1. Description of Plan

The following description of the Legacy Toyota 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established and made effective October 1, 1994 for the benefit of the employees of Legacy Toyota (the Company). The Plan and the Trust of which it is a part of are intended to satisfy all the requirements for a qualified retirement plan under the provisions of the Internal Revenue Code (IRC). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Company serves as the Plan's sponsor and administrator. The Plan's directed Custodian is Massachusetts Mutual Life Insurance Company (MassMutual).

Eligibility

The Plan covers all employees of the Company who have met the eligibility requirements described below. Eligible employees may begin to defer into the Plan on the first day of the Plan Year or the first day of the seventh month of the Plan Year coinciding with or following the date the eligibility requirements are satisfied. Participants who have completed one year of service and have reached age 21 are eligible to participate in the Plan.

Contributions

Each year, participants may contribute a percentage of pretax annual compensation, as defined in the Plan, limited by the provisions of the IRC. Participants who have attained age 50 before the end of the Plan year are eligible to make "catch up" contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans (rollover). Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds and a guaranteed interest account as investment options for participants. Employer contributions may be contributed at the discretion of the Company's management and are also invested directly into the investment options selected by the participants. Contributions are subject to certain Internal Revenue Service (IRS) limitations.

1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, the Company's contribution, Plan earnings, and charged with an allocation of investment and recordkeeping expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus the actual earnings thereon. Vesting in the employer's contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

The Plan does not allow for participant loans.

Payment of Benefits

On termination of service due to retirement, death, disability, or termination of employment, a participant may elect to receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. The amount may be distributed to the participant, or the designated beneficiary, as a lump-sum cash payment or rolled to another retirement plan. A single lump-sum distribution will be made to terminated participants whose vested balance is less than $5,000 without the participant's consent.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

Investments are reported at fair value (except for the fully benefit-responsive investment contract, which is reported at contract value). Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company. See Note 3 for additional discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded when received. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

The Plan has entered into a Guaranteed Interest Account (GIA) provided through a group annuity contract. Under the terms of the Contract, a crediting rate is established for amounts invested in the GIA and participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees. Contract value is also often referred to as "book value." MassMutual considers this investment option to be fully benefit responsive notwithstanding the contract provisions that limit the ability of the plan to transact at contract value when a market value event occurs, which is a fully benefit-responsive guaranteed investment contract with the Trustee.

Because the GIA is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the GIA. The GIA is presented on the face of the statement of net assets available for benefits at contract value.

Certain events may limit the ability of the Plan to transact at contract value. Such events include but may not be limited to a participant termination of employment due to: (1) removal of a group of participants from Plan coverage as a result of temporary absence; (2) change in position or other occurrence qualifying as a temporary break in service under the Plan; (3) transfer or other change of position resulting in employment by an entity controlling, controlled by, or under other common control with the employer; or (4) cessation of an employment relationship resulting from a reorganization, merger, layoff or the sale or discontinuance of all or any part of the plan sponsor's business. Such events also include removal from the Plan of one or more groups or classifications of participants, partial or complete Plan termination, or Plan disqualification. Consult the Plan's contract for further information.

2. Summary of Significant Accounting Policies (continued)

Operating Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of distributions to participants, if applicable, are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent Events

The Plan has evaluated subsequent events through August 27, 2018, the date the financial statements were available to be issued. During the period from December 31, 2017 to August 27, 2018, the Plan did not have any material recognizable subsequent events.

3. Fair Value Measurements

Framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability; and
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

3. Fair Value Measurements (continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017.

Pooled separate accounts: Valued at quoted end of day prices of similar securities in active markets.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017:

	Assets at Fair Value as of December 31, 2017			
	Level 1	**Level 2**	**Level 3**	**Total**
Pooled separate accounts	**$ -**	**$ 576,194**	**$ -**	**$ 576,194**
Total assets at fair value	**$ -**	**$ 576,194**	**$ -**	**$ 576,194**

4. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their entire account.

5. Tax Status

The Plan has received a favorable determination letter, dated March 30, 2012, from the IRS regarding the Plan's exemption from federal income tax under Section 501(a) of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan Administrator believes that the Plan is qualified as of December 31, 2017 and as such, no provision for income tax has been included in the Plan's financial statements.

5. Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2013.

6. Related Party Transactions and Party In Interest Transactions

Certain Plan investments are units of pooled separate accounts managed by MassMutual. MassMutual is the Custodian of the Plan and, therefore, these transactions qualify as party in interest transactions. Fees paid by the Plan for the investment management services amounted to $5,800 for the year ended December 31, 2017.

7. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Information Certified by Custodian

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information certified by MassMutual, except for comparing such information certified by the Custodian to information included in the Plan's financial statements and supplemental schedule.

MassMutual also certified to the completeness and accuracy of $78,069 of net appreciation in fair value of investments and $2,583 of interest income for the year ended December 31, 2017.
