INDEPENDENT AUDITOR'S REPORT

Plan Administrator

The Pension Agreement between Akro-Mils, Incorporated and USWA Local Union No. 1761-02
Akron, Ohio

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The Pension Agreement between Akro-Mils, Incorporated and USWA Local Union No. 1761-02, which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years ended December 31, 2017 and 2016, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by PNC, N.A., the Trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the Trustee as of December 31, 2017 and 2016, and for the years ended December 31, 2017 and 2016, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets Held for Investment Purposes at End of Year and Schedule of Reportable Transactions as of and for the year ended December 31, 2017 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

The Pension Agreement between Akro-Mils, Incorporated and USWA Local Union No. 1761-02

1 Description of Plan

The following description of The Pension Agreement between Akro-Mils, Incorporated and USWA Local Union No. 1761-02 provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Plan, which was restated January 1, 2006, is a defined benefit plan covering all bargaining unit employees covered by the contract between Akro-Mils, a division of Myers Industries, Inc. ("Company") and the United Steel Workers of America ("USWA") Local Union No. 1761-02 ("Union") who meet the service requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

As of December 31, 2009, the Plan merged with a related pension plan (The Buckhorn, Inc. Pension Plan for Dawson Springs Employees Defined Benefit Retirement Plan). Benefit obligations remained unchanged as a result of the merger.

In 2007, Buckhorn closed the facility at which all of the participants of the Plan were employed. All participants affected by the closure accrued benefits through their termination date and are fully vested in their total accrued benefits.

In 2005, Akro-Mils closed the facility at which all of the participants of the Plan were employed. All participants affected by the closure accrued benefits through their termination date and are fully vested in their total accrued benefits.

Eligibility:

An employee becomes eligible to participate in the Plan after they have completed a probationary period of 60 calendar days with the Company. There are no age requirements to participate in the Plan. Since the closure of the Akro-Mils and Buckhorn facilities, no new participants are eligible to participate in the plan.

Funding Policy:

Contributions to provide benefits under the Plan are made solely by the Company. The Company's funding policy is to make cash contributions to the Plan in amounts computed by the Plan's actuary using the unit credit cost method. This method and the actuarial assumptions referred to in Note 5 have been designed to provide sufficient funds to pay benefits as they become payable under the Plan. The Company met the minimum funding requirements of ERISA in 2017 and 2016.

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

NOTES TO FINANCIAL STATEMENTS

The Pension Agreement between Akro-Mils, Incorporated and USWA Local Union No. 1761-02

2 Summary of Significant Accounting Policies

Investments:

Marketable securities are reported at fair market value as of the balance sheet date. Fair market values represent quoted market prices or, if quoted market prices are not available, estimated fair values as determined by the Plan's investment broker.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Actuarial Present Value of Accumulated Plan Benefits:

Accumulated Plan benefits represent future periodic payments for services employees have rendered. Accumulated Plan benefits include benefits expected to be paid to:

- a) Retired or terminated employees or their beneficiaries;
- b) Beneficiaries of employees who have died;

Administrative Fees:

Administrative expenses represent Trustee and actuarial fees charged to the Plan. Certain other administrative functions are being performed or paid by the Company on behalf of the Plan.

Payment of Benefits:

Benefit payments to participants are recorded when paid.

Plan Termination:

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan subject to the provisions of ERISA. In the event that the Plan is terminated, each affected participant will become fully vested in their accrued benefit and the net assets of the Plan will be allocated for payment of Plan benefits to the participant in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

NOTES TO FINANCIAL STATEMENTS

The Pension Agreement between Akro-Mils, Incorporated and USWA Local Union No. 1761-02

2 Summary of Significant Accounting Policies, Continued

Plan Termination, Continued:

The Pension Benefit Guaranty Corporation ("PBGC") insures certain benefits under the Plan if the Plan terminates. Generally, PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor pensions. However, PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Should the Plan terminate at some future time, its net assets generally will not be available on a pro-rata basis to provide participants' benefits. Whether a particular participant's accumulated Plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by PBGC at that time. Some benefits may be fully or partially provided for by the then existing assets and PBGC guaranty while other benefits may not be provided for at all.

Risks and Uncertainties:

The Plan's investment includes investments in mutual funds, money markets, and stocks with varying degrees of risk, such as interest rate, credit and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the Statement of Net Assets Available for Plan Benefits.

Plan contributions and the actuarial present value of accumulated Plan benefits are prepared based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through September 28, 2018, which is the date the financial statements were available to be issued.

3 Tax Status

On February 20, 2008, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

NOTES TO FINANCIAL STATEMENTS

The Pension Agreement between Akro-Mils, Incorporated and USWA Local Union No. 1761-02

3 Tax Status, Continued

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan Administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2017, there were no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

4 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- * Quoted prices for similar assets or liabilities in active markets
- * Quoted prices for identical or similar assets or liabilities in inactive markets
- * Inputs other than quoted prices that are observable for the asset or liability
- * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds and Stocks:

The fair value of the mutual funds and stocks are based on quoted market prices and are classified as Level 1.

4 Fair Value Measurements, Continued

Money Market Funds:

The fair value of the money market funds are based on underlying assets that allow the funds to maintain a stable price of \$1.00 and is classified as Level 2.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.

	Assets at Fair Value as of December 31, 2017

Total Investments at Fair Value	<u>\$ 4,942,983</u>	<u>\$ 237,554</u>	<u>\$ -</u>	<u>\$ 5,180,537</u>

5 Accumulated Plan Benefits

The Plan's actuary, Mercer, estimates the actuarial present value of accumulated Plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated Plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

The accumulated Plan benefit information as of the beginning of the Plan year is as follows:

	<u>January 1 2017</u>
Actuarial present value of accumulated Plan benefits:	
Vested benefits:	
Participants currently receiving payments	\$ 3,230,494
Other participants	<u>1,099,183</u>
Actuarial present value of accumulated Plan benefits	<u>\$ 4,329,677</u>

NOTES TO FINANCIAL STATEMENTS

The Pension Agreement between Akro-Mils, Incorporated and USWA Local Union No. 1761-02

5 Accumulated Plan Benefits, Continued

Present value of benefits - January 1, 2016	\$ 4,521,048
Benefits paid	(378,009)
Increase in interest due to decrease in discount period	334,513
Change in actuarial assumptions	(55,049)
Accumulated benefits and gain (loss)	<u>(92,826)</u>
Present value of benefits - January 1, 2017	<u>\$ 4,329,677</u>

Significant assumptions underlying the actuarial computations are:

Assumed rate of return on investments: 7.75% per year compounded annually

Mortality basis: RP2000 Mortality tables

Benefit commencement age: 65

Discount Rate: 4.00%

Segment Rates: 4.16% / 5.72% / 6.48%

The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable.

6 Information Prepared and Certified by Trustee

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified as complete and accurate by the Trustee:

	<u>2017</u>	<u>2016</u>
Investments (at fair value):	\$ 5,524,269	\$ 5,180,537
Interest and dividend income	\$ 217,761	\$ 110,853
Net realized/unrealized appreciation of investments	\$ 582,073	\$ 99,384

7 Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds managed by PNC, N.A., the Trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. In addition, the actuary is considered a party in interest. Usual and customary fees were paid by the mutual fund for the investment management and actuarial services.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

ACTUARIAL METHODS

Asset Methods

The asset valuation method is an average of the adjusted market value over the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan administrator provides us with data on all eligible participants as of the valuation date.
- **Participants excluded:** None
- **Transferred participants:** None.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

The plan's valuation date is the beginning of the plan year.

- The plan's valuation date is the beginning of the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Mortality sponsor elections			
• Healthy and disabled participants	Section 430(h)(3) prescribed separate static annuitant and nonannuitant mortality tables. These tables are based on the RP-2000 mortality tables projected with mortality improvement to the valuation year plus 7 and 15 years based on Scale AA. Rationale: Prescribed by the IRS		
Other economic assumptions			
• Expected investment return	7.75% per year for years 2016 and 2017. Rationale: The expected investment return on plan assets is based on a blend of the hypothetical past performance of the plan’s target asset mix, adjusted for current market conditions, and the median simulated investment return using capital market assumptions published in Mercer Investment Consulting’s Capital Markets Outlook for the plan’s target asset mix.		
• Expenses	Prior year’s actual administrative expenses of \$92,201 added to current year normal cost Rationale: Expenses are based on year-by-year experience for actual administrative expenses paid from plan assets. Adjustments are made for any known significant changes.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

ACTUARIAL METHODS

Asset Methods

The asset valuation method is an average of the adjusted market value over the last two years preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110 percent and no less than 90 percent of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan administrator provides us with data on all eligible participants as of the valuation date.
- **Participants excluded:** None
- **Transferred participants:** None.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

The plan's valuation date is the beginning of the plan year.

- The plan's valuation date is the beginning of the plan year.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual are the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

Benefits Included or Excluded

Unless noted below, all benefits provided by the plan, as restated and amended through Amendment #2, are included in this valuation:

- **Most recent plan amendments included:** Amendment #2

Schedule SB, Part V — Summary of Plan Provisions

- **Plan amendments excluded:** None
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Sections 415(b) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* The plan does not have any unpredictable contingent event benefits.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation. The target normal cost does not reflect any limitation on benefit accruals.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
