Independent Auditor's Report

To the Plan Administrator and Participants
Actuant Corporation Retirement Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Actuant Corporation Retirement Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by U.S. Bank, N.A., the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Actuant Corporation Retirement Plan

Notes to Financial Statements

Note 1: Description of Plan

The following description of the Actuant Corporation Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan's summary plan description for a more complete description of the Plan's provisions. The Plan is a defined benefit pension plan sponsored by Actuant Corporation (the "Sponsor"). U.S. Bank, N.A. is the custodian of the Plan's assets. The custodian holds the Plan's investment assets and executes investment transactions. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

On November 1, 2016, the Board of Directors of Actuant Corporation, a controlling party of Versa Technologies, Inc. approved the merger of the Versa Technologies, Inc. Retirement Plan (the "Versa Plan") into this Plan, effective December 31, 2016. As a result, all investment assets were transferred from the Versa Plan into this Plan.

Eligibility

The Plan has four major participant groups: Versa Technologies, Inc. ("Versa"), Acme Electric Corporation ("Acme"), Gits Manufacturing Co. LLC ("GITS"), and Sanlo Manufacturing Co. ("Sanlo"). No new employees are able to become participants in the Plan and no additional benefits can be earned.

Vesting

All participants are 100% vested.

Retirement Benefits

The normal form of benefit payments is monthly life annuities, but for certain participants other options are available. The normal retirement is generally at age 65, however the Plan provides for reduced early retirement benefits, generally, beginning at age 55. The benefit formula for salary participants is based on average earnings, while the benefits for hourly employees are based on a dollar per month formula.

Depending upon a plan's funded status, the Pension Protection Act of 2006 may limit the amount of lump sum benefit payments

Interest in Actuant Corporation Master Trust

All of the investment assets of the Plan are invested in the Actuant Corporation Master Trust ("Master Trust"), in which investments of the Sponsor's retirement plan are held. The investment income and expenses of the Master Trust are allocated based on the relationship of the Plan's investment balances to the total Master Trust investment balances.

Actuant Corporation Retirement Plan

Notes to Financial Statements

Note 2: Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States ("GAAP").

Use of Estimates in Preparation of Financial Statements

The preparation of the accompanying financial statements in conformity with GAAP requires management to make estimates and assumptions that directly affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Management considers the actuarial assumptions to be significant estimates. Actual results may differ from those estimates and are subject to change in the near term.

Investment Valuation and Income Recognition

The Plan's interest in the Master Trust is stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement dates. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized when earned and dividend income is recorded on the ex-dividend date. Net appreciation in fair value of investments includes realized gains and losses and unrealized appreciation in investments.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

Administrative Costs of the Plan

Custodian and investment advisory fees, actuary costs, auditing costs and Pension Benefit Guaranty Corporation ("PBGC") premiums are paid by the Plan. Certain other administrative costs are paid by the Plan Sponsor and are excluded from these financial statements.

Subsequent Events

The Sponsor has evaluated subsequent events through October 3, 2018, which is the date the financial statements were available to be issued.

Note 3: Interest in Master Trust

The following table presents the net assets of the Master Trust as of December 31, 2017 and 2016. The Plan's interest in the net assets of the Master Trust was 100% at December 31, 2017 and 2016.

	2017	2016
Cash	\$ 460,365	\$ 24,465
Investments, at fair value	40,422,283	37,998,067
Accrued Income	81,824	71,821
Plan interest in Master Trust	\$ 40,964,472	\$ 38,094,353

The following are the changes in net assets for the Master Trust for the years ended December 31, 2017 and 2016:

	2017	2016
Net appreciation in fair value of investments	\$ 4,254,329	\$ 1,067,617
Investment earnings	1,804,021	1,682,540
 Master Trust income	 6,058,350	 2,750,157
Less income of Versa Technologies, Inc. Retirement Plan	-	(190,187)
Plan interest in Master Trust income	\$ 6,058,350	\$ 2,559,970

Note 4: Fair Value Measurements

A fair value hierarchy prioritizes the inputs to valuation techniques used in measuring fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below.

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Actuant Corporation Retirement Plan

Notes to Financial Statements

Note 4: Fair Value Measurements (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value on a recurring or nonrecurring basis of the master trust, as well as the classification of the assets within the fair value hierarchy.

Corporate bonds and foreign bonds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded. Money market funds are valued at amortized cost which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Master Trust believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Information regarding the fair value of assets measured at fair value on a recurring basis of the master trust as of December 31 are as follows:

	2017	2016
Level 1 Valuation:		
Mutual funds	\$ 31,935,804	\$ 29,483,022
Level 2 Valuation:		
Corporate bonds and foreign bonds	8,486,479	8,515,045
Total investments of Master Trust at fair value	\$ 40,422,283	\$ 37,998,067

The Plan had \$8.5 million in transfers of assets from Level 1 to Level 2 during the year ended December 31, 2017. Prior year amounts were reclassified in order to agree to the current year treatment. The Plan's policy is to record transfers as of the end of the reporting period.

Actuant Corporation Retirement Plan

Notes to Financial Statements

Note 5: Funding Policy

The Plan is solely funded by contributions from the Sponsor, pursuant to the actuarial cost method as determined by the Plan's actuary. The Sponsor's contributions for 2017 and 2016 met or exceeded the minimum funding requirements of ERISA.

Note 6: Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits payable under all circumstances (retirement, death, disability and termination) are included to the extent they are deemed attributable to employee service rendered.

The actuarial present value of accumulated plan benefits is determined by the Plan's consulting actuary, Towers Watson, and is the amount which results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. Due to the nature and uncertainty of these future assumptions, the resulting estimates are sensitive to changes in the near term and actual results could differ from those estimates.

The following is a summary of the actuarial present value of accumulated plan benefits as of January 1:

	2017	2016
Vested benefits:		
Participants currently receiving payments	\$ 23,060,977	\$ 21,479,025
Other participants	10,101,583	8,553,478
Total actuarial present value of accumulated plan benefits	\$ 33,162,560	\$ 30,032,503

The changes in the present value of accumulated plan benefits are as follows:

Actuarial present value of accumulated plan benefits as January 1, 2016	\$ 30,032,503
Increase (decrease) during the year attributable to:	
Actuarial (gains) losses	(3,487)
Benefits paid	(2,589,195)
Change in actuarial assumptions	623,783
Reduction in discount period	2,128,410
Merger of Versa Technologies, Inc. Retirement Plan	2,970,546
Net increase	3,130,057
Actuarial present value of accumulated plan benefits at January 1, 2017	\$ 33,162,560

Actuant Corporation Retirement Plan

Notes to Financial Statements

Note 6: Actuarial Present Value of Accumulated Plan Benefits (Continued)

Effective December 31, 2016, and subsequent to the benefit information date of January 1, 2016, the Versa Technologies, Inc. Retirement Plan merged into the Plan. As a result of the merger, the Plan incurred an additional liability of \$2,970,546 related to vested benefits held by the Versa Technologies, Inc. Retirement Plan.

Significant actuarial assumptions utilized in determining the present value of accumulated plan benefits at January 1 are as follows:

	2017	2016
Discount rate	7.15 %	7.40 %
Mortality rates	RP-2014	RP-2014
Average retirement age	Age 65	Age 65

The foregoing actuarial assumptions are based on the premise that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Note 7: Tax Status

The Plan has received a favorable determination letter from the Internal Revenue Service dated February 22, 2017, stating that the Plan was qualified and related trust was tax-exempt. The Plan has not been amended since the receipt of the determination letter. The Plan's management believes the Plan is currently designed and is being operated in compliance with the applicable requirements of the Internal Revenue Code.

The Plan Administrator analyzed the tax positions taken by the Plan and concluded there are no uncertain tax positions taken by the Plan. No provision for income taxes has been included in the Plan's financial statements. The Plan is subject to routine audits by taxing jurisdictions and there are currently no audits in progress.

Note 8: Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations.

Certain benefits under the Plan are insured by PBGC if the Plan terminates. Generally, PBGC guarantees most vested, normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan Sponsor and the level of benefits guaranteed by the PBGC.

Actuant Corporation Retirement Plan

Notes to Financial Statements

Note 9: Information Certified by the Custodian

Certain information related to the Plan's investments disclosed in the accompanying financial statements was obtained or derived from information certified as complete and accurate by US Bank, custodian of the Plan.

Note 10: Party-In-Interest

Certain Plan investments are managed by US Bank, N.A. US Bank, N.A. is the custodian; therefore, these transactions and administrative expenses qualify as party-in-interest transactions. These transactions are not, however, considered prohibited transactions under ERISA regulations.

Note 11: Risks and Uncertainties

The investments underlying the Master Trust are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments, it is at least reasonably possible that changes in the values of investments will occur in the near term and these changes could materially affect the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

At-risk assumptions For at-risk calculations, all participants eligible to elect benefits during the current and subsequent ten plan years are assumed to commence benefits at the earliest possible date under the plan, but not before the end of the current plan year, except in accordance with the regular valuation assumptions. In addition, all participants (not just those eligible to begin benefits within the next 11 years) are assumed to elect the most valuable form of benefit under the plan.

Cash flow

Timing of benefit Annuity payments are payable monthly at the beginning of the month and lump sum
payments payments are payable on date of decrement.

Funding policy The plan sponsor's funding policy is to make the minimum required contribution and determine from time to time whether to make additional contributions. We understand the sponsor may deviate from this policy based on cash, tax or other considerations.

Methods

Valuation date	First day of plan year
Funding target	Present value of accrued benefits as required by regulations under IRC §430.
Target normal cost	Present value of benefits expected to accrue during the plan year plus plan-related expenses expected to be paid from plan assets during the plan year as required by regulations under IRC §430.
Actuarial value of assets for determining minimum required contributions	Average of the fair market value of assets on the valuation date and the two immediately preceding valuation dates, adjusted for contributions, benefits, administrative expenses and expected earnings (with such expected earnings limited as described in IRS Notice 2009-22) . The average asset value must be within 10% of market value, including discounted contributions receivable (discounted using the effective interest rate for the 2016 plan year.)

The method of computing the actuarial value of assets complies with rules governing the calculation of such values under the Pension Protection Act of 2006 (PPA). These rules produce smoothed values that reflect the underlying market value of plan assets but fluctuate less than the market value. As a result, the actuarial value of assets will be lower than the market value in some years and greater in other years. However, over the long term under PPA's smoothing rules, the method has a significant bias to produce an actuarial value of assets that is below the market value of assets.

Benefits not valued All benefits described in the Plan Provisions section of this report were valued. Willis Towers Watson has reviewed the plan provisions provided by Actuant Corporation and, based on that review, is not aware of any significant benefits required to be valued that were not.

Data Sources

Actuant Corporation furnished participant and financial data as of January 1, 2017. Data were reviewed for reasonableness and consistency, but no audit was performed. Based on discussions with the plan sponsor, assumptions or estimates were made when data were not available, and the data was adjusted to reflect any significant events that occurred between the date the data was collected and the measurement date. In consultation with Actuant Corporation, the following data assumptions or estimates were made for missing data elements:

- Active data Age 65 benefit was actuarially increased to reflect late retirement, where applicable.
 - Inactive data Age 65 benefit was actuarially increased to reflect late retirement, where applicable, for inactive with deferred benefits.
- Beneficiary date of birth and beneficiary sex, if missing, were assumed to equal the valuation assumption described in Appendix A.

Additional assumptions and/or data changes were communicated with Actuant Corporation in a spreadsheet provided on March 30, 2017.

We are not aware of any errors or omissions in the data that would have a significant effect on the results of our calculations.

Assumptions Rationale – Significant Economic Assumptions

Discount rate	The basis chosen was selected by the plan sponsor from among choices prescribed by law, all of which are based on observed market data over certain periods of time.
Assumed return for asset smoothing	The assumed return used for asset smoothing is the third segment rate. Although we have not explicitly determined an expected return on assets, based on an analysis of the plan sponsor's investment policy we believe the rate to be above the third segment rate.

Assumptions Rationale – Significant Demographic Assumptions

Healthy Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Disabled Mortality	Assumptions used for funding purposes are as prescribed by IRC §430(h).
Termination	Termination rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by termination patterns different than assumed.

Disability Disability rates are based on plan sponsor expectations for the future with periodic monitoring of observed gains and losses caused by disability patterns different than assumed.

Retirement Retirement rates were based on an experience study conducted in 2015.

**Benefit commencement
date for deferred benefits**

▶ **Deferred vested
benefit** Deferred vested participants are assumed to begin benefits at age 65 (or current age if later). Deferred vested early commencement factors are generally not subsidized so that the difference between this approach and using assumed commencement rates at earlier ages is not expected to be significant.

Form of payment The percentage of retiring participants assumed to take optional forms of payment is based on observed patterns of experience over the past several years.

Marital assumptions

▶ **Percent married** The assumed percentage married is based on a blending of marital statuses of recent retirees and changes expected to occur in marriage patterns of retirement age individuals in the future.

▶ **Spouse age** The assumed age difference for spouses is based on general population statistics on the age difference for married individuals of retirement age.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.

Plan Provisions – Former ACME Pension Participants

Type of plan	Career average earnings formula (Salaried Employees), Dollar per month formula (Non-Union Hourly Employees at Lumberton and Tempe). Effective August 31, 2005 benefits under these formulas were frozen.
Normal form	Life annuity
Entry date	Entry Date means the January 1st or July 1st which coincides with or next follows the date that the eligibility requirements are met.
Years of service	<u>For Eligibility Purposes:</u> Years of Service for purposes of eligibility to participate in the Plan are referred to as Years of Eligibility Service and are determined using the Hours of Service Method. A Year of Eligibility Service is credited for each Computation Period during which an Employee is credited with at least 1,000 Hours of Service. The initial Computation Period is the 12 consecutive month period beginning with the Employee's Employment Commencement Date. Thereafter, the Computation Period is the Plan Year beginning with the Plan Year in which the initial Computation Period ends. All of an Employee's Years of Eligibility Service are taken into account in determining his eligibility to participate. <u>For Benefit Purposes:</u> Years of Service for purposes of computing a Participant's Normal Retirement Benefit are referred to as Years of Benefit Service. <i>Salaried Employees:</i> Years of Benefit Service as of December 31, 1991 are determined using the Elapsed Time Method. Beginning January 1, 1992, a Participant shall accrue one year of Benefit Service for each Plan Year in which he completes 1,000 or more Hours of Service. <i>Lumberton and Tempe Hourly Participants:</i> A Year of Benefit Service is credited for each Plan Year in which an Employee is credited with at least 1,800 Hours of Service

For less than 1,800 Hours of Service, a Participant is credited with a proportional part of a Year of Benefit Service as follows:

<u>Hours</u>	<u>Service</u>
Under 180	None
180-359	0.1
360-539	0.2
540-719	0.3

1,260-1,439	0.7
1,440-1,619	0.8
1,620-1,799	0.9

All of a Participant's Years of Benefit Service are taken into account in determining his monthly benefit except:

- ▶ Service for which the Employee was not entitled to receive Compensation; and
- ▶ Service while the Employee was not in an Eligible Employee Classification.

Pension earnings

Calendar year FICA wages

Eligible class

An Eligible Employee Classification is a classification of Employees, the members of which are eligible to participate in the Plan. The only classifications which are Eligible Employee Classifications are Salaried employees and Hourly employees of both the Lumberton and Tempe facilities.

Accrued benefit

Salaried Employees:

Normal Retirement Benefit: A Participant's Normal Retirement Benefit is a monthly pension benefit commencing on his Normal Retirement Date payable in the Normal Benefit Form in an amount equal to:

1.0% of his Average Monthly Compensation as of December 31, 1991, multiplied by his Years of Benefit Service as of December 31, 1991

plus

1.5% of his Monthly Compensation for each of Benefit Service after December 31, 1991.

Lumberton Hourly Employees:

Normal Retirement Benefit: A Participant's Normal Retirement Benefit is a monthly pension benefit commencing on his Normal Retirement Date payable in the Normal Benefit Form in an amount equal to the monthly benefit in effect multiplied by his Years of Benefit Service.

Other Plan Provisions

Forms of payment	Monthly pension benefits are paid as a single life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of an actuarially equivalent 50% joint and survivor annuity. If the participant elects and the spouse consents, another actuarially equivalent optional form may be elected. Optional forms are a 100%, 75%, or 50% joint and survivor annuity, a 10 year certain and life annuity, or a level income option. There is an automatic lump sum payment for amounts under \$3,000, and an optional lump sum payment for amounts under \$10,000.
Conversion basis	In calculating optional forms of benefits under the Plan for Acme participants, except for calculating lump sums benefits. An interest rate of 5% per year is used, and the mortality table is a merged-gender table, based on the 1971 Group Annuity Tables, with a 95% male blend and a 5% female blend at age 62 for the Participant and a 5% male blend and a 95% female blend at age 62 for a Spouse, Beneficiary, or contingent annuitant. Lump sum benefits are calculated using the IRC §417(e) mandated interest rates and mortality table.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Other Plan Provisions

Forms of payment	Monthly pension benefits are paid as a single life annuity, if the participant has no spouse as of the date payments begin, or if the participant so elects. Otherwise, benefits are paid in the form of an actuarially equivalent 50% joint and survivor annuity. If the participant elects and the spouse consent's, another actuarially equivalent optional form may be elected. Optional forms are a 100%, 75%, 66-2/3%, or 50% joint and survivor annuity, a 5 year certain and life annuity, or a 10 year certain and life annuity or a 15 year certain and life annuity. There is an automatic lump sum payment for amounts under \$5,000 and an optional lump sum payment for amounts under \$10,000.
Conversion basis	In calculating optional forms of benefits under the Plan for Gits participants, except for calculating lump sums benefits, an interest rate of 7.5% per year is used, and the mortality table is a unisex table, based on 1983 Group Annuity Tables. Lump sum benefits are calculated using the IRC §417(e) mandated interest rates and mortality table.
Maximum on benefits and pay	All benefits and pay for any calendar year may not exceed the maximum limitations for that year as defined in the Internal Revenue Code. The plan provides for increasing the dollar limits automatically as such changes become effective. Increases in the dollar limits are assumed for determining pension cost but not for determining contributions.

Schedule SB, line 24 – Change in Actuarial Assumptions

Plan Name	<u>Actuant Corporation Retirement Plan</u>	EIN:	<u>39-0168610</u>
Plan Sponsor's Name	<u>Actuant Corporation</u>	PN:	<u>001</u>

Aspect of the Valuation

Change in Actuarial Assumption

Plan Expenses added to
Target Normal Cost

The assumed plan-related expenses added to the target normal cost were changed from \$500,000 (merged plan basis*) for the prior valuation to \$510,000 for the current valuation to account for expected expenses to be paid from the trust.

Mortality table

The mortality table used to calculate the funding target was updated to include one additional year of projected mortality improvement, as required by IRC §430.

Interest Rate

The segment interest rates used to calculate the funding target were updated from an applicable month of September 2015 to September 2016, as required by IRC §430.

The segment rates used to determine minimum funding requirements and benefit restrictions for the 2016 and 2017 plan years were revised by applying the corridors of MAP-21/HATFA/BBA, as required by IRC §430.

* Effective December 31, 2016, the Versa Technologies, Inc. Retirement Plan was merged into the Actuant Corporation Retirement Plan. Assumed plan-related expenses added to the 2016 target normal cost were \$375,000 for the Actuant Corporation Retirement Plan and \$125,000 for the Versa Technologies, Inc. Retirement Plan.
