The Delaware County Bank & Trust Company Employee 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2017 and 2016

Note 1 - Plan Description

The following description of The Delaware County Bank & Trust Company Employee 401(k) Retirement Plan (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of The Delaware County Bank & Trust Company and its affiliates, DCB Insurance Services, LLC and DCB Title Services, LLC (collectively, the "Employer"). All employees who are at least 20 years of age and complete six months of service are eligible to be in the Plan. Each employee may enter the Plan on the first day of the plan quarter following completion of the eligibility requirements. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Delaware County Bank & Trust Company and its affiliates were acquired by First Commonwealth Bank on April 3, 2017. As part of the acquisition, the Employer terminated the Plan effective April 2, 2017, as further described in Note 6.

Contributions

Participants may make salary deferral contributions at their discretion up to and in accordance with applicable sections of the Internal Revenue Code. Participants may also contribute rollover contributions representing distributions from other qualified plans.

The employer matches 50 percent of participants' contributions up to a maximum of 6 percent of their eligible annual compensation. In addition, the board of directors can provide for an additional employer contribution on a discretionary basis. In 2017 and 2016, there were no additional discretionary contributions. Participants who reach age 50 may elect to make catch-up contributions. Participants direct the investment of contributions into various investment options offered by the Plan.

All contributions to the Plan were ceased upon termination of the Plan effective April 2, 2017.

Participant Accounts

Each participant's account is credited with the participant's own contributions, the employer's contributions, and plan earnings and losses. Allocations of the employer's contributions are based on participant compensation or participant contributions. Earnings and losses are allocated based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Benefit Payments

On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account or various installment annuities. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Notes to Financial Statements

Note 1 - Plan Description (Continued)

Vesting

Participants are immediately vested in their salary deferral and rollover contributions and any earnings or losses thereon. Participants vest in employer contributions and earnings or losses thereon as follows:

<u>Years of Service</u>	<u>Vesting Percentage</u>
Less than one	- %
More than one but less than two	33.00 %
More than two but less than three	66.00 %
Three or more	100.00 %

As described in Note 6, upon termination of the Plan, all participants' balances became fully vested.

Forfeitures

Forfeitures of terminated participants' nonvested account balances are used to restore participant accounts, reduce employer contributions, or pay plan expenses. If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to reduce future employer contributions or pay plan expenses.

Termination

The Employer has the right under the provisions of the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. As described in Note 6, the Employer terminated the Plan effective April 2, 2017.

Party-in-interest Transactions

Parties in interest are defined under Department of Labor (DOL) Regulations as any fiduciary of the Plan, any party rendering services to the Plan, the Employer, and certain others. At December 31, 2016, the Plan owned 69,889 shares of DCB Financial Corp common stock, valued at \$18.55 per share for a total fair value of \$1,296,442. At December 31, 2017, the Plan owned 36,139 shares of First Commonwealth Financial Corporation common stock valued at \$14.32 per share for a total fair value of \$517,508. During 2017, First Commonwealth Financial Corporation acquired DCB Financial Corp and became the fiduciary of the Plan until the plan termination was finalized and all assets had been distributed as discussed in Note 6. As the Employer and fiduciary, DCB Financial Corp and First Commonwealth Financial Corporation, respectively, are deemed parties in interest. Expenses incurred in the administration of the Plan by the trustee are paid by the Employer on behalf of the Plan.

Certain plan investments were managed by Principal Trust Company, the trustee of the Plan. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

As discussed in Note 6 to the financial statements, the plan sponsor terminated the Plan effective April 2, 2017. As a result, the Plan changed its basis of accounting for periods subsequent to December 31, 2016 from the going-concern basis to the liquidation basis.

The Delaware County Bank & Trust Company Employee 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2017 and 2016

Note 2 - Summary of Significant Accounting Policies (Continued)

Under the liquidation basis of accounting, assets are measured to reflect the estimated amount of cash expected to be collected in settling or disposing of the assets during the liquidation process, and liabilities are measured using the accrual basis of accounting and would include any expected costs of the disposal of assets and other costs expected to be incurred during the liquidation process.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date. The net appreciation/depreciation in fair value of investments consists of both realized gains and losses and unrealized appreciation and depreciation of those investments.

Participant Notes Receivable

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document. There is no allowance recorded for participant notes receivable. Participants may borrow 50 percent of their vested account balance up to a maximum of \$50,000, minus any loan amounts repaid in the last 12 months. The minimum loan request is \$1,000, and interest is payable at the then prevailing prime interest rate. Principal and interest are paid ratably through payroll deductions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures, and actual results may differ from these estimates. A significant change may occur in the near term for the estimates of investment valuation.

Benefit Payments

Benefits are recorded when paid.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including October 2, 2018, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Principal Trust Company (the "Trustee") holds the Plan's investments and participant notes receivable and executes all related transactions. The investment and participant notes receivable balances and related income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information certified by the Trustee.

The Delaware County Bank & Trust Company Employee 401(k) Retirement Plan

Notes to Financial Statements

December 31, 2017 and 2016

Note 4 - Tax Status

The Plan, as adopted, is a volume submitter plan, which does not require an application for a determination letter from the Internal Revenue Service (IRS). The volume submitter plan has received a favorable notification letter from the IRS dated March 31, 2014. The Plan has not individually sought its own determination letter.

Note 5 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the valuation techniques and inputs used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2017 and 2016.

Level 1

Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2

Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3

Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels of the fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds

Mutual funds are valued at quoted prices reported in active markets.

DCB Financial Corp and First Commonwealth Financial Corporation Common Stock

Common stocks are valued at quoted prices reported in active markets under the symbols "DCBF" (DCB Financial Corp) and "FCF" (First Commonwealth Financial Corporation).

Common Collective Trust Fund

The common collective trust funds are valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the funds' underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

Notes to Financial Statements

December 31, 2017 and 2016

Note 5 - Fair Value Measurements (Continued)

Pooled Separate Accounts

The pooled separate accounts are valued at net asset value per share or its equivalent of the funds, which is based on the fair value of the funds' net underlying assets. There are no redemption restrictions or unfunded commitments on these investments.

Assets Measured at Fair Value on a Recurring Basis at December 31, 2017

Assets Measured at Fair Value on a Recurring Basis at December 31, 2016

Common collective trust funds	3,765,555	
Pooled separate accounts	448,941	
Total investments at fair value	<u><u>\$ 7,458,551</u></u>	

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the actual date of the event of change in circumstances that caused the transfer. There were no transfers between levels of the fair value hierarchy during 2017 and 2016.

Note 6 - Termination - Liquidation Basis

Effective April 2, 2017, the board of directors of DCB Financial Corp elected to terminate the Plan, at which point all participant account balances became fully vested, and contributions under the Plan ceased. The Plan adopted the liquidation basis of accounting in fiscal year 2017. Under the liquidation basis of accounting, assets are recorded at the amount expected to be collected, and liabilities are recorded at amounts expected to be paid during the course of liquidation.

All assets of the plan were distributed to participants with account balances by August 2018.
