The Plan is a defined contribution plan covering eligible employees of ModusLink Global Solutions and participating subsidiaries (collectively, the "Company"). Fidelity Management Trust Company ("FMTTC") serves as the trustee for the Plan's investments, Fidelity Workplace Services LLC ("FWS") serves as recordkeeper of the Plan and the Company serves as the plan administrator. The Plan's effective date is October 1, 1973 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Employees of the Company are eligible to participate in the Plan following the attainment of age 21. Employees are automatically enrolled into the Plan at a deferral rate of 3% a minimum of thirty days after they become eligible. The auto deferral rate was increased to 4% effective January 2016.

Participant Contributions

Participants may voluntarily contribute up to 80% of their pretax compensation in any plan year, not to exceed the annual amount set by law. Participants that have attained age 50 or are projected to attain age 50 before the close of the calendar year may make additional catch up contributions.

Employer Contributions

The Company may make a discretionary employer matching contribution to the Plan on behalf of participants calculated as a percentage of voluntary contributions set by board resolution. The approved matching percentage was 33.33% of the first 6% of participant contributions in 2017 and 2016. Voluntary contributions in excess of 6% of eligible compensation were not subject to matching in 2017 and 2016.

Rollover Contributions

The Plan may receive any amounts received by an employee as a distribution from another qualified plan, provided that the receipt of such amounts does not adversely affect the qualified tax status of the Plan. Participants are fully vested in these amounts.

Notes to Financial Statements

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The majority of participants vest in the discretionary employer matching contributions based on years of service as follows:

<i>Years of Vesting Service</i>	<i>Percent Vested</i>
Less than 1 year	0%
1 year	33%
2 years	67%
3 or more	100%

Participants who are not otherwise fully vested will become fully vested in all contributions upon attainment of age 55, death, total disability prior to termination of service or upon termination of the Plan. Certain participants of former employers acquired by the Company fall under other vesting schedules under which participants are immediately vested.

Participant Accounts

Each participant's account is credited with the participant's voluntary contributions, discretionary employer matching contributions, administrative expenses, if applicable, and an allocation of plan earnings. Plan earnings are allocated based on the underlying investments in a participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Payment of Benefits

The Plan provides for distribution of the vested balance of a participant's account to a participant, spouse or designated beneficiary upon reaching the normal retirement date, 59½ years of age, disability or death. All distributions are subject to the applicable provisions of the plan agreement.

Hardship Withdrawals

In accordance with a uniform and nondiscriminatory policy adopted by the plan administrator, a participant may withdraw a portion of his or her vested balance to meet immediate and heavy financial needs, subject to certain limitations outlined in the Plan.

Notes Receivable from Participants

The Plan allows a participant to borrow a minimum of \$1,000 and up to the lesser of \$50,000 or 50% of his or her vested account balance. The loan is secured by the participant's vested balance. Each loan bears interest at a fixed rate determined by the plan administrator and must be repaid to the Plan within a five year period, unless the loan is used for the purchase of a principal residence in which case the maximum repayment period may be ten years. Outstanding loans carry an interest rate which is commensurate with prevailing rates for similar loans at the time each loan was made and are repaid ratably through payroll deductions.

Participant notes receivable are stated at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as

ModusLink Global Solutions Savings and Retirement 401(k) Plan

Notes to Financial Statements

administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Investment Elections

Each participant shall direct the investment of his or her account. Participants may select from a selection of mutual funds or a money market fund.

Forfeitures

When termination of participation in the Plan occurs, the nonvested portion of the participant's account, as defined by the Plan, represents forfeitures. Forfeitures are utilized to pay administrative expenses or to reduce future discretionary employer matching contributions. As of December 31, 2017 and 2016, the Plan held \$48,788 and \$13,034, respectively, of forfeited nonvested amounts. For the years ended December 31, 2017 and 2016, forfeitures of \$15,000 and \$27,335 were used to reduce discretionary employer matching contributions.

Administration

The general administration of the Plan is governed by the Company. Loan, distribution and outside mutual fund fees are paid by the Plan. The Company pays for audit and legal fees and other administrative costs, if any. Any expenses paid by the Company and excluded from these financial statements.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

In preparing the financial statements in conformity with accounting principles generally accepted in the United States of America, the Plan's management is required to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein and disclosures. Accordingly, actual amounts could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Shares held of mutual and money market funds traded on national security exchanges are valued at the net asset value as of December 31, 2017 and 2016.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Company has evaluated subsequent events through October 8, 2018, the date which the financial statements were available to be issued.

3. Fair Value Measurements

The Plan follows the guidance of ASC Topic 820, "Fair Value Measurement", which defines fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level, within the fair value hierarchy, is based on the lowest level of any input that is significant to the fair value measurement.

The methods described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

The following tables set forth by level within the fair value hierarchy the Plan investment assets at fair value:

<i>December 31, 2017</i>	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds	\$ 44,568,267	\$ -	\$ -	\$ 44,568,267
Money market fund	2,211,503	-	-	2,211,503
Total Investments	\$ 46,779,770	\$ -	\$ -	\$ 46,779,770

<i>December 31, 2016</i>	Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)	Total
Mutual funds	\$ 39,357,743	\$ -	\$ -	\$ 39,357,743
Money market fund	2,364,139	-	-	2,364,139
Total Investments	\$ 41,721,882	\$ -	\$ -	\$ 41,721,882

4. Certified Investments

Certain information related to investments and notes receivable from participants disclosed in the accompanying financial statements and supplemental schedule, including investments and notes receivable from participants held at December 31, 2017 and 2016, net appreciation in fair value of investments, interest and dividends for the years then ended, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Fidelity Management Trust Company (the trustee of the Plan).

5. Tax Status

The Plan uses a prototype plan document. The prototype plan received its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since the prototype plan received its opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

ModusLink Global Solutions Savings and Retirement 401(k) Plan

Notes to Financial Statements

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore no provision or liability for income taxes has been included in the financial statements.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to amend, including discontinuing its contributions, or terminate the Plan at any time. Termination of the Plan will be subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

7. Party-In-Interest Transactions

Certain plan investments are shares of mutual funds managed by FMTC. The Plan also has notes receivable from participants, which are secured by the balances in the participants' accounts. These transactions qualify as party-in-interest transactions.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

ModusLink Global Solutions Savings and Retirement 401(k) Plan

Notes to Financial Statements

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The majority of participants vest in the discretionary employer matching contributions based on years of service as follows:

<i>Years of Vesting Service</i>	<i>Percent Vested</i>
Less than 1 year	0%
1 year	33%
2 years	67%
3 or more	100%

Participants who are not otherwise fully vested will become fully vested in all contributions upon attainment of age 55, death, total disability prior to termination of service or upon termination of the Plan. Certain participants of former employers acquired by the Company fall under other vesting schedules under which participants are immediately vested.

Participant Accounts

Each participant's account is credited with the participant's voluntary contributions, discretionary employer matching contributions, administrative expenses, if applicable, and an allocation of plan earnings. Plan earnings are allocated based on the underlying investments in a participant's account. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Payment of Benefits

The Plan provides for distribution of the vested balance of a participant's account to a participant, spouse or designated beneficiary upon reaching the normal retirement date, 59½ years of age, disability or death. All distributions are subject to the applicable provisions of the plan agreement.

Hardship Withdrawals

In accordance with a uniform and nondiscriminatory policy adopted by the plan administrator, a participant may withdraw a portion of his or her vested balance to meet immediate and heavy financial needs, subject to certain limitations outlined in the Plan.

Notes Receivable from Participants

The Plan allows a participant to borrow a minimum of \$1,000 and up to the lesser of \$50,000 or 50% of his or her vested account balance. The loan is secured by the participant's vested balance. Each loan bears interest at a fixed rate determined by the plan administrator and must be repaid to the Plan within a five year period, unless the loan is used for the purchase of a principal residence in which case the maximum repayment period may be ten years. Outstanding loans carry an interest rate which is commensurate with prevailing rates for similar loans at the time each loan was made and are repaid ratably through payroll deductions.

Participant notes receivable are stated at their unpaid balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as

administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016.

Investment Elections

Each participant shall direct the investment of his or her account. Participants may select from a selection of mutual funds or a money market fund.

Forfeitures

When termination of participation in the Plan occurs, the nonvested portion of the participant's account, as defined by the Plan, represents forfeitures. Forfeitures are utilized to pay administrative expenses or to reduce future discretionary employer matching contributions. As of December 31, 2017 and 2016, the Plan held \$48,788 and \$13,034, respectively, of forfeited nonvested amounts. For the years ended December 31, 2017 and 2016, forfeitures of \$15,000 and \$27,335 were used to reduce discretionary employer matching contributions.

Administration

The general administration of the Plan is governed by the Company. Loan, distribution and outside mutual fund fees are paid by the Plan. The Company pays for audit and legal fees and other administrative costs, if any. Any expenses paid by the Company and excluded from these financial statements.

2. Summary of Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

In preparing the financial statements in conformity with accounting principles generally accepted in the United States of America, the Plan's management is required to make estimates and assumptions that affect certain reported amounts of net assets available for benefits and changes therein and disclosures. Accordingly, actual amounts could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Shares held of mutual and money market funds traded on national security exchanges are valued at the net asset value as of December 31, 2017 and 2016.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded when earned. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes to Financial Statements

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Company has evaluated subsequent events through October 8, 2018, the date which the financial statements were available to be issued.

3. Fair Value Measurements

The Plan follows the guidance of ASC Topic 820, "Fair Value Measurement", which defines fair value and establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3).

The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level, within the fair value hierarchy, is based on the lowest level of any input that is significant to the fair value measurement.

The methods described in Note 2 may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes that its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Tax Status

The Plan uses a prototype plan document. The prototype plan received its latest opinion letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since the prototype plan received its opinion letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Notes to Financial Statements

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. Therefore no provision or liability for income taxes has been included in the financial statements.

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to amend, including discontinuing its contributions, or terminate the Plan at any time. Termination of the Plan will be subject to the provisions of ERISA. In the event of plan termination, participants will become fully vested in their accounts.

7. Party-In-Interest Transactions

Certain plan investments are shares of mutual funds managed by FMTC. The Plan also has notes receivable from participants, which are secured by the balances in the participants' accounts. These transactions qualify as party-in-interest transactions.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.
