UNIVERSITY OF RIO GRANDE RETIREMENT SAVINGS PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE 1 – DESCRIPTION OF PLAN

The following description of the University of Rio Grande Retirement Savings Plan and Trust (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General: The Plan, established on January 1, 2003, is a defined contribution plan covering all employees of University of Rio Grande (“University”), who have completed one year of service and have attained age 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions: Each year, participants may voluntarily contribute up to 50% of their pretax annual compensation, as defined by the Plan. The Plan allows participants who have attained age 50 by the end of the Plan year to make catch-up contributions in accordance with Code Section 414(v). Participants may also contribute amounts representing distributions from other qualified plans. Effective September 1, 2015, the Plan suspended the employer contribution through September 1, 2016. An employer contribution will be made for the period beginning on September 1, 2016 and ending August 31, 2017 of 3% of the eligible Participant’s compensation. An employer contribution will be made for the period beginning on September 1, 2017 and ending August 31, 2018 of 4% of the eligible Participant’s compensation. The Plan was established when the benefit accruals in the University of Rio Grande Pension Plan (“Prior Plan”) were frozen. To ensure participants in the Prior Plan were not adversely impacted by the change in benefits, the University will make a “Supplemental Contribution” to a Prior Plan participant if the participant’s projected benefit is less than his or her target benefit. The supplemental contribution was determined at the time the prior plan was frozen and is being paid as the related participants are providing service to the plan sponsor.

Participant Accounts: Each participant’s account is credited with the participant’s contribution and an allocation of (a) the University’s contribution and (b) plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investment Options: Each participant may direct their contributions in any of the investment options available under the Plan.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability regardless of years of service.

Vesting: Participants are immediately vested in their voluntary contributions and rollovers plus actual earnings thereon. Vesting in the remainder of the account plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. Effective January 1, 2011, the Plan was amended to immediately vest participants in their entire account balance as long as they were an employee of the University on January 1, 2011.

Forfeitures: Per the Plan document, the forfeitures may be used to reduce employer contributions of the Plan. As of December 31, 2017 and 2016, there were no forfeitures available to reduce future contributions. During 2017, no forfeitures were used to reduce employer contributions.

Payment of Benefits: On termination of service, disability, retirement, or death, a participant may elect to receive either a monthly installment not to exceed five years or a lump sum amount equal to the value of his or her vested interest in the account. During 2005, the Plan was amended to adopt Automatic Rollover provisions for participants who are eligible for distribution with balances less than \$5,000. Benefits are recorded when paid.

December 31, 2017 and 2016

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants: The Plan provides that participants may borrow from the Plan. These notes are secured by the vested portion of the participant's account balance. The amount a participant may borrow is limited to the lesser of \$50,000 or 50% of their vested account balance. Principal and interest payments are made via payroll deductions or check.

Administration of Plan Assets: Certain administrative functions are performed by officers or employees of the University. No such officer or employee receives compensation from the Plan. Certain administrative expenses of the Plan are paid by the University. Investment management fees and operating expenses charged to the Plan for investment in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan provides for certain investment options in pooled separate accounts, guaranteed interest accounts, and mutual funds. The underlying investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investment Valuation and Income Recognition: The Plan's investments, other than the fully benefit responsive investment contract, are reported at fair value. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contract, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. A fair value hierarchy allows the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

(Continued)

UNIVERSITY OF RIO GRANDE RETIREMENT SAVINGS PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Registered Investment Companies: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Investments measured at fair value on a recurring basis are summarized below:

		Fair Value Measurements at December 31, 2017 Using		
		Quoted Prices in Active Markets for Identical Assets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

NOTE 3 – RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the University has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their account.

NOTE 4 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Voya Institutional Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 – FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACTS

The Plan holds a fully benefit-responsive traditional investment contract that is reported at contract value, which is generally the amount a participant would receive if he or she would initiate a withdrawal or transfer from the contract under the provisions of the Plan. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses.

Traditional Guaranteed Investment Contract: The Plan holds a direct interest in a fully-benefit responsive investment contract through its investment in the Voya Fixed Plus Account III, which is a group annuity contract managed by Voya Retirement Insurance and Annuity Company ("VRIAC"; Issuer). Contributions under this contract are maintained in a general account that is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Issuer guarantees the plan a return of principal and interest under the terms of the contract. The interest crediting rate is updated monthly based upon contract provisions, and it may not be less than 1%. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value. There are no reserves against contract value of the issuer or otherwise.

Certain circumstances might limit the ability of the Plan to transact as contract value with the issuer. Such circumstances may include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that may result in distributions exceeding a set amount. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

NOTE 6 – PARTY-IN-INTEREST

Parties-in-interest are defined as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Voya Financial manages the Plan's investments in certain mutual funds. Voya Financial is affiliated with Voya Institutional Trust Company ("VITC"), the trustee, and therefore, these investments qualify as party-in-interest investments. The Plan invests in an annuity contract that is managed by VRIAC. VRIAC is affiliated with VITC, the trustee, and therefore, these investments qualify as party-in-interest investments. The Plan held \$47,257 and \$56,332 in notes receivable from participants as of December 31, 2017 and 2016, respectively. The University on behalf of the Plan pays certain administrative fees. Certain other administrative fees are paid directly by the Plan and are detailed below.

NOTE 7 – TAX STATUS

The Internal Revenue Service has determined and informed the University by letter dated January 31, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

UNIVERSITY OF RIO GRANDE RETIREMENT SAVINGS PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS
December 31, 2017 and 2016

NOTE 1 – DESCRIPTION OF PLAN

The following description of the University of Rio Grande Retirement Savings Plan and Trust (the “Plan”) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan’s provisions.

General: The Plan, established on January 1, 2003, is a defined contribution plan covering all employees of University of Rio Grande (“University”), who have completed one year of service and have attained age 21. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (“ERISA”).

Contributions: Each year, participants may voluntarily contribute up to 50% of their pretax annual compensation, as defined by the Plan. The Plan allows participants who have attained age 50 by the end of the Plan year to make catch-up contributions in accordance with Code Section 414(v). Participants may also contribute amounts representing distributions from other qualified plans. Effective September 1, 2015, the Plan suspended the employer contribution through September 1, 2016. An employer contribution will be made for the period beginning on September 1, 2016 and ending August 31, 2017 of 3% of the eligible Participant’s compensation. An employer contribution will be made for the period beginning on September 1, 2017 and ending August 31, 2018 of 4% of the eligible Participant’s compensation. The Plan was established when the benefit accruals in the University of Rio Grande Pension Plan (“Prior Plan”) were frozen. To ensure participants in the Prior Plan were not adversely impacted by the change in benefits, the University will make a “Supplemental Contribution” to a Prior Plan participant if the participant’s projected benefit is less than his or her target benefit. The supplemental contribution was determined at the time the prior plan was frozen and is being paid as the related participants are providing service to the plan sponsor.

Participant Accounts: Each participant’s account is credited with the participant’s contribution and an allocation of (a) the University’s contribution and (b) plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant’s vested account.

Investment Options: Each participant may direct their contributions in any of the investment options available under the Plan.

Retirement, Death and Disability: A participant is entitled to 100% of his or her account balance upon retirement, death or disability regardless of years of service.

Vesting: Participants are immediately vested in their voluntary contributions and rollovers plus actual earnings thereon. Vesting in the remainder of the account plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. Effective January 1, 2011, the Plan was amended to immediately vest participants in their entire account balance as long as they were an employee of the University on January 1, 2011.

Forfeitures: Per the Plan document, the forfeitures may be used to reduce employer contributions of the Plan. As of December 31, 2017 and 2016, there were no forfeitures available to reduce future contributions. During 2017, no forfeitures were used to reduce employer contributions.

Payment of Benefits: On termination of service, disability, retirement, or death, a participant may elect to receive either a monthly installment not to exceed five years or a lump sum amount equal to the value of his or her vested interest in the account. During 2005, the Plan was amended to adopt Automatic Rollover provisions for participants who are eligible for distribution with balances less than \$5,000. Benefits are recorded when paid.

NOTE 1 – DESCRIPTION OF PLAN (Continued)

Notes Receivable from Participants: The Plan provides that participants may borrow from the Plan. These notes are secured by the vested portion of the participant's account balance. The amount a participant may borrow is limited to the lesser of \$50,000 or 50% of their vested account balance. Principal and interest payments are made via payroll deductions or check.

Administration of Plan Assets: Certain administrative functions are performed by officers or employees of the University. No such officer or employee receives compensation from the Plan. Certain administrative expenses of the Plan are paid by the University. Investment management fees and operating expenses charged to the Plan for investment in the mutual funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting: The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates.

Risks and Uncertainties: The Plan provides for certain investment options in pooled separate accounts, guaranteed interest accounts, and mutual funds. The underlying investments are exposed to various risks, such as interest rate, market, liquidity and credit risks. Due to the level of risk associated with certain investments and the sensitivity of certain fair value estimates to changes in valuation assumptions, it is at least reasonably possible that changes in the fair values of investments will occur in the near term and that such changes could materially affect participant's account balances and the amounts reported in the statement of net assets available for benefits.

Notes Receivable from Participants: Notes receivable from participants are reported at their unpaid principal balance plus any accrued but unpaid interest, with no allowance for credit losses, as repayments of principal and interest are received through payroll deductions and the notes are collateralized by the participants' account balances.

Investment Valuation and Income Recognition: The Plan's investments, other than the fully benefit responsive investment contract, are reported at fair value. Contract value is the relevant measure for the Plan's fully benefit-responsive investment contract, because contract value is the amount Plan participants generally receive when executing transactions under the terms of the contract and Plan provisions. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Fair value is defined as the price that would be received by the Plan for an asset or paid by the Plan to transfer a liability (an exit price) in an orderly transaction between market participants on the measurement date in the Plan's principal or most advantageous market for the asset or liability. A fair value hierarchy allows the Plan to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1 measurements) and gives the lowest priority to unobservable inputs (level 3 measurements). The three levels of inputs within the fair value hierarchy are defined as follows:

NOTE 2 – SUMMARY OF ACCOUNTING POLICIES (Continued)

Level 1: Quoted prices (unadjusted) for identical assets or liabilities in active markets that the Plan has the ability to access as of the measurement date.

Level 2: Significant other observable inputs other than level 1 prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or other inputs that are observable or can be corroborated by observable market data.

Level 3: Significant unobservable inputs that reflect the Plan's own assumptions about the assumptions that market participants would use in pricing an asset or liability.

In many cases, a valuation technique used to measure fair value includes inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The following descriptions of the valuation methods and assumptions used by the Plan to estimate the fair values of investments apply to investments held directly by the Plan.

Registered Investment Companies: The fair values of mutual fund investments are determined by obtaining quoted prices on nationally recognized securities exchanges (level 1 inputs).

Investments measured at fair value on a recurring basis are summarized below:

		Fair Value Measurements at December 31, 2017 Using

NOTE 3 – RIGHTS UPON PLAN TERMINATION

Although it has not expressed any intent to do so, the University has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants would become 100% vested in their account.

NOTE 4 – UNAUDITED INFORMATION – CERTIFIED INVESTMENTS AND NOTES RECEIVABLE FROM PARTICIPANTS

Substantially all information pertaining to the Plan's investments and notes receivable from participants included in the financial statements was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by Voya Institutional Trust Company, the trustee of the Plan. This information has not been audited by independent accountants.

NOTE 5 – FULLY BENEFIT RESPONSIVE INVESTMENT CONTRACTS

The Plan holds a fully benefit-responsive traditional investment contract that is reported at contract value, which is generally the amount a participant would receive if he or she would initiate a withdrawal or transfer from the contract under the provisions of the Plan. Contract value represents contributions made to a contract, plus earnings, less participant withdrawals and administrative expenses.

Traditional Guaranteed Investment Contract: The Plan holds a direct interest in a fully-benefit responsive investment contract through its investment in the Voya Fixed Plus Account III, which is a group annuity contract managed by Voya Retirement Insurance and Annuity Company ("VRIAC"; Issuer). Contributions under this contract are maintained in a general account that is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The Issuer guarantees the plan a return of principal and interest under the terms of the contract. The interest crediting rate is updated monthly based upon contract provisions, and it may not be less than 1%. Participants may ordinarily direct the withdrawal or transfer of all, or a portion, of their investment at contract value. There are no reserves against contract value of the issuer or otherwise.

Certain circumstances might limit the ability of the Plan to transact as contract value with the issuer. Such circumstances may include Plan termination, Plan merger, premature contract termination initiated by the Company, and certain other Company-initiated events that may result in distributions exceeding a set amount. Currently, management believes that the occurrence of an event that would cause the Plan to transact contract distributions at less than contract value is not probable.

NOTE 6 – PARTY-IN-INTEREST

Parties-in-interest are defined as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Voya Financial manages the Plan's investments in certain mutual funds. Voya Financial is affiliated with Voya Institutional Trust Company ("VITC"), the trustee, and therefore, these investments qualify as party-in-interest investments. The Plan invests in an annuity contract that is managed by VRIAC. VRIAC is affiliated with VITC, the trustee, and therefore, these investments qualify as party-in-interest investments. The Plan held \$47,257 and \$56,332 in notes receivable from participants as of December 31, 2017 and 2016, respectively. The University on behalf of the Plan pays certain administrative fees. Certain other administrative fees are paid directly by the Plan and are detailed below.

NOTE 7 – TAX STATUS

The Internal Revenue Service has determined and informed the University by letter dated January 31, 2013, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. Plan management believes that the Plan is designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing authorities; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.
