INDEPENDENT AUDITOR'S REPORT

To the Plan Committee of
Stress Engineering Services, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Stress Engineering Services, Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Stress Engineering Services, Inc. Employee Stock Ownership Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

6002 Rogerdale, Ste. 200 Houston, Texas 77072 Tel 281-759-1120 Fax 281-759-5500

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2017, and the supplemental schedule H, line 4j - schedule of reportable transactions for the year ended December 31, 2017 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

STRESS ENGINEERING SERVICES, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Stress Engineering Services, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan covering all eligible employees, except commission-only employees, of Stress Engineering Services, Inc. ("SES"), Stress Offshore, Inc., Stress Subsea, Inc., and Stress Engineering and Construction, Inc. (collectively, the "Company"). Full-time employees are eligible to participate in the Plan upon the attainment of age 21. Part-time employees must attain the age of 21 and complete 1,000 hours of service in a plan year to be eligible to participate. Participation in the Plan is automatic upon satisfaction of eligibility requirements. The Plan was established as an employee stock ownership plan pursuant to Sections 501(a) and 4975(e)(7) of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Plan Committee (the "Committee"), which is appointed by the Board of Directors of the Company ("Board of Directors").

Contributions

The Company may make a discretionary contribution that is nonparticipant directed and allocated to participants according to the ratio that each participant's eligible compensation for the plan year bears to the total eligible compensation of all eligible participants. Participants are eligible to receive the contribution upon the completion of 1,000 hours of service in a plan year. Participants terminated as a result of retirement, disability, or death, are also eligible to receive the contribution. The Company's contribution is paid in cash or shares of Company stock valued at fair value, as determined by an independent appraiser. A discretionary contribution of $629,320 was committed by the Company and allocated among eligible participant accounts for the year ended December 31, 2017, all of which was received by the Plan in February 2018. There are no participant contributions in the Plan and no participant-directed investments.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with allocations of (a) Company contributions, (b) participant forfeitures, and (c) Plan earnings. Allocations are based on the participant's eligible compensation or investment account balance, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Voting Rights

The Committee directs the Plan trustee regarding votes on behalf of Plan participants, except with respect to certain major corporate events where participants/beneficiaries are entitled to direct the trustee.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Vesting in the Company's contributions plus earnings thereon is based on years of continuous service. A participant must complete 1,000 hours of service during a plan year to qualify for a year of service and count toward vesting. Participants hired on or before January 1, 2005 are 20% vested after one year of service and vest an additional 20% each year, becoming 100% vested after five years of service. Participants hired after January 1, 2005, with no credited hours of service after January 1, 2007, are 20% vested after three years of service and vest an additional 20% each year, becoming 100% vested after seven years of service. Participants hired after January 1, 2005, with at least one credited hour of service after January 1, 2007, are 20% vested after two years of service and vest an additional 20% each year, becoming 100% vested after six years of service. A participant shall become immediately vested upon death, retirement, or permanent and total disability.

Put Option

Under federal income tax regulations, the employer stock, which is held by the Plan and its participants and is not readily tradable on an established market, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The purpose of the put option is to ensure that the participants have the ability to ultimately obtain cash.

Forfeitures

When certain terminations of participation occur, the nonvested portion of the participant's account, as defined by the Plan, represents forfeitures. Forfeitures are applied in the year in which the forfeiture occurs and can be used to reinstate the nonvested account of a rehired employee and then are allocated to participant accounts in the same manner as Company contributions or pay the Plan's administrative expenses. There was no forfeiture balance at December 31, 2017 or 2016. During 2017, forfeitures of $309,851 were allocated to participant accounts. There were no forfeitures used to reinstate the nonvested account of a rehired employee or pay Plan administrative expenses during 2017.

Payment of Benefits

Normal retirement age under the Plan is 65. Early retirement is the attainment of age 60 and the completion of five years of participation in the Plan and 20 years of service with the Company. Terminated participants due to death, retirement, or disability, and terminated participants with vested account balances of less than $20,000 receive a lump-sum distribution. Terminated participants with vested account balances over $20,000 receive a distribution in three annual installments. The distribution of the participant's common stock account may be increased by one year, up to five additional years, for each $205,000 over $1,035,000, adjusted for cost-of-living. Distributions are paid in stock or cash.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Upon the attainment of age 55 and completion of ten years of participation in the Plan, a participant may direct the investment of up to 25% of the participant's Company stock account, less shares previously diversified, for five years and up to 50% in the sixth year. During 2017, certain participants met the requirements and elected to diversify approximately 4,892 shares of common stock valued at $1,673,220.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on the trade date. Interest income is recorded as earned on the accrual basis. S corporation distributions are recorded on the ex-distribution date.

Net depreciation in fair value of investments consists of the net change in unrealized depreciation, determined by using the fair value of the investments as of the beginning of the year or the purchase price, if acquired since that date, and the fair value of the investments as of the end of the year. The Committee received an opinion from an independent appraiser that the fair value of the Company common stock was $316 and $342 per share at December 31, 2017 and 2016, respectively.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain administrative expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Federal Income Taxes

The Plan obtained its latest determination letter on December 30, 2014, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan to determine if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Recent Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement* (Topic 820), *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 modifies the disclosure requirements on fair value measurements in Topic 820. The guidance is effective for annual reporting periods beginning after December 15, 2019. Early adoption is permitted. Management is currently evaluating the impact ASU 2018-13 will have on the Plan's financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Money Market Fund: A mutual fund comprised of Treasury bills, bonds, and other obligations issued or guaranteed by the U.S. Treasury and repurchase agreements collateralized by such obligations. The fund is valued at net asset value (NAV), which is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The fund seeks to maintain a stable NAV of $1.

Commercial Account: Comprised of a federally insured demand deposit account valued at deposits received less distributions paid.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Common Stock: Valued by an independent appraiser, based on discussions with management, the Company's historical performance, industry trends, capitalized cash flow analysis, market - comparable companies' analysis, and other information.

Annually, the Committee selects the appraiser. After the valuation is completed, the Committee and the Plan's independent fiduciary review the valuation report and discuss the processes and procedures used by the appraiser. The Committee performs the final approval of the appraiser's valuation report on the fair value of the Company's stock, which is documented in the Committee's minutes. The Board of Directors sets the stock price for the Plan year's stock transactions. Additionally, the independent appraiser may be retained to revalue the common stock, at any time, based on perceived material events or at the request of the Board of Directors or by an independent fiduciary retained by the Board of Directors to conduct a major stock sale.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2017 or 2016.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

	2017			
Description	Level 1	Level 2	Level 3	Total
Common Stock			$52,632,644	$52,632,644
Money Market Fund	$ 4			4
Commercial Account	2,684,002			2,684,002
Total investments at fair value	$2,684,006		$52,632,644	$55,316,650

	2016			
Description	Level 1	Level 2	Level 3	Total
Common Stock			$54,789,426	$54,789,426
Money Market Fund	$ 4			4
Commercial Account	4,953,808			4,953,808
Total investments at fair value	$4,953,812		$54,789,426	$59,743,238

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2017:

	Common Stock
Balance, beginning of year	$54,789,426
Purchases	2,173,753
Unrealized loss included in net depreciation in fair value of investments in the statement of changes in net assets available for benefits	(4,330,535)
Balance, end of year	$52,632,644
Total losses included in change in net assets due to the change in unrealized loss relating to assets held at the reporting date and included in net depreciation in fair value of investments in the statement of changes in net assets available for benefits	$(4,330,535)

NOTE 4 - PARTY-IN-INTEREST TRANSACTIONS

Plan investments include common stock of SES. SES is the employer, administrator, and sponsor of the Plan. At December 31, 2017 and 2016, the Plan held 166,559 and 160,203 shares of common stock of SES, respectively. During the year ended December 31, 2017, the Plan recorded $2,308,259 in S corporation distributions from common stock of SES. These transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan is subject to a concentration of credit risk from cash deposits in the commercial account being in excess of federally insured limits. The plan administrator places this cash with a financial institution that is considered a high quality financial institution by the plan administrator. At times, such cash deposits may be in excess of federally insured limits, from which the excess cash may be transferred to the money market fund.

The Plan has a concentration of risk in its investment in SES's common stock. Thus, the Plan's performance is dependent upon the financial viability of SES, as well as the volatility of the valuation of SES's common stock. In general, such investments are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 6 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 26, 2018, the date the financial statements were available to be issued.

INDEPENDENT AUDITOR'S REPORT

To the Plan Committee of
Stress Engineering Services, Inc. Employee Stock Ownership Plan

Report on the Financial Statements

We have audited the accompanying financial statements of Stress Engineering Services, Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Stress Engineering Services, Inc. Employee Stock Ownership Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

6002 Rogerdale, Ste. 200 Houston, Texas 77072 Tel 281-759-1120 Fax 281-759-5500

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2017, and the supplemental schedule H, line 4j - schedule of reportable transactions for the year ended December 31, 2017 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

STRESS ENGINEERING SERVICES, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Stress Engineering Services, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan covering all eligible employees, except commission-only employees, of Stress Engineering Services, Inc. ("SES"), Stress Offshore, Inc., Stress Subsea, Inc., and Stress Engineering and Construction, Inc. (collectively, the "Company"). Full-time employees are eligible to participate in the Plan upon the attainment of age 21. Part-time employees must attain the age of 21 and complete 1,000 hours of service in a plan year to be eligible to participate. Participation in the Plan is automatic upon satisfaction of eligibility requirements. The Plan was established as an employee stock ownership plan pursuant to Sections 501(a) and 4975(e)(7) of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Plan Committee (the "Committee"), which is appointed by the Board of Directors of the Company ("Board of Directors").

Contributions

The Company may make a discretionary contribution that is nonparticipant directed and allocated to participants according to the ratio that each participant's eligible compensation for the plan year bears to the total eligible compensation of all eligible participants. Participants are eligible to receive the contribution upon the completion of 1,000 hours of service in a plan year. Participants terminated as a result of retirement, disability, or death, are also eligible to receive the contribution. The Company's contribution is paid in cash or shares of Company stock valued at fair value, as determined by an independent appraiser. A discretionary contribution of $629,320 was committed by the Company and allocated among eligible participant accounts for the year ended December 31, 2017, all of which was received by the Plan in February 2018. There are no participant contributions in the Plan and no participant-directed investments.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with allocations of (a) Company contributions, (b) participant forfeitures, and (c) Plan earnings. Allocations are based on the participant's eligible compensation or investment account balance, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Voting Rights

The Committee directs the Plan trustee regarding votes on behalf of Plan participants, except with respect to certain major corporate events where participants/beneficiaries are entitled to direct the trustee.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Vesting in the Company's contributions plus earnings thereon is based on years of continuous service. A participant must complete 1,000 hours of service during a plan year to qualify for a year of service and count toward vesting. Participants hired on or before January 1, 2005 are 20% vested after one year of service and vest an additional 20% each year, becoming 100% vested after five years of service. Participants hired after January 1, 2005, with no credited hours of service after January 1, 2007, are 20% vested after three years of service and vest an additional 20% each year, becoming 100% vested after seven years of service. Participants hired after January 1, 2005, with at least one credited hour of service after January 1, 2007, are 20% vested after two years of service and vest an additional 20% each year, becoming 100% vested after six years of service. A participant shall become immediately vested upon death, retirement, or permanent and total disability.

Put Option

Under federal income tax regulations, the employer stock, which is held by the Plan and its participants and is not readily tradable on an established market, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The purpose of the put option is to ensure that the participants have the ability to ultimately obtain cash.

Forfeitures

When certain terminations of participation occur, the nonvested portion of the participant's account, as defined by the Plan, represents forfeitures. Forfeitures are applied in the year in which the forfeiture occurs and can be used to reinstate the nonvested account of a rehired employee and then are allocated to participant accounts in the same manner as Company contributions or pay the Plan's administrative expenses. There was no forfeiture balance at December 31, 2017 or 2016. During 2017, forfeitures of $309,851 were allocated to participant accounts. There were no forfeitures used to reinstate the nonvested account of a rehired employee or pay Plan administrative expenses during 2017.

Payment of Benefits

Normal retirement age under the Plan is 65. Early retirement is the attainment of age 60 and the completion of five years of participation in the Plan and 20 years of service with the Company. Terminated participants due to death, retirement, or disability, and terminated participants with vested account balances of less than $20,000 receive a lump-sum distribution. Terminated participants with vested account balances over $20,000 receive a distribution in three annual installments. The distribution of the participant's common stock account may be increased by one year, up to five additional years, for each $205,000 over $1,035,000, adjusted for cost-of-living. Distributions are paid in stock or cash.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Upon the attainment of age 55 and completion of ten years of participation in the Plan, a participant may direct the investment of up to 25% of the participant's Company stock account, less shares previously diversified, for five years and up to 50% in the sixth year. During 2017, certain participants met the requirements and elected to diversify approximately 4,892 shares of common stock valued at $1,673,220.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on the trade date. Interest income is recorded as earned on the accrual basis. S corporation distributions are recorded on the ex-distribution date.

Net depreciation in fair value of investments consists of the net change in unrealized depreciation, determined by using the fair value of the investments as of the beginning of the year or the purchase price, if acquired since that date, and the fair value of the investments as of the end of the year. The Committee received an opinion from an independent appraiser that the fair value of the Company common stock was $316 and $342 per share at December 31, 2017 and 2016, respectively.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain administrative expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Federal Income Taxes

The Plan obtained its latest determination letter on December 30, 2014, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan to determine if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Recent Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement* (Topic 820), *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 modifies the disclosure requirements on fair value measurements in Topic 820. The guidance is effective for annual reporting periods beginning after December 15, 2019. Early adoption is permitted. Management is currently evaluating the impact ASU 2018-13 will have on the Plan's financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Money Market Fund: A mutual fund comprised of Treasury bills, bonds, and other obligations issued or guaranteed by the U.S. Treasury and repurchase agreements collateralized by such obligations. The fund is valued at net asset value (NAV), which is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The fund seeks to maintain a stable NAV of $1.

Commercial Account: Comprised of a federally insured demand deposit account valued at deposits received less distributions paid.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Common Stock: Valued by an independent appraiser, based on discussions with management, the Company's historical performance, industry trends, capitalized cash flow analysis, market - comparable companies' analysis, and other information.

Annually, the Committee selects the appraiser. After the valuation is completed, the Committee and the Plan's independent fiduciary review the valuation report and discuss the processes and procedures used by the appraiser. The Committee performs the final approval of the appraiser's valuation report on the fair value of the Company's stock, which is documented in the Committee's minutes. The Board of Directors sets the stock price for the Plan year's stock transactions. Additionally, the independent appraiser may be retained to revalue the common stock, at any time, based on perceived material events or at the request of the Board of Directors or by an independent fiduciary retained by the Board of Directors to conduct a major stock sale.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2017 or 2016.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

	2017			
Description	Level 1	Level 2	Level 3	Total
Common Stock			$52,632,644	$52,632,644
Money Market Fund	$ 4			4

Total investments at fair value	$2,684,006		$52,632,644	$55,316,650

	2016			
Description	Level 1	Level 2	Level 3	Total
Common Stock			$54,789,426	$54,789,426
Money Market Fund	$ 4			4
Commercial Account	4,953,808			4,953,808
Total investments at fair value	$4,953,812		$54,789,426	$59,743,238

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2017:

	Common Stock
Balance, beginning of year	$54,789,426
Purchases	2,173,753
Unrealized loss included in net depreciation in fair value of investments in the statement of changes in net assets available for benefits	(4,330,535)
Balance, end of year	$52,632,644
Total losses included in change in net assets due to the change in unrealized loss relating to assets held at the reporting date and included in net depreciation in fair value of investments in the statement of changes in net assets available for benefits	$(4,330,535)

NOTE 4 - PARTY-IN-INTEREST TRANSACTIONS

Plan investments include common stock of SES. SES is the employer, administrator, and sponsor of the Plan. At December 31, 2017 and 2016, the Plan held 166,559 and 160,203 shares of common stock of SES, respectively. During the year ended December 31, 2017, the Plan recorded $2,308,259 in S corporation distributions from common stock of SES. These transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan is subject to a concentration of credit risk from cash deposits in the commercial account being in excess of federally insured limits. The plan administrator places this cash with a financial institution that is considered a high quality financial institution by the plan administrator. At times, such cash deposits may be in excess of federally insured limits, from which the excess cash may be transferred to the money market fund.

The Plan has a concentration of risk in its investment in SES's common stock. Thus, the Plan's performance is dependent upon the financial viability of SES, as well as the volatility of the valuation of SES's common stock. In general, such investments are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 6 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 26, 2018, the date the financial statements were available to be issued.

Report on the Financial Statements

We have audited the accompanying financial statements of Stress Engineering Services, Inc. Employee Stock Ownership Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Stress Engineering Services, Inc. Employee Stock Ownership Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule H, line 4i - schedule of assets (held at end of year) as of December 31, 2017, and the supplemental schedule H, line 4j - schedule of reportable transactions for the year ended December 31, 2017 are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

STRESS ENGINEERING SERVICES, INC.
EMPLOYEE STOCK OWNERSHIP PLAN
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE 1 - DESCRIPTION OF THE PLAN

The following description of the Stress Engineering Services, Inc. Employee Stock Ownership Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is an employee stock ownership plan covering all eligible employees, except commission-only employees, of Stress Engineering Services, Inc. ("SES"), Stress Offshore, Inc., Stress Subsea, Inc., and Stress Engineering and Construction, Inc. (collectively, the "Company"). Full-time employees are eligible to participate in the Plan upon the attainment of age 21. Part-time employees must attain the age of 21 and complete 1,000 hours of service in a plan year to be eligible to participate. Participation in the Plan is automatic upon satisfaction of eligibility requirements. The Plan was established as an employee stock ownership plan pursuant to Sections 501(a) and 4975(e)(7) of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan is administered by the Plan Committee (the "Committee"), which is appointed by the Board of Directors of the Company ("Board of Directors").

Contributions

The Company may make a discretionary contribution that is nonparticipant directed and allocated to participants according to the ratio that each participant's eligible compensation for the plan year bears to the total eligible compensation of all eligible participants. Participants are eligible to receive the contribution upon the completion of 1,000 hours of service in a plan year. Participants terminated as a result of retirement, disability, or death, are also eligible to receive the contribution. The Company's contribution is paid in cash or shares of Company stock valued at fair value, as determined by an independent appraiser. A discretionary contribution of $629,320 was committed by the Company and allocated among eligible participant accounts for the year ended December 31, 2017, all of which was received by the Plan in February 2018. There are no participant contributions in the Plan and no participant-directed investments.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with allocations of (a) Company contributions, (b) participant forfeitures, and (c) Plan earnings. Allocations are based on the participant's eligible compensation or investment account balance, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Voting Rights

The Committee directs the Plan trustee regarding votes on behalf of Plan participants, except with respect to certain major corporate events where participants/beneficiaries are entitled to direct the trustee.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Vesting

Vesting in the Company's contributions plus earnings thereon is based on years of continuous service. A participant must complete 1,000 hours of service during a plan year to qualify for a year of service and count toward vesting. Participants hired on or before January 1, 2005 are 20% vested after one year of service and vest an additional 20% each year, becoming 100% vested after five years of service. Participants hired after January 1, 2005, with no credited hours of service after January 1, 2007, are 20% vested after three years of service and vest an additional 20% each year, becoming 100% vested after seven years of service. Participants hired after January 1, 2005, with at least one credited hour of service after January 1, 2007, are 20% vested after two years of service and vest an additional 20% each year, becoming 100% vested after six years of service. A participant shall become immediately vested upon death, retirement, or permanent and total disability.

Put Option

Under federal income tax regulations, the employer stock, which is held by the Plan and its participants and is not readily tradable on an established market, includes a put option. The put option is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair value of the stock. The purpose of the put option is to ensure that the participants have the ability to ultimately obtain cash.

Forfeitures

When certain terminations of participation occur, the nonvested portion of the participant's account, as defined by the Plan, represents forfeitures. Forfeitures are applied in the year in which the forfeiture occurs and can be used to reinstate the nonvested account of a rehired employee and then are allocated to participant accounts in the same manner as Company contributions or pay the Plan's administrative expenses. There was no forfeiture balance at December 31, 2017 or 2016. During 2017, forfeitures of $309,851 were allocated to participant accounts. There were no forfeitures used to reinstate the nonvested account of a rehired employee or pay Plan administrative expenses during 2017.

Payment of Benefits

Normal retirement age under the Plan is 65. Early retirement is the attainment of age 60 and the completion of five years of participation in the Plan and 20 years of service with the Company. Terminated participants due to death, retirement, or disability, and terminated participants with vested account balances of less than $20,000 receive a lump-sum distribution. Terminated participants with vested account balances over $20,000 receive a distribution in three annual installments. The distribution of the participant's common stock account may be increased by one year, up to five additional years, for each $205,000 over $1,035,000, adjusted for cost-of-living. Distributions are paid in stock or cash.

NOTE 1 - DESCRIPTION OF THE PLAN (CONTINUED)

Upon the attainment of age 55 and completion of ten years of participation in the Plan, a participant may direct the investment of up to 25% of the participant's Company stock account, less shares previously diversified, for five years and up to 50% in the sixth year. During 2017, certain participants met the requirements and elected to diversify approximately 4,892 shares of common stock valued at $1,673,220.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their accounts.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investments

Investments are reported at fair value, which is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements. Purchases and sales of securities are recorded on the trade date. Interest income is recorded as earned on the accrual basis. S corporation distributions are recorded on the ex-distribution date.

Net depreciation in fair value of investments consists of the net change in unrealized depreciation, determined by using the fair value of the investments as of the beginning of the year or the purchase price, if acquired since that date, and the fair value of the investments as of the end of the year. The Committee received an opinion from an independent appraiser that the fair value of the Company common stock was $316 and $342 per share at December 31, 2017 and 2016, respectively.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Expenses

Certain administrative expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements.

NOTE 2 - SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Federal Income Taxes

The Plan obtained its latest determination letter on December 30, 2014, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. Therefore, contributions to the Plan and earnings from its assets are not currently taxable to the Plan or its participants.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan to determine if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Recent Accounting Pronouncement

In August 2018, the Financial Accounting Standards Board issued Accounting Standards Update ("ASU") 2018-13, *Fair Value Measurement* (Topic 820), *Disclosure Framework - Changes to the Disclosure Requirements for Fair Value Measurement*. ASU 2018-13 modifies the disclosure requirements on fair value measurements in Topic 820. The guidance is effective for annual reporting periods beginning after December 15, 2019. Early adoption is permitted. Management is currently evaluating the impact ASU 2018-13 will have on the Plan's financial statements.

NOTE 3 - FAIR VALUE MEASUREMENTS

Various inputs are used in determining the fair value of the Plan's investments. Valuation techniques used to measure fair value must maximize the use of observable inputs and minimize the use of unobservable inputs. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. The three levels of the fair value hierarchy, including the types of Plan investments that fall under each category and the valuation methodologies used to measure fair value, are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Money Market Fund: A mutual fund comprised of Treasury bills, bonds, and other obligations issued or guaranteed by the U.S. Treasury and repurchase agreements collateralized by such obligations. The fund is valued at net asset value (NAV), which is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The fund seeks to maintain a stable NAV of $1.

Commercial Account: Comprised of a federally insured demand deposit account valued at deposits received less distributions paid.

Level 2 - Inputs to the valuation methodology are other than quoted market prices in active markets that are observable, either directly or indirectly, such as quoted prices for similar assets or liabilities; quoted prices that are in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 - Inputs to the valuation methodology are unobservable inputs (i.e., projections, estimates, interpretations, etc.) that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

Common Stock: Valued by an independent appraiser, based on discussions with management, the Company's historical performance, industry trends, capitalized cash flow analysis, market - comparable companies' analysis, and other information.

Annually, the Committee selects the appraiser. After the valuation is completed, the Committee and the Plan's independent fiduciary review the valuation report and discuss the processes and procedures used by the appraiser. The Committee performs the final approval of the appraiser's valuation report on the fair value of the Company's stock, which is documented in the Committee's minutes. The Board of Directors sets the stock price for the Plan year's stock transactions. Additionally, the independent appraiser may be retained to revalue the common stock, at any time, based on perceived material events or at the request of the Board of Directors or by an independent fiduciary retained by the Board of Directors to conduct a major stock sale.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The inputs and methodologies used for valuing securities are not an indication of the risk associated with investing in those securities. There have been no changes in the methodologies used at December 31, 2017 or 2016.

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

	2017			
Description	Level 1	Level 2	Level 3	Total
Common Stock			$52,632,644	$52,632,644
Money Market Fund	$ 4			4
Commercial Account	2,684,002			2,684,002
Total investments at fair value	$2,684,006		$52,632,644	$55,316,650

	2016			
Description	Level 1	Level 2	Level 3	Total
Common Stock			$54,789,426	$54,789,426
Money Market Fund	$ 4			4
Commercial Account	4,953,808			4,953,808
Total investments at fair value	$4,953,812		$54,789,426	$59,743,238

The following table sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2017:

	Common Stock
Balance, beginning of year	$54,789,426
Purchases	2,173,753
Unrealized loss included in net depreciation in fair value of investments in the statement of changes in net assets available for benefits	(4,330,535)
Balance, end of year	$52,632,644
Total losses included in change in net assets due to the change in unrealized loss relating to assets held at the reporting date and included in net depreciation in fair value of investments in the statement of changes in net assets available for benefits	$(4,330,535)

NOTE 4 - PARTY-IN-INTEREST TRANSACTIONS

Plan investments include common stock of SES. SES is the employer, administrator, and sponsor of the Plan. At December 31, 2017 and 2016, the Plan held 166,559 and 160,203 shares of common stock of SES, respectively. During the year ended December 31, 2017, the Plan recorded $2,308,259 in S corporation distributions from common stock of SES. These transactions are covered by an exemption from the prohibited transaction provisions.

NOTE 5 - RISKS AND UNCERTAINTIES

The Plan is subject to a concentration of credit risk from cash deposits in the commercial account being in excess of federally insured limits. The plan administrator places this cash with a financial institution that is considered a high quality financial institution by the plan administrator. At times, such cash deposits may be in excess of federally insured limits, from which the excess cash may be transferred to the money market fund.

The Plan has a concentration of risk in its investment in SES's common stock. Thus, the Plan's performance is dependent upon the financial viability of SES, as well as the volatility of the valuation of SES's common stock. In general, such investments are exposed to various risks, such as significant world events, interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE 6 - SUBSEQUENT EVENTS

The Plan has evaluated subsequent events through September 26, 2018, the date the financial statements were available to be issued.
