# INDEPENDENT AUDITOR'S REPORT

To the Trustee, Participants and Administrator of the
Martin/Brattrud, Inc. Employee Stock Ownership Plan:

**Report on the Financial Statements**

We have audited the accompanying financial statements of the Martin/Brattrud, Inc. Employee Stock Ownership Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits for the year ended December 31, 2017 and the related notes to the financial statements.

**Management's Responsibility for the Financial Statements**

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

**Auditor's Responsibility**

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatements.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

**Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017 and 2016, and the changes in net assets available for benefits for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

**Report on Supplementary Information**

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, Schedule H, Line 4i - Schedule of Assets (Held At End of Year) as of December 31, 2017 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2017, are presented for the purpose of additional analysis and are not a required part of the financial statements, but are supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

MARTIN/BRATTRUD, INC. EMPLOYEE STOCK OWNERSHIP PLAN

NOTES TO THE FINANCIAL STATEMENTS

DECEMBER 31, 2017 and 2016

## 1. DESCRIPTION OF PLAN

The following description of the Martin/Brattrud, Inc. Employee Stock Ownership Plan (the Plan) provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

### General

Martin/Brattrud, Inc. (the Company) established the Plan, which commenced on January 1, 2014. The Plan is structured to operate as a leveraged employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (the IRC) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan has purchased shares of Company common stock using borrowed proceeds secured by the purchased shares, and holds the common stock in a trust established under the Plan. As the Plan makes debt payments, an appropriate percentage of stock is allocated to eligible employees' accounts in accordance with applicable regulation under the Internal Revenue Code (IRC).

The borrowing is collateralized by the unallocated shares of Company common stock. The lender has no rights against shares of Company common stock once they are allocated to participants in accordance with the terms of the Plan. Accordingly, the financial statements present separately the assets and liabilities and changes therein pertaining to (a) the accounts of employees with rights in allocated Company common stock (allocated) and (b) Company common stock not yet allocated to employees (unallocated).

### Eligibility

Employees who have completed at least 1,000 hours of service during the plan year will become a participant in the Plan retroactively on January 1 of the plan year in which the eligibility requirements are satisfied.

### Company Contributions

The Company is obligated to make contributions in cash or dividends to the Plan in the amount necessary to enable the Plan to make its regularly scheduled payments of principal and interest due on its term loan. The Company may also make discretionary contributions to the Plan in an amount determined each year by the Company's Board of Directors. In order to be eligible for the Company contributions, a participant must complete at least 1,000 hours of service during the plan year. For the year ended December 31, 2017, the Company elected to make a discretionary contribution to the Plan of $700,000. Employee contributions to the Plan are not permitted.

1. DESCRIPTION OF PLAN – (Continued)

Plan Administration

The Plan's assets are held by the Trustee of the Plan.

The Trustee of the Plan is independent of the Company. Company contributions are held and managed by the Trustee, who invests cash received, interest, and dividend income and makes distributions to participants. Administrative expenses for the Trustee's fees are paid directly by the Company.

The Plan is administered by an internal committee (the Plan Committee) which is comprised of employees of the Company who are appointed by the Company's Board of Directors. The Plan Committee receives no compensation from the Plan.

Participant Accounts

Each participant's account is credited with allocations of (a) the Company's contributions, (b) forfeitures, (c) net change in value of Company common stock and (d) other investment earnings net of plan expenses. The Company's contributions may consist of acquisition indebtedness contributions and cash or common stock contributions. The Company's contributions and forfeitures are allocated to eligible participants based on the percentage that their eligible compensation bears to total eligible compensation. The net change in the value of Company stock, as determined by an independent appraiser, is allocated based on the number of shares held by the participants at year-end multiplied by the change in the per share value. Other investment earnings (primarily earnings from registered investment companies), net of plan expenses is allocated to participants based on the percentage that their other investment account balance as of the preceding allocation date, as defined, is representative to the total other investment account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Payment of Benefits

Distribution of Plan benefits due to termination, retirement, disability, or death, will be made in a lump-sum amount or installments equal to the value of the participant's vested interest in his or her account. Installments are paid after a one to five year waiting period in annual installments over no more than five years, unless the participant's vested account balance exceeds the amount as defined under the IRC, in which case installments could exceed five years. Participants may elect to rollover their account to another eligible retirement plan as defined by the plan agreement. All vested account balances not exceeding $5,000 may be distributed in a lump-sum payment.

1. DESCRIPTION OF PLAN – (Continued)

Diversification

Diversification will be offered to participants close to retirement so that they may have the opportunity to move part of the value of their investment in Company stock into investments which are more diversified. Participants who are at least age 55 with at least 10 years of participation in the Plan may elect to diversify a portion of their account. Participants eligible for diversification may elect to direct the Plan to diversify a portion of their account during a 90 day election period which begins on the first day of the plan year that follows each of the six plan years beginning with the plan year in which the participant becomes eligible for diversification. In each of the first five years, a participant may diversify up to 25% of the number of shares of Company stock allocated to his or her account, less any shares previously diversified. In the sixth year, the percentage changes to 50%. Participants who elect to diversify may elect to receive a cash distribution or to rollover the amount to one or more of at least three diversified investment options, which may be made available in another qualified plan maintained by the Company. No accounts were eligible for diversification as of December 31, 2017.

Put Option

Under Federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations, includes a put option (the liquidity put). The liquidity put is a right to demand that the Company buy any shares of its stock distributed to participants for which there is no market. The Plan may also honor the put, although it is not required to do so. The put price is the fair market value of the stock as determined as of the most recent valuation date, as defined.

The purpose of the liquidity put is to ensure that the participant has the ability to ultimately obtain cash after receiving a distribution of stock. If the put option is not exercised within 60 days, it temporarily lapses; put options may then be exercised during the first 60 days of the following plan year. In the event a put option is exercised, the Company shall have the option of paying the purchase price either in a lump sum within 30 days of exercise or in a series of five equal installments, with the first payment to be made within 30 days of exercise and the four remaining payments to be made annually on the exercise date.

Right of First Refusal

An agreement between the Company, the Plan and all participants who receive a distribution of employer stock, has placed restrictions on the transfer or sale of employer stock. Shares cannot be sold or transferred without first offering them to the Company at a per-share price no greater than that tendered by a prospective third party purchaser or the last ESOP valuation. If the Company does not exercise its right to purchase the shares, then the shares must be offered to the Plan.

1. DESCRIPTION OF PLAN – (Continued)

Vesting

Vesting in the Company's contributions and earnings thereon is based on years of service according to the following schedule:

| Years of Service | Vested Percentage |
|---|---|
| Less than 2 | 0% |
| 2 | 20% |
| 3 | 40% |
| 4 | 60% |
| 5 | 80% |
| 6 | 100% |

Forfeitures

Forfeitures of terminated participants' nonvested account balances are allocated to active participants based on the percentage that their eligible compensation is representative to total eligible compensation. For the year ended December 31, 2017, $117,377 of forfeitures were allocated to active participants.

Voting Rights

Participants may direct the voting of shares of the Company stock allocated to their accounts on any matter on which shareholders are allowed to vote. Such matters are limited to the approval or disapproval of any corporate merger or consolidation, recapitalization, reclassification, liquidation, dissolution, sale of substantially all assets of a trade or business, or other similar transactions. If a participant fails to provide instructions, the trustee will vote shares for which the participant has the right to direct voting. The trustee will vote any unallocated shares of the Company stock in the same manner.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – (Continued)

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates. Significant estimates include the valuation of Company common stock.

Payment of Benefits

Benefits are recorded when paid.

Risks and Uncertainties

The Plan invests in the common stock of the Company and registered investment companies, which are exposed to various risks, such as interest rate risk, credit risk and market risks, as well as valuation assumptions based on earnings, cash flows or other techniques. Due to the level of risk associated with these investments and to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in the value of these investments will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the period.

Plan Fees and Administrative Expenses

Plan fees and administrative expenses are generally paid by the Company, unless paid by the Plan. Plan expenses paid by the Company are not included in these financial statements.

Subsequent Events

The Company has evaluated subsequent events through the date of the independent auditor's report, which is the date the accompanying financial statements were available to be issued.

## 3. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board (FASB) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under this framework are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

*Martin/Brattrud, Inc. common stock:* The fair value of the Company's common stock was determined by an independent appraisal on a minority interest basis. This appraisal was based upon a combination of the income and market valuation techniques. The asset-based approach was not used as it provides no consideration of earnings. The appraiser took into account historical and projected cash flows and market comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. This investment is classified within level 3 of the valuation hierarchy because the asset value is not based on an active market with quoted prices and was determined using observable and unobservable inputs.

3. FAIR VALUE MEASUREMENTS – (Continued)

*Registered investment companies:* These investments are public investment vehicles valued using the net asset value (the NAV) provided by the administrator of the fund. The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

*Interest-bearing cash*: Interest-bearing cash consists of money market investments and cash balances held at a financial institution. The carrying value is believed to be representative of its fair value based on its short term nature and are classified within level 1 of the valuation hierarchy.

The preceding method described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016:

| Description | Total | Level 1 | Level 2 | Level 3 |
|---|---|---|---|---|
| December 31, 2017 | | | | |
| Company stock | $ 5,055,637 | $ - | $ - | $ 5,055,637 |
| Registered investment companies | 171,138 | 171,138 | - | - |
| Interest-bearing cash | 712,868 | 712,868 | - | - |
| Total investments at fair value | $ 5,939,643 | $ 884,006 | $ - | $ 5,055,637 |
| December 31, 2016 | | | | |
| Company stock | $ 1,979,312 | $ - | $ - | $ 1,979,312 |
| Registered investment companies | 1,480,748 | 1,480,748 | - | - |
| Interest-bearing cash | 24,434 | 24,434 | - | - |
| Total investments at fair value | $ 3,484,494 | $ 1,505,182 | $ - | $ 1,979,312 |

In regards to the classification of investment options offered by the Plan, there were no reclassifications in or out of levels 1, 2 or 3 during the year ended December 31, 2017.

3. FAIR VALUE MEASUREMENTS – (Continued)

The following table presents a summary of changes in the fair value of the Plan's level 3 assets for the year ended December 31, 2017:

| | Investment in Company Stock |
|---|---|
| Balance, beginning of year | $ 1,979,312 |
| Purchase of shares | 3,700,000 |
| Unrealized depreciation | (623,675) |
| Balance, end of year | $ 5,055,637 |

4. INVESTMENT IN COMMON STOCK

The following table summarizes the investment in Company common stock at December 31, 2017 and 2016:

| | 2017 | | 2016 |
|---|---|---|---|
| | Allocated | Unallocated | Allocated |
| Martin/Brattrud, Inc. Common stock shares: | | | |
| Number of shares | 20 | 40 | 20 |
| Cost | $ 1,812,947 | $ 3,794,316 | $ 1,765,789 |
| Market | $ 1,685,212 | $ 3,370,425 | $ 1,979,312 |

The cost amounts above include cumulative basis adjustments of $157,263 and $15,789 as of December 31, 2017 and 2016, respectively.

5. PARTY-IN-INTEREST TRANSACTIONS

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. The Plan invests in Company common stock. Certain Plan investments are held by U.S. Bank, a custodian of the Plan. The Plan paid $5,537 in custodial and investment management fees during the year ended December 31, 2017. The Company paid certain administrative expenses, including recordkeeping, valuation, trustee and audit fees. These transactions qualify as party-in-interest transactions for which a statutory exemption exists.

## 6. PLAN TERMINATION

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate and/or modify the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan is terminated in the future, all participants will become 100% vested in their accounts. Upon termination of the Plan, and after payment of all expenses of the Trust, the Plan Committee shall direct the payment of benefits in accordance with Plan provisions.

## 7. LOANS PAYABLE

On May 31, 2017, the Plan acquired an additional 40 shares of Company stock from a shareholder under a Stock Purchase Agreement (the Agreement) at a purchase price of $3,700,000. After this purchase, the Plan owns 30% of the outstanding Company stock. Under the terms of the Agreement, the Plan made a payment of $3,150,000 to the shareholder and entered into a secured promissory note with the shareholder for $550,000. The shareholder note is payable in three equal principal payments of $183,333 beginning March 31, 2018 and ending on March 31, 2020. The note bears interest at a rate of 4.25% which is payable on the last day of each month while principal is still outstanding. The note is secured by 5.95 shares of the acquired Company common stock. At December 31, 2017, the Plan has $13,635 of accrued interest due to the shareholder.

Also on May 31, 2017, the Plan entered into a secured promissory note with the Company in the amount of $850,000 to fund a portion of the purchase price. The note is payable in three equal principal payments of $283,333 beginning March 31, 2018 and ending on March 31, 2020. The note bears interest at a rate of 4.25% which is payable on the last day of each month while principal is still outstanding. The note is secured by 9.19 shares of the acquired Company common stock. At December 31, 2017, the Plan has $21,073 of accrued interest due to the Company.

Shares are released from collateral and allocated to participants as payments of principal are made. The number of shares released in any year is the number of shares held as collateral, times the ratio of the current year payments divided by the total of this year's principal payments, plus all future years' principal payments. No unallocated shares were released for the plan year ended December 31, 2017.

The Plan has adopted a provision of Accounting Standards Update 2016-01, which eliminates the requirement to disclose the fair value of the Plan's financial instruments which are measured at amortized cost, such as loans payable.

## 8. TAX STATUS

The Company received a favorable opinion letter from the Internal Revenue Service (IRS), on October 21, 2015, which stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

## 9. CONCENTRATION OF INVESTMENTS

At December 31, 2017, the Company stock valued at $5,055,637 represented 85% of the Plan's investments.
