1. Description of Plan

The following description of the Pharmaceutical Technologies, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan Document and any amendments thereto for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established for the benefit of the eligible employees of Pharmaceutical Technologies, Inc. (the "Company"). Employees who have completed six months of service and are at least 21 years old are eligible to participate in the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Trustee, a member of the Company's management, is responsible for oversight of the Plan. The Trustee determines the appropriateness of the Plan's investment offerings and monitors investment performance.

Contributions

Each year, participants may contribute a percentage of annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans (rollover contributions). Participants direct the investment of their contributions into various investment options offered by the Plan. The Company contributes a safe harbor contribution equal to three percent of the participant's eligible compensation. The Company may also make additional discretionary profit sharing contributions. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions, including amounts rolled over from other qualified plans, the Company's contributions and Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions, rollover contributions, and Company safe harbor contributions, plus actual earnings thereon. Vesting in the Company's discretionary profit sharing contribution is based on years of continuous service. A participant is 20% vested after two years of service and vests an additional 20% per year thereafter until 100% vested after six years of service.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to (i) the lesser of $50,000 reduced by the highest outstanding balance of any prior loans from the plan during the prior one-year period, or (ii) 50 percent of their vested account balance. The notes are secured by the balance in the participant's account and bear interest at a rate which is commensurate with

the local prevailing rates as determined by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

Benefits are payable upon retirement, death, or termination of employment in the form of a lump-sum distribution or annuity. Withdrawals may be made in the event of a financial hardship, under the terms set forth in the Plan.

Forfeitures

Forfeited accounts may be used to reduce employer contributions. At December 31, 2017, forfeited accounts totaled $0. Forfeitures of $20,131 and $0 were used to offset employer contributions for the years ended December 31, 2017 and 2016, respectively.

2. Summary of Significant Accounting Policies

Basis of Accounting

The Plan's financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires the Plan's management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from estimated amounts.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan Administrator determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance. See Note 5 for additional information related to fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at the unpaid principal balances plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

3. Concentrations of Significant Investments

As of December 31, 2017, the Plan's investments in the Vanguard 500 Index Admiral Fund, Vanguard Small Cap Growth Index Adm Fund, and Vanguard Developed Markets Index Adm Fund accounted for 37%, 12% and 12%, respectively, of the Plan's total investments.

As of December 31, 2016, the Plan's investments in the Vanguard 500 Index Admiral Fund, Vanguard Small Cap Growth Index Adm Fund, and Vanguard Developed Markets Index Adm Fund accounted for 35%, 13% and 11%, respectively, of the Plan's total investments.

4. Information Certified By Plan Custodian

The Plan Administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Minnesota Life Insurance Company, the custodian, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate.

December 31,	**2017**	2016
Investments, at fair value	**$ 7,440,967**	$ 6,684,266
Fully benefit-responsive investment contract, at contract value	**53,385**	47,978
Total investments	**7,494,352**	6,732,244
Notes receivable from participants	**$ 112,347**	$ 44,290

Years ended December 31,	**2017**	2016
Investment income:		
Net appreciation in fair value of investments	**$ 1,077,696**	$ 336,811
Interest income	**1,150**	2,864
Interest income on notes receivable from participants	**$ 3,732**	$ 2,337

The Plan's independent auditors did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

5. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from, or corroborated by, observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Pooled separate accounts: Primarily valued at net asset value ("NAV") per share based on quoted market prices of the underlying investments. There are no unfunded commitments from participants in the Plan who invest in these accounts. The pooled separate accounts do not have a redemption notice period and may be redeemed immediately.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	Assets at Fair Value as of December 31, 2017			
		Fair Value Hierarchy Level		
	Total	Level 1	Level 2	Level 3
Total assets at fair value level	$ -	$ -	$ -	$ -
Total investments measured at NAV*	$ 7,440,967			
Total investments at fair value	$ 7,440,967			

	Assets at Fair Value as of December 31, 2016			
		Fair Value Hierarchy Level		
	Total	Level 1	Level 2	Level 3
Total assets at fair value level	$ -	$ -	$ -	$ -
Total investments measured at NAV*	$ 6,684,266			
Total investments at fair value	$ 6,684,266			

*Certain investments that are measured at fair value using the NAV per share (or its equivalent) practical expedient have not been categorized in the fair value hierarchy. The fair value amounts presented in this table are intended to permit reconciliation of the fair value hierarchy to the amounts presented in the statements of net assets available for benefits.

6. Guaranteed Investment Contract With Minnesota Life Insurance Company

In 2000, the Plan entered in a benefit-responsive guaranteed investment contract with Minnesota Life Insurance Company. Minnesota Life Insurance Company maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

Because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. Contract value, as reported to the Plan by Minnesota Life Insurance Company, represents contributions made under the contract, plus earnings, less

participant withdrawals, and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator believes that any events that would limit the Plan's ability to transact at contract value with participants are not probable of occurring.

7. Related Party Transactions and Party in Interest Transactions

Certain Plan investments are managed by Minnesota Life Insurance Company. Minnesota Life Insurance Company is the custodian and recordkeeper for the Plan and, therefore, these transactions qualify as party in interest transactions and are exempt from the prohibited transaction rules of ERISA. Fees incurred by the Plan for investment management services are included in net appreciation in fair value of investments as they are paid through revenue sharing rather than a direct payment. The Plan made direct payments to the recordkeeper for the years ended December 31, 2017 and 2016 of $3,090 and $8,730, respectively, which were not covered by revenue sharing. The Company pays any other fees related to the Plan's operations.

8. Income Tax Status

Effective March 1, 2016, the Plan adopted a prototype plan sponsored by Minnesota Life Insurance Company. The prototype plan has received an opinion letter from the IRS as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by this Plan. The Plan Administrator believes that the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the Plan Administrator to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

10. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to reduce or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

11. Subsequent Events

The Plan Administrator has evaluated subsequent events through October 9, 2018, the date the financial statements were available to be issued. The Company was acquired by Diplomat Pharmacy, Inc. on November 27, 2017. As a result of that acquisition, contributions to the Plan ceased April 1, 2018 and a member of Diplomat management became the Plan Trustee effective January 1, 2018.
