The Polyclinic A P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1 – Description of Plan

The following description of The Polyclinic A P.C. 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan Agreement, as amended, for a more complete description of Plan provisions.

General – The Plan is a 401(k) salary deferral and profit sharing plan covering substantially all employees of The Polyclinic A P.C., and is subject to provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Polyclinic A P.C. (the Company) is the Plan's sponsor and serves as plan administrator.

Eligibility – All employees of the Company who attain age 21 and complete 250 hours of service within the first three consecutive months of employment are eligible to make deferral elections on the first day of the next month after meeting eligibility requirements. If an employee does not complete the hours requirement during the specified time period, then the employee will be eligible upon completion of one year of service.

Participants are eligible for employer match and profit sharing contribution upon completion of one year of service, if they are employed on the last day of the Plan year, and complete a minimum of 1,000 hours of service each Plan year.

Contributions

Participant contributions – Each year, participants may contribute up to the maximum amount allowed by law, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers various mutual funds as investment options for participants. The Plan also includes an auto-enrollment provision whereby all newly eligible employees are automatically enrolled in the Plan unless they affirmatively elect not to participate in the Plan. Automatically enrolled participants have their deferral rate set at 3% of eligible compensation and their contributions invested in a designated fund until elected otherwise by the participant. Unless elected otherwise by the participant, deferrals are automatically increased annually by 1%, up to a maximum auto-deferral of 10%.

Employer match and profit sharing contributions – The Company may elect to make discretionary matching and profit sharing contributions to the Plan. Profit sharing contributions are allocated to participants in the same proportion as a participant's compensation bears to the total of all participants' compensation. The Company matches employee contributions up to 3% and 3% of eligible compensation deferred to the Plan in addition to a profit sharing contribution up to 3% and 3% of each participant's eligible compensation, for the years ending December 31, 2017 and 2016, respectively. The Company also contributed an additional pension contribution of 5.7% of excess compensation for those participants who earn greater than the Social Security maximum.

Contributions are subject to regulatory limitations. Subsequent to December 31, 2017, the Plan reallocated approximately \$800,000 from participant's accounts to the forfeiture account which will decrease the 2017 Employer Contribution. The net effect of this reallocation gives all participants a 4% profit share contribution on all eligible compensation including excess compensation for the years ending December 31, 2013 through December 31, 2015, and 3% for the year ended December 31, 2016.

The Polyclinic A P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 1 – Description of Plan (continued)

Participant accounts – Each participant's account is credited with the participant's contributions and Company matching contributions as well as allocations of the Company's profit sharing contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are vested immediately in their contributions and Company matching contributions plus actual earnings thereon. Vesting in the Company's profit sharing contribution portion of their accounts is based on years of continuous service as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than 2	0%
2	25%
3	50%
4	75%
5 or more	100%

Notes receivable from participants – Participants may borrow from their accounts a minimum of \$1,000 up to a maximum equal to the lesser of \$50,000 or 50 percent of their vested account balance. The loans are issued by the Plan and secured by the balance in the participant's account. All loans must be repaid within a period of five years, unless the loan is used to purchase a principal residence, in which case, the loan must be repaid within a reasonable period of time not to exceed fifteen years. Under the terms of the Plan agreement, Plan loans will bear a reasonable rate of interest determined by the plan administrator. Principal and interest are paid ratably through payroll deductions. As of December 31, 2017, the rates of interest on outstanding loans ranged from 4.25% to 5.25% with various maturities through June 2027.

Payment of benefits – On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten-year period. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. Terminated employees with balances under \$5,000 will be automatically distributed as a lump-sum.

Forfeitures – Forfeitures are the nonvested portion of a participant's account that are lost upon termination of employment. Forfeitures are retained in the Plan and may first be used to pay Plan administrative expenses, with any remaining amount used to reduce future Company contributions. As of December 31, 2017 and 2016, forfeited nonvested accounts totaled \$117,698 and \$169,067, respectively. For the year ended December 31, 2017, Company matching contributions were reduced by approximately \$1,697,409 from forfeited nonvested accounts.

Notes to Financial Statements

Note 2 – Summary of Significant Accounting Policies

Basis of accounting – The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America, using the accrual method of accounting.

Use of estimates – The preparation of financial statements in conformity with generally accepted accounting principles requires the use of estimates and assumptions that may affect certain amounts and disclosures. Accordingly, actual results could differ from those estimates.

Investment valuation – The investments are reported at fair value. The Plan's trustee, Vanguard Fiduciary Trust Company, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Income recognition – Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation in fair value of investments consists of both the realized gains or losses and unrealized appreciation and depreciation of those investments.

Notes receivable from participants – Notes receivable from participants are measured at amortized cost, which represents unpaid principal balance plus accrued but unpaid interest, and are classified as notes receivable. Delinquent notes receivable from participants are reclassified as distributions upon the occurrence of a distributable event.

Payment of benefits – Benefits are recorded when paid.

Expenses – General plan administrative expenses may be paid out of the forfeiture account or paid by the Company. Investment management, distribution, and loan transaction fees are paid by the Plan participants.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before financial statements are available to be issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are available to be issued.

The Plan has evaluated subsequent events through September 28, 2018, which is the date the financial statements were available to be issued.

Notes to Financial Statements

Note 3 – Fair Value Measurements

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3).

The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Registered investment companies (mutual funds) and money market funds – Valued at the daily closing price as reported by the fund. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The funds held by the Plan are deemed to be actively traded. Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S Securities and Exchange Commission.

The valuation methods used by the Plan may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The Polyclinic A P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

The following table discloses the fair value hierarchy of the Plan's investments at fair value, as of December 31, 2017 and 2016:

Fair Value Measurement at December 31, 2017				
	Level 1	Level 2	Level 3	Total
Registered investment companies	<u>\$ 219,680,387</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 219,680,387</u>
Fair Value Measurement at December 31, 2016				
	Level 1	Level 2	Level 3	Total
Registered investment companies	<u>\$ 196,104,648</u>	<u>\$ -</u>	<u>\$ -</u>	<u>\$ 196,104,648</u>

Gains and losses (realized and unrealized) included in changes in net assets for the period above are reported in net appreciation (depreciation) in fair value of investments in the statement of changes in net assets available for benefits.

Note 4 – Tax Status

The plan administrator has filed for a determination letter from the Internal Revenue Service regarding the Plan's qualification under Section 401(a) and the related trust's tax exempt status under provisions of Section 501(a) of the Internal Revenue Code (IRC). Although the plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator has evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market volatility, and credit risks. It is reasonably possible, given the level of risk associated with investment securities, that changes in the near term could materially affect a participant's account balance and the amounts reported in the financial statements.

The Polyclinic A P.C. 401(k) Profit Sharing Plan

Notes to Financial Statements

Note 6 – Information Certified by the Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Vanguard Fiduciary Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016.
- Net appreciation in fair value of investments, dividends and interest, and interest income on notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2017.
- Investments reflected on the supplemental schedule of assets (held at end of year).

Note 7 – Party-in-Interest Transactions

Plan investments include shares of registered investment company funds managed by Vanguard Group. Vanguard Fiduciary Trust Company is the trustee of the Plan and an affiliate of Vanguard Group; therefore, transactions with these entities qualify as exempt party-in-interest transactions.

The Vanguard Fiduciary Trust Company receives revenue from mutual fund service providers for services they provide to the funds. This revenue is used to offset certain amounts owed to ABC Investment Management for its administrative services to the Plan. If the revenue received from such mutual fund service providers exceeds the amount due to ABC Investment Management Company, they remit the excess to the Plan's trust on a quarterly basis. Such amounts may be applied to pay Plan administrative expenses or allocated to the accounts of the participants. During 2017, there were no excess amounts.

Note 8 – Plan Termination

Although it has not expressed any intention to do so, the Company has the right to terminate the Plan and discontinue its contributions at any time. If the Plan is terminated, amounts allocated to a participant's account become fully vested.
