Notes to Financial Statements December 31, 2017 and 2016

1. DESCRIPTION OF THE PLAN

The iconectiv 401(k) Plan (the "Plan") was established by Telcordia Technologies Inc. d/b/a iconectiv ("iconectiv" or the "Company") to provide a way for employees to save on a regular and long-term basis. The Plan name was changed from Interconnection Solutions 401(k) Plan to iconectiv 401(k) Plan on March 13, 2013. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan that covers eligible employees of the Company. Employees are eligible to participate on the first of the month following their date of hire unless the employee is hired on the first day of the month at which time participation is effective immediately. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The trustee of the Plan is Vanguard Fiduciary Trust Company ("Vanguard") and the record-keeper of the Plan is The Vanguard Group.

Contributions:

The Plan permits participants to elect to defer a percentage up to 50% of their eligible compensation, as defined by the Plan on a pre-tax or Roth basis, up to \$18,000 for 2017. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. In addition, the Plan also allows after-tax contributions not to exceed statutory limitations. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans.

The Company makes a matching contribution equal to 100% of the first 3% of eligible compensation and 50% of the next 2% of eligible compensation that a participant contributes to the Plan. Matching contributions are not made with respect to after-tax contributions. Participants direct the investment of participant and employer contributions. For employees hired on or after January 1, 2013, an additional employer contribution is made equal to 3% of the participants' annual compensation. Effective August 9, 2017, all eligible employees receive an additional employer contribution equal to 3% of the participants' eligible compensation.

Employees hired on or after January 1, 2016 are automatically enrolled in the Plan with a contribution of 5% of eligible compensation. In addition, for these employees their contribution will automatically increase by 1% each year every April 1, and will continue to increase by 1% a year until their contribution reaches 10% of eligible compensation. The employees may opt out of the automatic Plan enrollment and/or automatic annual increase at any time.

Participant accounts:

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contributions and (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings, account balances, or specific transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their contributions as well as the Company's contributions, plus actual earnings thereon.

1. DESCRIPTION OF THE PLAN (CONTINUED)

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance, plus any accrued but unpaid interest. Participants may borrow from their fund accounts a minimum of \$1,000, up to a maximum equal to the lesser of \$50,000 or 50% of the participant's vested account balance less the highest outstanding loan balance in the past 12 months. Loan terms at origination range from 18 to 58 months. The loans are secured by the balance in the participant's account and bear interest at a rate of the Prime Rate plus 1%. If the Prime Rate changes the Plan loan rate will update on the first business day of the month following the change. Principal and interest are paid ratably through payroll deductions. Delinquent notes receivable from participants that are not made current within a 90 day cure period are reclassified as distributions based upon the terms of the Plan document. The loans at the end of 2017 bear interest at rates between 4.25% and 5.25% and have maturities through August 2022.

Payment of benefits:

Participants may receive their account balance in a single lump sum payment in cash following their termination of employment with the Company, retirement date, or in the event of death. If a participant's balance is greater than \$1,000 at time of termination, participants may leave their assets in the Plan until their IRS mandated required distribution date, at which time required minimum distributions must begin. The Plan allows for in service distributions when a participant attains age 59 ½. The plan also allows for hardship distributions based on certain criteria as defined by the Plan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting:

The financial statements are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("GAAP").

Subsequent events:

The Plan has evaluated subsequent events through September 28, 2018, the date the financial statements were available to be issued.

Investment valuation and income recognition:

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

See Note 4 for discussion of fair value measurements.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net realized/unrealized appreciation in the value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Payment of benefits:

Benefit payments to participants are recorded when paid.

Plan expenses:

The majority of expenses incurred, with the exception of certain fees related to notes receivable from participants, recordkeeping, and managed accounts, in connection with the administration of the Plan are paid by the Company.

Use of estimates:

The preparation of financial statements in conformity with GAAP requires the Plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and when applicable, disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

3. INVESTMENT CERTIFICATION

The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, Vanguard Fiduciary Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of all investments and related investment activity and notes receivable from participants and related activity in the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016, the statement of changes in net assets available for benefits for the year ended December 31, 2017 and the accompanying supplemental schedule of assets (held at end of year) as of December 31, 2017.

4. FAIR VALUE MEASUREMENTS

The Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, *Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements), and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include: (1) quoted prices for similar assets or liabilities in active markets; (2) quoted prices for identical or similar assets or liabilities in inactive markets; (3) inputs other than quoted prices that are observable for the asset or liability; or (4) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

iconectiv 401(k) PLAN

Notes to Financial Statements December 31, 2017 and 2016

4. FAIR VALUE MEASUREMENTS (CONTINUED)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies and assumptions used for investment assets measured at fair value as of December 31, 2017 and 2016. There have been no changes in the methodologies used as of December 31, 2017 and 2016.

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Stable Value Collective Trust — Valued at the NAV of participant units held in the collective trusts. The NAV, as provided by the trustee is used as the practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. The practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions may occur daily.

The Vanguard Retirement Savings Trust III ("VRST") solely invests in the Vanguard Retirement Savings Master Trust ("VRST Master Trust"). The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The investment objective of the VRST Master Trust is to provide participants with an attractive rate of interest and safety of principal by investing in synthetic contracts backed primarily by Vanguard bond trust funds, traditional insurance, and bank contracts. There are no unfunded commitments related to the VRST. Were the Plan to initiate a full redemption, a written request must be made twelve months prior to the designated valuation date.

Self-Directed Brokerage Accounts – – Includes mutual funds (see above), U.S. treasury bills and corporate debt instruments, exchange traded funds ("ETFs"), common stock, and money market funds.

U.S. Treasury bills and notes and other corporate debt instruments are valued using institutional bid valuations from various contracted pricing vendors including Standard & Poor's and Interactive Data Corporation. Institutional bid valuations are estimated prices that represent the price a dealer would pay for a security. Pricing inputs to the institutional bid valuation vary by security, and include benchmark yields, reported trades, unadjusted broker/dealer quotes, issuer spreads, bids, offers or other observable market data.

ETFs are valued at the daily closing price. ETFs are investment companies whose shares are traded intraday on stock exchanges at market-determined prices, which may be greater or less than NAV. Plans may buy or sell ETF shares through a broker or in a brokerage account just as they would the shares of any publicly traded company. ETFs are registered with the SEC, and generally, are structured as open-ended investment companies (open-ended funds) or unit investment trusts.

Common stock is valued at the closing price reported on the active market on which the individual securities are traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. FAIR VALUE MEASUREMENTS (CONTINUED)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the year ended December 31, 2017, there were no transfers into or out of levels 1, 2 or 3.

5. TAX STATUS

The Plan has adopted a Prototype Non-Standardized Plan sponsored by The Vanguard Group. On May 28, 2014, the Internal Revenue Service ("IRS") stated in an opinion letter that the prototype adopted by the Plan, as then designed, was in compliance with applicable requirements of the Internal Revenue Code ("IRC") and therefore, the related trust is exempt from taxation. The Plan has been amended since receiving the letter. However, the Plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC. Therefore, the Plan administrator believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by a government authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017, there are no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine examinations by taxing jurisdictions; however, there are currently no examinations for tax in progress.

6. RELATED-PARTY AND PARTY-IN- INTEREST TRANSACTIONS

Parties in interest are defined under Department of Labor regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others. Certain officers and employees of the Company (who may also be participants in the Plan) perform administrative services related to the operation, recordkeeping and financial reporting of the Plan. No such officer or employee receives compensation from the Plan. Some administrative expenses of the Plan are paid directly by the Company.

Certain Plan investments are shares of mutual funds managed by an affiliate of Vanguard, the Plan's trustee. The Plan also invests in a collective trust managed by VFTC. These investment transactions qualify as party-in-interest transactions. Fees paid by the Plan for investment management services included as a reduction of the return of each fund and fees paid by Plan participants to the record keeper for loan maintenance costs as well as redemption fees are considered party-in-interest transactions. Fees paid by the Plan to Vanguard for administrative services were approximately \$19,517 for the year ended December 31, 2017. Notes receivable from participants also reflect party-in-interest transactions.

iconectiv 401(k) SAVINGS PLAN

Notes to Financial Statements December 31, 2017 and 2016

7. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect the participants' account balances and the amounts reported in the statements of net assets available for benefits.

Volatility in the financial markets may significantly impact the subsequent valuation of the Plan's investments. Accordingly, the valuation of investments at December 31, 2017 may not necessarily be indicative of amounts that could be realized in a current market exchange.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

9. MUTUAL FUND FEES

Investments in mutual funds are subject to sales charges in the form of front-end loads, back-end loads or 12b-1 fees. 12b-1 fees are ongoing fees allowable under Section 12b-1 of the Investment Company Act of 1940. These annual fees are used to pay for marketing and distribution costs of the funds. These fees are deducted prior to the allocation of the Plan's investment earnings activity, and thus not separately identifiable as an expense.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500, as of December 31, 2017 and 2016:
