Independent Auditors' Report

To the Participants and Administrator of
Keystone Employees' Retirement Plan for Inactive Participants:

We have audited the accompanying financial statements of the Keystone Employees' Retirement Plan for Inactive Participants ("Plan"), which comprise the statements of net assets available for benefits as of December 31, 2016 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Keystone Employees' Retirement Plan for Inactive Participants as of December 31, 2016 and 2017, and the changes in its net assets available for benefits for the years then ended in accordance with U.S. generally accepted accounting principles.

Plan Sponsor: Keystone Consolidated Industries, Inc.

PN: 461

As a condition of a spinoff from the Keystone Employees' Retirement Plan for Inactive Participants (KERPIE) effective December 31, 2015, \$4,716,742 in Funding Standard Carryover Balance was transferred from KERPIE to the Keystone Employees' Retirement Plan (KERP; EIN: 37-0364250, PN: 005), and \$3,152,517 was transferred from KERPIE to the Contran Corporation Pension Plan (Contran; EIN: 74-1646336; PN: 003). As a result, the 1/1/2016 Funding Standard Carryover Balance for KERPIE (line 7 of the 2017 Form 5500 Schedule SB) is the \$14,492,190 reported on line 13 of the 2016 Form 5500 Schedule SB for KERPIE minus both the \$4,716,742 value transferred from KERPIE to KERP and the \$3,152,517 value transferred to Contran, a total of \$6,622,931.

Schedule SB, Part V – Summary of Actuarial Assumptions/Methods

Plan Name: Keystone Employees' Retirement Plan for Inactive Participants
Plan Sponsor: Keystone Consolidated Industries, Inc.

EIN: 37-0364250
PN: 461

Summary of Actuarial Methods

The ultimate cost of a pension plan is the excess of actual benefits and administrative expenses paid over actual net investment return on plan assets during the plan's existence until the last payment has been made to the last participant. A plan's "actuarial cost method" determines the expected incidence of actuarial costs by allocating portions of the ultimate cost to each plan year. The cost method is thus a budgeting tool to help ensure that a plan will be adequately and systematically funded. Annual contributions are also affected by a plan's "asset valuation method" (as well as plan provisions, actuarial assumptions, and actual plan demographic and investment experience each year).

Actuarial Cost Method

The actuarial cost method used for determining the Plan's ERISA funding requirements and the FASB ASC Topic 960 values is the Unit Credit method. Under this method, an accrued benefit is determined at each active participant's assumed retirement age based on compensation and service at both the beginning and the end of the current year. The Plan's normal cost is the sum of the present value of the excess of each active participant's accrued benefit at the end of the current year over that at the beginning of the current year. The Plan's accrued liability is the sum of (a) the present value of each active participant's accrued benefit at the beginning of the current year plus (b) the present value of each inactive participant's benefits. This method is prescribed for ERISA funding requirements by the Pension Protection Act of 2006.

Asset Valuation Method

The Actuarial Value of Assets used for determining the Plan's ERISA funding requirements is based on the permitted three-year asset smoothing as defined under IRS Notice 2009-22. Under this method, the Actuarial Value of Assets equals the Adjusted Market Value of Assets minus one-third and two-thirds, respectively, of the investment gain or loss for each of the two immediately preceding plan years, but it must be within 90% to 110% of the Adjusted Market Value of Assets. The expected investment return for a plan year is based on the lesser of the expected rate of return on plan assets (currently 7.50% per year or the applicable statutory interest rate for the year).

Changes in Actuarial Methods Since Prior Valuation

None.

Summary of Actuarial Assumptions

ECONOMIC ASSUMPTIONS

Interest Rates

The current funding and PBGC interest rates are as follows. The funding interest rates are prescribed under IRS regulations based on the Plan Sponsor's interest rate election. The PBGC interest rates are based on the Plan Sponsor's elected method for determining the premium funding target.

	Minimum Funding / FASB ASC Topic 960	Maximum Deductible / PBGC Alternative Method	PBGC Standard Method
Segment 1 (0-5 years)	4.16%	1.52%	2.04%
Segment 2 (5-20 years)	5.72%	3.80%	4.03%
Segment 3 (20+ years)	6.48%	4.79%	4.82%
Effective Interest Rate	5.77%	3.93%	4.11%

ERISA minimum funding: 24-month average segment rates, using a four-month lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

Maximum Deductible Contribution: 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization.

PBGC premium: Spot segment rates for the month preceding the valuation date (standard method) or 24-month average segment rates, using a four-month lookback period, but not adjusted to reflect segment rate stabilization (alternative method). The alternative method was adopted January 1, 2008 and the Plan Sponsor is now eligible to elect either method.

FASB ASC Topic 715: 3.74% per annum, compounded annually.

FASB ASC Topic 960: 24-month average segment rates, using a four-month lookback period, adjusted to reflect the applicable segment rate stabilization corridor.

Asset Returns

7.50% per year. It is based on the Plan Sponsor's election.

Compensation Increases

Not applicable

Inflation (CPI)

2.30% per year. It is based on Milliman's capital market expectations.

Maximum Benefit and Annual Compensation Limitation Increases

ERISA minimum funding and Maximum Deductible Contribution: 0% per year as required by statute.

FASB ASC Topic 715 and 960: The assumed inflation assumption of 2.30% per year.

Postretirement Benefit Increases

None. (The Plan does not provide for automatic postretirement benefit increases.)

Social Security Taxable Wage Base Increases

Not applicable.

Administrative Expenses

An allowance of \$243,338 for administrative expenses has been included in the Target Normal Cost, reflecting the actual administrative expenses paid from the Plan's trust during the previous year.

DEMOGRAPHIC ASSUMPTIONS

Except where noted, all demographic assumptions are based on the actuary's judgment and continual review of experience.

Mortality

ERISA minimum funding, Maximum Deductible Contribution, and PBGC premium: Statutory static tables for 2017 based on RP-2000 Mortality Table projected to anticipate greater future longevity, with separate rates for non-annuitants and annuitants.

FASB ASC Topic 960: Generational tables based on RP-2014 Blue Collar Mortality Table adjusted backward to 2006 with MP-2014 and projected forward with MP-2016, with separate rates for non-annuitants and annuitants (adopted December 31, 2016). As a generational table, it reflects mortality improvements both before and after the measurement date. The Society of Actuaries' Retirement Plans Experience Committee recommends use of the RP-2014 table and MP-2016 scales for valuing retirement plan liabilities.

Retirement

Terminated vested participants are assumed to retire as follows:

- Bartonville and Steel and Wire – The earlier of age 62 with 15 years of service or age 65
- All others – Age 65

Termination

Not applicable.

Disability

Not applicable.

Decrement Timing

Decrements are assumed to occur at the middle of the year, except that 100% retirement (see above) is assumed to occur at the beginning of the year.

Form of Payment

Life annuity.

Marital Characteristics

For participants not in pay status: 80% of participants are assumed to be married to a spouse of the opposite sex. Males are assumed to be 3 years older than females.

For participants in pay status: Actual birth dates of spouses are included in the census data, where relevant.

Independent Auditors' Report

To the Participants and Administrator of
Keystone Employees' Retirement Plan for Inactive Participants:

We have audited the accompanying financial statements of the **Keystone Employees' Retirement Plan for Inactive Participants ("Plan")**, which comprise the statements of net assets available for benefits as of December 31, 2016 and 2017, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. generally accepted accounting principles; this includes the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with U.S. generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the **Keystone Employees' Retirement Plan for Inactive Participants** as of December 31, 2016 and 2017, and the changes in its net assets available for benefits for the years then ended in accordance with U.S. generally accepted accounting principles.

KEYSTONE EMPLOYEES' RETIREMENT PLAN FOR INACTIVE PARTICIPANTS

NOTES TO FINANCIAL STATEMENTS

Note 1 - Description of Plan:

General. The following description of the Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan is a non-contributory defined benefit plan for certain inactive employees of Keystone Consolidated Industries, Inc. ("Keystone") as of January 1, 2006 (the "Effective Date") not covered by a collective bargaining agreement including those previously employed at the following divisions: Keystone Steel and Wire ("KSW"), Keystone Fasteners (which was sold by Keystone on August 28, 2003) and the corporate office. The Plan also covers certain inactive employees as of the Effective Date previously employed at the following subsidiaries: Sherman Wire Company (formerly DeSoto, Inc.) ("Sherman"), including its DeSoto Division through December 31, 1998, Fox Valley Steel and Wire which was sold on January 1, 2001, Engineered Wire Products, Inc. ("EWP") and Sherman Wire of Caldwell, Inc., whose operations permanently ceased on July 3, 2003. In addition, the Plan covers inactive bargaining unit employees as of the Effective Date previously employed at KSW and retirees as of the Effective Date of Keystone's former MetalCrafters division and J.L. Prescott, Inc., a wholly-owned subsidiary of Sherman, and retirees as of the Effective Date of the former DeSoto Division of Sherman, which was sold by Sherman on January 1, 1999. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA").

Keystone was a wholly-owned subsidiary of Contran Corporation ("Contran") at December 31, 2017. All of Contran's outstanding voting stock is held by a family trust established for the benefit of Lisa K. Simmons and Serena Simmons Connelly and their children for which Ms. Simmons and Ms. Connelly are co-trustees, or is held directly by Ms. Simmons and Ms. Connelly or entities related to them. Consequently, Ms. Simmons and Ms. Connelly may be deemed to control Keystone and the Plan.

Contributions. The contributions to the Plan are designed to fund at least the minimum required by ERISA. For the years ended December 31, 2016 and 2017, the Company made no contributions to the Plan due to the full funding limitations imposed by the Internal Revenue Code of 1986, as amended, (the "Code").

Pension benefits. All participants are 100% vested after five years of service, as defined, and are entitled to receive monthly pension benefits beginning at normal retirement date (generally age 65). A participant's benefits are calculated based upon a percentage of the participant's average monthly compensation, as defined. The percentage rate used depends on the section of the Plan covering the participant.

Benefit payment options available at the time of retirement are straight life annuity, 10-year certain annuity and joint and survivor annuity (100%, 75% and 50%). The Plan permits early retirement with reduced benefits, as specified in the Plan.

Disability and death benefits. The Plan includes provisions for disability and for survivor's benefits for beneficiaries of participants who die after completion of at least one year of service, as defined.

Plan termination. The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, in compliance with the provisions of ERISA. In the event the Plan is terminated, the accrued benefits of each participant would become fully vested to the extent funded. The net assets of the Plan, after providing for liquidation expenses, are to be allocated to participants and beneficiaries in accordance with Section 4044 of ERISA. To the extent unfunded vested benefits exist, ERISA provides that such benefits are payable to participants by the Pension Benefit Guaranty Corporation, subject to certain limitations.

Expenses of administering the Plan. The administrative expenses are paid by the Plan.

Tax status. The Plan obtained a favorable "determination letter" from the Internal Revenue Service ("IRS") dated April 4, 2017. The Plan had no significant uncertain tax positions for the years ended December 31, 2016 and 2017. The Plan's Annual Return/Report of Employee Benefit Plan is subject to examination by the IRS for three years from the date of filing.

Note 2 - Summary of significant accounting policies:

Basis of accounting. The financial statements of the Plan are prepared in accordance with accounting principles generally accepted in the United States of America.

Cash and cash equivalents. Cash equivalents consist principally of bank time deposits with original maturities of three months or less.

Payment of benefits. Benefits are recorded when paid.

Management estimates. The preparation of the Plan's financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein, disclosure of contingent assets and liabilities, and the actuarial present value of accumulated plan benefits at the date of the financial statements. Actual results may, in some instances, differ from previously estimated amounts.

Risks and uncertainties. The actuarial present value of accumulated plan benefits is reported based on certain assumptions pertaining to interest rates, inflation rates and employee compensation and demographics. Due to the changing nature of these assumptions, it is at least reasonably possible that changes in these assumptions will occur in the near term and, due to the uncertainties inherent in setting assumptions, that the effect of such changes could be material to the financial statements.

The Plan indirectly invests in a variety of stocks, bonds, fixed income securities, mutual funds, and other investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. In addition, the Plan on occasion sells securities short which obligates the Plan to purchase securities in the future at the then market price. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the Plan's statement of net assets available for benefits.

Investment valuation and income recognition. The Plan's investments are stated at fair value. See Note 3 for a discussion of fair value measurements. The net appreciation (depreciation) for the year includes the Plan's gains and losses on investments bought and sold as well as held throughout the year and is reflected in the Plan's statements of changes in net assets available for benefits.

Subsequent events. The Plan has evaluated subsequent events through the date these financial statements were available to be issued. See Note 5.

Note 3 – The Combined Master Retirement Trust:

At December 31, 2016 and 2017, significantly all of the assets of the Plan were held and related investment transactions were executed by U.S. Bank National Association ("U.S. Bank") as Trustee of the Keystone Consolidated Industries, Inc. Master Retirement Trust II (the "Keystone Trust"). The Keystone Trust invests in units of The Combined Master Retirement Trust (the "Combined Trust" or "CMRT"), a collective investment trust formed by Valhi, Inc. ("Valhi"), a majority-owned subsidiary of Contran. The Combined Trust provides for the collective investment of part or all of the assets of various employee benefit plans maintained by Keystone and certain other Contran affiliated corporations (the "Qualified Plans").

Investments held by the Combined Trust are stated at fair value. The fair value per Combined Trust unit is determined semi-monthly by dividing the fair value of the net assets of the Combined Trust by the number of units outstanding for the Combined Trust. Units are issued or redeemed based on the most recent unit value. In accordance with the plan of trust, net income from investment activities is distributed only through the redemption of units.

At December 31, 2016 and 2017, the Combined Trust had net assets of \$637,826,422 and \$672,349,588, respectively. At December 31, 2016 and 2017, the Plan held 29.71% and 29.68%, respectively, of the Combined Trust's net assets. Summarized financial information of the Combined Trust at December 31, 2016 and 2017, and the statements of changes in net assets for the years then ended are presented below.

The Plan and the Combined Trust carry their investments at fair value in accordance with Accounting Standards Codification ("ASC") Topic 820, *Fair Value Measurements and Disclosures*, which establishes a consistent framework for measuring fair value and is applied to all financial statement items required to be measured at fair value. The standard requires fair value measurements to be classified and disclosed in one of the following three categories:

- ☐ *Level 1* – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- ☐ *Level 2* – Quoted prices in markets that are not active, or inputs which are observable, either directly or indirectly, for substantially the full term of the assets or liability; and
- ☐ *Level 3* – Prices or valuation techniques that require inputs that are both significant to the fair value measurement and unobservable.

The asset fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for the Combined Trust's investments measured at fair value. There have been no changes in the methodologies used at December 31, 2016 and 2017.

Common stocks: Investments are valued at the closing price reported on the active market on which the individual securities are traded. Other investments in this class that trade infrequently or not at all are valued based on recent third-party transactions in the investment, third party valuations during the year, potential sales and other unobservable inputs.

Mutual funds: Investments are valued at the daily closing price as reported by the fund. Mutual funds held by the Combined Trust are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Combined Trust are deemed to be actively traded.

Commingled funds: Investments are generally valued at the NAV. The NAV, as provided by the investment manager, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Combined Trust will sell the investment for an amount different than the reported NAV. All of the Combined Trust's commingled funds were valued at the NAV at December 31, 2016 and 2017.

Limited partnerships: Investments are generally valued at the NAV. The NAV, as provided by the investment manager, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the Combined Trust will sell the investment for an amount different than the reported NAV. All of the Combined Trust's limited partnerships eligible to be valued at the NAV were valued at the NAV at December 31, 2016 and 2017. Other investments in this class, not eligible to be valued at the NAV, trade infrequently or not at all and are valued based on financial information obtained from the issuer, current and projected financial condition and results of operations of the issuer and other unobservable inputs. Due to the inherent uncertainty of these estimates, these values may differ materially from the values that would have been used had a ready market for these investments existed.

Corporate bonds: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities. This includes basing value on yields currently available on same or comparable securities of issuers with similar credit ratings.

U.S. government securities: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities.

Municipal bonds: Investments are valued by a third-party pricing source using pricing models maximizing the use of observable inputs for same or similar securities. This includes basing value on yields currently available on same or comparable securities of issuers with similar credit ratings.

Real estate mortgage notes: Real estate mortgage notes are valued based on the developer's estimate of actual and projected sales for the projects.

Cash and cash equivalents: Investments are valued at the daily closing price as reported by the money market fund. The money market fund held by the Combined Trust is an open-end mutual fund that is registered with the U.S. Securities and Exchange Commission. This fund is required to publish its daily NAV and to transact at that price. The money market fund held by the Combined Trust is deemed to be actively traded.

The Combined Trust's policy is to recognize transfers into and out of Level 3 as of December 31st. There were no transfers between levels in the fair value hierarchy during 2016 and 2017. Additional information concerning the Combined Trust's significant level 3 assets as of December 31, 2017 (comprised only of common stocks) is presented below. The Combined Trust has no unfunded commitments with respect to these investments at December 31, 2017.

Common stocks: This class includes investments in privately held companies primarily in the education and financial industries that are focused on growth. The Combined Trust's investment in these companies can only be sold with the approval of the respective issuer.

The following tables summarize the valuation methodology and significant unobservable inputs used for the Combined Trust's investments in securities that are categorized within Level 3 of the fair value hierarchy as of December 31, 2016 and 2017:

* See discussion regarding redemptions below.

Commingled funds – Fixed income funds: This class includes fixed income funds with the investment objective to provide returns 300 to 500 basis points above the 3-Month LIBOR after fees over a full market cycle. The funds invest primarily in fixed income securities along with derivatives and currencies in markets including developing markets.

Commingled funds – Growth funds: This class includes growth funds with the investment objective to seek long-term capital appreciation over the medium to long term in all market conditions. These funds invest mainly in equity securities across a broad capitalization range of companies and countries including securities in emerging market countries.

Commingled funds – Hedge funds: This class includes hedge funds with the investment objective to seek above average returns over time with lower risk than traditional investments. The funds may use any number of strategies including convertible arbitrage, distressed credit, long/short equity, event driven, fixed income arbitrage, managed futures and niche strategies. During 2017, the Trust provided the requisite redemption notice for two of the three funds in this class. One fund, valued at \$17.6 million at December 31, 2017, and a second fund, valued at \$14.6 million at December 31, 2017, have redemptions scheduled to pay out in 2018. The exact timing of the redemption payments are subject to the conditions set forth in the relevant fund's subscription agreement. For the third fund in this class, valued at \$3.3 million at December 31, 2017, redemptions may be made annually after a three year lock-up period (which expires in September 2018) with 180 days notice.

Limited partnerships: This class includes investments in private equity funds that have different areas of focus with the goal of capital appreciation. The agreements covering certain of the Combined Trust's limited partnership interests contain provisions that obligate the Combined Trust to invest additional amounts when and as determined by the general partner. Each of the commitment periods are subject to extension and amendment as provided in the respective limited partnership agreements. At December 31, 2017, the commitment periods range from 2018 through 2025. One fund, valued at \$21.7 million at December 31, 2017, may be partially redeemed with at least 60 days notice. The remaining Combined Trust investment in that fund may only be redeemed as the underlying investments are liquidated. The remaining private equity funds in this class may be redeemed only with the approval of the general partner of the partnership. If the Combined Trust remains invested, distributions will be made from investments as the underlying investments of the partnerships are liquidated. It is estimated that the underlying assets of the funds would be liquidated over the next 1 to 7 years.

Note 4 - Actuarial present value of accumulated benefits:

Accumulated benefits are those estimated future payments that are attributable under the Plan's provisions to the services employees have rendered. Accumulated benefits include benefits expected to be paid to (i) retired and terminated participants or their spouses, (ii) spouses of deceased participants, and (iii) active participants or their spouses. Benefits payable under all circumstances (retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date.

The actuarial present value of accumulated benefits is determined by independent actuaries and is the amount that results from applying actuarial assumptions to adjust the accumulated benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment. Actual valuations are determined at January 1 of each Plan year.

The significant assumptions used in the valuations as of December 31, 2016 and 2017 were: (i) life expectancy of participants - generational tables based on Adjusted RP-2014 Blue Collar Mortality Table with Scale MP-2016 in 2016 and with scale MP-2017 in 2017; (ii) retirement age assumption - ranging from age 50 to 65, if eligible, otherwise age 65; (iii) based on MAP-21 segment rates, resulting effective interest rates were 5.77% in 2016 and 5.58% in 2017; (iv) employee turnover withdrawal table consistent with Keystone's expected experience; disability - none. The foregoing assumptions were based on the presumption the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

The actuarial present value of accumulated benefits at December 31, 2016 and 2017 and the changes in the actuarial present value of accumulated benefits for the years then ended are summarized below.

Note 5 – Subsequent Events:

In July 2018, Contran and the other employer-sponsors of the Qualified Plans implemented a restructuring of the Combined Trust, in which a substantial part of each Qualified Plans' units in the Combined Trust were redeemed in exchange for a pro-rata portion of a substantial part of the Combined Trust's investments. Following such restructuring, the Qualified Plans held directly in the aggregate the investments previously held directly by the Combined Trust which had been exchanged for Combined Trust units as part of the restructuring. Certain investments held directly by the Combined Trust, principally the education and financial common stocks categorized within Level 3 of the fair value hierarchy and substantially all of the limited partnership investments for which fair value is measured using the NAV per share practical expedient (in both cases, see Note 3) were not part of such restructuring and remain investments of the Combined Trust.
