Participants who have attained age 50 or older before the end of the Plan year are eligible to make catch-up contributions (maximum limit of $6,000 in 2017). Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover).

   The Company may, at its discretion, make matching contributions on behalf of all eligible employees based on a participant's contribution. For the year ended December 31, 2017, the Company made a matching contribution equal to 25% of the first 5% of compensation deferrals the employee makes to the Plan, determined each pay period.

   The Company may also, at its discretion, make a profit sharing contribution to the Plan at year-end on behalf of all eligible employees. An employee must have worked 500 hours during the current Plan year, to receive a contribution. For the year ended December 31, 2017, the profit sharing contribution was as follows:

   - 7.5% of gross earnings up to the maximum compensation limit of $270,000.
   - An additional 5.7% of gross earnings between the maximum social security limit of $127,200, and the maximum compensation limit.

1. Description of Plan (continued)

3. Participant Accounts and Administration

   Under the terms of the Plan agreement, the trustee invests contributions in several investment funds as specified by the participants. The trustee maintains a separate account in the name of each participant and allocates investment income to the accounts on a daily basis. Each participant's account is credited with the participant's contribution, an allocation of the Company's matching and discretionary contributions and Plan earnings. Allocations are based on participant earnings or account balances, as defined. Forfeitures will be reallocated to remaining participants, in accordance with Plan provisions. The plan administrator authorizes all withdrawals of Plan assets and is responsible for the general administration of the Plan and compliance with its provisions. The costs of administering the Plan are borne by either the Company or the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting

   Participants are immediately vested in their contributions, plus actual earnings thereon.Vesting in the Company's matching and discretionary contribution portion of their accounts plus actual earnings thereon is based on years of service, as defined. A participant is 100% vested after six years of credited service.

5. Forfeited Accounts

   At December 31, 2017 and 2016, forfeited nonvested accounts totaled $70,100 and $21,589, respectively. These amounts will be allocated to plan participants. Also, in 2017, $21,177 of forfeitures was allocated to Plan participants.

6. Payment of Benefits

   On termination of service, if the amount exceeds $1,000 a participant may elect to receive either a lump-sum amount equal to the value of their vested account, or elect to have the vested amount of their account maintained under the Plan until their defined normal retirement age, at which time the Plan will automatically make a distribution. If the amount is less than $1,000, a participant must take a lump-sum distribution.

7. Notes Receivable From Participants

   Loans are available to participants for the lesser of $50,000 or 50% of their vested account balance. The minimum loan is $1,000. Loan terms range from one to five years or longer for the purchase of a primary residence. The loans bear interest at a rate commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

2. Summary of Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value or net asset value as a practical expedient for fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest and dividend income are recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable From Participants

Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

All expenses of maintaining the Plan are paid by the Plan or the Company.

Subsequent Events

The Plan has evaluated subsequent events through September 27, 2018, the date which the financial statements were available to be issued.

Estimates and Assumptions

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820 are described as follows:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include the following:

Quoted prices for similar assets or liabilities in active markets;

Quoted prices for identical or similar assets or liabilities in inactive markets;

Inputs other than quoted prices that are observable for the asset or liability;

Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means;

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurements.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds: Valued at the net asset value of the shares held by the Plan at year-end.

Collective Trust Funds: Valued at the net asset value (NAV) per unit as determined by the manager of the trust. The NAV is used as a practical expedient to estimate fair value. Such NAV is based on the value of the underlying assets and liabilities of the trust. The investment objective of the trust is to preserve principal and provide a stable return over the life of the investment. Participants may transfer in and out of the trust on a daily basis without any prohibitive restrictions.

3. Fair Value Measurements (continued)

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017				
	Level 1	Level 2	Level 3	Other*	Total
Mutual funds	$ 22,418,314	$ -	$ -	$ -	$22,418,314
Collective trust funds	-	-	-	7,442,024	7,442,024
Total assets at fair value	$ 22,418,314	$ -	$ -	$ 7,442,024	$29,860,338

	Assets at Fair Value as of December 31, 2016				
	Level 1	Level 2	Level 3	Other*	Total
Mutual funds	$ 19,834,507	$ -	$ -	$ -	$19,834,507
Collective trust funds	-	-	-	6,937,815	6,937,815
Total assets at fair value	$ 19,834,507	$ -	$ -	$ 6,937,815	$26,772,322

* In accordance with Subtopic 820-10, certain investments that were measured at NAV per share (or its equivalent) as a practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in these tables are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the Statement of Net Assets Available for Benefits.

Benefit payable - accrual to cash basis adjustment, 2017	41
Contributions per Schedule H of the Form 5500	$ 1,557,481

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

7. Tax Status

The Plan obtained its latest determination letter in March of 2014, in which the Internal Revenue Service (IRS) stated that the Plan is in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. Plan management and Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain tax position that, more likely than not, would not be sustained upon examination by the IRS. The plan administrator has analyzed tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

8. Party-In-Interest Transactions

Certain Plan investments are shares of mutual funds managed by Fifth Third Bank. Fifth Third Bank is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services are included in net appreciation in fair value of the investments, as they are paid through revenue sharing, rather than a direct payment. In addition, the Plan made direct payments to the third party administrator of $22,607 which was not covered by revenue sharing.

Certain employees of the Company act as a fiduciary of the Plan and are responsible for the administration of the Plan. The employees are compensated by the Company and do not receive any compensation from the Plan.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statements of net assets available for benefits.
