INDEPENDENT AUDITORS' REPORT

**To the Board of Trustees
Cardone Industries, Inc.
Union Employees' Pension Plan**

Report on the Financial Statements

We have audited the accompanying financial statements of Cardone Industries, Inc. Union Employees' Pension Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 9, 2017 and 2016, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 9, 2017 and 2016, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 9, 2017, referred to as “supplemental information,” is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan’s management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The supplemental information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such supplemental information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information is fairly stated in all material respects in relation to the financial statements as a whole.

CARDONE INDUSTRIES, INC.
UNION EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 9, 2017 AND 2016

NOTE 1 - DESCRIPTION OF THE PLAN

Pursuant to a collective bargaining agreement, Cardone Industries, Inc. (the "Company" and "Plan Sponsor") established the Cardone Industries, Inc. Union Employees' Pension Plan (the "Plan") effective December 10, 1982 and the most recent amendment is dated December 31, 2013.

Information regarding vesting and benefit provisions, the priority order of participants' claims to the assets of the Plan upon termination and the benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC"), including the application of the PBGC guaranty to recent plan amendments, may be found in the plan agreement.

The following brief description of the Plan is provided for general information purposes only. Participants should refer to the plan agreement for more complete information.

GENERAL

The Plan is a noncontributory, defined benefit pension plan covering substantially all employees who are members of Service Employee's International Union Local #252 and employed by Cardone Industries, Inc. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

PLAN TRUSTEE

The Plan's investments are held by the trustee of the Plan, BMO Harris Bank N.A. ("BMO").

PLAN ADMINISTRATION

The Plan is administered by a committee appointed by the Board of Directors of the Company. The committee has overall responsibility for the operation and administration of the Plan. The committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

PENSION BENEFITS

For retirements on or after December 10, 1988, employees are entitled to monthly pension benefits beginning at normal retirement age (65) equal to \$13.50 multiplied by years of service and for retirements prior to December 10, 1988, the monthly benefit is \$7.00 to \$9.50 multiplied by years of service, subject to the amount in which the participant is vested. The Plan permits early retirement at ages 55-64. Employees may elect to receive their pension benefits in the form of a joint and survivor annuity. If employees terminate before rendering 15 years of service, they forfeit the right to early retirement. The normal form of payment to a retired participant of retirement benefits payable under the Plan is a

monthly life annuity payable commencing on the participant's pension commencement date and terminating with the payment due immediately preceding death. A lump sum payment to a retired participant occurs when their accrued benefit is \$5,000 or less.

The Plan was frozen for union employees on December 9, 2013 (the “freeze” date). Effective December 9, 2013, the Company amended its Defined Benefit Pension Plan to freeze the accrual of future benefits for union employees. A participant’s credited service was determined as of the freeze date. Participant accrued benefits were based on provisions of the Plan in effect at the freeze date, but calculated as if participants had terminated employment as of the freeze date.

DEATH AND DISABILITY BENEFITS

If an active employee dies, a death benefit equal to the remaining value of the employee's accumulated pension benefits is paid to the employee's beneficiary at the earliest retirement age. Active employees who become totally disabled receive annual disability benefits that are equal to the normal retirement benefits they have accumulated as of the time they become disabled. Disability benefits are paid until normal retirement age at which time the disabled participants begin receiving normal retirement benefits computed as though they had been employed to normal retirement age with their annual compensation remaining the same as at the time they became disabled.

FUNDING POLICY

The Company's funding policy is to make annual contributions to the Plan in amounts sufficient to provide benefits specified in the Plan and in accordance with the collective bargaining agreement. During 2017 and 2016, the Company made no contributions to the Plan. As of December 9, 2017 and 2016, the Plan is in compliance with the minimum funding requirements of ERISA.

Participants are not required or permitted to make contributions under the Plan.

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA.

VESTING

A participant becomes 20% vested after three years of credited service. Such vesting increases 20% each year thereafter until reaching 100% after seven years of credited service.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The following are the significant accounting policies followed by the Plan:

BASIS OF ACCOUNTING

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

USE OF ESTIMATES

The preparation of financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results could differ from those estimates.

INVESTMENT VALUATION AND INCOME RECOGNITION

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's investment committee determines the Plan's valuation policies utilizing information provided by its investment advisors and custodian. See Note 3 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses (realized and unrealized) on investments bought and sold, as well as held during the year.

BENEFITS PAID DIRECTLY TO PARTICIPANTS

Benefit payments to participants are recorded when paid.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

ADMINISTRATIVE EXPENSES

Certain recordkeeping and administrative expenses of the Plan are borne by the Company. Expenses that are paid directly by the Company are excluded from these financial statements. Third party administrator fees and custodian fees are paid by the Plan and are recorded as deductions in the accompanying Statements of Changes in Net Assets Available for Benefits. Various transaction charges include distribution and general administration of the Plan and represent substantially all of the Plan's administrative expenses. In addition, certain investment related expenses are included in net appreciation in fair value of investments presented in the accompanying Statements of Changes in Net Assets Available for Benefits.

NOTE 3 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Fair Value Measurements

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements

Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

CARDONE INDUSTRIES, INC.
UNION EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 9, 2017 AND 2016

NOTE 3 - FAIR VALUE MEASUREMENTS (CONTINUED)

Level 3 Fair Value Measurements

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Valuation at this level is based on judgement and could differ from the findings of others.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 9, 2017 and 2016.

Mutual Funds: Valued at the daily closing price as reported by the fund. Funds held by the Plan are open-ended funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The funds held by the Plan are deemed to be actively traded.

Corporate Bonds and Money Market Funds: Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings. When quoted prices are not available for identical or similar bonds, the bond is valued under a discounted cash flows approach that maximizes observable inputs, such as current yields of similar instruments, but includes adjustments for certain risks that may not be observable, such as credit and liquidity risks or a broker quote if available.

U.S. government securities: Valued using pricing models maximizing the use of observable inputs for similar securities.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 9, 2017 and 2016. During 2017 and 2016, there were no transfers of financial assets or liabilities between Levels within the fair value hierarchy.

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump sum distributions that are attributable under the Plan's provisions to the participants for services they have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries. Benefits under the Plan are based on a retirement benefit formula equal to \$13.50 per month for each year of service with the Company and for retirements prior to December 31, 1988 the monthly benefit is \$7.00 to \$9.50 per month for each year of service. Benefits payable under all circumstances - retirement, death and termination of employment - are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Funds that were allocated and applied to purchase annuities (whereby, Bank of Montreal, the trustee of the plan, was obligated to pay the related pension benefits) are excluded from the Plan's assets.

NOTE 4 - ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS (CONTINUED)

The actuarial present value of accumulated plan benefits is determined by the actuarial firm of Pension Live, LLC and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal or retirement) between the valuation date and the expected date of payment. The significant actuarial assumptions used in the valuations as of December 10, 2017 and 2016 were (a) life expectancy of participants (the RP-2014 Blue Collar generational scale was used), (b) retirement age assumptions vary from 55 to the normal retirement at age 65, and (c) investment return. The 2017 and 2016 valuations included assumed average rate of return of 4.14% and 4.24%, respectively. The foregoing actuarial assumptions were based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. The computations of the actuarial present value of accumulated plan benefits were made on December 10, 2017 and 2016. Had the valuations been performed as of December 9, there would be no material differences.

Accumulated plan benefits are summarized as follows:

	December 9,	
	2017	2016
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Active participants	\$21,246,278	\$24,199,553

NOTE 5 - RECONCILIATION OF CHANGES IN ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

	Year Ended December 9,	
	2017	2016
Actuarial present value of accumulated plan benefits at beginning of year	\$80,696,388	\$77,010,938
Increase (decrease) during plan year due to:		
Interest due to decrease in the discount period	3,368,398	3,407,607
Benefits accumulated	209,929	1,803,478
Benefits paid	(2,532,390)	(2,601,286)
Changes in assumptions	<u>469,045</u>	<u>1,075,651</u>
Actuarial Present Value of Accumulated Plan Benefits at end of year	<u>\$82,211,370</u>	<u>\$80,696,388</u>

All actuarial methods and assumptions used in the 2017 valuation were the same as used in the prior year except that the discount rate for determining the present value of accumulated plan benefits has decreased from 4.24% per year to 4.14% per year and the statutory mortality table was updated for one additional year of assumed mortality improvement and the 3-tiered statutory segment rates changed from 4.43%, 5.91%, 6.65%, to 4.16%, 5.72%, and 6.48% respectively based on elections made by the Plan Sponsor and the provision of the Pension Protection Act of 2006.

NOTE 6 - PLAN TERMINATION

In the event that the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- 1) Benefits attributable to employee contributions, taking into account those paid out before termination;
- 2) Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under plan provisions in effect at any time during the five years preceding plan termination;
- 3) Other vested benefits insured by the Pension Benefit Guaranty Corporation ("PBGC") (a U.S. government agency) up to the applicable limitations;
- 4) All other vested benefits (that is, vested benefits not insured by the PBGC); and
- 5) All nonvested benefits.

CARDONE INDUSTRIES, INC.
UNION EMPLOYEES' PENSION PLAN
NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 9, 2017 AND 2016

NOTE 6 - PLAN TERMINATION (CONTINUED)

Benefits to be provided via contracts under which the Company is obligated to pay the benefits would be excluded for allocation purposes.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, a statutory ceiling exists, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees.

For plan terminations occurring during 2017 that ceiling is \$5,420 per month. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination (whichever comes later). For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceilings are actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the plan sponsor and the level of benefits guaranteed by the PBGC.

During 2017, there were several events that occurred that resulted in employee terminations. These events resulted in a partial plan termination.

NOTE 7 - TAX STATUS

The Plan obtained its latest determination letter on October 28, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service.

The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

NOTE 8 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain plan investments are shares of funds managed by BMO. BMO is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Fees paid by the Plan for the investment management services to BMO amounted to approximately \$37,000 and \$32,000 for the years ended December 9, 2017 and 2016, respectively.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. All investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits is reported, based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

NOTE 10 - SUBSEQUENT EVENTS

The Plan's management has evaluated subsequent events to determine if events or transactions occurring through October 8, 2018, the date the financial statements were available for issuance, require potential adjustments to, or disclosure in, the accompanying financial statements. Based upon the evaluation, adjustments or additional disclosures, if any, have been included in these financial statements.

Schedule SB Part V – Statement of Actuarial Assumptions/Methods

Methods and Assumptions

Methods	
Valuation Date	December 10 th
Actuarial Cost Method	Unit credit.
Actuarial Value of Assets	Adjusted Market Value of Assets minus a decreasing fraction of the investment gain or loss for each of the two immediately preceding plan years, but it cannot be less than 90% nor more than 110% of the Adjusted Market Value of Assets. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets (currently 7% per year) or the applicable statutory interest rate for the year. This method is specified in IRS Notice 2009-22 using a 24-month averaging period.
Economic Assumptions	
Interest Rates	<p>For minimum funding purposes: Segment interest rates (based on statutory rates in effect four months prior to beginning of Plan Year) of 4.43% per year for first 5 years, 5.91% per year for next 15 years, and 6.65% per year thereafter. The equivalent Effective Interest Rate is 6.16% per year.</p> <p>For maximum tax deductible purposes: 1.51% for the first 5 years, 3.83% per year for the next 15 years and 4.82% thereafter.</p> <p>For FASB ASC Topic 960 purposes: Discount rate of 4.24% per year.</p> <p>For PBGC premium purposes: 1.51% per year for first 5 years, 3.83% per year for next 15 years, and 4.82% per year thereafter. The PBGC Alternative Rule was adopted for the 2008 plan year and continues until at least the 2013 plan year. The same rule is applied for the 2016 plan year.</p>
Other Assumptions	
Mortality	<p>For funding and PBGC premium purposes: Statutory static tables for 2016 based on RP-2000 Mortality Table projected to anticipate greater future longevity, with separate rates for non-annuitants and annuitants.</p> <p>For FASB ASC Topic 960 purposes: RP-2014 Blue Collar Mortality Table Adjusted back to 2006 and projected generationally using Scale MP-2016.</p>

Marital Characteristics	<p>For participants not in pay status: 100% of participants are assumed to be married, with males 3 years older than females.</p> <p>For participants in pay status: Actual birth dates of spouses are included in the census data, where relevant.</p>																				
Expense Load	\$120,000																				
Benefits Not Valued	All benefits are valued.																				

Assumption & Method Changes:

- The statutory mortality table was updated for one additional year of assumed mortality improvement and the 3-tiered statutory segment rates changed from 4.72%, 6.11%, 6.81%, to 4.43%, 5.91% and 6.65% respectively based on elections made by the Plan Sponsor and the Pension Protection Act of 2006.
- A Programing change was made to more accurately reflect liabilities for Deferred Vested with delayed commencement (beyond age 65) and for actuarial increases for actives working beyond age 65. We had previously continued the prior actuary's methodology; however, due to the aging group and the differences becoming more material we made changes to better reflect actual administrative practice.
- The FASB ASC Topic 960 discount rate changed from 4.50% per year to 4.24% per year.

Cardone Industries, Inc.
Union Employees' Pension Plan

EIN 23-1916269 PN 002

Schedule SB Part V – Summary of Plan Provisions

Plan Name	Cardone Industries, Inc. Union Employees' Pension Plan
Effective Date	December 10, 1982 Amended and Restated: December 10, 2000 Latest Amendment: December 31, 2013
Plan Year	December 10 th to December 9th.
Fiscal Year	The 12-month period beginning January 1 and ending December 31.
Participation	Any employee who is a member of Service Employees' International Union Local 252 who has completed at least 1,000 hours of service during the 12-month period beginning with the employee's date of hire. Eligible employees become participants on the first of the month coincident with or next following the date they become eligible. Effective January 1, 2014, there will be no new entrants into the plan.
Years of Service	A Year of Service is credited for each calendar year in which 1,000 or more hours of service are credited to a union employee. No partial Years of Service are credited.
Vesting Service	A year of Vesting Service is credited for each calendar year in which 1,000 or more hours of service are credited to an employee.
Normal Retirement Date	The first day of the month coincident with or next following the attainment of age 65.
Early Retirement Date	The first day of the month coincident with or next following the attainment of age 55 and completion of 15 years of Vesting Service.
Deferred Retirement Date	The first day of the month coincident with or next following the date of termination of service if it occurs after the Normal Retirement Date.
Pre-retirement Death Benefit Eligibility	Surviving spouses of participants with a vested Accrued Benefit who die before commencement of payments.
Disability Retirement Date	The first day of the month following termination of service due to a total and permanent disability that continued for six months.
Termination Date	The date of termination of service other than for reasons of retirement, death, or disability.
Accrued Benefit	The Accrued Benefit for each Participant is determined using the same formula which is used to compute such Participant's Normal Retirement Benefit, taking into account the Participant's Years of Service through the date of determination.
Actuarial Equivalent	Equality in value such that the present value of the amount under any form of payment is essentially the same as the present value of the amount under the normal form of annuity payment for single participants. For purposes other than determining lump sum amounts, Actuarially Equivalent factors are based on the 1971 Group Annuity Mortality Table for Males projected by Scale E to 1976, with a one-year age setback and a 7.5% per year interest rate. For purposes of determining lump sum amounts, Actuarially Equivalent factors are based on the applicable mortality table specified in IRS Notice 2008-85 for the Plan Year of distribution and the statutory three-tier segment interest rates in effect for the first month prior to the beginning of the Plan Year of distribution.

Summary of Plan Provisions (continued)

Normal Retirement Benefit	For retirement on or after December 10, 1988, a monthly benefit of \$13.50 multiplied by Years of Service. For retirement on or after December 10, 1986 but prior to December 10, 1988, a monthly benefit of \$9.50 multiplied by Years of Service. For retirement prior to December 10, 1986, a monthly benefit of \$7.00 multiplied by Years of Service. All benefits are frozen as of December 31, 2013														
Early Retirement Benefit	The Accrued Benefit, reduced by 1/180 for each of the first 60 months and by 1/360 for each of the next 60 months by which the Early Retirement Date precedes the Normal Retirement Date.														
Deferred Retirement Benefit	The greater of (a) the Accrued Benefit determined as of the Deferred Retirement Date or (b) the Accrued Benefit determined as of the Normal Retirement Date and actuarially increased to the Deferred Retirement Date.														
Preretirement Death Benefit	50% of the benefit which would have been payable had the deceased participant instead terminated service on the date of death, survived to his earliest possible benefit commencement date, elected a joint and 50% survivor annuity, and died on that same date.														
Disability Retirement Benefit	The Actuarial Equivalent of the Accrued Benefit.														
Termination Benefit	<p>The Accrued Benefit, multiplied by the Vested Percentage below, payable at the Normal Retirement Date, or received according to Early Retirement.</p> <table style="margin-left: auto; margin-right: auto;"> <tr> <th>Years of Vesting Service</th><th>Vested Percent</th></tr> <tr> <td>Less than 3</td><td>0%</td></tr> <tr> <td>3</td><td>20%</td></tr> <tr> <td>4</td><td>40%</td></tr> <tr> <td>5</td><td>60%</td></tr> <tr> <td>6</td><td>80%</td></tr> <tr> <td>7 or more</td><td>100%</td></tr> </table>	Years of Vesting Service	Vested Percent	Less than 3	0%	3	20%	4	40%	5	60%	6	80%	7 or more	100%
