NOTE 1 — PLAN DESCRIPTION AND BASIS OF PRESENTATION

The following description of Leonard Bus Sales, Inc. Profit Sharing and 401(k) Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions. A complete description of the Plan may be obtained from the Plan Administrator, Leonard Bus Sales, Inc.

General

The Plan is a defined contribution and safe harbor profit sharing plan under Section 401(k) of the Internal Revenue Code that was established on December 31, 1985 for the purpose of providing retirement benefits for eligible employees of Leonard Bus Sales, Inc. In addition, eligible employees of LBS South, LLC, a related entity due to common ownership, were able to participate. LBS South, LLC began operations in Florida during 2012 and ceased operations in March 2015. The Plan is subject to the provisions of the Employee Retirement Income Security act of 1974 (ERISA).

Eligibility

The Plan covers substantially all employees who have completed six months of service and attained age 19.

Contributions

The Plan allows participants to defer up to 100% of their eligible compensation, but participants are limited to the annual threshold set by the Internal Revenue Service. Participants have the option of making Roth elective deferrals.

Participants may also contribute funds representing distributions from other qualified plans or individual retirement accounts in the form of direct rollover contributions.

The Company matches 100% of employee deferrals, up to 3% of eligible compensation, plus 50% of employee deferrals, which are over 3% but not over 5% of eligible compensation. Also, the Company, at its discretion, may make a discretionary nonelective contribution at the end of the year that will be allocated to participant accounts based on their amount of eligible compensation. The Company chose not to make a discretionary contribution for 2017 or 2016.

The Plan provides that all employee contributions to the Plan will be invested in certain individual funds as directed by each participant.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contributions, (b) Plan earnings (losses), and (c) administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 — PLAN DESCRIPTION AND BASIS OF PRESENTATION (Continued)

Vesting

Employee: Participants are immediately vested in their voluntary contributions to the Plan plus actual earnings thereon.

Employer Match Account: Due to the safe harbor status of the Plan, the employer matches 100% of employee deferrals, up to 3% of eligible compensation, plus 50% of employee deferrals, which are over 3% but not over 5% of eligible compensation. Participants are immediately 100% vested in these contributions.

Employer Discretionary Match: There is a six year graded vesting schedule with regard to the Company's contributions. There is 20% vesting after two years of services, and an additional 20% vesting for each additional year of service. In addition, a participant's account balance will become fully vested upon reaching retirement age, becoming disabled or dying while employed by the Company. Normal retirement age is 60.

Payment of Benefits

Upon termination of employment, participants may receive all or part of their vested account balance paid at any time. If the value of the participant's vested interest is $5,000 or less, the value is automatically distributed to the participant in a lump-sum amount. Active participants may receive a portion of their vested accounts once they reach age 60. Required minimum distributions are made once a participant reaches age 70½. Additionally, active participants may make hardship withdrawals to satisfy financial hardships as specified in the Plan document.

Forfeitures

Forfeited, non-vested accounts are retained in the Plan and are used to reduce administrative expenses or Company contributions. During the years ending December 31, 2017 and 2016, employer contributions were reduced by $1,212 and $4,743 from forfeited nonvested accounts, respectively. At December 31, 2017 and 2016, there were no unapplied forfeited non-vested balances.

Administrative Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements with the exception of investment advisor, custodian and trustee fees, which are paid by plan participants. Investment related expenses are included in net appreciation of fair value of investments.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements have been prepared on an accrual basis in conformity with accounting principles generally accepted in the United States of America.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

The Plan uses estimates and assumptions in preparing financial statements in accordance with generally accepted accounting principles. Those estimates and assumptions affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were used.

Investment Valuation and Income Recognition

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosures*, provides a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs

Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the Plan can access at the measurement date.

Level 2 Inputs

Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs

Inputs are that are both significant to the fair value measurement and unobservable (i.e. supported by little or no market activity).

Valuation Methodology

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodology used at December 31, 2017 and 2016:

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Valuation Methodology (Continued)

Pooled separate accounts: Unit value is calculated based on the Net Asset Value (NAV) per share utilizing the underlying assets of the fund. The NAV is not a publicly quoted price in an active market and is computed in accordance with investment company measurement principles based on the underlying assets. The separate account assets include, but are not limited to, contributions invested in domestic and international common stocks, high-quality short-term debt securities, real estate, private market bonds and mortgages, and high-yield fixed income securities. These underlying assets for the various pooled separate accounts include investments with readily determinable publicly quoted pricing inputs to those with unobservable inputs. All redemptions are at that day's computed NAV. All separate accounts are reflected in Level 2.

Non-benefit responsive contracts: Investment in a guaranteed fixed group annuity contract held by Principal Life. The guaranteed interest accounts cannot be sold to a third party; thus, the only option to exit the guaranteed interest accounts is to withdraw or transfer the funds prior to maturity for an event other than death, disability, termination, or retirement; as these events promise contract value. For any other withdrawals, there is a possible surrender charge when funds are withdrawn prior to maturity. The fair value represents guaranteed interest account values adjusted to reflect current market interest rates only to the extent such market rates exceed contract crediting rates. This value represents contributions allocated to the guaranteed interest accounts, plus interest at the contractually guaranteed rate. As these contracts are contract-based, observable prices for identical or similar investments do not exist and accordingly, these investments are valued using unobservable inputs (Level 3).

Fully benefit responsive contracts: Investments in stable value group annuity contracts held by Principal Global Investors Trust Company, which is a collective investment trust. Since this investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The net realized and unrealized appreciation (depreciation) in fair value of investments reflects the change in market value from beginning of year to end of year, realized gains and losses on sale of underlying investments, and investment earnings.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 — SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Operating Expenses

Certain expenses of maintaining the Plan are paid by the Plan sponsor in addition to those paid by the Plan.

Reclassifications

Certain amounts in the prior-year financial statements have been reclassified in order to be comparable with the current year presentation.

Subsequent Events

The Plan has evaluated subsequent events for potential recognition and/or disclosure through October 8, 2018, which is the date the financial statements were available to be issued.

NOTE 3 — CERTIFICATION

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Principal Life Insurance Company and Principal Global Investors Trust Company, the Trustees of the Plan, have certified to the completeness and accuracy of all investments reflected on the accompanying statements of net assets available for benefits as of December 31, 2017 and 2016 and supplemental schedule of Schedule H, Line 4i - Schedule of Assets (Held at End of Year) as of December 31, 2017, and the related investment activity reflected in the statement of changes in net assets available for benefits for the year ended December 31, 2017.

Quantitative Information about Level 3 Fair Value Measurements

The following table provides quantitative information about the significant unobservable inputs used for recurring fair value measurements categorized within Level 3.

As of December 31, 2017

Type	Fair value	Valuation technique	Significant unobservable inputs	Range
Guaranteed interest accounts	$ 74,885	See note (1)	Interest rate on account	0.37% - 0.95%
			Applicable interest rate	2.24% - 2.39%
			Maturity date	12/31/2017 - 12/31/2019

As of December 31, 2016

Type	Fair value	Valuation technique	Significant unobservable inputs	Range
Guaranteed interest accounts	$ 81,724	See note (1)	Interest rate on account	0.37% - 0.95%
			Applicable interest rate	1.31% - 1.95%
			Maturity date	12/31/2016 - 12/31/2019

(1) If the applicable interest rate is equal to or less than the interest rate on the account, the fair market value is equal to the contract value. If the applicable interest rate is greater than the interest rate on the account, the fair market value is the contract value reduced by a percentage. This percentage is equal to the difference between the applicable interest rate and the interest rate on the account, multiplied by the number of years (including fractional parts of a year) until the maturity date.

For the years ended December 31, 2017 and 2016, there were no significant transfers between Levels 1, 2 or 3.

NOTE 5 — INVESTMENT IN COLLECTIVE TRUST

The Plan has investments in the Principal Stable Value Fund, which is a collective investment trust. The Fund provides for the collective investment of assets of tax-exempt pension and profit-sharing plans, primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by bond funds and trusts that are selected by the Trustee, Principal Global Investors Trust Company. It is Principal's expectation that each unit of the Trust will maintain a constant net asset value of $1.

Since this investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the investment contract. Contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.

Furthermore, certain events would allow the issuer to terminate the contract with the Plan and settle at an amount different from contract value. Examples of such events include (a) an uncured breach of the Plan's investment guidelines, (b) a material amendment to the contract without the issuer's consent, (c) a violation of a material obligation under the contract, or (d) a material misrepresentation. The Plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with Plan participants or the issuer are probable of occurring.

NOTE 6 — RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by the Trustees. The Trustees have physical and administrative control of certain assets of the Plan and executes transactions therein. These transactions qualify as party-in-interest transactions. Administrative fees paid by the Plan for the investment management services amounted to $1,330 for the year ended December 31, 2017.

NOTE 7 — PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in the amounts contributed by the sponsor.

NOTE 8 — INCOME TAX STATUS

The Plan is a prototype plan. The Plan obtained its latest determination letter on March 31, 2014, in which the Internal Revenue Service stated that the Plan and the related trust established under the Plan are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and is currently operating in accordance with the applicable requirements of the IRC.

NOTE 9 — RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
