Profit-Sharing Plan of Sealed Air Corporation

Notes to Financial Statements

December 31, 2017 and 2016

1. Description of the Plan

The following brief description of the Profit-Sharing Plan of Sealed Air Corporation (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General

The Profit-Sharing Plan of Sealed Air Corporation is both a nonparticipant-directed and participant-directed noncontributory defined contribution plan covering substantially all employees of Sealed Air Corporation (the “Company”) and subsidiaries. Eligible employees include all full-time and part-time employees, except those who are covered by certain collective bargaining agreements, certain nonresident aliens, leased employees or independent contractors, temporary or part-time employees who are scheduled to work less than 1,000 hours and do not complete 1,000 hours of service in a prescribed 12 month period, and employees working at specific divisions, departments or other business units of the Company that are not covered by the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”). The Retirement Committee determines the appropriateness of the Plan’s investment offerings, monitors investment performance and is appointed by and reports to the Organization and Compensation Committee, which is a subset of the Company’s Board of Directors.

Contributions

The Company contributes to the trust fund annually an amount determined by the Board of Directors, if any. During both 2017 and 2016, the contribution was 5 percent of eligible compensation. The contribution is allocated to participants if they are an employee of the Company on the last day of the calendar year or if the participant retires, dies or becomes disabled during the calendar year. The Board of Directors also determines whether the contribution will be made in cash, in shares of Sealed Air Corporation’s common stock, or in a combination of cash and such shares. Contributions made by the Company in the form of common stock are nonparticipant directed and must be invested in the Sealed Air Corporation Common Stock Fund. Contributions made in the form of cash may be directed by the participant into one or more of the Plan’s investment funds.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Participant Accounts

Each participant's account is credited with an allocation of the Company's contributions, forfeitures and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the master trust ("Master Trust"). Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Investment in Sealed Air Corporation Common Stock Fund

The Plan has one investment fund held through a master trust that primarily holds Sealed Air Corporation ("Sealed Air") common stock. This fund is the required investment fund for all shares of Sealed Air common stock that the Company contributes to the Plan. A participant may transfer this part of their account balance out of the Sealed Air Corporation Common Stock Fund into the other funds.

This is also one of the investment funds available for the investment of the Company's cash contributions to the Plan. Subject to Plan limits, participants may direct investment of the Company's cash contributions for investment in this fund. Fidelity Management Trust Company ("Fidelity" or "Trustee") purchases and sells the common stock at fair value in transactions effected on the open market. No more than 25 percent of an individual employee's account balance that is attributable to Sealed Air's cash contributions to the Plan and Sealed Air's contributions of its common stock can be invested in the Sealed Air Corporation Common Stock Fund.

Vesting

Vesting in the Company's contribution of their accounts is based on years of continuous service. A participant is 100 percent vested upon the earliest of retirement, disability, death or completion of 60 months of continuous service, as defined by the Plan document.

Notes to Financial Statements (continued)

1. Description of the Plan (continued)

Forfeitures

At December 31, 2017 and 2016, forfeited non-vested accounts totaled \$1,099,911 and \$2,880,493, respectively. Forfeited accounts will be used to reduce future employer contributions. During 2017 and 2016, employer contributions were reduced by \$2,880,530 and \$1,537,060, respectively, from forfeited non-vested accounts.

Benefits

Participants may receive their entire vested balance in the Plan following termination of employment. Benefits are paid in the form of either a lump-sum or monthly, quarterly or annual cash installment payments. Participants may also directly transfer to another eligible retirement plan the amount of any lump-sum distribution that is qualified to be held in such a plan. Fully vested participants whose account has an investment in the Sealed Air Common Stock Fund that is attributable to certain post-2001 contributions when being paid in a lump-sum may elect to have that investment distributed in whole shares of Sealed Air common stock rather than cash. During employment, participants may withdraw all or part of their vested interest in the Plan in the event of certain financial hardships or after age 59-1/2 if fully vested.

Administrative Expenses

Substantially all the costs of administering the Plan are paid by the participants and are recorded in the financial statements of the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of termination, participants would become 100 percent vested in their account balances.

Notes to Financial Statements (continued)

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Payment of Benefits

Benefits are recorded when paid.

Valuation of Investments and Income Recognition

Investments held by the Master Trust are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Retirement Committee determines the Master Trust's valuation policies utilizing information provided by the investment advisers, trustees, and insurance company. See Note 4 for discussion on fair value measurements.

Purchases and sales of securities in the Master Trust are reflected on a trade-date basis. Interest income is recorded in the Master Trust on the accrual basis. Dividends are recorded in the Master Trust on the ex-dividend date. The Plan's interest in the Master Trust investment income includes Master Trust's gains and losses on investments bought and sold, as well as held during the year.

Use of Estimates

The preparation of financial statements in accordance with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Risks and Uncertainties

The Master Trust invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect

participants' account balances and the amount reported in the statements of net assets available for benefits.

3. Investment Information Certified by the Trustee

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2017 and 2016, and net appreciation in fair value of investments, interest income from investments, dividends and investment expenses, was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the trustee.

Investments are held by Fidelity Management Trust Company under a nondiscretionary Master Trust Agreement. The Plan's investments are jointly held with the assets of the Sealed Air Corporation 401(k) Thrift Plan in the Master Trust. Financial information relating to those investments, including investment income, realized and unrealized appreciation and investment expenses, is included in the accompanying financial statements based on information certified by the trustee. Each participating plan has a divided interest in the net assets of the Master Trust depending on the individual investments selected by or for the participants in each plan.

The value of the Plan's interest in the Master Trust is based on the beginning of the year value of the Plan's interest in the Master Trust plus actual contributions and allocated investment income less actual distributions and allocated administrative expenses. At December 31, 2017 and 2016, the Plan's interest in the net assets of the Master Trust was approximately 32.5% and 32.6% respectively. Investment income and administrative expenses relating to the Master Trust are allocated to the Plan based upon the monthly balances invested by each plan.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurement) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Master Trust has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability

Profit-Sharing Plan of Sealed Air Corporation

Notes to Financial Statements (continued)

4. Fair Value Measurements (continued)

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Common stocks: Valued at the closing price reported on the active market on which the individual securities are traded.

Mutual funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Master Trust are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Master Trust are deemed to be actively traded.

Collective trust fund: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the NAV. Participant transactions (purchase and sales) may occur daily.

6. Income Tax Status (continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken. The Plan has recognized no interest or penalties related to uncertain tax positions.

7. Related Party Transactions

Certain Master Trust investments are shares of funds managed by Fidelity. Fidelity is the trustee as defined by the Master Trust and, therefore, these transactions qualify as exempt party-in-interest transactions. Fees incurred by the Master Trust for the investment management services are included in net appreciation in fair value of the investment as they are paid through revenue sharing, rather than a direct payment. As described in Note 3, the Master Trust made a direct payment to the third party administrator of \$267,460 and \$163,848, during the years ended December 31, 2017 and 2016, respectively, which was not covered by revenue sharing. The Plan Sponsor pays directly any other fees related to the Master Trust's operations. The Master Trust also invests in shares of Sealed Air Common Stock Fund. These transactions qualify as exempt party-in-interest transactions.

8. Concentration of Market Risk

At December 31, 2017 and 2016, approximately 41% and 42%, respectively, of the Plan's total assets were invested in the Sealed Air Common Stock Fund. The underlying value of the Sealed Air Common Stock Fund is dependent on the performance of the Company and the market's evaluation of such performance.

9. Subsequent Events

The Plan has evaluated subsequent events through October 4, 2018, the date the financial statements were available to be issued. On July 12, 2018, the Retirement Committee approved the merger of the Plan into the Sealed Air Corporation 401(k) Thrift Plan effective December 31, 2018. The merger is not expected to impact the Plan's participants.
