The Retirement Income Plan for Employees of Trinity East (formerly Retirement Income Plan for Employees of Trinity East – Non-Union Employees) (the Plan) is a noncontributory, defined benefit plan that covers certain employees of Trinity East who were formerly members of a collective bargaining unit and new non-union employees of Trinity East as they become eligible, as well as those non-union employees of Trinity Health System and Tri-State Health Services, Inc. and provides for retirement benefits.

Effective December 31, 2017, the Retirement Income Plan for Employees of Trinity East – Ohio Nurses Association (which was frozen to new participants and future benefit accruals effective May 31, 2014) and the Retirement Income Plan for Employees of Trinity East-AFSCME/OPEIU (which was frozen to new participants and future benefit accruals effective May 31, 2015) were merged into the Plan and the Plan was renamed the Retirement Income Plan for Employees of Trinity East. As a result of the merger, on December 31, 2017, net assets of approximately \$34.9 million which included employer contribution receivables of approximately \$3.7 million were transferred to the Plan as follows: net assets of approximately \$17.0 million (including employer contribution receivables of approximately \$1.9 million) from the Retirement Income Plan for Employees of Trinity East – Ohio Nurses Association and approximately \$17.9 million (including employer contribution receivables of approximately \$1.8 million) from the Retirement Income Plan for Employees of Trinity East – AFSCME/OPEIU were transferred to the Plan. Effective December 31, 2017, the Plan's year-end was changed from May 31 to December 31.

Trinity East (Plan Sponsor) has agreed to voluntarily contribute such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan members. The Plan has met the Employee Retirement Income Security Act of 1974 (ERISA) minimum funding requirements for the period ended December 31, 2017, and year ended May 31, 2017.

Although it has not expressed an intention to do so, the Plan Sponsor reserves the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. Upon termination, the net assets of the Plan will be allocated for payment to the participants in an order of priority as prescribed by ERISA and its related regulations and the plan document.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Should the Plan terminate at some future time, its net assets will generally not be available on a pro rata basis to provide participants' benefits. Whether a particular participant's accumulated plan benefits will be paid depends on both the priority of those benefits and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation (PBGC) at that time. Some benefits may be fully or partially provided for by the then-existing assets and the PBGC guarantee, while other benefits may not be provided for at all.

Effective May 31, 2014, the Plan was frozen; thus there will be no new participants after that date and benefit accruals were frozen at that date, except for participants eligible for certain transition benefits as described in the plan document.

The above description of the Plan provides general information about the Plan's provisions. A more complete description of information about the plan agreement, the vesting and benefit provisions, and the PBGC's benefit guarantee is contained in the plan document and summary plan description available from the Plan Sponsor.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes and supplemental schedules. Actual results could differ from those estimates.

2. Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits (see Note 3) represent the actuarial present value of estimated future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to services rendered by the employees to the valuation date. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits are based on employees' compensation and years of credited service. Benefits payable under all circumstances – retirement, death, disability, and termination of employment – are included, to the extent they are deemed attributable to employee services rendered to the valuation date.

3. Accumulated Plan Benefits

An independent actuary estimated the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The accumulated plan benefit information is determined by the Plan's actuary as of the beginning of the plan year. The actuarial present value of accumulated plan benefits as of the end of the previous plan year is as follows:

	<u>May 31, 2017</u>
Actuarial present value of accumulated plan benefits:	
Vested benefits:	
Participants and beneficiaries currently receiving benefits	\$ 12,010,982
Other participants	11,035,086
Total vested benefits	<u>23,046,068</u>
Non-vested benefits	24,508
Total actuarial present value of accumulated plan benefits	<u>\$ 23,070,576</u>

The change in the actuarial present value of accumulated plan benefits is as follows:

Actuarial present value of accumulated plan benefits at June 1, 2016	\$ 21,983,117
Increase (decrease) during the year attributed to:	
Benefits accumulated and losses	711,916
Benefits paid	(1,161,926)
Increase for interest due to decrease in discount period	1,537,469
Net increase	<u>1,087,459</u>
Actuarial present value of accumulated plan benefits at May 31, 2017	<u>\$ 23,070,576</u>

Significant assumptions and method underlying the actuarial computations are as follows:

Assumed rate of return on investments	7.20%
Mortality basis	RP 2014 Mortality Table projected from 2006 using the modified MP-2017 improvement scale
Retirement age	Rates of retirement were based on a scale of 25% of the participants at an attained age of 62 to 100% of the participants at an attained age of 65

(formerly Retirement Income Plan for Employees of

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The actuary estimated the accumulated plan benefits as of June 1, 2017. There were no significant changes to the Plan that would have changed the valuation had it been performed as of May 31, 2017.

The accumulated plan benefits information presented herein does not include the effects of the merger of the Retirement Income Plan for Employees of Trinity East – Ohio Nurses Association and the Retirement Income Plan for Employees of Trinity East – AFSCME/OPEIU effective December 31, 2017 (see Note 1), for which the accumulated plan benefits as of May 31, 2017, (the most current valuation available) was approximately \$12 million and \$13 million, respectively.

4. Fair Value Measurements

Fair value is defined under Accounting Standards Codification (ASC) 820, *Fair Value Measurement*, as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). To measure fair value, a hierarchy has been established that requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs. As such, the hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy in ASC 820 are described below:

- Level 1 – Unadjusted quoted prices in active markets that are accessible to the reporting entity at the measurement date for identical assets and liabilities.
- Level 2 – Inputs other than quoted prices in active markets for identical assets and liabilities that are observable either directly or indirectly for substantially the full term of the asset or liability. Level 2 inputs include the following:
 - Quoted prices for similar assets and liabilities in active markets
 - Quoted prices for identical or similar assets or liabilities in markets that are not active

Retirement Income Plan for Employees of Trinity East
(formerly Retirement Income Plan for Employees of
Trinity East – Non-Union Employees)

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- Observable inputs other than quoted prices that are used in the valuation of the asset or liabilities (e.g., interest rate and yield curve quotes at commonly quoted intervals)
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means
- Level 3 – Unobservable inputs for the asset or liability (i.e., supported by little or no market activity). Level 3 inputs include management's own assumption about the assumptions that market participants would use in pricing the asset or liability (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety.

Following is a description of the valuation techniques and inputs used for general type of investment measured at fair value.

Cash: Cash is valued at cost, which approximates fair value.

Money market fund and mutual funds: The money market fund is a mutual fund that seeks to maintain a stable net asset value (NAV) of \$1 per share. The money market fund and mutual funds are valued at the daily closing price as reported by the fund. The funds are open-ended mutual funds that are registered with the SEC. These funds are required to publish the daily NAV and to transact at that price. These funds are deemed to be actively traded.

The following tables set forth by level within the fair value hierarchy the Plan's assets carried at fair value as of December 31, 2017 and May 31, 2017:

	Assets at Fair Value			
	Level 1	Level 2	Level 3	Total

5. Investments

All investment information for the Plan disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2017 and May 31, 2017 (except for a cash account of \$473,168 and \$102,183 at December 31, 2017 and May 31, 2017, respectively), and interest and dividends and net appreciation in fair value of investments for the period June 1, 2017 to December 31, 2017, and the year ended May 31, 2017, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by the Plan's trustee, KeyBank National Association.

6. Tax Status

The Plan has received a determination letter from the Internal Revenue Service (IRS) dated December 5, 2013, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the Code) and therefore the related trust is tax-exempt. Subsequent to the determination by the IRS, the Plan was amended. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualified status. The plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes the Plan, as amended, is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States require plan management to evaluate uncertain tax positions taken by the Plan. The financial statement effects of a tax position are recognized when the position is more likely than not, based on the technical merits, to be sustained upon examination by the IRS. The plan administrator has analyzed the tax

6. Tax Status (continued)

positions taken by the Plan, and has concluded that as of December 31, 2017 and May 31, 2017, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Administrative Expenses

For the period June 1, 2017 to December 31, 2017, and the year ended May 31, 2017, the Plan Sponsor paid certain administrative expenses of the Plan.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market volatility, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported on the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

9. Subsequent Events

Management evaluated subsequent events for the Plan through October 1, 2018, the date the accompanying financial statements were available to be issued.

- **Expected investment return** – The expected long-term rate of return is based on simulated investment returns using capital market assumptions published in Mercer Investment Consulting's Capital Markets Outlook for the plan's current target asset mix, adjusted for expected excess returns for active management net of investment expenses assumed to be paid from plan assets.
- **Expenses** – Expenses are assumed to be same as actual expenses paid from plan assets rounded to next \$ 1,000. For the short plan year, expenses are prorated for 7 months.

ACTUARIAL METHODS

Asset Methods

The asset valuation method is an average of the adjusted market value as of the valuation date and six months preceding the valuation date. The adjusted market value is the market value at each determination date adjusted to the valuation date based on actual cash flows and expected interest at the lesser of the expected rate of return and the third segment rate. This amount is adjusted to be no greater than 110% and no less than 90% of the fair market value, as defined in IRC Section 430.

A characteristic of this asset method is that, over time, it is slightly more likely to produce an actuarial value of assets that is less than the market value of assets than an actuarial value that is greater than the market value.

Participant Methods

Participants or former participants are included or excluded from the valuation as described below:

- **Participants included:** The plan sponsor provides us with data on all employees as of the valuation date, but only those employees who have completed the plan's eligibility requirements are included in the valuation of liabilities.

Schedule SB, Part V — Statement of Actuarial Assumptions/Methods

- **Participants excluded:** No actuarial liability is included for nonvested participants who terminated prior to the valuation date. For this purpose, participants with a break in service on the valuation date are treated as terminated participants.
- **Insurance contracts:** The plan does not have any insurance contracts.

Minimum Funding Methods

The funding target for minimum funding calculations is computed using the traditional unit credit method of funding. The objective under this method is to fund each participant's benefits under the plan as they accrue. Thus, the total pension to which each participant is expected to become entitled at retirement is broken down into units, each associated with a year of past or future credited service.

A detailed description of the calculation follows:

- The plan's valuation date is the beginning of the plan year.
- An individual's **funding target** is the present value of future benefits based on credited service and average pay as of the beginning of the plan year, and an individual's **target normal cost** is the present value of the benefit expected to accrue in the plan year. If multiple decrements are used, the funding target and the target normal cost for an individual is the sum of the component funding targets and target normal costs associated with the various anticipated separation dates.
- The plan's **target normal cost** is the sum of the individual target normal costs, and the plan's **funding target** is the sum of the individual funding targets for all participants under the plan.

The VCP filing was agreed upon by the IRS and the valuation as of June 1, 2017 takes into account these benefit increases in addition to back payment amounts payable as of July 1, 2017 to applicable participants.

- (a) Accrued benefit as of June 1, 1985.
- (b) June 1, 1985 – May 31, 1989;
\$36 per year of service plus 1.75% of earnings in excess of \$4,800.
- (c) June 1, 1989 – May 31, 1992;
1.27% of earnings up to \$10,000 plus 1.75% of earnings in excess of \$10,000.
- (d) June 1, 1992 – May 31, 1994;
1.50% of earnings up to \$10,000 plus 2.00% of earnings in excess of \$10,000.

1.75% of earnings up to \$10,000 plus 2.00% of earnings in excess of \$10,000.

Accruals under the career average formula above are frozen as of May 31, 2014. Thereafter, participants who satisfy eligibility for transition benefits, for whom age plus service as of June 1, 2014 total more than 55 (and who have accrued at least five years of service excluding certain named officers) accrue a 5% per year increase to the accrued benefit for up to five years (stopping upon termination), prorated monthly for credited service of less than one year.

The monthly normal retirement benefit may never be less than \$4.80 for each year of Credited Service up to and including 25 years. Also, in no event will the accrued benefit be less than it was as of May 31, 1989. Other minimum benefits related to years of service that apply to employees retiring at or beyond normal retirement age are detailed in the plan document. In no event will a participant's retirement benefit exceed limits set forth in Section 415, as revised by the Tax Reform Act of 1986 and effective January 1, 1987.

Effective February 1, 1997 through January 31, 1998, a voluntary early retirement program for those employees who were at least age 55 with 10 or more years of service was implemented. - **Maximum benefits** Annual benefits may not exceed the limits in IRC Section 415. This limit is indexed annually.

Benefits Included or Excluded

- Unless noted below, all benefits provided by the plan are included in this valuation.
- **Most recent plan amendments included:** Amendments through the valuation date are included because it was adopted by the valuation date and is effective by the end of the plan year.
- **Plan amendments excluded:** None.
- **Late retirement increases:**
 - *Active participants:* The plan provides benefit suspension notices to participants who work beyond normal retirement; therefore, late retirement actuarial increases only apply to participants who defer retirement beyond age 70½. This valuation includes increases for current participants over their minimum required distribution date.
 - *Deferred vested participants:* Current deferred vested participants over normal retirement age are valued including the late retirement actuarial increase.
- **Internal Revenue Code limitations:** The limitations of Internal Revenue Code Section 415(b) and 401(a)(17) have been incorporated into our calculations.
- **IRC Section 416 rules for top-heavy plans:** We did not test whether this plan is top-heavy (when the present value of benefits for key employees equals or exceeds 60% of the present value for all participants). However, we expect that the plan is not top-heavy due to the large number of rank-and-file participants; therefore, the funding target and target normal cost do not reflect any liability for top-heavy benefit accruals.

PLAN PROVISIONS SPECIFIC TO FUNDING

Additional Benefits Included or Excluded

- **IRC Section 436 benefit restrictions:**
 - *Unpredictable contingent event benefits:* This valuation excludes restricted contingent event benefits that occurred before the valuation date but includes contingent event benefits which are expected to occur on or after the valuation date regardless of anticipated funding-based limitations.
 - *Plan amendments:* See above.
 - *Prohibited payments:* Limitations on prohibited benefits (if any) are reflected for annuity starting dates before the valuation date but are ignored for annuity starting dates on or after the valuation date.
 - *Benefit accruals:* The plan's funding target does not reflect any limitation on benefit accruals. The target normal cost does not reflect any limitation on benefit accruals.
- **Scheduled benefit increases:** There are no schedule benefit increases effective after the end of the current plan year.
- **Unpredictable contingent event benefits:** The plan does not have any unpredictable contingent event benefits.
- **IRC Section 415(b) benefit limitations:** The limitations of Internal Revenue Code Section 415(b) have been incorporated into our calculations.
