RACI 401(K) PLAN

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE A - DESCRIPTION OF PLAN

The following description of the RACI 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit sharing plan with a 401(k) feature covering all eligible employees of Retina Associates of Cleveland, Inc. (the Company, Plan Administrator, and Plan Sponsor) who are at least 21 years old and are not covered by a collective bargaining agreement. Employees of the Company are eligible to contribute to the Plan on the first day following the completion of six months of service. Employees of the Company are eligible to receive an employer profit sharing contribution as of the first day of the Plan year during which they complete 1,000 hours during one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

Each year, participants may elect to defer the lesser of 100% of pre-tax compensation as defined by the Plan or the maximum contribution allowable by law. The Plan provides for a discretionary employer profit sharing contribution, which was \$610,855. Forfeitures of \$21,552 were applied for the year ended December 31, 2017. The Plan provides for the acceptance of rollover contributions from other plans qualified under the Internal Revenue Code (the Code). The Plan also provides for catch-up contributions for participants who reach the age of 50 by the end of the Plan year. Participants direct the investment of their contributions into various options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of the Company's discretionary profit sharing contributions and Plan earnings, and is charged with an allocation of administrative expenses. Allocations are based upon participant account earnings, compensation, specific participant transactions, or account balances, as defined. The benefit to which a participant is entitled to receive is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their deferral contributions plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contribution plus actual earnings thereon is based on years of continuous service after two years at a rate of 20% per year. A participant is 100% vested after six years of credited service.

RACI 401(K) PLAN

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE A - DESCRIPTION OF PLAN (CONTINUED)

Payment of Benefits

Benefits are payable to participants or their beneficiaries upon attaining age 59½ or upon the termination, retirement, disability, or death of the participant. Additionally, a participant who has attained age forty-eight and has completed seven years of service may request a distribution from their profit sharing contribution account provided it is 100% vested. The participant will receive a lump-sum distribution based on the participant's account valuation on the date of distribution. If the value of the vested benefits credited to the participant's account is \$5,000 or less at the time of termination, the entire amount will be automatically distributed to the participant without the participant's consent. In the event of a mandatory distribution of amounts greater than \$1,000 but not exceeding \$5,000, the entire amount will be distributed in the form of a direct rollover to an individual retirement account as designated by the Plan Sponsor.

Active participants may request hardship withdrawals from their elective deferral account balances, subject to Plan provisions. A participant who receives a distribution on account of hardship is prohibited from making deferrals for six months after receipt of the distribution.

Forfeited Accounts

Forfeitures may be used to reduce the Company's discretionary profit sharing contributions to the Plan or pay Plan administrative expenses. Unallocated forfeiture balances as of December 31, 2017 and 2016 were \$21,552 and \$15,142, respectively. Forfeitures used to reduce 2016 employer contributions during the year ended December 31, 2017 were \$13,926.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Investment Valuation

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Plan management determines the Plan's valuation policies utilizing information provided by the custodians. See Note D for discussion of fair value measurements.

Investment Income Recognition

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Revenue Sharing

Revenue sharing income represents the portion of investment management fees provided to the Plan from the investment fund manager to offset the cost of services provided to the Plan. Revenue sharing, which is included as a component of investment income (expenses) on the statement of changes in net assets available for benefits, was \$20,355 for the year ended December 31, 2017.

Contributions

Participant and employer contributions are recorded and credited to each participant's account as received by the custodians from the Company. Any contributions attributable to the Plan year but not received by the custodians by the last day of the Plan year are recorded as a receivable.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of benefits paid to participants are charged directly to the participants' accounts and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments on the accompanying statement of changes in net assets available for benefits.

Income Taxes

The Company adopted a volume submitter defined contribution plan which received a determination letter from the Internal Revenue Service (IRS) dated July 17, 2017, stating that the Plan and related trust was designed in accordance with applicable sections of the Code.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Sponsor has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Subsequent Events

The Plan has evaluated subsequent events through October 3, 2018, the date which the financial statements were available to be issued.

RACI 401(K) PLAN

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE C - CERTIFICATION

Investment information disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2017 and 2016, and net appreciation in the fair value of investments, interest, and dividends for the year ended December 31, 2017 were obtained or derived from information supplied to the Plan Administrator and certified as complete and accurate by the custodians.

NOTE D - FAIR VALUE MEASUREMENTS

The three levels of the fair value hierarchy, which are based upon the inputs used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets that are accessible at the measurement date for identical unrestricted assets or liabilities (for example, exchange quoted prices).

Level 2 - Inputs to the valuation methodology are observable inputs, other than Level 1 prices, such as quoted prices for similar assets or liabilities in active markets, quoted prices in markets that are not sufficiently active to qualify as Level 1, other observable inputs, or inputs that can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs to the valuation methodology are significant to the fair value measurement and unobservable (for example, supported by little or no market activity).

Financial assets and liabilities are classified in their entirety based on the lowest level of input that is significant to the fair value measurement. The Plan's assessment of the significance of a particular input to the fair value measurement requires judgment and may affect the valuation of fair value assets and liabilities and their placement within the fair value hierarchy levels.

The Plan's investments accounted for at fair value as of December 31, 2017 are summarized below:

	<u>Level 1</u>
Mutual funds	\$ 9,499,172

As of December 31, 2016, the fair value of pooled separate accounts measured at net asset value was \$7,348,013.

RACI 401(K) PLAN

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE D - FAIR VALUE MEASUREMENTS (CONTINUED)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds are valued at the net asset value of shares held by the Plan at year end, as reported on the active markets in which the investments are traded.

Pooled separate accounts are valued at the net asset value of units held by the Plan at year end. The net asset value, as provided by the custodian, was used as a practical expedient to estimate fair value. Net asset value was based on quoted market prices of the underlying investments net of insurance company fees and expenses less their liabilities. This practical expedient is not used when it is determined to be probable that the accounts will sell the investments for an amount different than the reported net asset value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement as of the reporting date.

NOTE E - GUARANTEED INVESTMENT CONTRACTS

The Plan has a traditional fully benefit-responsive guaranteed investment contract with Great-West Life & Annuity Insurance Company (GW) of \$467,957 at December 31, 2017. Contributions from the Plan are maintained in GW's general account. Under the contract, the Plan owns a promise by the issuer to pay interest at crediting rates, which are set based on the earnings of certain underlying assets of GW and market conditions. Participant principal and interest are fully guaranteed by the entire general account assets of GW. The minimum annual crediting rate under the contract cannot be less than zero. Interest crediting rates are reset quarterly.

This contract meets the fully benefit-responsive investment criteria and therefore, is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value, as reported to the Plan by GW, represents contributions made under the contract; plus earnings at guaranteed crediting rates, less participant withdrawals and administrative expenses. Participants may ordinarily direct permitted withdrawals or transfers of all or a portion of their account balance at contract value.

RACI 401(K) PLAN

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE E - GUARANTEED INVESTMENT CONTRACTS (CONTINUED)

The repayment of principal and interest credited to participants in the Plan is a financial obligation of GW. The Plan's ability to receive amounts due is dependent on GW's ability to meet its financial obligations. GW's ability to meet its contractual obligations may be affected by future economic and regulatory developments. There are no reserves against contract value for credit risk of GW or otherwise.

The contract may be terminated by either the Plan Sponsor or GW with 60 days written notice. If the Plan Sponsor terminates the contract, all benefits, rights, and privileges provided by the contract would terminate. Management believes a Plan-initiated termination of the contract is not probable of occurring. Certain events might limit the ability of the Plan to transact at contract value with the issuer. Such events include termination of contract by the Plan, layoffs, Plan termination, bankruptcy, mergers, or early retirement incentives). In these instances, if the contract is terminated prior to the issuer's recovery of any and all start-up costs incurred by the issuer, such amounts, as well as any and all other outstanding charges and fees, shall be recouped as a contract termination charge.

The Plan had a traditional fully benefit-responsive group annuity investment contract with Massachusetts Mutual Life Insurance Company (MassMutual) of \$727,308 at December 31, 2016. Contributions from the Plan were maintained in MassMutual's general account. Investments in the contract had a guaranteed rate of return over a six month period and had a guarantee of principal backed by MassMutual.

This contract met the fully benefit-responsive investment contract criteria and therefore was reported at contract value. Contract value was the relevant measure for fully benefit-responsive investment contracts because contract value was the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Contract value represented contributions made under the contract, plus credited earnings, less participant withdrawals and fees. Participants were ordinarily able to direct the withdrawals or transfer of all or a portion of their investment at contract value to any non-competing investment. Events that limited a participant's ability to transact at contract value included a participant's termination of employment due to: (1) removal of a group of participants from plan coverage as a result of temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the Plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer, or (4) cessation of an employment relationship resulting from a reorganization, merger, layoff, or the sale or discontinuance of all or any part of the Plan Sponsor's business. Such events also included 1) removal from the Plan of one or more groups or classifications of participants, 2) partial or complete plan termination, or 3) Plan disqualification.

RACI 401(K) PLAN

Notes to Financial Statements

December 31, 2017 and 2016 and Year Ended December 31, 2017

NOTE E - GUARANTEED INVESTMENT CONTRACTS (CONTINUED)

The contract was terminated by the Plan Sponsor during 2017 subject to a notice period of 30 days and was able to be terminated by the issuer subject to a notice period of at least 90 days. If the contract was fully or partially terminated by the Plan Sponsor due to events such as layoffs, a Company merger, partial or full termination of the Plan, Plan disqualification, or a change in investment option offered under the Plan, a liquidation value adjustment calculated pursuant to a formula specified in the contract could apply. A liquidation value adjustment did not occur upon contract termination.

In the event of Plan termination, participants would become 100% vested in their total participant account balance.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - TRANSACTIONS WITH PARTIES-IN-INTEREST

Parties-in-interest transactions include investment in the funds of the custodians, and the related dividend income, interest, and the payment of administrative expenses by the Plan. Such transactions are exempt from being prohibited transactions.
