Nite Ize, Inc. 401(k) Retirement Savings Plan

Notes to Financial Statements

1. PLAN DESCRIPTION

The following description of the Nite Ize, Inc. 401(k) Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan was adopted by Nite Ize, Inc. (the "Company") effective January 1, 2013, and was most recently amended and restated January 1, 2017. The Plan is a defined contribution plan covering eligible employees of the Company. The Plan was established under the provisions of Section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified deferred arrangement as described in Section 401(k) of the IRC, for the benefit of eligible employees. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Benefits under the Plan are not guaranteed by the Pension Benefit Guaranty Corporation.

Trustee, Former Custodian and Administration of the Plan

The trustees of the Plan are two officers of the Company ("Officers") and Reliance Trust Company ("Trustee"). Great-West Life & Annuity Insurance Company ("Great-West" or "Former Custodian") acted as custodian for the fixed-rate group annuity contract through September 29, 2017. The administrator of the Plan is the Company. T. Rowe Price Retirement Plan Services, Inc. ("T. Rowe Price") provides recordkeeping, administrative and related services to the Plan. The Company determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Eligibility

Each employee is eligible to become a participant in the Plan on the first day of the month following six months of service. Leased employees, reclassified employees, union employees and non-resident aliens are not eligible to participate in the Plan.

Contributions

Eligible participants may contribute, on a pre-tax or Roth after-tax basis, up to 100% of their qualifying annual compensation as elected in their salary deferral agreements. Participant contributions are subject to certain IRC limitations ($18,000 for 2017). The Plan also allows catch-up contributions for participants age 50 or over subject to certain IRC limitations ($6,000 for 2017). Salary deferral agreements shall be made, terminated or changed according to procedures and limitations set up by the plan administrator and the Plan Document.

The Plan Document provides for discretionary employer matching contribution. For the year ended December 31, 2017, the Company made a discretionary employer matching contribution of 100% of the first 3% of compensation deferred on an annual basis.

Rollover contributions transferred from other qualified retirement plans may also be made subject to certain criteria.

Participants' Accounts

Participants' accounts are credited with the participants' pretax, Roth and catch-up contributions, discretionary employer matching contributions, and rollover contributions, as well as an allocation of plan earnings or losses. Participants' accounts are charged with certain administrative fees that are paid by the Plan. Earnings or losses from investment funds are allocated to each participant's account in the proportion that the balance of each participant's account bears to the total balance of all participants in each investment option. Participants may direct the investment of their account balances into various mutual funds and a stable value common/collective trust fund and prior to October 1, 2016 into a fixed-rate group annuity contract offered by the Plan. The benefit to which participants are entitled is the vested portion of their accounts.

Vesting and Forfeitures

Participants are 100% vested in their participant deferral and rollover contributions and the allocated earnings thereon. Discretionary employer matching contributions are 100% vested after 3 years of service, as defined in the Plan Document. Participants are also fully vested upon reaching normal retirement age (65), death or disability.

Forfeitures of unvested accounts may be used to offset future employer contributions or pay Plan expenses. As of December 31, 2017 and 2016, forfeited non-vested accounts totaled $6,812 and $118, respectively. No forfeitures were used to pay Plan expenses or reduce employer contributions during the year ended December 31, 2017.

Payment of Benefits

Upon termination of service due to death, separation of service, attainment of normal retirement age (65), or disability, as defined, a participant may elect to receive his/her benefit payment in the form of a lump-sum amount equal to the vested portion of the participant's account balance, installment payments, remain in the Plan or may roll over the amount to another qualified retirement plan or individual retirement account. Hardship withdrawals and certain other in-service withdrawals are also allowed by the Plan if certain criteria are met.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The note is secured by the participant's account and bears an interest rate based upon prevailing commercial lending rates and is fixed for the term of the note. The note may be for a term of up to 5 years, and is subject to certain other restrictions, as defined by the Plan Document, and applicable restrictions under the IRC. Principal and interest are paid ratably through payroll deductions. Interest rates for the notes outstanding as of December 31, 2017 ranged from 4.50% to 5.25%.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan, subject to the provisions of ERISA.

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America ("GAAP") requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments (except for the fully benefit-responsive investment contract) are stated at fair value as further discussed in Note 4 – *Fair Value Measurements and Disclosures.* Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisors, the Former Custodian and Trustee.

Interest income is recorded as earned on the accrual basis. Dividend income and reinvested capital gains are recorded on the ex-dividend date. Purchases and sales are recorded on a trade-date basis. The net appreciation (depreciation) in the fair value of investments represents the realized and unrealized gains and losses on the investments and reinvested capital gains or losses.

Accounting for Fully Benefit-Responsive Investment Contracts with Insurance Companies

The Plan entered into the Key Guaranteed Portfolio Fund (the "Fund") with Great-West, which is a fixed-rate group annuity contract. The fund meets the fully benefit-responsive investment contract criteria and therefore is reported at contract value. Contract value is the relevant measure for fully benefit-responsive contracts because it is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. The Fund is a general account product and is credited with participant and employer contributions and earnings on the fund and charged for participant withdrawals and administrative expenses. The investment contract issuer is contractually obligated to pay the principal and specified interest rates guaranteed. The effective annual interest rate can never be less than 0% and interest earned is

compounded daily to the effective annual interest rate. The interest crediting rate is reset quarterly. The method for calculating the interest crediting rate is based on earnings of the underlying assets in the entire medium long-term portfolio compared to the minimum crediting rate, as stated in the contract, and prevailing market conditions.

Certain events could limit the ability of the Plan to transact at contract value, including but not limited to, premature termination of the contract by the Plan, layoffs, plan termination, bankruptcy, mergers, and early retirement incentives. This could cause a one-time adjustment to the aggregate contract value, resulting in a fair value different from the contract value. Great-West required a 12 month period to liquidate the Fund. The Plan notified Great-West of their intention to terminate the contract effective September 29, 2016. The contracts were liquidated by September 29, 2017. Fees to terminate were insignificant, therefore, contract value is deemed a reasonable basis for valuation.

Contributions

Participant contributions and any related discretionary employer matching contributions are recognized in the period during which the Company makes the respective payroll deduction from the participant's compensation. Contributions in excess of amounts allowed by the IRC are recorded as a liability with a corresponding reduction to contributions in the year the excess occurred.

Payment of Benefits

Benefit payments to participants are recorded upon distribution. There were no amounts allocated to accounts of persons who have elected to withdraw from the Plan but have not yet been paid as of year-end.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balance. Any accrued, but unpaid interest was de minimus. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses of the Plan

Fees (primarily loan origination and distribution fees) are charged directly to the participant's account and are included in administrative fees. Plan expenses of $17,759 were paid by the Plan during the year ended December 31, 2017. Under the service provider agreement with T. Rowe Price, certain revenue sharing rebates received from certain mutual funds held by the Plan reduce recordkeeping fees. Fees in excess of rebates are charged to the Plan. Investment related expenses (in the form of an expense ratio) are included in net appreciation of fair value of investments, and range from 0.04% to 5.81% for investments held at December 31, 2017. All other expenses of the Plan for the year ended December 31, 2017 were paid by the Company and have been excluded from these financial statements.

3. INFORMATION CERTIFIED BY THE PLAN'S TRUSTEE AND FORMER CUSTODIAN

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the United States Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee and Former Custodian have certified the following information included in the accompanying financial statements and supplemental schedule as complete and accurate:

- Investments as reported in the Statements of Net Assets Available for Plan Benefits as of December 31, 2017 and 2016;
- Investment income as reported on the Statement of Changes in Net Assets Available for Plan Benefits for the year ended December 31, 2017;
- Investment information included in the Notes to Financial Statements;
- All investment information included in the Supplemental Schedule, Form 5500, Schedule H, Part IV, Line 4i – Schedule of Assets (Held at End of Year) – As of December 31, 2017.

The Plan's independent auditors did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. FAIR VALUE MEASUREMENTS AND DISCLOSURES

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels. Level 1 inputs are the highest priority and consist of unadjusted quoted prices in active markets the Plan has the ability to access for identical assets and liabilities. Level 2 inputs are inputs other than quoted prices that are observable for the asset or liability, either directly or indirectly (quoted prices in active markets for similar assets and liabilities, quoted prices for identical or similar instruments in markets that are not active and model-derived valuations whose inputs are observable or whose significant value drivers are observable). Level 3 inputs are the lowest priority and are unobservable and significant to the fair value measurement of an asset or liability.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the valuation methodologies used at December 31, 2017 and 2016.

The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Cash Equivalents: Valued at $1 per unit, similar to a bank savings account and is fully liquid. The account is FDIC insured.

Stable Value Common/Collective Trust Fund: The T. Rowe Price fund is a stable value fund that is composed primarily of fully benefit-responsive investment contracts that is valued at the net asset value of the units of the bank collective trust. The net asset value is used as a practical expedient to estimate fair value. This practical expedient would not be used if it is determined to be probable that the fund will sell the investment for an amount different from the reported net asset value. Participant transactions (purchases and sales) may occur daily. If the Plan initiates a full redemption of the fund, the issuer reserves the right to require a 12 to 30 month notification in order to ensure that securities liquidations will be carried out in an orderly business manner.

The preceding methods described may produce a fair value calculation which may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis:

As of December 31, 2017	Level 1	Level 2	Level 3	Total
Mutual funds	**$ 3,552,026**	**$ -**	**$ -**	**$ 3,552,026**
Cash equivalents	**6,812**	**-**	**-**	**6,812**
Total assets in the fair value hierarchy	**$ 3,558,838**	**$ -**	**$ -**	**3,558,838**
Investments measured at net asset value (a)				**84,844**
Total investments, at fair value				**$ 3,643,682**

As of December 31, 2016	Level 1	Level 2	Level 3	Total
Mutual funds	$ 2,470,978	$ -	$ -	$ 2,470,978
Cash equivalents	118	-	-	118
Total assets in the fair value hierarchy	$ 2,471,096	$ -	$ -	2,471,096
Investments measured at net asset value (a)				59,917
Total investments, at fair value				$2,531,013

(a) In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Plan Benefits.

For the years ended December 31, 2017 and 2016, there were no transfers in or out of levels.

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient as of December 31, 2017 and 2016. There are no participant redemption restrictions for these investments; the redemption notice period, if any, is applicable only to the Plan:

Investment Type	*Fair Value – December 31, 2017*	*Fair Value – December 31, 2016*	*Unfunded Commitments*	*Redemption Frequency*	*Redemption Notice Period*
Stable Value/ Common Collective Trust	**$84,844**	$59,917	None	Daily	12-30 Months

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan invests in shares of mutual funds and units of a common/collective trust managed by an affiliate of the Trustee. Certain investment fees are paid to T. Rowe Price and reflected within the net investment income for the year as well as certain other indirect fees from mutual fund companies. The Plan invested in a fixed-rate group annuity contract managed by Great-West. Great-West is the Former Custodian, as defined by the Plan. The Plan also issues loans to participants that are secured by the vested balance of the participants' accounts and certain loan origination fees are paid to T. Rowe Price. As such, these transactions qualify as party-in-interest transactions, which are exempt from the prohibited transaction rules.

6. INCOME TAX STATUS

The Plan was amended and restated effective January 1, 2017, by adopting a DST Retirement Solutions, LLC Volume Submitter 401(k) Plan and Trust Document which received an advisory letter from the IRS dated June 1, 2015 indicating that it is designed in accordance with the applicable section of the IRC. The Company believes that the Plan, as amended and restated, is designed and currently being operated in compliance with the applicable requirements of the IRC, thus no provision for income taxes has been provided for in the accompanying financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no IRS examinations for any tax periods in progress.

7. CONCENTRATIONS, RISKS AND UNCERTAINTIES

The Plan invests in various investment securities which are exposed to various risks such as interest rate, market and credit risks. Additionally, the value, liquidity and related income of the investment securities are sensitive to changes in economic conditions, and may be adversely affected by shifts in the market perception of the issuers and changes in interest rates. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the Statements of Net Assets Available for Plan Benefits and participants' account balances. As of December 31, 2017, the T. Rowe Price Target 2025 Fund and the T. Rowe Price Target 2035 Fund individually represented more than 10% of investments held by the Plan. As of December 31, 2016, the T. Rowe Price Target 2025 Fund represented more than 10% of investments held by the Plan. See the Schedule of Assets (Held at End of Year) as of December 31, 2017 for a complete listing of investments held.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

Excess contributions refunded are reported net with participant contributions on the Statement of Changes in Net Assets Available for Plan Benefits as recommended by authoritative guidance; however, for Form 5500 purposes they are shown as a corrective distribution.

Participant loans are reported as notes receivable from participants in the accompanying financial statements as required by current authoritative guidance; however, for Form 5500 purposes and reporting on the supplemental Schedule of Assets (Held at End of Year) it is shown as an investment, as required.

9. SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 25, 2018, the date the financial statements were available to be issued. There were no events or transactions discovered during the evaluation that requires recognition or disclosure in the financial statements.
