ROMANOFF ELECTRIC, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1 - DESCRIPTION OF PLAN

The following description of the **Romanoff Electric, Inc. Retirement Savings Plan** (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - Effective January 1, 2007, Romanoff Electric, Inc. (the "Company") established the Plan for the benefit of all eligible employees of Romanoff Electric, Inc. and Romanoff Heating & Cooling, LLC. Employees, regardless of age or service, who perform services for the Company under a contract covered by a prevailing wage law, are eligible to receive prevailing wage contributions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - The Plan provides the Company make prevailing wage contributions based on the hourly contribution rate required under the applicable prevailing wage law. Company prevailing wage contributions totaled \$72,899 and \$217,340 for 2017 and 2016. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions).

Participant Accounts - Mid Atlantic Trust Company (the "Custodian") is custodian of Plan investments. Each participant's account is credited with Company contributions, net earnings or losses, distributions, and withdrawals. Participant accounts are charged an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Each participant directs both separately, and distinctly, into which investment the employer contribution is to be invested.

Vesting - Participants are immediately vested in all contributions and corresponding earnings.

Participant Loans - Participants may borrow from their vested account balance, as defined by the Plan, a minimum of \$1,000 up to the lesser of 50% of their vested account balance or \$50,000, reduced by the highest outstanding loan balance during the preceding 12 months. Loans bear interest at an agreed-upon percentage based on prevailing market rates, subject to applicable usury limits. Loan terms are for a period not exceeding five years. A longer term may be approved by the Plan if proceeds are to be used for the purchase of a primary residence.

Benefits Paid - Upon termination of service by reason of retirement, death, permanent disability, or otherwise, participants, or designated beneficiaries, may elect to receive their vested balance either in a lump-sum amount, or payments over a period of time in cash installments, or in a form agreeable to the Plan Administrator. If the participant's account balance is \$5,000 or less, the Plan Administrator may elect to automatically distribute the balance to participant, but not before six months after the participant's date of severance from employment. Hardship and in-service distributions are permitted if certain criteria are met and may only come from participant rollover contributions.

Investment Options - Upon enrollment in the Plan, a participant may currently direct contributions in any of 12 investment options in increments of one percent. Participants may change their investment options at anytime via phone or internet.

NOTES TO FINANCIAL STATEMENTS

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The financial statements of the Plan are prepared using the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts, which are reported at contract value. Contract value is the relevant measurement for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Financial Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan's Administrator to make estimates and assumptions that affect the reported amounts of net assets, and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition - Investments, with the exception of the fully benefit-responsive investment contract, are reported at fair value. Fair value is the price that would be received to sell an asset, or paid to transfer a liability, in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements. Fully benefit-responsive investment contracts are valued at contract value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Participant Loans Receivable - Loans receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - The Plan document specifies that all expenses for the administration of the Plan may be paid by the Plan. For the years 2017 and 2016, the Plan paid for investment management, administration, and recordkeeping fees. Other administrative expenses are paid by the Plan Sponsor. Certain administrative functions are performed by the officers or employees of the Company at no charge to the Plan.

Subsequent Events - In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through September 18, 2018, the date the financial statements were available to be issued.

NOTE 3 - SUMMARY OF INFORMATION CERTIFIED BY PLAN TRUSTEE/CUSTODIAN

The total value of investments held by the Custodian at December 31, 2017 and 2016 was \$1,445,133 and \$1,503,883. The Custodian of the Plan has supplied the Plan Administrator with a certification as to the completeness and accuracy of the following information at December 31, 2017 and 2016:

- Cash
- Investments
- Interest and dividend income
- Net appreciation (depreciation) in fair value of investments

NOTE 4 - FAIR VALUE MEASUREMENTS

Accounting standards provide a framework for measuring fair value. This framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy under the accounting standards are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017.

Collective trust funds: Valued at the net asset value (NAV) of units of a collective trust fund. The NAV, as provided by the trustee of the funds, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

NOTES TO FINANCIAL STATEMENTS

NOTE 4 - FAIR VALUE MEASUREMENTS - CONTINUED

The preceding method may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>
Collective trust funds, NAV as a practical expedient to fair value ^(a)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,432,031</u>

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Fair Value</u>
Collective trust funds, NAV as a practical expedient to fair value ^(a)	<u>\$ -</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 1,480,590</u>

^(a) In accordance with Subtopic 820-10, certain investments that were measured at net asset value per share (or its equivalent) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statements of net assets available for benefits.

NOTE 5 - FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Mid Atlantic Trust Company assets placed in the Wells Fargo Stable Return Fund accrue interest daily at a fixed interest rate, and both principal and interest are backed by the general account of Mid Atlantic Trust Company. The asset is included in the Statements of Net Assets Available for Benefits as a fixed-rate option fund at its contract value. The average yield and crediting interest rate was approximately 1.53% for 2016. There were no assets held in the Wells Fargo Stable Return Fund at December 31, 2017.

Certain events, such as premature termination of the contract by the Plan or the termination of the Plan, would limit the Plan's ability to transact at contract value with Mid Atlantic Trust Company. The Plan Administrator believes the occurrence of such events, which would also limit the Plan's ability to transact at contract value with Plan participants, is not probable.

ROMANOFF ELECTRIC, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 6 - RELATED PARTY TRANSACTIONS

Record-keeping and third-party administration of the Plan was executed by Beneco Systems, LLC. These transactions qualify as party-in-interest transactions.

Plan assets are held by Mid Atlantic Trust Company. Thus, Mid Atlantic Trust Company, as Custodian defined by the Plan, qualifies as a party-in-interest.

Fees paid by the Plan for Custodian services, plan administration, and recordkeeping for the years 2017 and 2016 totaled \$25,384 and \$46,198.

NOTE 7 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan subject to the provisions of ERISA and its related regulations.

NOTE 8 - TAX STATUS

The Plan adopted a Prototype Non-Standardized Profit Sharing Plan and Trust which received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 10 - BENEFITS ALLOCATED TO WITHDRAWN PARTICIPANTS

At December 31, 2017, there was \$11,716 due to participants, who had withdrawn from the Plan and requested benefit payment prior to year-end. In 2016, there were no amounts due to participants who had withdrawn from the Plan and requested benefit payment prior to year-end.
