Independent Auditor's Report

To the Cash Balance Plan Oversight Board
Virginia Oncology Associates, P.C. Cash Balance Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Virginia Oncology Associates, P.C. Cash Balance Plan ("Plan"), which comprise the statement of net assets available for benefits as of December 31, 2017, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2017, and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2017 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2017, are required by the Department of Labor’s (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NOTES TO FINANCIAL STATEMENTS

1. Description of Plan

The following description of the Virginia Oncology Associates, P.C. Cash Balance Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan established January 1, 2017, is a cash balance defined benefit plan, sponsored by Virginia Oncology Associates, P.C. ("Company") and, is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan provides retirement, disability and death benefits to all eligible employees of the Company; however, certain employees of Virginia Oncology Associates, P.C. are not eligible to participate.

The Plan is administered by the Company's Cash Balance Plan Oversight Board ("Board"), which is a committee of owner physicians of the Company. The Board has overall responsibility for the operation and administration of the Plan. The Board determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Company's directors.

Participant's accounts: Under the Plan provisions, amounts are credited by the Company to the participants' hypothetical accounts. The accounts are allocated principal credits and interest credits at the end of each year. The principal credits are allocated based on a percentage of the participants' compensation as defined in the plan document. The applicable percentage ranges from 2.5 to 25 percent and is based on the participants' classification within the company.

Participants' hypothetical accounts also receive interest credits at the end of each year. The amount of the interest credit is equal to 5 percent of the participant's hypothetical account balance on the first day of the Plan year.

Funding policy: The Plan's funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2017, the Company made contributions of \$2,404,888. The Company's contributions for 2017 exceeded minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

Pension benefits: Benefits are determined based on the participant's hypothetical account balance. Plan participants are eligible for their Plan benefit after terminating employment with vested rights. Participants become vested in the Plan upon completion of 3 or more years of service, attainment of the normal retirement age (later of age 65 or the fifth anniversary of plan participation) or suffering a disability while an employee. If employees terminate before rendering 3 years of service, they forfeit the right to receive their accumulated plan benefits. Upon retirement or termination of employment, participants have the option of receiving their vested benefit in the form of a one-time lump sum payment, or a monthly annuity payable for their lifetime. Participants may elect to defer payment of their benefit until a later date should they continue in employment with the

Company past their normal retirement date.

Death benefits: If an active employee dies, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary.

Forfeited accounts: At December 31, 2017, there were no forfeited non-vested accounts. If available in the future, these accounts will be used to restore forfeitures, to reduce Company contributions, or to pay administrative expenses of the Plan.

2. Summary of Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Cash Balance Plan Oversight Board determines the Plan's valuation policies utilizing information provided by its investment adviser and trustee. See Note 5 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative expenses: The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent events: The Plan has evaluated subsequent events through October 5, 2018, the date the financial statements were available to be issued.

3. Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employee's compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, and termination of employment – are included, to the

extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The Internal Revenue Code requires the computation of the actuarial present value of accumulated plan benefits as of the beginning of the plan year, January 1, 2017. On this date, the Plan had zero accumulated plan benefits. As a result, the accompanying financial statements exclude the statement of accumulated plan benefits and statement of changes in accumulated plan benefits.

4. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government Agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest

priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include</p> <ul style="list-style-type: none"> • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Collective trust: Valued at the net asset value ("NAV") of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less its liabilities. In unusual market conditions, the trustee of the fund may impose investment restrictions on issues and redemptions of units, otherwise, redemptions are permitted daily.

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on the net asset value ("NAV") per share as of December 31, 2017.

	Fair Value at December 31, 2017	Unfunded Commitments	Redemption Frequency
Common/Collective Trust:			
FIAM 30/70 Commingled Pool Class A	\$ 1,701,489	None	Daily
Investments at Fair Value	<u>\$ 1,701,489</u>		

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

7. Tax Status

The Plan has been designed to qualify under Section 401(a) of the Internal Revenue Code (IRC). The Company has not filed for a determination letter on the Plan but intends to adopt a pre-approved volume submitter plan when available. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Related-Party Transactions and Party-in-Interest Transactions

Plan assets are invested in a collective trust for which Fidelity Institutional Asset Management Trust Company (“FIAM”) is the trustee. FIAM is a wholly owned subsidiary of FIAM Holdings, LLC which is wholly owned by FMR LLC, the parent company of Fidelity Management and Trust Company (“FMTC”), the Plan’s trustee. This transaction qualifies as party-in-interest transaction under ERISA.

9. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2017, and net appreciation in fair value of investments was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by FMTC, the trustee.

Schedule SB, line 22 – Description of Weighted Average Retirement Age

The age reported is the weighted average of the assumed retirement ages for all active participants as of the valuation date based on their funding target (or target normal cost should the funding target of the plan be zero) rounded to the nearest whole age. For an active late retiree, the assumed retirement age may be later than the Plan's normal retirement age. Each participant's rate of retirement is assumed to be 100% of his/her assumed retirement age.

Schedule SB, line 22 – Description of Weighted Average Retirement Age

The age reported is the weighted average of the assumed retirement ages for all active participants as of the valuation date based on their funding target (or target normal cost should the funding target of the plan be zero) rounded to the nearest whole age. For an active late retiree, the assumed retirement age may be later than the Plan's normal retirement age. Each participant's rate of retirement is assumed to be 100% of his/her assumed retirement age.

Independent Auditor's Report

To the Cash Balance Plan Oversight Board
Virginia Oncology Associates, P.C. Cash Balance Plan:

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Virginia Oncology Associates, P.C. Cash Balance Plan ("Plan"), which comprise the statement of net assets available for benefits as of December 31, 2017, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 9, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2017, and for the year then ended, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules, Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2017 and Schedule H, Line 4j – Schedule of Reportable Transactions for the year ended December 31, 2017, are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the Virginia Oncology Associates, P.C. Cash Balance Plan (“Plan”) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan established January 1, 2017, is a cash balance defined benefit plan, sponsored by Virginia Oncology Associates, P.C. (“Company”) and, is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan provides retirement, disability and death benefits to all eligible employees of the Company; however, certain employees of Virginia Oncology Associates, P.C. are not eligible to participate.

The Plan is administered by the Company’s Cash Balance Plan Oversight Board (“Board”), which is a committee of owner physicians of the Company. The Board has overall responsibility for the operation and administration of the Plan. The Board determines the appropriateness of the Plan’s investment offerings, monitors investment performance and reports to the Company’s directors.

Participant’s accounts: Under the Plan provisions, amounts are credited by the Company to the participants’ hypothetical accounts. The accounts are allocated principal credits and interest credits at the end of each year. The principal credits are allocated based on a percentage of the participants’ compensation as defined in the plan document. The applicable percentage ranges from 2.5 to 25 percent and is based on the participants’ classification within the company.

Participants’ hypothetical accounts also receive interest credits at the end of each year. The amount of the interest credit is equal to 5 percent of the participant’s hypothetical account balance on the first day of the Plan year.

Funding policy: The Plan’s funding policy is for the Company to contribute an amount which will meet or exceed the annual ERISA minimum funding requirement. During 2017, the Company made contributions of \$2,404,888. The Company’s contributions for 2017 exceeded minimum funding requirements of ERISA.

Although it has not expressed any intention to do so, the Company has the right under the plan to discontinue its contributions at any time and to terminate the plan subject to the provisions set forth in ERISA.

Pension benefits: Benefits are determined based on the participant’s hypothetical account balance. Plan participants are eligible for their Plan benefit after terminating employment with vested rights. Participants become vested in the Plan upon completion of 3 or more years of service, attainment of the normal retirement age (later of age 65 or the fifth anniversary of plan participation) or suffering a disability while an employee. If employees terminate before rendering 3 years of service, they forfeit the right to receive their accumulated plan benefits. Upon retirement or termination of employment, participants have the option of receiving their vested benefit in the form of a one-time lump sum payment, or a monthly annuity payable for their lifetime. Participants may elect to defer payment of their benefit until a later date should they continue in employment with the

Company past their normal retirement date.

Death benefits: If an active employee dies, a death benefit equal to the value of the employee's accumulated pension benefit is paid to the employee's beneficiary.

Forfeited accounts: At December 31, 2017, there were no forfeited non-vested accounts. If available in the future, these accounts will be used to restore forfeitures, to reduce Company contributions, or to pay administrative expenses of the Plan.

2. Summary of Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein; and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Company's Cash Balance Plan Oversight Board determines the Plan's valuation policies utilizing information provided by its investment adviser and trustee. See Note 5 for a discussion of fair value measurements. Purchases and sales of securities are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefit payments to participants are recorded upon distribution.

Administrative expenses: The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain investment related expenses are included in net appreciation of fair value of investments presented in the accompanying statement of changes in net assets available for benefits.

Subsequent events: The Plan has evaluated subsequent events through October 5, 2018, the date the financial statements were available to be issued.

3. Actuarial present value of accumulated plan benefits

Accumulated plan benefits are those future periodic payments, including lump-sum distributions that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries; (b) beneficiaries of employees who have died; and (c) present employees or their beneficiaries. Benefits under the Plan are accumulated based on employee's compensation during each year of credited service. The accumulated plan benefits for active employees will equal the accumulation, with interest, of the annual benefit accruals as of the benefit information date. Benefits payable under all circumstances – retirement, death, and termination of employment – are included, to the

extent they are deemed attributable to employee service rendered to the valuation date. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The Internal Revenue Code requires the computation of the actuarial present value of accumulated plan benefits as of the beginning of the plan year, January 1, 2017. On this date, the Plan had zero accumulated plan benefits. As a result, the accompanying financial statements exclude the statement of accumulated plan benefits and statement of changes in accumulated plan benefits.

4. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

1. Annuity benefits that former employees or their beneficiaries have been receiving for at least three years, or that employees eligible to retire for that three-year period would have been receiving if they had retired with benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest benefit that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under Plan provisions in effect at any time during the five years preceding Plan termination.
2. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) (a U.S. Government Agency) up to the applicable limitations.
3. All other vested benefits (that is, vested benefits not insured by the PBGC).
4. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and the level of benefits guaranteed by the PBGC.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest

priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	<p>Inputs to the valuation methodology include</p> <ul style="list-style-type: none"> • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. <p>If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.</p>
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Collective trust: Valued at the net asset value ("NAV") of units of the collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the funds less its liabilities. In unusual market conditions, the trustee of the fund may impose investment restrictions on issues and redemptions of units, otherwise, redemptions are permitted daily.

Fair Value of Investments that Calculate Net Asset Value

The following table summarizes investments measured at fair value based on the net asset value ("NAV") per share as of December 31, 2017.

	Fair Value at December 31, 2017	Unfunded Commitments	Redemption Frequency
Common/Collective Trust:			
FIAM 30/70 Commingled Pool Class A	\$ 1,701,489	None	Daily
Investments at Fair Value	<u>\$ 1,701,489</u>		

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made, and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

7. Tax Status

The Plan has been designed to qualify under Section 401(a) of the Internal Revenue Code (IRC). The Company has not filed for a determination letter on the Plan but intends to adopt a pre-approved volume submitter plan when available. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

8. Related-Party Transactions and Party-in-Interest Transactions

Plan assets are invested in a collective trust for which Fidelity Institutional Asset Management Trust Company (“FIAM”) is the trustee. FIAM is a wholly owned subsidiary of FIAM Holdings, LLC which is wholly owned by FMR LLC, the parent company of Fidelity Management and Trust Company (“FMTC”), the Plan’s trustee. This transaction qualifies as party-in-interest transaction under ERISA.

9. Certified Investments

Certain information related to investments disclosed in the accompanying financial statements and supplemental schedules, including investments held at December 31, 2017, and net appreciation in fair value of investments was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by FMTC, the trustee.
