in their accounts and the trustee will distribute Plan assets to participants or their beneficiaries in accordance with the Plan agreement.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Use of Estimates

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent Events

Events or transactions occurring after the period end through September 28, 2018, the date that the financial statements were available to be issued, have been evaluated in the preparation of the financial statements.

Valuation of Investments and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Net Appreciation (Depreciation) in Fair Value of Investments

Net realized and unrealized appreciation (depreciation), which includes gains and losses on investments bought and sold, as well as held during the year, is recorded in the accompanying Statement of Changes in Net Assets Available for Benefits as net appreciation (depreciation) in fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncement

In May, 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*, which removes the requirement to include investments measured using the net asset value ("NAV") practical expedient in the fair value hierarchy. The Plan adopted this standard effective January 1, 2017. The retrospective adoption of this guidance did not have a material effect on the Plan's financial statements.

Notes to Financial Statements

3. Investments

The Plan provides for investments that, in general, are exposed to various risks, such as interest rate, credit and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

4. Fair Value

The Plan follows guidance defined in Accounting Standards Codification, *Fair Value Measurement (Topic 820)*, which provides a framework for measuring fair value under GAAP. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Quoted market prices in active markets for identical assets or liabilities.

Level 2 – Observable inputs other than Level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – Unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets and liabilities.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The Plan's investments are valued using the following methodologies:

- **Common stocks:** valued at the closing price of individual shares at year-end as traded in an active market.
- **Corporate bonds:** valued based on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available, the bond is valued using matrix pricing or models from reputable pricing vendors.
- **Interest-bearing cash:** valued at cost, which reflects fair value.

Notes to Financial Statements

Fair Value – continued

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table presents the Plan's investment assets measured at fair value as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Common stocks	\$ 136,827,043	\$ -	\$ -	\$ 136,827,043
Corporate bonds	-	1,581,947	-	1,581,947
Interest-bearing cash	-	8,145,210	-	8,145,210
Total assets at fair value	<u>\$ 136,827,043</u>	<u>\$ 9,727,157</u>	<u>\$ -</u>	<u>\$ 146,554,200</u>

For comparative purposes, the following table presents the Plan's investment assets measured at fair value as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Common stocks	\$ 102,255,583	\$ -	\$ -	\$ 102,255,583
Corporate bonds	-	261,300	-	261,300
Interest-bearing cash	-	16,498,305	-	16,498,305
Total assets at fair value	<u>\$ 102,255,583</u>	<u>\$ 16,759,605</u>	<u>\$ -</u>	<u>\$ 119,015,188</u>

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan does not hold any investments requiring Level 3 measurements and there have not been any transfers of assets between the levels from 2016 to 2017.

Notes to Financial Statements
December 31, 2017 and 2016

5. Income Tax Status

The IRS has determined and informed the Company in a letter dated February 12, 2014, that the Plan established October 1, 2012, is designed in accordance with the applicable sections of the Internal Revenue Code (“IRC”). Although the Plan has been amended since the effective date, the Company and the Plan’s tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and the related trust is tax-exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. There are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements as of December 31, 2017 and 2016. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits in progress. The Plan is no longer subject to income tax examinations for years prior to 2014.

6. Information Certified by the Plan’s Trustee

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-5 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee has certified that the following data included in the financial statements, notes to the financial statements and supplemental schedule is complete and accurate:

- Investments, at fair value, as shown in the Statements of Net Assets Available for Benefits as of December 31, 2017 and 2016.
- Interest and dividend income as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017.
- Net appreciation in fair value of investments, as shown in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2017.
- Schedule H, Line 4i – Schedule of Assets (Held at End of Year), as of December 31, 2017.

The Plan’s independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.
