Part III Accountant's Opinion

3 Complete lines 3a through 3c if the opinion of an independent qualified public accountant is attached to this Form 5500. Complete line 3d if an opinion is not attached.

a The attached opinion of an independent qualified public accountant for this plan is (see instructions):

(1) ☒ Unqualified (2) ☐ Qualified (3) ☐ Disclaimer (4) ☐ Adverse

b Did the accountant perform a limited scope audit pursuant to 29 CFR 2520.103-8 and/or 103-12(d)? ☐ Yes ☒ No

c Enter the name and EIN of the accountant (or accounting firm) below:

(1) Name: **KPMG LLP**

(2) EIN: **13-5565207**

d The opinion of an independent qualified public accountant is **not attached** because:

(1) ☐ This form is filed for a CCT, PSA, or MTIA. (2) ☐ It will be attached to the next Form 5500 pursuant to 29 CFR 2520.104-50.

Part IV Compliance Questions

4 CCTs and PSAs do not complete Part IV. MTIAs, 103-12 IEs, and GIAs do not complete lines 4a, 4e, 4f, 4g, 4h, 4k, 4m, 4n, or 5. 103-12 IEs also do not complete lines 4j and 4l. MTIAs also do not complete line 4l.

During the plan year:

a Was there a failure to transmit to the plan any participant contributions within the time period described in 29 CFR 2510.3-102? Continue to answer "Yes" for any prior year failures until fully corrected. (See instructions and DOL's Voluntary Fiduciary Correction Program.).....

b Were any loans by the plan or fixed income obligations due the plan in default as of the close of the plan year or classified during the year as uncollectible? Disregard participant loans secured by participant's account balance. (Attach Schedule G (Form 5500) Part I if "Yes" is checked.)

	Yes	No	Amount
4a		X	
4b		X	

	Yes	No	Amount
c Were any leases to which the plan was a party in default or classified during the year as uncollectible? (Attach Schedule G (Form 5500) Part II if "Yes" is checked.)		X	
d Were there any nonexempt transactions with any party-in-interest? (Do not include transactions reported on line 4a. Attach Schedule G (Form 5500) Part III if "Yes" is checked.)		X	
e Was this plan covered by a fidelity bond?	X		90000000
f Did the plan have a loss, whether or not reimbursed by the plan's fidelity bond, that was caused by fraud or dishonesty?		X	
g Did the plan hold any assets whose current value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
h Did the plan receive any noncash contributions whose value was neither readily determinable on an established market nor set by an independent third party appraiser?		X	
i Did the plan have assets held for investment? (Attach schedule(s) of assets if "Yes" is checked, and see instructions for format requirements.)		X	
j Were any plan transactions or series of transactions in excess of 5% of the current value of plan assets? (Attach schedule of transactions if "Yes" is checked, and see instructions for format requirements.)		X	
k Were all the plan assets either distributed to participants or beneficiaries, transferred to another plan, or brought under the control of the PBGC?		X	
l Has the plan failed to provide any benefit when due under the plan?		X	
m If this is an individual account plan, was there a blackout period? (See instructions and 29 CFR 2520.101-3.)			
n If 4m was answered "Yes," check the "Yes" box if you either provided the required notice or one of the exceptions to providing the notice applied under 29 CFR 2520.101-3.			

5a Has a resolution to terminate the plan been adopted during the plan year or any prior plan year? ☐ Yes ☒ No
If "Yes," enter the amount of any plan assets that reverted to the employer this year _____.

5b If, during this plan year, any assets or liabilities were transferred from this plan to another plan(s), identify the plan(s) to which assets or liabilities were transferred. (See instructions.)

Independent Auditors' Report

To the Plan Participants and Plan Administrator
Retirement Plan for Select GE Businesses:

Report on the Financial Statements

We have audited the accompanying financial statements of the Retirement Plan for Select GE Businesses (the Plan), which comprise the statements of net assets available for plan benefits and of accumulated plan benefits as of December 31, 2017 and 2016, and the related statements of changes in net assets available for plan benefits and of changes in accumulated plan benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2017 and 2016, and the changes in its financial status for the years then ended, in accordance with U.S. generally accepted accounting principles.

RETIREMENT PLAN FOR SELECT GE BUSINESSES

Notes to Financial Statements

December 31, 2017 and 2016

(1) Description of the Plan

The Retirement Plan for Select GE Businesses (the "Plan") is a frozen defined benefit pension plan sponsored by GE Capital US Holdings, Inc. (the "Company"). Prior to December 2, 2015, the Plan was sponsored by GECIA Holdings Inc. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

The Plan was frozen with respect to employees of GE Capital Fleet Services on December 26, 2010 and with respect to the employees of International Transportation & Space, Inc. and Transport International Pool on December 31, 2011. Thus, the Plan was frozen with respect to all employees on December 31, 2011. Participants continue to earn vesting service for as long as they work for General Electric Company ("GE"). In addition, the Plan provides for 100% vesting with respect to participants who were employees at the time of certain dispositions, including the August 31, 2015 sale of Gelco Corporation, d.b.a. GE Capital Fleet Services.

Due to mergers in 2001 and 2002, two other frozen plans are part of this Plan: the Kidder, Peabody Group Inc. Retirement Plan for Salaried and Commissioned Employees and the Heller Financial, Inc. Retirement Plan. The Stewart & Stevenson Pension Plan had previously been merged into the Kidder, Peabody Group Inc. Retirement Plan for Salaried and Commissioned Employees. Thus, the Plan includes four different sets of benefit provisions.

The main provisions of the Plan include the following: Benefits are determined using a formula that includes length of service and certain compensation. Participants become fully vested in their benefits after they have completed seven years of credited service or are part of a disposition that triggers 100% vesting. Participants are entitled to pension benefits (paid monthly) beginning at normal retirement age (65). The Plan permits early retirement beginning at age 55 if a participant has at least 7 years of vesting service. The Plan also provides for a disability pension to participants who meet certain criteria.

The Plan invests its funds in the GE Pension Trust (the "Trust"). On July 1, 2016, GE completed the sale of GE Asset Management Incorporated ("GEAM"), a wholly owned subsidiary of GE to State Street Corporation ("State Street"). The net sale proceeds from the transaction of \$347 million were deposited into the Trust in 2016 (see also note 8). In connection with the transaction, GE personnel were appointed as Trustees of the Trust, and State Street Global Advisors Trust Company and SSGA Funds Management, Inc., affiliates of State Street, act as investment advisors, providing investment advisory, investment management and related services that GEAM historically provided to the Trust. The investment objectives and policies of the Trust did not change as a result of this transaction. State Street Bank & Trust Company is the primary custodian for Trust assets.

This description of the Plan is provided for general information purposes only. The complete terms of the Plan, including the terms of Kidder, Peabody, Stewart & Stevenson, and Heller Financial sections of the Plan, are provided in the Retirement Plan for Select GE Businesses Plan document. Information concerning the Plan, including benefits and vesting provisions, is also included in the Summary Plan Description and other material distributed to participants.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting.

(b) Investments

All Plan investment assets are held in the Trust. The Trust's investments are carried at fair value. See notes 3 and 4 for additional information.

Investment transactions are recorded by the Trust on a trade date basis. Interest income is earned from settlement date and is recognized on an accrual basis. Dividend income is recorded on the ex-dividend date.

RETIREMENT PLAN FOR SELECT GE BUSINESSES

Notes to Financial Statements

December 31, 2017 and 2016

Securities for which exchange quotations are readily available are valued at the last sale price, or if no sales occurred on that day, at the quoted bid price. Short-term investments generally maturing within 60 days or less at the time of purchase are valued on the basis of amortized cost, which approximates fair value. Non-publicly traded investments are principally investments in real estate, alternative investment funds and private equity securities. The fair value estimates for these non-publicly traded investments involve subjective judgments and the actual selling price of these investments can only be determined by negotiations between independent third parties in a sales transaction.

Off-balance-sheet financial instruments and commitments are valued at current market prices and rates, and are included in due from brokers and due to brokers, as applicable, on the statements of net assets of the Trust. The net realized and unrealized gains or losses are included in net appreciation (depreciation) in value of investments in the statements of changes in net assets of the Trust. Futures contracts are valued at the settlement price established each day by the board of trade or exchange on which they principally trade. Forward foreign currency contracts are valued at the closing market price.

Investment income and related expenses, including interest and dividend income, net realized gains (losses) on sale and unrealized appreciation (depreciation) in value of investments, is allocated by the Trust to the Plan based upon the Plan's percentage of Trust net assets at the beginning of each month.

(c) Fair Value Measurements

For financial assets and liabilities, fair value is the price the Trust would receive to sell an asset or pay to transfer a liability in an orderly transaction with a market participant at the measurement date. In the absence of active markets for the identical assets or liabilities, such measurements involve developing assumptions based on market observable data and, in the absence of such data, internal information that is consistent with what market participants would use in a hypothetical transaction that occurs at the measurement date.

Observable inputs reflect market data obtained from independent sources, while unobservable inputs reflect our market assumptions. Preference is given to observable inputs. These two types of inputs create the following fair value hierarchy:

Level 1 - Quoted prices for identical investments in active markets.

Level 2 - Quoted prices for similar investments in active markets; quoted prices for identical or similar investments in markets that are not active; and model-derived valuations whose significant value drivers are observable.

Level 3 - Significant inputs to the valuation model are unobservable.

GE maintains policies and procedures to value investments using the best and most relevant data available. Independent pricing vendors are used to assist in valuing certain investments. In addition, GE performs reviews through assessment of the inputs in the determination of valuation for a representative sample of direct investments in private equity securities and real estate investments to assess reasonableness of the valuations.

The following section describes the valuation methodologies used to measure Trust investments at fair value.

When available, quoted market prices are used to determine fair value of investment securities, and they are included in Level 1. Level 1 securities primarily include publicly traded equity securities.

When quoted market prices are unobservable, pricing information is obtained from independent pricing vendors. The pricing vendors use various pricing models for each asset class that are consistent with what other market participants would use. The inputs and assumptions to the model of the pricing vendors are derived from market observable sources including: benchmark yields, reported trades, broker/dealer quotes, issuer spreads,

RETIREMENT PLAN FOR SELECT GE BUSINESSES

Notes to Financial Statements

December 31, 2017 and 2016

benchmark securities, bids, offers, and other market-related data. Since many fixed income securities do not trade on a daily basis, the methodology of the pricing vendors use available information as applicable such as benchmark curves, benchmarking of like securities, sector groupings, and matrix pricing. The pricing vendors consider available market observable inputs in determining the evaluation for a security. Thus, certain securities may not be priced using quoted prices, but rather determined from market observable information. These investments are included in Level 2 and primarily comprise the portfolio of corporate fixed income, and government, mortgage and asset-backed securities. In infrequent circumstances, pricing vendors may provide valuations that are based on significant unobservable inputs, and in those circumstances the investment securities are classified in Level 3.

Private equity security valuations are reviewed at the end of each reporting period utilizing available market data to determine whether or not any fair value adjustments are necessary. The market data includes recent transactions in the same or similar instruments, completed or pending third-party transactions in the underlying investment or comparable issuers. Unobservable inputs include company specific fundamentals and other third-party transactions in that security.

Real estate investments are valued using discounted cash flow techniques on estimated future cash flows generated by the property, market analysis and sales comparison information. Cash flow estimates are based on current market estimates that reflect current and projected lease profiles and available industry information about expected trends in rental, occupancy, and capitalization rates.

Closing prices for derivatives, which are traded either on exchanges or liquid over-the-counter markets are included in Level 1.

Trust securities that are valued using techniques other than market quotations, particularly securities that are "fair valued," are subject to valuation risk. The inputs or methodology used for valuing securities are not an indication of the risk associated with investing in those securities.

Annually, GE conducts a review of the primary pricing vendor to validate that the inputs used in that vendor's pricing process are deemed to be market observable as defined in the standard. While GE is not provided access to proprietary models of the vendor, GE's review has included on-site walkthroughs of pricing processes, methodologies and control procedures for each asset class for which prices were provided. GE's review also includes an examination of the underlying inputs and assumptions for a sample of individual securities across asset classes, credit rating levels and various durations. GE believes that the prices received from the pricing vendor are representative of prices that would be received to sell the assets at the measurement date (exit price).

GE may use non-binding broker quotes as its primary basis for valuation when there is limited, or no, relevant market activity for a specific instrument or for other instruments that share similar characteristics. GE has not adjusted the prices obtained from the brokers. Investment securities priced using non-binding broker quotes are included in Level 3. As is the case with the primary pricing vendor, third-party brokers do not provide access to their proprietary valuation models, inputs and assumptions.

Investments in private equity, real estate and collective funds held by the Trust, are generally valued using the net asset value ("NAV") per share as a practical expedient for fair value provided certain criteria are met. The NAVs are determined based on the fair values of the underlying investments in the funds. Investments that are measured at fair value using the NAV as a practical expedient are not classified in the fair value hierarchy.

(d) Management Estimates and Assumptions

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and

RETIREMENT PLAN FOR SELECT GE BUSINESSES

Notes to Financial Statements

December 31, 2017 and 2016

changes therein, the actuarial present value of accumulated plan benefits and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(e) Actuarial Present Value of Accumulated Plan Benefits

Accumulated plan benefits are those future periodic payments, including lump sum distributions, that are required under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries and (b) present employees or their beneficiaries.

Benefits payable as a result of retirement, death, disability and termination of employment are included, to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from Plan assets are excluded from accumulated Plan benefits.

The actuarial present value of accumulated plan benefits is determined by independent actuaries and is that amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, termination of employment, and retirement) between the valuation date and the expected date of payment.

The more significant actuarial assumptions used in the valuations as of December 31, 2017 and 2016 were: (a) expected mortality rates of participants are determined using the RP-2014 aggregate base table with a generationally projected longevity improvement by a modified Scale MP-2017 (0.75% ultimate rate) for 2017 and the RP-2014 aggregate base table with a generationally projected longevity improvement by a modified Scale MP-2016 (0.75% ultimate rate) for 2016; (b) average assumed retirement age ranging from 55 to 70; and (c) interest discount assumption of 6.75% and 7.50%, respectively. The assumption changes in 2017 are primarily due to the decrease in the interest discount rate. The changes in actuarial assumptions in 2016 are primarily due to updates to the mortality tables and updates to the optional payment form conversion calculation.

The foregoing actuarial assumptions are based on the presumption that the Plan will continue indefinitely. If the Plan was expected to be completely terminated, different actuarial assumptions and other factors would be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions could be material to the financial statements.

(f) Benefit Payments

Benefit payments to participants are recorded when paid.

(g) Reclassification

Certain prior year amounts have been reclassified to conform to current year presentation.

(c) Investments

The Trust invests in global equity, debt securities, private equities, real estate, partnerships, and certain other assets. Due to risks associated with certain investments, it is reasonable to expect that changes in the value of investments will occur (including in the near term) and that such changes could materially affect the Trust's investments.

According to the statute, the aggregate holdings of all qualifying employer securities (e.g. General Electric Company common stock) and qualifying employer real property may not exceed 10% of the fair value of trust assets at the time of purchase. General Electric Company securities represented 1.0% and 2.1% of Trust net assets at December 31, 2017 and 2016, respectively.

(d) Financial Instruments with Off-Balance-Sheet Risk

In the normal course of business, the Trust enters into transactions in various financial instruments with off-balance-sheet risk. These financial instruments involve varying degrees and types of risks, including credit and market risks, which may be in excess of the amounts recognized in the net assets of the Trust.

Credit risk represents the potential loss to the Trust due to possible nonperformance by obligors and counterparties of the terms of their contracts. Counterparty credit risk (the risk that counterparties will default and not make payments to the Trust according to the terms of the applicable agreements) are managed on an individual counterparty basis. There are provisions in the Trust's master agreements that require counterparties to post collateral (typically cash or U.S. Treasury Securities) from time to time depending on stated conditions, for example when the Trust's receivable due from that counterparty, measured at current market value, exceeds a specified limit.

Where there are agreements to net derivative exposures with a counterparty, exposures with that counterparty are netted and applied to the value of collateral posted to the Trust to determine the net exposure. These net exposures are actively monitored against defined limits and appropriate actions are taken in response, including requiring additional collateral. Market risk represents the potential loss to the Trust due to the decrease in the value of an off-balance-sheet financial instrument caused primarily by changes in interest rates or foreign exchange rates, or a combination thereof.

Forward contracts and futures represent agreements to purchase or sell securities, money market instruments or foreign currencies at a future date and at a specified price. Short sells represent commitments to purchase securities at a future date. Options give the holder the right, but not the obligation, to purchase or sell securities at a future date and at a specified price. Both credit and market risks exist with respect to forward contracts. Market risk exists with respect to futures, short sells and options. These positions are carried at current market value, and the unrealized gain or loss is included in due to brokers and due from brokers in the Trust's statements of net assets. Financial futures are marked to market and settled with the broker on a daily basis. With futures contracts, there is minimal counterparty credit risk to the Trust since futures contracts are exchange traded and the exchange's clearinghouse, as counterparty to all traded futures, guarantees the futures against default. The Trust does not anticipate that losses, if any, as a result of credit or market risk would materially affect the net asset position of the Trust. The Trust, to a limited extent, enters into transactions involving other financial instruments and commitments as an integral part of the overall management of the investment portfolio. The Trust has elected to offset the fair value amounts recognized for receivables and payables for derivative positions executed with the same counterparty under the same master netting agreement.

The Trust had unfunded commitments of \$2,590 million and \$2,790 million as of December 31, 2017 and 2016, respectively, related to investments in private equity and real estate partnerships.

Notes to Financial Statements

December 31, 2017 and 2016

(5) Related Party Transactions (Parties-in-Interest)

As described in Note 7, the Plan paid certain expenses related to Plan operations and investment activity to various service providers who are parties in interest under ERISA, including KPMG LLP, the auditor of the Plan's financial statements.

(6) Tax Status

The Internal Revenue Service has notified the Company by a letter dated October 19, 2017, that the Plan is qualified under the appropriate sections of the Internal Revenue Code ("IRC") and that the related trust is tax-exempt. The Plan has not been amended since that letter was issued.

The Plan satisfies the non-discrimination requirements of IRC sections 401(a)(4) and 410(b). To the extent the Trust recognizes any "unrelated business taxable income" as defined in Sections 512 through 514 of the IRC, the Trust is required to pay tax on any such income. For the years ended December 31, 2017 and 2016, the Trust recorded a current income tax benefit of \$0.6 million and \$2.4 million, respectively. For the years ended December 31, 2017 and December 31, 2016, the Trust recorded no deferred tax liabilities.

U.S. generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. For the years ended December 31, 2017 and 2016, the Plan has not recognized a tax liability (or asset) related to uncertain tax positions.

The Plan is subject to routine audits by taxing jurisdictions and its administrator believes it is no longer subject to income tax examinations for years prior to 2014.

(7) Expenses

Pursuant to the Plan document, the Plan incurs certain administrative expenses and the Plan's proportionate share of other Trust expenses. Administrative expenses consist primarily of premiums paid to the Pension Benefit Guaranty Corporation ("PBGC"), direct recordkeeping and transaction processing costs. The Plan's proportionate share of the other Trust expenses is primarily associated with investment management fees. All reasonable expenses of the Plan are paid by the Plan, unless paid by the Company at its sole discretion.

Expenses for the Plan for the years ended December 31, 2017 and 2016 follow.

	2017	2016
	(in thousands)	
Administrative expenses	\$ 6,908	\$ 5,688
Investment management fees and other expenses	3,923	3,098
Total expenses	<u>\$ 10,831</u>	<u>\$ 8,786</u>

(8) Funding

It is the Company's policy to contribute amounts sufficient to meet minimum funding requirements as set forth in employee benefit and tax laws plus such additional amounts as the Company may determine to be appropriate. Although the Company was not required to make contributions during 2017 and 2016, as disclosed in note 1, in connection with the sale of GEAM, net sale proceeds allocated to the Plan of \$4.4 million were contributed to the Plan in December 2016. In addition, the Company has no formal commitment to contribute in 2018 for the 2017 plan year.

RETIREMENT PLAN FOR SELECT GE BUSINESSES

Notes to Financial Statements

December 31, 2017 and 2016

(9) Plan Termination

Although the Company has not expressed any intent to do so, it has the right to terminate the Plan in accordance with the Plan provisions and the provisions set forth in ERISA.

In the event of complete Plan termination, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide benefits in a prescribed order starting with benefits attributable to employee contributions.

Additionally, certain benefits under the Plan are insured by the PBGC, a U.S. government agency, if the Plan so terminates. Generally, the PBGC guarantees most vested normal retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations.

Whether all participants will receive their benefits should the Plan so terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations and may also depend on the financial condition of the Plan sponsor and level of benefits guaranteed by the PBGC. There is a statutory ceiling on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2018, that ceiling, which is adjusted periodically, is \$5,420 per month.

(10) Subsequent Events

Subsequent events after the statement of net assets available for plan benefits through September 25, 2018, the date the financial statements were issued, have been evaluated in the preparation of the financial statements.

Smoothed fair market value of assets over the current and prior two years, adjusted for contributions, benefit payments, administrative expenses, and expected earnings. The average value of assets calculated in this manner is further limited to not less than 90% nor more than 110% of fair market value.

A characteristic of this method is that the expected distribution of the value of plan assets is skewed toward understatement relative to the corresponding market values for expected long-term rates of return in excess of the third segment rate under IRC section 430(h)(2)(C)(iii).

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
