Participants may also contribute, as rollovers, amounts representing distributions from other qualified defined benefit or defined contribution plans and certain individual retirement accounts. Participants direct the investment of Plan contributions into various investment options offered by the Plan.

The Company may elect to make a discretionary matching contribution to the Plan. The Company made a matching contribution equal to 20 percent of employee deferrals up to 4 percent of eligible compensation for the year ended December 31, 2017.

The Company may also elect to make discretionary profit sharing contributions to the Plan. The Company made a discretionary profit sharing contribution equal to 4 percent of eligible compensation for the year ended December 31, 2017.

Participant accounts: Each participant's account is credited with the participant's contributions, the Company's contributions, and an allocation of investment income, and is charged with an allocation of administrative expenses that are paid by the Plan and investment loss. Allocations are based on the participant's account balances, earnings or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are immediately vested in their participant and Company matching contributions and the earnings thereon. Company profit sharing contributions and the earnings thereon are subject to a vesting schedule based on years of continuous service. A participant is 50 percent vested after two years of credited service and is 100 percent vested after three years of credited service, upon attaining retirement (age 65) or early retirement (age 55) during the term of employment, or upon death or total and permanent disability.

Notes to Financial Statements

Note 1. Plan Description (Continued)

Notes receivable from participants: Participants may borrow from their vested fund accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balances. Note transactions are treated as transfers between the investment fund and the note account. Note terms range up to five years, or longer if the note proceeds are used for the purchase of a principal residence. The notes are secured by the balance in the participant's account and bear a fixed rate of interest. Interest rates at December 31, 2017, ranged from 5.25 percent to 6.50 percent. Principal and interest are paid ratably through regular payroll deductions or remitted directly by participants.

Payment of benefits: Upon termination of employment, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in the form of lump-sum or installment payments. The Plan also allows for in-service withdrawals at age 59½ or in the case of financial hardship, subject to certain restrictions. If the value of a participant's vested benefit is less than \$5,000, the benefit will be paid in a lump sum without the need for consent. Balances between \$1,000 and \$5,000, which are distributed without consent, are rolled over into an individual retirement account designated by the Plan Administrator.

Forfeitures: Forfeited nonvested accounts amounted to approximately \$1,500 and \$4,900 at December 31, 2017 and 2016, respectively. These accounts are used to pay Plan expenses and to reduce Company contributions to the Plan. During 2017, the Plan used approximately \$4,900 of forfeited nonvested accounts to reduce Company contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by investment advisors, the trustee, and other third parties. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default in accordance with Plan provisions, the participant note balance is reduced and a benefit payment is recorded.

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants are classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Line 4i—Schedule of assets (held at end of year).

Benefit payments: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain other administrative expenses are paid directly by the Plan. Certain asset management and administrative expenses of the Plan are charged against the Plan's investment results.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 2, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Newport Trust Company

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was derived from information prepared or provided by the trustee, Newport Trust Company, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule relating to the following assets:

	2017	2016
Investments, at fair value:		
Mutual funds	\$ 8,339,730	\$ 7,044,470
Collective trust fund	1,397,149	1,383,138
Notes receivable from participants	203,307	212,951

Newport Trust Company also certified to the completeness and accuracy of \$726,079 of net appreciation in fair value of investments, \$581,279 of interest and dividends related to the aforementioned investments and \$11,239 of interest on notes receivable from participants for the year ended December 31, 2017.

Note 4. Fair Value Measurements

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

L&M Radiator 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Mutual funds are valued based on publicly quoted active market prices of shares of funds held by the Plan at year-end.

Collective trust fund: The collective trust fund is a stable value fund that is composed primarily of fully benefit-responsive investment contracts and is valued at the net asset value (NAV) of units of the bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust fund, the fund advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain investments could result in a different fair value measurement at the reporting date.

Notes to Financial Statements

Note 4. Fair Value Measurements (Continued)

The following sets forth by level, within the fair value hierarchy, the Plan's investment assets carried at fair value as of December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 8,339,730	\$ -	\$ -	\$ 8,339,730
Investments measured at NAV (a)				1,397,149
Total investments at fair value				\$ 9,736,879

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 7,044,470	\$ -	\$ -	\$ 7,044,470
Investments measured at NAV (a)				1,383,138
Total investments at fair value				\$ 8,427,608

(a) Certain investments that were measured at NAV per share (or its equivalent as a practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following presents additional disclosures of the Plan's investments whose fair value is estimated using NAV per share as a practical expedient, when fair value is not readily determinable, as of December 31, 2017 and 2016:

	Fair Value Estimated Using NAV		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	Per Share as of December 31 2017	Per Share as of December 31 2016			
Collective trust fund	\$ 1,397,149	\$ 1,383,138	\$ -	Daily	None

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions to the Plan at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

L&M Radiator 401(k) Retirement Savings Plan

Notes to Financial Statements

Note 6. Income Tax Status

The Plan has adopted the Newport Retirement Services, Inc. Volume Submitter 401(k) Profit Sharing Plan. The Internal Revenue Service (IRS) has issued an opinion letter stating that the Newport Retirement Services, Inc. Volume Submitter 401(k) Profit Sharing Plan is acceptable under section 401 of the IRC. The opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Party-in-Interest Transactions

Newport Trust Company is the trustee of the Plan. Transactions with the aforementioned trustee qualify as party-in-interest transactions. The Newport Group provides administrative services. The Newport Group is the record keeper for the Plan; therefore, these transactions qualify as party-in-interest transactions. Administrative expenses consist of \$2,955 for fees paid to The Newport Group during 2017.

Certain administrative functions are performed by employees of the Company. No such employees receive compensation from the Plan.

Note 8. Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2017 statement of net assets available for benefits.

The notes are secured by the balance in the participant's account and bear a fixed rate of interest. Interest rates at December 31, 2017, ranged from 5.25 percent to 6.50 percent. Principal and interest are paid ratably through regular payroll deductions or remitted directly by participants.

Payment of benefits: Upon termination of employment, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in the form of lump-sum or installment payments. The Plan also allows for in-service withdrawals at age 59½ or in the case of financial hardship, subject to certain restrictions. If the value of a participant's vested benefit is less than \$5,000, the benefit will be paid in a lump sum without the need for consent. Balances between \$1,000 and \$5,000, which are distributed without consent, are rolled over into an individual retirement account designated by the Plan Administrator.

Forfeitures: Forfeited nonvested accounts amounted to approximately \$1,500 and \$4,900 at December 31, 2017 and 2016, respectively. These accounts are used to pay Plan expenses and to reduce Company contributions to the Plan. During 2017, the Plan used approximately \$4,900 of forfeited nonvested accounts to reduce Company contributions.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by investment advisors, the trustee, and other third parties. See Note 4 for a discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the Plan's gains and losses on investments bought and sold, as well as held, during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. If a participant ceases to make note repayments and the Plan Administrator deems the participant note to be in default in accordance with Plan provisions, the participant note balance is reduced and a benefit payment is recorded.

Note 2. Summary of Significant Accounting Policies (Continued)

Notes receivable from participants are classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Line 4i—Schedule of assets (held at end of year).

Benefit payments: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain other administrative expenses are paid directly by the Plan. Certain asset management and administrative expenses of the Plan are charged against the Plan's investment results.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 2, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified or Provided by Newport Trust Company

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was derived from information prepared or provided by the trustee, Newport Trust Company, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule relating to the following assets:

	2017	2016
Investments, at fair value:		
Mutual funds	\$ 8,339,730	\$ 7,044,470
Collective trust fund	1,397,149	1,383,138
Notes receivable from participants	203,307	212,951

Newport Trust Company also certified to the completeness and accuracy of \$726,079 of net appreciation in fair value of investments, \$581,279 of interest and dividends related to the aforementioned investments and \$11,239 of interest on notes receivable from participants for the year ended December 31, 2017.

Note 4. Fair Value Measurements

U.S. GAAP provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based upon the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Mutual funds are valued based on publicly quoted active market prices of shares of funds held by the Plan at year-end.

Collective trust fund: The collective trust fund is a stable value fund that is composed primarily of fully benefit-responsive investment contracts and is valued at the net asset value (NAV) of units of the bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it is determined to be probable that the Plan will sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust fund, the fund advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain investments could result in a different fair value measurement at the reporting date.

Note 4. Fair Value Measurements (Continued)

The following sets forth by level, within the fair value hierarchy, the Plan's investment assets carried at fair value as of December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 8,339,730	\$ -	\$ -	\$ 8,339,730
Investments measured at NAV (a)				1,397,149
Total investments at fair value				\$ 9,736,879

	Assets at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	\$ 7,044,470	\$ -	\$ -	\$ 7,044,470
Investments measured at NAV (a)				1,383,138
Total investments at fair value				\$ 8,427,608

(a) Certain investments that were measured at NAV per share (or its equivalent as a practical expedient) have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the statement of net assets available for benefits.

The following presents additional disclosures of the Plan's investments whose fair value is estimated using NAV per share as a practical expedient, when fair value is not readily determinable, as of December 31, 2017 and 2016:

	Fair Value Estimated Using NAV		Unfunded Commitment	Redemption Frequency	Redemption Notice Period
	Per Share as of December 31 2017	Per Share as of December 31 2016			
Collective trust fund	\$ 1,397,149	\$ 1,383,138	\$ -	Daily	None

Note 5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions to the Plan at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Note 6. Income Tax Status

The Plan has adopted the Newport Retirement Services, Inc. Volume Submitter 401(k) Profit Sharing Plan. The Internal Revenue Service (IRS) has issued an opinion letter stating that the Newport Retirement Services, Inc. Volume Submitter 401(k) Profit Sharing Plan is acceptable under section 401 of the IRC. The opinion letter has been relied upon by this Plan. The Plan Administrator believes the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC and, therefore, believes the Plan is qualified and the related trust is tax-exempt.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 7. Party-in-Interest Transactions

Newport Trust Company is the trustee of the Plan. Transactions with the aforementioned trustee qualify as party-in-interest transactions. The Newport Group provides administrative services. The Newport Group is the record keeper for the Plan; therefore, these transactions qualify as party-in-interest transactions. Administrative expenses consist of \$2,955 for fees paid to The Newport Group during 2017.

Certain administrative functions are performed by employees of the Company. No such employees receive compensation from the Plan.

Note 8. Risks and Uncertainties

The Plan invests in investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the 2017 statement of net assets available for benefits.
