TECHNIPAQ, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan

The following description of the Technipaq, Inc. (Company) 401(k) Profit Sharing Plan (Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's Trustees determine the appropriateness of the Plan's investments and monitor investment performance.

Contributions

Each year, the Company may make a discretionary profit sharing contribution to the Plan. Contributions are subject to certain statutory limitations. The Plan allows each eligible participant to elect to defer up to ninety percent of compensation and have that amount contributed to the Plan on a pre-tax basis or an after-tax basis as a Roth deferral. Elective salary deferrals are subject to Internal Revenue Service Code limitations. Each eligible employee, with respect to employee contributions, shall become a participant on the first applicable entry date coincident with or following the date he or she performs four months of service. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's profit sharing contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses paid by the Plan, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution and earnings thereon is based years of service. A participant is 100% vested after six years of continuous service.

Participant Loans

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing prime rates charged by commercial banks ranging from 4.25% to 5.25%. Principal and interest are paid through payroll deductions.

Payment of Benefits

Upon termination of service due to death, the participant's vested account balance is paid to his/her designated beneficiary. On termination of service due to disability, retirement, or other reasons a participant may elect to receive a lump-sum amount equal to the value of his or her account, a joint and survivor annuity, periodic payments or any other lawful method of payment.

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan (Continued)

Forfeited Accounts

At December 31, 2017 and 2016, forfeited nonvested accounts totaled $14,094 and $25,304, respectively. Forfeitures are retained in the Plan and may first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions.

Note 2 – Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP) requires the Plan Trustees to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans (if any) are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

At December 31, 2017 and 2016, amounts payable to participants totaling $0 and $14,200, respectively, for contributions in excess of amounts allowed by the Internal Revenue Code are recorded as accounts payable, with a corresponding reduction to 2017 and 2016 contributions, respectively. The Plan distributed the 2016 excess contribution prior to March 31, 2017.

Payment of Benefits

Benefits are recorded when paid.

Date of Management's Review

Management has evaluated subsequent events through October 9, 2018, the date the financial statements were available to be issued.

TECHNIPAQ, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 3 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Financial Accounting Standards Board Accounting Standards Codification 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2017 and 2016.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

TECHNIPAQ, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 3 – Fair Value Measurements (Continued)

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016.

	Fair Value	Fair Value Measurements at Reporting Date Using: Level 1
December 31, 2017		
Mutual funds	$2,959,063	$2,959,063
December 31, 2016		
Mutual funds	$2,374,535	$2,374,535

Note 4 – Parties-In-Interest Transactions

Parties-in-interest are defined under the Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During 2017 and 2016, certain administrative expenses of the Plan were paid by Technipaq, Inc.

Certain Plan investments are shares of mutual funds managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental schedule of assets held for investment purposes. Fees incurred by the Plan for the investment management services are included in the net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than as a direct payment.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 5 – Information Prepared and Certified by Trustee

The Plan Administrator has elected the method of annual compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee John Hancock Life Insurance Company has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2017 and 2016.
- Investment income included in the statement of changes in net assets available for benefits for the years ended December 31, 2017 and 2016
- Schedule H, line 4i – schedule of assets held for investment purposes at end of year.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

TECHNIPAQ, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 7 – Income Tax Status and IRS Examination

Effective March 1, 2014, the Plan was amended and restated as a Volume Submitter ("Volume Submitter") Profit Sharing Plan with CODA sponsored by the trustee and adopted by Technipac, Inc. The Volume Submitter Plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not requested its own determination letter. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt. The Plan is subject to income tax examinations generally for three years after returns are filed.

The Plan had an examination by the IRS for the years 2010-2015. The results of the examination have identified noncompliance with the "top heavy" rules that the Plan is required to follow for plan years ending December 31, 2010 through 2013. In general, a 401(k) plan is "top heavy" when it provides more than 60% of the present value of benefits to key employees. If a plan is top heavy, it must satisfy certain accelerated vesting requirements and provide certain minimum contributions to all eligible non-key employees.

During 2015, the Employer made an additional "top heavy" contribution to the Plan totaling $76,966 as a result of the 2014 "top heavy" test. In January 2018 the Company made $45,261 in qualified non-elective contributions to the affected participants for the two failures found by the IRS for the noncompliance with the "top heavy" rules for the years 2010 through 2013. The amount was based on the portion of the year's compensation that was erroneously excluded, calculated on the portion of compensation attributable to Code section 125 benefits. The amount was receivable at December 31, 2017 and is included on the statements of net assets available for sales. The IRS and the Company settled the examination with a closing agreement in February 2018 and fined the Company $5,000.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

TECHNIPAQ, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan

The following description of the Technipaq, Inc. (Company) 401(k) Profit Sharing Plan (Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan's Trustees determine the appropriateness of the Plan's investments and monitor investment performance.

Contributions

Each year, the Company may make a discretionary profit sharing contribution to the Plan. Contributions are subject to certain statutory limitations. The Plan allows each eligible participant to elect to defer up to ninety percent of compensation and have that amount contributed to the Plan on a pre-tax basis or an after-tax basis as a Roth deferral. Elective salary deferrals are subject to Internal Revenue Service Code limitations. Each eligible employee, with respect to employee contributions, shall become a participant on the first applicable entry date coincident with or following the date he or she performs four months of service. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's profit sharing contribution, (b) Plan earnings, and (c) charged with an allocation of administrative expenses paid by the Plan, if any. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution and earnings thereon is based years of service. A participant is 100% vested after six years of continuous service.

Participant Loans

Participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 to 5 years or up to 10 years for the purchase of a primary residence. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing prime rates charged by commercial banks ranging from 4.25% to 5.25%. Principal and interest are paid through payroll deductions.

Payment of Benefits

Upon termination of service due to death, the participant's vested account balance is paid to his/her designated beneficiary. On termination of service due to disability, retirement, or other reasons a participant may elect to receive a lump-sum amount equal to the value of his or her account, a joint and survivor annuity, periodic payments or any other lawful method of payment.

NOTES TO FINANCIAL STATEMENTS

Note 1 – Description of Plan (Continued)

Forfeited Accounts

At December 31, 2017 and 2016, forfeited nonvested accounts totaled $14,094 and $25,304, respectively. Forfeitures are retained in the Plan and may first be used to pay administrative expenses. Any remaining amounts will be used to reduce future employer contributions.

Note 2 – Summary of Significant Accounting Policies

The following are the significant accounting policies followed by the Plan:

Basis of Accounting

The financial statements of the Plan are presented on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America (GAAP) requires the Plan Trustees to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Participant loans are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans (if any) are reclassified as distributions based on the terms of the Plan document.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes the plan's gains and losses on investments bought and sold as well as held during the year.

Excess Contributions Payable

At December 31, 2017 and 2016, amounts payable to participants totaling $0 and $14,200, respectively, for contributions in excess of amounts allowed by the Internal Revenue Code are recorded as accounts payable, with a corresponding reduction to 2017 and 2016 contributions, respectively. The Plan distributed the 2016 excess contribution prior to March 31, 2017.

Payment of Benefits

Benefits are recorded when paid.

Date of Management's Review

Management has evaluated subsequent events through October 9, 2018, the date the financial statements were available to be issued.

TECHNIPAQ, INC. 401(k) PROFIT SHARING PLAN

NOTES TO FINANCIAL STATEMENTS

Note 3 – Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Financial Accounting Standards Board Accounting Standards Codification 820, Fair Value Measurements and Disclosures, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure the fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the assets or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair market value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the valuation methodologies used at December 31, 2017 and 2016.

Mutual Funds: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at the price. The mutual funds held by the Plan are deemed to be actively traded.

NOTES TO FINANCIAL STATEMENTS

Note 3 – Fair Value Measurements (Continued)

The following tables set forth, by level within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016.

	Fair Value	Fair Value Measurements at Reporting Date Using: Level 1
December 31, 2017		
Mutual funds	$2,959,063	$2,959,063
December 31, 2016		
Mutual funds	$2,374,535	$2,374,535

Note 4 – Parties-In-Interest Transactions

Parties-in-interest are defined under the Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. During 2017 and 2016, certain administrative expenses of the Plan were paid by Technipaq, Inc.

Certain Plan investments are shares of mutual funds managed by John Hancock Life Insurance Company. John Hancock Life Insurance Company is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions and are denoted as such on the supplemental schedule of assets held for investment purposes. Fees incurred by the Plan for the investment management services are included in the net appreciation (depreciation) in fair value of investments, as they are paid through revenue sharing, rather than as a direct payment.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 5 – Information Prepared and Certified by Trustee

The Plan Administrator has elected the method of annual compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the trustee John Hancock Life Insurance Company has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2017 and 2016.
- Investment income included in the statement of changes in net assets available for benefits for the years ended December 31, 2017 and 2016
- Schedule H, line 4i – schedule of assets held for investment purposes at end of year.

Note 6 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

NOTES TO FINANCIAL STATEMENTS

Note 7 – Income Tax Status and IRS Examination

Effective March 1, 2014, the Plan was amended and restated as a Volume Submitter ("Volume Submitter") Profit Sharing Plan with CODA sponsored by the trustee and adopted by Technipac, Inc. The Volume Submitter Plan obtained its latest opinion letter on March 31, 2014, in which the Internal Revenue Service (IRS) stated that the Plan, as then designed, was in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has not requested its own determination letter. The Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believes that the Plan is qualified and the related trust is tax-exempt. The Plan is subject to income tax examinations generally for three years after returns are filed.

The Plan had an examination by the IRS for the years 2010-2015. The results of the examination have identified noncompliance with the "top heavy" rules that the Plan is required to follow for plan years ending December 31, 2010 through 2013. In general, a 401(k) plan is "top heavy" when it provides more than 60% of the present value of benefits to key employees. If a plan is top heavy, it must satisfy certain accelerated vesting requirements and provide certain minimum contributions to all eligible non-key employees.

During 2015, the Employer made an additional "top heavy" contribution to the Plan totaling $76,966 as a result of the 2014 "top heavy" test. In January 2018 the Company made $45,261 in qualified non-elective contributions to the affected participants for the two failures found by the IRS for the noncompliance with the "top heavy" rules for the years 2010 through 2013. The amount was based on the portion of the year's compensation that was erroneously excluded, calculated on the portion of compensation attributable to Code section 125 benefits. The amount was receivable at December 31, 2017 and is included on the statements of net assets available for sales. The IRS and the Company settled the examination with a closing agreement in February 2018 and fined the Company $5,000.

Note 8 – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
