NOTE 1 – DESCRIPTION OF PLAN

KATAR Holdings 401(k) Profit Sharing Plan (the “Plan”) is a retirement savings plan designed to invest voluntary employee contributions, safe harbor employer matching contributions, and discretionary matching employer contributions for the benefit of the participating employees. The following description of the Plan provides only general information. Participants should refer to the Plan document for a more complete description of the Plan’s provisions.

General

The Plan was formed on July 31, 2015 as a defined contribution retirement savings plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The assets of the Plan are held by Capital Bank and Trust (the “Custodian”). All employees of KATAR Holdings, Inc. (the “Company” or “Plan Sponsor”), not subject to a collective bargaining arrangement, are eligible to participate in the Plan as of the first enrollment date after completing one year of continuous service and attaining the age of 21. The Plan offers enrollment dates twice a year, on January 1 and July 1.

Contributions

A participant may contribute either their pre-tax and/or post-tax annual compensation, as defined in the Plan, up to the annual Internal Revenue Service (“IRS”) dollar limit. The Company makes safe harbor matching contributions equal to 100% of the first 3% and 50% of the next 2% of active participants’ compensation contributed to the Plan. The Company may also make discretionary matching contributions. No discretionary matching contributions were made for the year then ended December 31, 2017.

If a participant reaches age 50 during the calendar year and is making the maximum Plan or IRS pre-tax contribution, they may make an additional “catch-up” contribution each pay period, up to the annual IRS dollar limit.

Participant Accounts

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accounting records of the Plan are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and related notes to the financial statements. Actual results could differ from those estimates.

Fair Value of Financial Instruments

Fair value estimates are made at a specific point in time based on relevant market information about the financial instrument. These estimates are subjective in nature and involve uncertainties and matters of significant judgment and, therefore, cannot be determined with precision. Changes in assumptions could significantly affect the estimates.

Investment Valuation

The Plan's investments are stated at fair value.

Investment income consists of interest and dividend income. The net appreciation in the fair value of investments consists of realized gains and the unrealized appreciation on those investments. Purchases and sales of securities are recorded on a trade-date basis. Realized gains and losses from security transactions are reported based on historical cost.

Payment of Benefits

Benefits are recorded when paid.

Income Taxes

Under the Income Taxes Topic of the Financial Accounting Standards Board Accounting Standards Codification, Plan management is required to identify potential uncertain tax positions taken, assess and quantify those positions and record reserves. As of December 31, 2017 and 2016 and for the year ended December 31, 2017, Plan management has identified no uncertain tax positions. The Plan files the United States federal Form 5500 annually.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Subsequent Events

The Plan has evaluated subsequent events through October 5, 2018, the date the financial statements were available to be issued.

NOTE 4 – INVESTMENTS

The Plan's investments are participant-directed accounts invested in registered investment companies held by the Custodian.

Fair value is a market-based measurement that is determined based on assumptions that market participants would use in pricing an asset or liability. As a basis for considering such assumptions, the Plan uses a three-tier fair value hierarchy, which prioritizes the inputs used in measuring fair value as follows:

- Level 1 – Observable inputs such as quoted prices in active markets;
- Level 2 – Inputs, other than the quoted prices in active markets, that are observable either directly or indirectly; and
- Level 3 – Unobservable inputs in which there is little or no market data, which require the reporting entity to develop its own assumptions

The classification of fair value measurements within the hierarchy is based upon the lowest level of input that is significant to the measurement. Valuation methodologies used for assets and liabilities measured at fair value are as follows:

- Registered investment companies: Valued based on quoted prices in the active market.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31:

2017				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 525,007	\$ -	\$ -	\$ 525,007
2016				
	Level 1	Level 2	Level 3	Total
Registered investment companies	\$ 290,634	\$ -	\$ -	\$ 290,634
