1. Description of Plan

The following description of the Bill Currie Ford, Inc. 401(k) Profit Sharing Plan (the Plan), provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan became effective November 1, 1992 and is a defined contribution plan covering all full-time employees of the Company who have completed six months of service. The Plan was amended and restated January 1, 2001 and again January 1, 2002 to comply with various IRS requirements. Significant changes included "catch up" contributions for eligible employees age 50 and older, and the maximum amount which a participant may defer increased to 100% of compensation, limited to an amount determined annually by the Internal Revenue Service.

The Plan was amended and restated effective January 1, 2009 for compliance with the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) and other legislative and regulatory changes. The Plan was amended and restated effective October 27, 2011 to allow hardship distributions from Roth accounts. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974.

Contributions

After enrollment in the Plan, participants may elect to contribute, in the form of salary or bonus deferral, up to 100% of their annual compensation, not to exceed the regulatory maximum. The elective deferral maximum for 2017 and 2016 was $18,000 and an additional $6,000 "catch-up" for those age 50 or older. The Plan also allows for rollover contributions.

The Employer contributes a discretionary matching contribution equal to a percentage of the amount of the voluntary salary reduction elected by the participant. The discretionary matching contribution will be determined each year by the Employer. For the years ended December 31, 2017 and 2016, the Employer matched 50% of each participant's contribution up to a maximum matching contribution of $300 per participant.

Contributions received by the Plan are deposited with Nationwide Financial Services, Inc. and its subsidiary, Nationwide Trust Company (Nationwide) and are invested, as directed by the participant, into the various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with the participant's contributions and employer matching contributions, as well as investment earnings (losses). Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant account balances, equally among participants or to specific participants for transactions specifically incurred by them. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants have the ability to direct the investment of their account balances between various mutual funds including target funds based on the participant's retirement age, a self-directed brokerage account or a Nationwide managed investment account. Each investment has a unique and varied investment objective.

1. Description of Plan (continued)

Forfeitures
At December 31, 2017 and 2016, the forfeited nonvested accounts totaled $48 and $11,907, respectively. These accounts will be used to reduce future employer contributions or pay administrative expenses. In 2017 and 2016, employer contributions were reduced by $11,153 and $4,978, respectively, from forfeited nonvested accounts. Also during 2017 and 2016, forfeitures of $1,654 and $4,051, respectively, were used to pay administrative expenses.

Vesting
Participants are immediately vested in their voluntary salary reduction accounts. Vesting in their employer matching account is based on years of continuous service. A participant is 100% vested after five years of credited service.

Loans
Loans are not permitted under the Plan.

Payment of Benefits
On termination of service due to death, disability or retirement, a participant becomes 100% vested and may elect to receive a lump-sum amount equal to the value of the participant's account, or roll the balance into an IRA account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution or roll the balance into an IRA account or other qualified plan.

The Plan allows in-service distributions for participants age 59 ½ or older and hardship withdrawals.

Plan Expenses
Plan administrative expenses, including recordkeeping, asset and account management, advisory and withdrawal fees totaling $42,475 and $42,811 were charged to participants in 2017 and 2016, respectively. Plan expenses attributed to a particular participant are charged to the participant's account. Other Plan expenses are paid by the employer and are excluded from these financial statements. Employer personnel provide administrative services to the Plan at no charge.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition
Investments are valued at fair value as reported to the Plan and certified by Nationwide. See Note 4 for discussion of fair value measurements.

Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (continued)

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

Adoption of Accounting Standards Update No. 2015-07

Effective January 1, 2017, Plan management adopted Accounting Standards Update No. 2015-07 Disclosures for Investments in Certain Entities that Calculate Net Asset Value per Share (or Its Equivalent), which requires the update to be applied retrospectively for all financial statements presented. The update eliminates the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendment also removed the requirement to make certain disclosures regarding investments that are eligible to be measured at fair value using the net asset value practical expedient.

3. Investments

Financial information related to investments presented and disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2017 and 2016, net appreciation (depreciation) in fair value of investments, and interest and dividends for the years ended December 31, 2017 and 2016, was obtained or derived from information provided to the Plan Administrator and certified as complete and accurate by Nationwide (the trustee of the Plan).

The only nonparticipant-directed investments are forfeitures which are included in the money market fund at December 31, 2017 and 2016. See Forfeitures in Note 1.

Investments in mutual funds are generally redeemable at any time. However, certain mutual funds restrict the number of transfers in and/or out of the fund within a thirty day period for transfers exceeding a specified amount. The maximum transfer ranges from any amount of money for certain funds to $5,000 or more for other funds. Also, certain mutual funds charge a redemption fee ranging from .5% to 2% for trades out of the fund if the investment was held less than a specified time frame. The time frames range from seven to ninety days.

Transfers from self-directed brokerage accounts must be made in the required written format and transfers in cash made from the self-directed brokerage accounts will be made within twenty days following receipt of written instructions for accounts being liquidated.

4. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of other than quoted prices not included in Level 1 that are observable, either directly or indirectly, and Level 3 inputs consist of unobservable inputs and has the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2017 and 2016.

Money market funds and self-directed brokerage accounts: The fair value is based on the closing price reported on the active market.

Mutual funds: As a practical expedient, the net asset value of the units of the funds is the basis for measuring the fair value. The unit value of the fund is based on the day's net asset value of the mutual fund plus any dividends and capital gains declared, as reported by the fund house, and then divided by the previous day's net asset value of the mutual fund to calculate a gross investment rate. Then the daily asset management charge is subtracted from the gross investment rate and this net investment rate is multiplied by the previous day's unit value to calculate the current day's unit value.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2017 and 2016. There are no Level 2 or Level 3 type investments.

	2017	
	Fair Value Measurements Using:	
	Total	Level 1
Money market fund	$ 342,872	$ 342,872
Self-directed brokerage accounts	323,747	323,747
Investments measured at net asset value (a)	5,673,412	-
Investments at fair value	$ 6,340,031	$ 666,619

	2016	
	Fair Value Measurements Using:	
	Total	Level 1
Money market fund	$ 363,020	$ 363,020
Self-directed brokerage accounts	273,244	273,244
Investments measured at net asset value (a)	4,687,394	-
Investments at fair value	$ 5,323,658	$ 636,264

4. Fair Value Measurements (continued)

(a) In accordance with Subtopic 820-10, investments that were measured at net asset value per share (or its equivalent) practical expedient have not been classified in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the line items presented in the Statements of Net Assets Available for Benefits.

The following tables summarize investments measured at fair value based on net asset value per share as of December 31, 2017 and 2016.

	2017			
	Fair Value	**Unfunded Commitments**	**Redemption Frequency**	**Redemption Notice Period**
Mutual funds	$ 5,673,412	n/a	Daily	30 days

	2016			
	Fair Value	**Unfunded Commitments**	**Redemption Frequency**	**Redemption Notice Period**
Mutual funds	$ 4,687,394	n/a	Daily	30 days

The Plan invests in mutual funds with varied investment objectives.

See Note 3 for restrictions on transfers or payments.

5. Tax Status

Effective January 1, 2009, the Employer adopted the Nationwide Financial Services Prototype Non-standardized 401(k) Profit Sharing Plan. The prototype Plan obtained an opinion letter dated March 31, 2008, in which the Internal Revenue Service stated that the prototype Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the opinion letter. However, the plan administrator and the Plan's management believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

In order to maintain a qualified cash or deferred arrangement under the Internal Revenue Service regulations, the Plan must satisfy the 401(k) non-discrimination requirements each year, which limit the percentage of compensation that can be contributed by highly compensated employees, as defined in the Code, relative to the percentage of compensation contributed by non-highly compensated employees. The non-discrimination requirement was satisfied for both 2017 and 2016.

6. Plan Termination

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their account balances.

7. Related Party Transactions

Plan investments are held and managed by Nationwide. Nationwide is the Plan custodian and trustee and, therefore, these transactions qualify as party-in-interest transactions.

Nationwide receives revenue from mutual funds for services provided. This revenue is retained by Nationwide and is considered in determining product charges paid by the Plan to Nationwide.

Administrative fees of $42,475 and $42,811 were paid to Nationwide during the years ended December 31, 2017 and 2016, respectively.

Investment management fees relating to mutual funds are charged against the participant's investment and are reflected in the return on the investment.

8. Subsequent Event

The Plan's management has evaluated events occurring subsequent to year end through October 5, 2018, the date the financial statements were available to be issued, for financial reporting and disclosure purposes. Plan management identified the following subsequent event:

In September 2018, Plan management determined that the Plan has been in a controlled group (as defined by the Internal Revenue Code) with a company related by common ownership since inception of the related company's 401k plan. Nondiscrimination testing for the Company's Plan was not performed as a controlled group as required by regulations for each year since inception of the related company's plan. Therefore, it will be necessary to re-perform the testing for each year to determine if the nondiscrimination tests are passed as a controlled group. If test results for any year fail the testing as a controlled group, the Company may be required to make employer contributions (plus lost earnings) to non-highly compensated employees for the year affected in order to be in compliance with the nondiscrimination rules. As of the date of this report, the Company is in process of correcting this operational failure using the Department of Labor Voluntary Fiduciary Compliance Program. Potential employer contributions, if any, have not yet been determined.
