INDEPENDENT AUDITORS' REPORT

To the Participants and Retirement Management Committee of
Dillon Companies, Inc. Employees' Profit Sharing Plan:

Report on the Financial Statements

We have audited the accompanying financial statements of the Dillon Companies, Inc. Employees' Profit Sharing Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2017 and 2016, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement; whether due to fraud or error.

Auditors' Responsibility for the 2017 Financial Statements

Our responsibility is to express an opinion on the 2017 financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the 2017 financial statements.

Auditors' Responsibility for the 2016 Financial Statements

Our responsibility is to express an opinion on the 2016 Financial Statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matters described in the Basis for Disclaimer of Opinion on the 2016 Financial Statements paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion on the 2016 Financial Statements

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the investment assets held by Bank of America, N.A. and Northern Trust Company, custodians of the Plan, and transactions in those assets were excluded from the scope of our audit of the Plan's 2016 financial statements, except for comparing the information provided by the custodians, which is summarized in Note 9, with the related information included in the financial statements.

Disclaimer of Opinion on the 2016 Financial Statements

Because of the significant of the matter described in the Basis for Disclaimer of Opinion on the 2016 Financial Statements paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on the 2016 financial statements.

Opinion on the 2017 Financial Statements

In our opinion, the financial statements referred to above, of Dillon Companies, Inc. Employees' Profit Sharing Plan as of December 31, 2017, and for the year then ended, present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017, and the changes in net assets available for benefits for the year ended December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audit of the Plan's financial statements as of and for the year ended December 31, 2017 was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2017 is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the 2017 financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Report on Form and Content of the 2016 Financial Statements in Compliance With DOL Rules and Regulations

The form and content of the information included in the 2016 financial statements, other than that derived from the information certified by the custodians, have been audited by us in accordance with auditing standards generally accepted in the United States of America, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements
(All dollar amounts are in thousands)

1. Description of Plan:

The following description of the Dillon Companies, Inc. Employees' Profit Sharing Plan (Plan) provides only general information. Participants should refer to the Plan document for a more complete description of Plan provisions.

General

The Plan is sponsored by Dillon Companies, Inc. and certain subsidiaries (collectively the Company). Eligible participants include employees of the Company who are not covered by any defined benefit plan other than the minimum benefit formula within The Kroger Consolidated Retirement Benefit Spin Off Plan. Effective July 1, 2000, the Plan was closed to new participants. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

Contributions

For 2017, a discretionary contribution of 5% of eligible compensation, as defined in the plan document, was made by the Company. In no event shall the aggregate contribution for any year exceed the maximum allowed deductible during such year from the Company's income for purposes of Federal income taxation, as provided under Section 404 of the Internal Revenue Code. Effective July 1, 2000, the Plan no longer permitted voluntary employee contributions.

Participant Accounts

Company contributions and participant forfeitures are allocated annually to participants based on eligible compensation. Allocations of earnings or losses are based upon the performance of the investment funds chosen by the participant. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in any prior voluntary contributions plus actual earnings thereon. Vesting in employer contributions is based on years of continuous service. Participants are 20% vested in employer amounts after two years of service, and vest an additional 20% per year through the sixth year of service. Employer contributions are also fully vested upon disability, age 60, or death.

Benefits

Payment of benefits can be made under various methods, depending upon the reason for the distribution, such as termination of service, death, disability, or retirement, as well as other factors. At termination, those participants with a balance of less than or equal to one thousand dollars will receive a single lump sum distribution. Absent specific elections by the participant, those with balances greater than one thousand dollars and less than or equal to five thousand dollars shall be distributed, in the form of a direct rollover, to an individual retirement account designated by the Plan Administrator. Those with balances greater than five thousand dollars may elect to leave their funds in the Plan or choose other options. Participants are entitled to benefits beginning at normal retirement age (generally age 65). Benefits are recorded when paid.

Plan Transfers

In the event a participant in the Plan is also a participant in the Kroger Consolidated Retirement Benefit Spin Off Plan on his actual retirement date, the Plan trustee may distribute all of the value of the participant's account in the Plan to the Kroger Consolidated Retirement Benefit Plan. Such transfer shall be distributed to the participant pursuant to the terms of the Kroger Consolidated Retirement Benefit Spin Off Plan.

Forfeitures

Forfeitures can be used to reduce administrative expenses of the Plan, reduce Company contributions or be reallocated to the participants at the end of the Plan year. The balance of forfeitures was \$0 and \$13 at December 31, 2017 and 2016, respectively. During 2017, forfeitures were not used to reduce Company contributions.

2. Summary of Significant Accounting Policies:

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Master Trust

The investments of the Plan, along with investments of other plans of The Kroger Co. and its subsidiaries, are pooled for investment purposes in a master trust pursuant to an agreement dated October 15, 2008, between The Northern Trust Company, the trustee, and the Company – The Kroger Defined Contribution Plan Master Trust (the Master Trust).

Investment valuation and income recognition

The Plan's investments within the Master Trust are stated at fair value, except for fully benefit-responsive investment contracts which are reported at contract value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Management Committee determines the Plan's valuation policies utilizing information provided by the investment advisors and custodians. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Gains or losses on sales of securities are based on average cost. Dividends are recorded on the ex-dividend date. Income from other investments is recorded as earned. Net depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investment contracts held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate a permitted transaction under the terms of the Plan. The Plan invests in investment contracts through the Master Trust.

Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results may differ from those estimates.

Administrative expenses

The Plan will pay the administrative costs and expenses of the Plan, including the custodian and management fees. Any expenses that are unable to be allocated to participants are paid by the Company and are excluded from these financial statements. Fees related to distributions to participants are charged directly to the participant's account and are included in administrative expenses.

Accounting change

Recently issued accounting pronouncements—In February 2017, the FASB issued ASU 2017-06, "Plan Accounting: Defined Benefit Pension Plans (Topic 960): Employee Benefit Plan Master Trust Reporting." The amendments in this update require a plan's interest in a master trust and any change in that interest to be presented in separate line items in the statements of net assets available for benefits and in the statements of changes in net assets available for benefits, respectively. Additionally, ASU 2017-06 requires that all plans disclose the dollar amount of their interest in each of those general types of investments,

which supplements the existing requirement to disclose the master trust's balances in each general type of investments. The amendments in ASU 2017-06 are effective for fiscal years beginning after December 15, 2018, with early adoption permitted. The Plan elected to early adopt ASU 2017-06, applied retrospectively to all periods presented. This change has no impact on net assets available for benefits.

Subsequent events

The Company evaluates events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The accompanying financial statements consider events through the date on which the financial statements were available to be issued.

3. Investment Contracts:

The Master Trust holds several synthetic investment contracts which are managed by investment fund managers. The key difference between a synthetic investment contract and a traditional investment contract is that the Master Trust holds the underlying assets in a synthetic investment contract. The Master Trust also purchases wrapper contracts from financial institutions which provide assurance that crediting rates will never be less than zero. All plans have an undivided interest in each investment contract. The investment contracts are fully benefit-responsive and are therefore reported at contract value. A fully benefit-responsive investment provides a liquidity guarantee by a financially responsible third party of principal and previously accrued interest for liquidations, transfers, loans, or withdrawals initiated by Plan participants under the terms of the ongoing Plan. Certain employer-initiated events (i.e. layoffs, mergers, bankruptcy, Plan termination) are not eligible for the liquidity guarantee.

In general, issuers may terminate the investment contracts and settle at other than contract value if the qualification status of the employer or Plan changes, breach of material obligations under the contract and misrepresentation by the contract holder, or failure of the underlying portfolio to conform to the pre-established investment guidelines.

The Plan Administrator does not believe that the occurrence of any such event, which would limit the Plan's ability to transact at contract value with participants, is probable.

5. Fair Value Measurements:

For financial statement elements currently required to be measured at fair value, Financial Accounting Standards Board (FASB) defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. The standards define fair value as the price that would be received to sell an asset or paid to transfer a liability (exit price) regardless of whether an observable liquid market price exists.

FASB establishes a fair value hierarchy that categorizes the inputs to valuation techniques that are used to measure fair value into three levels:

- Level 1 includes observable inputs which reflect quoted prices for identical assets or liabilities in active markets at the measurement date.
- Level 2 includes observable inputs for assets or liabilities other than quoted prices included in Level 1 and it includes valuation techniques which use prices for similar assets and liabilities.
- Level 3 includes unobservable inputs which reflect the reporting entity's estimates of the assumptions that market participants would use in pricing the asset or liability, including assumptions about risk.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Participants may direct their investments into Kroger common stock, retirement date funds, or separately managed accounts. The underlying investments in the retirement date funds and separately managed accounts include mutual funds, common collective trusts, and guaranteed investment contracts as described herein. The retirement date funds and separately managed accounts are valued at NAV as a practical expedient.

The following is a description of the valuation methods used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2017 and 2016.

- Cash and Cash Equivalents: The carrying value approximates fair value.
- Common Stock: The fair values of these securities are based on observable market quotations for identical assets and are valued at the closing price reported on the active market on which the individual securities are traded.
- Mutual Funds: The fair values of these securities are primarily based on observable market quotations for identical assets and are valued at the closing price reported on the active market on which the individual securities are traded.
- Collective Trusts: The collective trust funds are public investment vehicles valued using a Net Asset Value (NAV), as provided by the manager of each fund, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying

net assets owned by the fund, divided by the number of shares outstanding. The NAV's unit price is quoted on a private market that is not active. However, the NAV is based on the fair value of the underlying securities within the fund, which are traded on an active market, and valued at the closing price reported on the active market on which those individual securities are traded. The significant investment strategies of the funds are as described in the financial statements provided by each fund. There are no restrictions on redemptions from these funds.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement.

While all the investments of the participating plans are deemed part of the Master Trust, each plan does maintain a separate accounting of its share of the investments in the Master Trust.

The following tables set forth by level, within the fair value hierarchy, the Master Trust's assets at fair value as of December 31, 2017 and 2016:

Fair Value Measurements:

(a) This is made up of Kroger 401k plan specific white labeled fund offerings. The underlying assets of the funds consist of mutual funds, collective trusts, and separate account vehicles with varying investment strategies. The investments in the funds are reviewed regularly and adjusted as necessary.

(b) The primary objective of these funds is to provide an appropriate asset mix for a participant given the participant's age and retirement year. The underlying assets of the funds consist of mutual funds, collective trusts, and separate account vehicles. As time moves closer to a participant's retirement date, the investments in the funds are adjusted automatically to become more conservative, with a higher portion invested in bonds and shorter-term investments and less in stocks. The investments in the funds are reviewed regularly and adjusted as necessary. The focus of the funds changes from growing assets to generating income and protecting investments as the retirement date approaches.

6. Income Tax Status:

The Plan obtained its latest determination letter on November 20, 2017, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, complied with the applicable requirements of the Internal Revenue Code (IRC). Therefore, no provision for income taxes has been included in the Plan's financial statements.

7. Risks and Uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

8. Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue contributions at any time and to terminate the Plan at any time subject to the provisions of ERISA. In the event of any total or partial termination or discontinuance, the accounts of all affected participants shall become fully vested and non-forfeitable.

9. Information Certified by the Custodians:

For December 31, 2016 and the year then ended, all cash and cash equivalents, investments, investment income and the net depreciation in fair value of investments included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified as complete and accurate by the Plan custodians, Bank of America, N.A. and Northern Trust Company. No certification was obtained for the plan year 2017.

10. Related-party and Party-in-interest Transactions:

The Plan's portion of its interest in the Master Trust included \$123,339 and \$184,570 of The Kroger Co. common shares at December 31, 2017 and 2016, respectively, at fair value.

The Plan purchased 161,951 and 790,872 common shares of The Kroger Co. at a cost of \$4,419 and \$29,112 in 2017 and 2016, respectively through its interest in the Master Trust.

The Plan sold 884,346 and 1,256,986 common shares of The Kroger Co. for \$24,650 and \$44,676 with a realized gain of \$10,979 and \$15,820 in 2017 and 2016, respectively through its interest in the Master Trust.

Bank of America, N.A. and Merrill Lynch provide recordkeeping and investment management services to the Plan. Therefore, transactions with Bank of America, N.A. and Merrill Lynch qualify as party-in-interest transactions.
