Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Rowmark, LLC Retirement Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by Voya Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of December 31, 2017 and 2016, and for the year ended December 31, 2017, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Note 1–Description of Plan

The following description of Rowmark, LLC Retirement Plan (the Plan) provides only general information. Participants should refer to the plan agreement and plan amendments for a complete description of the plan's provisions.

General

The Plan is a defined contribution plan covering all full-time domestic employees of Rowmark, LLC, Premier Material Concepts LLC, Signcaster Corporation (dba Johnson Plastics), Laser Bits, Inc., and Bur-Lane, Inc. (collectively, the Company, Plan Sponsor) who have completed 30 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

During 2016, the parent company of Rowmark, LLC acquired Bur-Lane, Inc. The Plan was formally amended to accept the merger of the plan assets from the Bur-Lane, Inc. 401(k) Profit Sharing Plan and Trust effective January 1, 2017. On January 3, 2017, the Bur-Lane, Inc. 401(k) Profit Sharing Plan and Trust was merged into the Plan resulting in plan assets transferred of $2,994,501.

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant's account balances, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Contributions

The Plan provides for employee salary 401(k) contributions up to a maximum of 100% of compensation, as defined in the plan document, subject to maximum tax-deferred limitations established by the Internal Revenue Code in the form of Roth elective deferrals and pretax elective deferrals. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

The Plan automatically enrolls employees at a deferral rate of 3% of compensation, as defined in the plan document, upon meeting eligibility requirements to participate in the Plan unless the participant elects otherwise.

The Plan provides for employer matching contributions of 50% of the participant's contribution not to exceed 6% of the participant's deferral election following six months of service.

The Plan also allows, at the Company's sole discretion, a discretionary profit sharing contribution to the Plan on behalf of the participants who have completed at least 1,000 hours of service during the plan year and are employed by the Company on the last day of the plan year. There were no discretionary profit sharing contributions made during 2017.

Note 1–Description of Plan - continued

Vesting
Participants are immediately vested in employee salary and rollover contributions, and any income or loss thereon. Vesting in the Company's employer matching and employer discretionary profit sharing contributions portion of their accounts, plus actual earnings thereon, is based on years of service. Participants vest in Company contributions 25% after two years of service and an additional 25% for each year of service thereafter until they become fully vested after five years of service. Participants become fully vested, regardless of the vesting table, upon retirement, permanent disability, or death.

Forfeitures
If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future Company contributions or to pay administrative expenses of the Plan. Unused forfeitures as of December 31, 2017 and 2016 totaled $9,335 and $1,414, respectively. Forfeitures used to reduce Company contributions during the year ended December 31, 2017 totaled $24,759.

Benefit payments
Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount equal to the vested balance of a participant's account.

Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan agreement. The Company must approve any such hardship withdrawals. The Plan also permits in-service withdrawals by participants of their pretax and Roth contributions any time after attaining age 59 ½. The amount and frequency of these withdrawals must be in accordance with stipulations laid out in the plan document.

Notes receivable from participants
Participants may borrow the lesser of 50% of the vested value of their entire account, the total vested account balance up to $10,000 provided that additional security is given to the extent such note exceeds 50% of the vested account balance, or $50,000. Only one outstanding note receivable is permitted at any time and the note receivable repayment schedule can be no longer than 59 months or for less than $1,000. A notes receivable term may extend beyond five years if the notes receivable is used to acquire a dwelling unit which within a reasonable time, as determine at the time the notes receivable is made, will be used as the principal residence of the Participant. The interest rate is established based on an interest rate charged by a person in the business of lending money for notes receivable under similar circumstances. Notes receivable from participants are collateralized by the participant's account balance and bear interest at a market rate.

Plan termination
While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in the plan agreement and ERISA. Upon termination of the Plan, participants become 100% vested in their account balances.

Note 2–Summary of significant accounting policies

Basis of accounting
The accompanying financial statements are prepared on the accrual basis of accounting.

Valuation of investments and income recognition
The Plan's investments are stated at fair value with the exception of the Voya Fixed Account (a fully benefit-responsive investment contract) which is valued at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion and disclosures related to fair value measurements. Contract value is the relevant measure for fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividend income is recorded on the ex-dividend date. Net appreciation (depreciation) includes gains and losses on investments bought and sold as well as held during the year.

Excess contributions payable to participants
Amounts payable to participants for contributions in excess of amounts allowed by the Internal Revenue Service (IRS) are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2017 and 2016 excess contributions to applicable participants amounting to $30,475 and $26,888, respectively, prior to March 15 of the following plan year.

Benefit payments
Benefits are recorded when paid.

Administrative expenses
The Company pays the administrative expenses of the Plan, unless the expenses relate to specific investment directions of the participant. Administrative expenses that are paid by the Plan Sponsor are excluded from these financial statements. Fees related to the administration of notes receivable from participants and payments of benefits are charged directly to the participant's account and are included in administrative expenses.

Notes receivable from participants
Participant notes receivable are recorded at their unpaid principal balances plus any accrued but unpaid interest. Participant notes receivable are written off when deemed uncollectible.

Use of estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Note 2–Summary of significant accounting policies – continued

New accounting pronouncements

In May 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update No. 2015-07, Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent) (ASU 2015-07). ASU 2015-07 removes the requirement to categorize within the fair value hierarchy all investments for which the fair value is measured using the net asset value per share practical expedient. ASU 2015-07 also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. ASU 2015-07 should be applied retrospectively to all periods presented and is effective for annual periods beginning after December 15, 2016 with early adoption permitted. The Plan elected to early adopt the new guidance applicable to the Plan for the year ended December 31, 2016.

In August 2014, the FASB issued Accounting Standards Update No. 2014-15, Presentation of Financial Statements – Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern (ASU 2014-15). ASU 2014-15 defines management's responsibility to evaluate whether there is a substantial doubt about an organization's ability to continue as a going concern and to provide related footnote disclosures. In connection with preparing financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about an organization's ability to continue as a going concern within one year after the date that the financial statements are issued. ASU 2014-15 is effective for fiscal years ending after December 15, 2016. Management has performed this assessment as of the date these financial statements were issued and no going concern uncertainties were identified.

Note 3–Investments

Certain investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2017 and 2016, and net realized and unrealized appreciation (depreciation) in fair value of investments, interest, dividends and other for the year ended December 31, 2017, were obtained or derived from information supplied to the Plan Sponsor and certified by Voya Retirement Insurance and Annuity Company as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Such information has not been examined by independent auditors. Notes receivable from participants totaling $306,529 and $212,666 at December 31, 2017 and 2016, respectively, and the interest income from the notes receivable from participants totaling $10,884 for the year ended December 31, 2017 are not certified by Voya Retirement Insurance and Annuity Company.

Note 4–Fair value measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB Accounting Standards Codification Topic 820, Fair Value Measurement, are described as follows:

Level 1. Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2. Inputs to the valuation methodology include:

a. Quoted prices for similar assets or liabilities in active markets;

b. Quoted prices for identical or similar assets or liabilities in inactive markets;

c. Inputs other than quoted prices that are observable for the asset or liability;

d. Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3. Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts – valued based on the net asset value at which the mutual funds shares are actively traded. The net asset value, as provided by the custodian, is used as a practical expedient to estimate fair value.

In accordance with Subtopic 820-10, the pooled separate accounts that were measured at the net asset value per share (or its equivalent) are not classified in the fair value hierarchy table.

Note 4–Fair value measurements – continued

For investments in certain entities that calculate the NAV per share as the investment's fair value measurement, the following table provides an overview, by major classification, of the nature and risks associated with such investments as well as whether it is probable those investments being sold at amounts different from their reported net asset value per share based on redemption restrictions, if any.

Investment Category	2017 Fair Value	2016 Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Period Notice
Pooled separate accounts:					
Bonds[a]	$ 1,192,566	$ 1,027,476	$ –	Daily	1 Day
Asset allocation[b]	7,248,383	5,587,596	–	Daily	1 Day

Global/international[g]	2,522,760	1,932,590	–	Daily	1 Day
Conservative[h]	1,483	5,305	–	Daily	1 Day

(a) The pooled separate accounts in this category primarily seek to maximize total return through income and capital appreciation. The funds investment primarily in bonds.
(b) The pooled separate accounts in this category primarily seek a return that is identified in the funds' name or by the target retirement date identified by the funds. They invest in fixed-income, domestic and foreign equity and bonds according to an asset allocation strategy designed for investors have a retirement investment goal that aligns with the fund's name.
(c) The pooled separate accounts in this category primarily seek conservation of capital, current income and long-term growth of capital and income. The funds investment primarily in domestic and foreign equities and bonds.
(d) The pooled separate accounts in this category primarily seek long-term growth of capital and current income. The funds invest primarily in domestic and foreign equities.
(e) The pooled separate accounts in this category primarily seek long-term capital growth. The funds investment primarily in domestic equities.
(f) The pooled separate accounts in this category primarily seek long-term growth of capital and income. The funds invest primarily in domestic equities.
(g) The pooled separate accounts in this category seek long-term growth of capital through appreciation. The funds invest primarily in domestic and foreign equities.
(h) The pooled separate account in this category seeks to achieve maximum current income consistent with preservation of principal and liquidity. The fund investment in short-term money market instruments.

Note 5–Investment contracts

The Plan includes an account called the Voya Fixed Account as an investment option available to participants, which is a fully benefit-responsive investment contract. The account is credited with participant contributions plus earnings and charged for participant withdrawals and administrative expenses. Because the Fixed Account is fully benefit responsive, contract value is the relevant measure attribute for that portion of the net assets available for benefits as described in Note 2.

Investments of the Voya Fixed Account may periodically include GICs, typically issued by insurance companies and which provide for guarantees of interest and repayment of principal. An issuer of a GIC is contractually obligated to repay the principal and a specified interest rate or interest rate index that is guaranteed to the Plan. There are no reserves against contract value for credit risk of the contract issuer. The crediting interest rate is based on a formula agreed upon with the issuer, but may not be less than 0%. Such interest rates are reviewed and may be reset on a monthly basis.

Note 5–Investment contracts – continued

Certain events limit the ability of the Plan to transact at contract value with the insurance company and the financial institution issuer. Such events include (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that the occurrence of any such events that would limit the Plan's ability to transact at contract value with participants is probable.

GICs do not permit the insurance company to terminate the agreement prior to the scheduled maturity date. If an event of default occurs and is not cured, the non-defaulting party may terminate the contract. The following may cause the Plan to be in default:

- A breach of material obligation under the contract
- A material misrepresentation
- A material amendment to the Plan agreement

The issuer may be in default if it breaches a material obligation under the investment contract, makes a material misrepresentation, or is acquired or reorganized and the successor issuer does not satisfy the investment or credit guidelines applicable to issuers. If, in the event of default of an issuer, the Plan was unable to obtain a replacement investment contract, withdrawing participants may experience losses if the value of the Plan's assets no longer covered by the contract is below contract value. The Plan may seek to add additional issuers over time to diversify the Plan's exposure to such risk, but there is no assurance the Plan may be able to do so. The combination of the default of an issuer and an inability to obtain a replacement agreement could render the Plan unable to achieve its objective of maintaining a stable contract value.

The terms of an investment contract generally provide for settlement of payments only upon termination of the contract or total liquidation of the covered investments. Generally, payments will be made pro rata, based on the percentage of investments covered by each issuer. Contract termination occurs whenever the contract value or market value of the covered investments reaches zero or upon certain events of default. If the contract terminates due to issuer default, the issuer will generally be required to pay to the Plan the excess, if any, of contract value over market value on the date of termination. Contract termination also may occur by the Trust upon election and notice. In certain limited circumstances, contract termination by the issuer may also occur but with the Trust retaining the right to require that the contract will remain in force under original terms over a period of time as underlying assets mature and are repaid.

	2017	2016
Average yields:		
Based on actual earnings	3.83 %	1.37 %
Based on interest rate credited to participants	1.05 %	1.05 %

Note 6–Party-in-interest transactions

Certain plan assets are in units of pooled separate accounts, and an unallocated insurance contract managed by Voya Retirement Insurance and Annuity Company or its affiliates. Voya Retirement Insurance and Annuity Company is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. The Plan made direct payments to Voya Retirement Insurance and Annuity Company of $16,834.

Note 7–Tax status

The Plan has received a determination letter dated March 30, 2012, from the IRS indicating that the Plan, as designed, is qualified for tax-exempt treatment under the applicable section of the Internal Revenue Code. Although, the Plan has been amended since receiving the determination letter, management believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements.

Note 8–Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 9–Subsequent events

The financial statements and related disclosures include evaluation of events up through and including October 3, 2018, which is the date the financial statements were available to be issued.

On July 24, 2018, plan participants that were employees of Premier Material Concepts were transferred into a separate retirement plan. This resulted in plan assets transferred of approximately $2,902,000.
