Participant Accounts

The Plan provides for the establishment and maintenance of accounts for each participant, which represent, in total, the participant's interest in the net assets of the Plan. The matching contribution account represents the participant's share of the Company contribution (including any discretionary contributions). The elective contribution account represents the participant's elective contributions to the Plan.

Contributions

Each participant in the Plan may elect to contribute up to the maximum amount allowed, which will not cause the Plan to violate any of its provisions or any limits imposed by the Internal Revenue Code (IRC), as defined in the Plan. The Company matches 100% of the employee contributions up to 4% of base compensation. The Company may also make discretionary contributions to the Plan in addition to the matching contributions. The Company did not make discretionary contributions in 2017 or 2016.

Rollover Contributions

Distributions from another qualified plan may be transferred into the Plan. These funds are placed in a rollover contribution account.

Investment Options

Each participant directs the manner in which their contributions, as well as those of the Company, are to be allocated among the investment options available under the Plan.

Vesting

All Company contributions and related earnings are vested on a graduated schedule by which employees will be 20% vested after two years of service (10% per year) and 20% for each additional year of service. Participants are fully vested upon completion of six years of service. In the event an amendment is adopted which affects participant vesting, a participant with three or more years of service may elect to have their vested interest continue to be determined under the former vesting schedule rather than under the new vesting provisions of the amendment.

Forfeitures

At December 31, 2017 and 2016, forfeited non-vested accounts were approximately \$57,000 and \$20,000, respectively. These accounts are used to reduce future Company contributions and to pay plan expenses. No forfeitures were used to offset contributions or pay plan expenses in 2017. Forfeitures of approximately \$17,000 were used to offset contributions in 2016.

Notes Receivable from Participants

Participants have the ability to borrow from their accounts subject to limitations as defined in the Plan. Repayments of loans are to be made over a period not to exceed five years, except for loans taken for the purchase of a primary residence. The participants are charged interest on all outstanding loans at a rate of prime plus 1%, fixed at the inception of the loan. Interest rates on the loans outstanding were between 4.25% and 6.25% at December 31, 2017.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the plan document.

Benefit Payments

Upon termination, retirement, disability, a participant, or in the case of death, the participant's beneficiary, will receive the vested portion of the amounts credited to the participant's matching contribution account and 100% of the amounts credited to the participant's elective contribution account (1) by payment in a lump sum, (2) by payment in equal or substantially equal installments, or (3) by direct transfer to another qualified plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

2. SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements are prepared on the accrual basis of accounting.

Administrative Expenses

The Plan has paid administrative expenses charged by the custodian, and therefore this transaction qualifies as party-in-interest. The Company has paid all other administrative expenses of the Plan.

Investments

Gains and losses on sales of securities are based on the actual cost of securities. Dividend income is recorded on the ex-dividend date. Interest from other investments is recorded as earned.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

As described in Accounting Standards Codification (ASC) 962, *Defined Contribution Plans*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Best of America-Fixed Income Fund was deemed not to be fully benefit-responsive for fiscal years ended December 31, 2017 and 2016, respectively, as the contract restricted participant-directed exchanges.

Use of Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles (US GAAP) requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. INFORMATION CERTIFIED BY CUSTODIAN

The custodian has certified to the completeness and accuracy of the amounts reported as investments, notes receivable from participants, net investment loss and gain, and interest and dividends on the Plan's financial statements and the accompanying supplemental schedule of assets (held at end of year).

4. FAIR VALUE MEASUREMENTS

ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specific (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual Funds: Value is equal to the net asset values of the shares held by the Plan at year end.

Fixed Account: Value is equal to the book value plus or minus any market value adjustment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	<u>Level 1</u>	<u>Level 2</u>	<u>Level 3</u>	<u>Total</u>
December 31, 2017				
Mutual Funds	\$ 16,973,839	\$ -	\$ -	\$ 16,973,839

	<u>\$ 16,973,839</u>	<u>\$ -</u>	<u>\$ 4,978,693</u>	<u>\$ 21,952,532</u>
December 31, 2016

The table below sets forth a summary of changes in the fair value of the Plan's level 3 assets for the years ended December 31, 2017 and 2016:

Purchases	331,520

5. INCOME TAX STATUS

The Company adopted a Prototype Non-Standardized Profit Sharing Plan with a cash or deferral arrangement which received a favorable opinion letter from the Internal Revenue Service on March 31, 2014, which stated that the Plan and related trust are designed in accordance with applicable sections of the IRC. The Plan has been amended since receiving the letter. Plan management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2017 and 2016, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

6. SUBSEQUENT EVENTS

Plan management evaluated subsequent events through October 8, 2018, the date which the financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.
