ITT CONSOLIDATED HOURLY PENSION PLAN

NOTES TO FINANCIAL STATEMENTS

NOTE 1

DESCRIPTION OF THE PLAN

The following description of the ITT Consolidated Hourly Pension Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for more complete information.

General

The Plan is a defined benefit pension plan sponsored by ITT Industries Holdings Inc (the "Plan Sponsor"). The Plan was originally established to provide for the payment of benefits to eligible participants. The Plan consists of multiple legacy plans. The Plan is closed to new participants and benefits have stopped accruing. The Benefits Administration Committee, as appointed by the Board of Directors of ITT, controls and manages the operation and administration of the Plan. The Northern Trust Company (the "Trustee") serves as the trustee of the Plan, and together with the investment managers, manages the Plan's investments held in the Investment Master Trust of ITT (the "ITT Master Trust"). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Pension Benefits

Participants are eligible for monthly benefit payments upon attainment of early retirement criteria (dependent on provisions of each legacy plan but generally no earlier than age 55) or upon attainment of normal retirement age (generally age 62 or age 65 depending on the legacy plan). Early retirement benefits are computed in a manner similar to normal retirement benefits except that they are reduced by certain factors, as outlined in the Plan document, for each month that the early retirement date precedes the normal retirement date. The amount of the accrued benefit is determined by multiplying the benefit rate, which depends upon the period of credited service, by the total number of years of credited service. Certain groups have limited the amount of credited service to be included in the benefit accrual. All terminated participants are 100% vested.

In 2016, a lump sum payment option was offered to vested participants that terminated prior to July 2016 with a vested benefit at December 2015. In December 2016, Plan participants were paid \$18,341,825.

Death and Disability Benefits

A married employee who is a vested participant is automatically covered by the pre-retirement death benefit option, which will provide a benefit for the surviving spouse upon death prior to retirement, unless coverage is waived. The benefit would be equal to the benefit the spouse would have received had the employee retired on the date of death, computed under the normal form of payment and subject to certain limitations as outlined in the Plan document.

No employee has been eligible to qualify for a disability benefit under this Plan since January 1, 2000.

Administrative Expenses

Administrative expenses of the Plan are paid by the ITT Master Trust on behalf of the Plan, as provided in the Plan document and the ITT Master Trust agreement. The Plan Sponsor currently provides accounting and certain other administrative services to the Plan and ITT Master Trust at no charge. Plan administration is provided by WillisTowersWatson and those costs are paid by the Plan.

Management fees and operating expenses charged to the Plan for the investments in the collective trust (CT) funds are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Funding Policy

Contributions to provide benefits under the Plan are made solely by the Plan Sponsor and participant contributions are not permitted by the Plan. Funding requirements under Internal Revenue Service (IRS) rules are a major consideration in making contributions to the Plan Sponsor's postretirement plans. With respect to this Plan, the Plan Sponsor intends to contribute annually not less than the minimum required by applicable law and regulations. While the Plan Sponsor has significant discretion in making voluntary contributions, ERISA, as amended by the Pension Protection Act of 2006 and further amended by the Worker, Retiree, and Employer Recovery Act of 2008, and applicable Internal Revenue Code (IRC) regulations, mandate minimum funding thresholds. Failure to satisfy the minimum funding thresholds could result in restrictions on the Plan Sponsor's ability to amend the Plan or make benefit payments. No mandatory contributions to the Plan were required during 2017 and 2016 but discretionary contributions were made

in December 2017 and 2016 totaling \$14,184,455 and \$6,842,597, respectively. The Plan Sponsor will continue to monitor the funded status and minimum funding requirements.

Plan Termination

The Plan Sponsor has the right under the Plan, in certain circumstances, to discontinue its contributions at any time and to terminate the Plan subject to the provisions set forth in ERISA. In the event that the Plan is terminated, the net assets of the Plan will be allocated for payment of plan benefits to the participants in an order of priority determined in accordance with ERISA, applicable regulations thereunder and the Plan document.

Certain benefits under the Plan are insured by the Pension Benefit Guaranty Corporation (PBGC) if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits, and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination, subject to a statutory ceiling on the amount of an individual's monthly benefit.

Whether all participants receive their benefits should the Plan be terminated at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide those benefits, the priority of those benefits to be paid and the level and type of benefits guaranteed by the PBGC at that time. Some benefits may be fully or partially provided for by the existing assets and the PBGC guaranty while other benefits may not be provided for at all.

Plan Mergers

At close of business on November 30, 2016, the Wolverine Salaried (Wolverine Salary) and the Wolverine Hourly (Wolverine Hourly) Pension Plans merged into the Plan, collectively, the "merged plans". Participants of the merged plans are participants of the Plan beginning December 1, 2016.

Plan assets totaling \$24,405,943 transferred from the merged plans on November 30, 2016. The total asset transfer includes assets from the Wolverine Salary and Wolverine Hourly for \$12,052,496 and \$12,353,447, respectively.

NOTE 2

SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein; and the actuarial present value of accumulated plan benefits and changes therein at the date of the financial statements. It is at least reasonably possible that a significant change may occur in the near term for the estimates of the actuarial present value of accumulated plan benefits. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan participates in the ITT Master Trust which invests in various investment securities. Investment securities, in general, are exposed to various risks, such as interest rate risk, credit risk, liquidity risk and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that values realized at the time of sale could materially differ from amounts reported in the financial statements.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates, and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimates and assumptions process, it is at least reasonably possible that changes in these estimates and assumptions in the near term would be material to the financial statements.

Investment Valuation and Income Recognition

The Plan's interest in the ITT Master Trust is presented at fair value, which has been determined based on the fair value of the underlying investments of the ITT Master Trust. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for a description of valuation methods. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefit payments to participants are recorded upon distribution.

NOTE 3

ACTUARIAL PRESENT VALUE OF ACCUMULATED PLAN BENEFITS

Accumulated plan benefits are those future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions, for service rendered by employees as of the valuation date. Accumulated plan benefits include benefits expected to be paid to: (1) retired or terminated employees or their beneficiaries, (2) beneficiaries of employees who have died, and (3) present employees or their beneficiaries. The actuarial present value of accumulated plan benefits is determined by an independent actuary and is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements, such as for death, disability, withdrawal, or retirement) between the valuation date and the expected date of payment.

The actuarial present value of accumulated plan benefits were calculated as of December 31, 2016, the latest valuation date. This disclosure below is based solely on the funding valuation. The actuarial present value of accumulated plan benefits as of December 31, 2016, is as follows:

	2016
Vested benefits:	
Participant and/or beneficiaries currently receiving benefits	\$ 87,366,078
Terminated vested participants	21,025,572
Active participants	15,378,866
Total vested benefits	123,770,516
Nonvested benefits	345,128
Total actuarial present value of accumulated plan benefits	\$124,115,644

The changes in the actuarial present value of the Plan's accumulated plan benefits for the year ended December 31, 2016, are as follows:

Actuarial present value of accumulated plan benefits - December 31, 2015	\$111,079,585
Increase (decrease) during the year attributable to:	
Benefits accumulated	8,289,132
Benefits paid	(27,168,441)
Interest	7,036,665
Assumption changes	49,205
Wolverine Hourly Merger	11,917,774
Wolverine Salary Merger	12,911,724
Actuarial present value of accumulated plan benefits - December 31, 2016	\$124,115,644

The actuarial cost method used to measure the present value of accumulated plan benefits is the Unit Cost Method. The significant actuarial assumptions used in the December 31, 2016 valuations were:

- Mortality: RP-2014 Blue Collar Employee Mortality Table with the Conduent Modified Projection Scale for healthy participants and RP-2014 Disabled Mortality Table with the Buck modified projection scale for disabled participants for ASC 960 purposes. The Conduent Modified Projection Scale is a modified version of the MP-2017 improvement scale using a grading period of 15 years to a long-term improvement rate of 0.75%
- Retirement age: Age range from 55 - 70
- Investment return: 7.0%

The assumption change is attributable to the change in discount rate and the change from the MP-2016 improvement scale to the MP-2017 scale. The foregoing actuarial assumptions are based on the presumption that the Plan will continue. If the Plan were to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits. Due to uncertainties inherent in the estimations and assumptions process, it is at least reasonably possible that certain changes in these estimates and assumptions

could be material to the financial statements. The actuarial valuation report as of December 31, 2017 has not yet been completed.

NOTE 4 INVESTMENTS

Unaudited Information - Certified Investments

Substantially all information pertaining to the Plan's investments included in the financial statements, including the associated investment income (loss), was obtained or derived from information supplied to the Plan administrator and certified as complete and accurate by the Trustee of the Plan. This 2017 and 2016 information has not been audited by independent accountants.

Interest in Master Trust

The Plan's investments are held in the ITT Master Trust, EIN 38-7003271. The ITT Master Trust is comprised entirely of holdings in CTs and the combined assets of this Plan and another employee benefit plan sponsored by the Plan Sponsor and its subsidiaries (collectively, the "Participating Plans"). The fair value of CTs is estimated based on NAV, as provided by the investment manager to the Trustee, as a proxy for fair value. The Plan's assets include an undivided interest in an investment account of the ITT Master Trust as of and for the years ended December 31, 2017 and 2016. Use of a master trust permits the commingling of Plan assets with the assets of other Participating Plans for investment and administrative purposes. Although Plan assets are commingled in the ITT Master Trust, the Trustee maintains records supporting the allocation of the net income of the ITT Master Trust to the Participating Plans. Net investment income is allocated by the Trustee to each Participating Plan based on the relationship of the interest of each Participating Plan to the total of the interests of all the Participating Plans.

The table below provides the Plan's interest in the ITT Master Trust net assets as of December 31, 2017 and 2016.

	2017	2016
Net assets of the ITT Master Trust at fair value	\$ 320,915,323	\$ 262,145,368
Plan's interest in net assets of the ITT Master Trust	\$ 170,705,053	\$ 146,176,972
Plan's interest in the ITT Master Trust as a percentage of the total	53.2%	55.8%

Domestic and fixed income - bond CTs have a redemption notice period equal to the trade date, while developed market and emerging market CTs have a redemption notice period equal to trade date plus one day, during 2017 and 2016. There are no unfunded commitments and investments can be redeemed on a daily basis.

NOTE 5 PARTY-IN-INTEREST TRANSACTIONS

A party-in-interest is someone who has a relationship prohibiting that person from engaging in certain transactions with the Plan. This usually includes trustees and actuaries.

Certain ITT Master Trust investments are shares of CTs managed by the Trustee; therefore these qualify as party-in-interest transactions. Fees paid to the Trustee for investment management fees were included as a reduction of the return earned on the investment. Other fees paid to the Trustee also qualify as party-in-interest transactions.

Certain administrative functions are performed by officers and employees of ITT Inc. (who may also be a participant in the Plan) at no cost to the Plan or ITT Master Trust.

NOTE 6 TAX STATUS

The IRS has determined and informed the Plan Sponsor by a letter dated November 8, 2017, that the Plan and related trust were designed in accordance with the applicable regulations of the IRC. The Plan Sponsor and Plan management believe that the Plan is currently designed and operated in compliance with the applicable requirements of the IRC and the Plan and related trust continue to be tax-exempt.

The Company evaluates tax positions taken by the Plan and recognizes a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is no longer subject to tax examinations for years prior to 2014.

NOTE 7
SUBSEQUENT EVENTS

Plan management has evaluated events occurring after December 31, 2017 through the audit report date, and has concluded that there are no events that require recognition or disclosure in the financial statements.

The plan administrator has obtained certifications from the trustee as of December 31, 2017 and 2016 and for the years then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Actuarial cost method

The Funding Target is the present value of accrued benefits based on compensation and service to date. The Target Normal Cost is the present value of benefits expected to be accrued during the current plan year, reflecting the effect of expected compensation increases during the year and including expected plan related expenses to be paid from plan assets during the year.

Schedule SB, Part V - Statement of Actuarial Assumptions/Methods (continued)

Non-Prescribed Funding Assumptions and Methods

The following assumptions were selected by the plan's enrolled actuary. The retirement rates, withdrawal rates and frequency of optional payment form assumptions were based on an experience study performed in 2015 for Non-Wolverine. For Wolverine, these assumptions were based on the plan sponsor's anticipated experience, as well as general expectations for plan sponsors of similar size and plan design. The asset valuation method was selected by the plan sponsor with the actuary's advice and is an acceptable method under PPA.

On June 9, 2017 the plan sponsor submitted a request for approval for a change in funding method to the IRS due to the merger of the two Wolverine plans into this plan as of November 30, 2016. The asset values shown assume the request will be approved as submitted.

Cash Balance interest crediting rate

The Cash Balance Interest Crediting Rate assumption is based on anticipated yields for 10-year Treasury Bonds.

Current and Future Years:	3.00%
Prior Year:	3.00%

Expenses

Expected plan related expenses, equal to the prior year's plan related expenses, excluding the prior year PBGC premiums and including 2% inflation plus current year PBGC premium, were added to the Target Normal Cost. This amount is equal to \$2,216,459.

Frequency of optional payment forms

Non-Wolverine

It is assumed that future retirees and terminations will elect the following forms of payment:

Payment Form	Rates
Life Annuity	70%
50% Joint & Survivor Annuity	15%
75% Joint & Survivor Annuity	10%
100% Joint & Survivor Annuity	5%

Wolverine Salaried

Cash balance benefits are assumed payable as a lump sum upon retirement or death and payable at age 63 upon termination. 60% of future retirements and terminations are assumed to elect a single Life Annuity and 40% are assumed to elect a Joint and Survivor 50% annuity.

Wolverine Hourly

For active members and current and future terminated vested members, cash balance benefits are assumed payable as a lump sum upon decrement. For active members and current and future terminated vested members, 60% of future retirements and terminations are assumed to elect a single Life Annuity and 40% are assumed to elect a Joint and Survivor 50% annuity.

Asset valuation method

The Actuarial Value of Assets is Market Value as of the valuation date, including discounted receivable contributions, reduced by 2/3 and 1/3 of the gain/(loss) in the prior 2 years, respectively. The gain/(loss) for each period is determined as the actual return on Market Value during the period less the expected return on Market Value based on an assumed earnings rate chosen by the actuary but required by PPA to be not greater than the applicable third segment rate. The resulting value is constrained to be within a corridor of 90% to 110% of Market Value, including discounted receivable contributions. The asset gain/(loss) history of the pre-merged plans was consolidated into the post-merged ITT Consolidated Hourly Pension Plan. The valuation dates for the Wolverine Hourly Pension Plan and Wolverine Salaried Pension Plan began on December 1st. As such, the gains/(losses) of the post-merged ITT Consolidated Hourly Pension with a valuation date beginning January 1st were ratioed accordingly.

	Actuary's Assumption	Third Segment Rate	Reflecting PPA Limit
2017 Expected Return	7.00%	6.48%	6.48%
2016 Expected Return	7.20%	6.65%	6.65%
2015 Expected Return	8.00%	6.81%	6.81%

The expected rate of return is based on the plan's asset allocation and forward-looking expected rates of return by asset category provided by ITT Industries Holdings Inc. in coordination with their investment advisor.

Future actuarial measurements

Future actuarial measurements may differ significantly from current measurements due to plan experience differing from that anticipated by the economic and demographic assumptions, changes expected as part of the natural operation of the methodology used for these measurements, and changes in plan provisions, applicable law or regulations. An analysis of the potential range of such future differences is beyond the scope of this report.
