1. DESCRIPTION OF PLAN:

The following description of the Columbus Radiology Corp 401(k) Profit Sharing Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan, which began December 23, 1969 and was restated January 1, 2016, was a defined contribution plan covering all employees, subject to certain exclusions, as defined, of Columbus Radiology Corp (the Employer). An eligible employee could participate in the Plan immediately upon hire. The Plan was subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Effective January 1, 2017, the Employer approved a Plan merger with Radiology Partners Inc. 401(k) Profit Sharing Plan, and eligible employees immediately began participating in the Radiology Partners Inc. 401(k) Profit Sharing Plan. All Plan assets were transferred to the Radiology Partners Inc. 401(k) Profit Sharing Plan as of December 31, 2017.

Contributions

Participants could contribute up to 100% of their annual eligible compensation to the Plan, as defined, subject to certain limitations of the Internal Revenue Code (IRC). The participants' elective deferrals were not taxed as compensation in the year of deferral. Participants could also make Roth elective contributions and rollover contributions representing distributions from other qualified defined benefit or contribution plans. Participants who reached age 50 could elect to make catch-up contributions.

The Employer did not elect to apply the safe harbor provisions of the IRC for the year ended December 31, 2017. The Employer elected to apply the safe harbor provisions of the IRC and made an Employer safe harbor nonelective contribution equal to 3% of eligible compensation for the year ended December 31, 2016. Participants must have been age 21 and had completed one year of service to have been eligible for the nonelective contribution. The Employer could also make an additional discretionary matching contribution. During the years ended December 31, 2017 and 2016, the Employer made no additional discretionary matching contribution.

The Employer could also make an additional discretionary profit sharing contribution to participants. For the year ended December 31, 2017, there was no Employer additional discretionary profit sharing contribution. For the year ended December 31, 2016, the Employer made an additional discretionary profit sharing contribution totaling \$2,407,523.

Participant accounts

Each participant's account was credited with the participant's contributions, Employer contributions, and allocations of Plan investment earnings and appreciation in value. Each participant's account was credited with allocations of Plan investment income, appreciation in value, and charged for administrative expenses. Allocations were based on participant earnings or account balances, as defined. The benefit to which a participant was entitled was the benefit that could be provided from the participant's vested account. The Plan's investments were participant-directed.

Vesting

Effective September 1, 2017, participants were 100% vested in all contribution types. Prior to September 1, 2017, participants were 100% vested in elective deferrals, rollover contributions and Employer safe harbor contributions made to the Plan and were 25% vested after two years, 50% vested after three years, 75% vested after four years and fully vested after five years of service in Employer discretionary contributions.

Payment of benefits

Upon termination of service, or termination due to death, disability or retirement, a participant or his or her beneficiary could receive a lump sum amount equal to the value of his or her account, or another payment option available under the Plan. Normal retirement age for an employee hired prior to October 1, 2016 was age 55; effective October 1, 2016, normal retirement age was age 65 for an employee hired on or after October 1, 2016.

Administrative expenses

Certain expenses incurred in the administration of the Plan were paid by the Employer and are excluded from these financial statements. Investment related fees are included in net appreciation in fair value of investments. Fees related to participant directed transactions were charged directly to the participant's account and are included in administrative expenses.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:**Basis of accounting**

The Plan's transactions are reported on the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Employer's 401(k) Profit Sharing Plan Committee determined the Plan's valuation policies utilizing information provided by the investment advisors and trustee. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on the trade date basis. Interest and dividend income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

The Plan evaluated events and transactions occurring subsequent to the date of the financial statements for matters requiring recognition or disclosure in the financial statements. The Plan has evaluated subsequent events through September 7, 2018, the date that the financial statements were available to be issued.

3. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE:

The following information included in the accompanying financial statements as of and for the years ended December 31, 2017 and 2016 was obtained from data that has been prepared and certified to as complete and accurate by Newport Trust Company (Newport), the trustee as defined by the Plan:

Investments
Net appreciation in fair value of investments
Interest and dividend income

4. FAIR VALUE MEASUREMENTS:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in the active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements).

The three levels of the fair value hierarchy are described below:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
 - Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability; and
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurements level within the fair value hierarchy was based on the lowest level of any input that was significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following are descriptions of the valuation methods used for assets measured at fair value. There have been no changes in methodologies used at December 31, 2016.

- *Mutual funds*: The fair value of these securities was based on the net asset value (NAV) of shares held by the Plan at year end which was based on observable market quotations for identical assets and were priced on a daily basis at the close of business.

- *Exchange traded funds*: The fair value of these securities was based on the NAV of shares held by the Plan at year end which was based on observable market quotations for identical assets and were priced on a daily basis at the close of business.
- *Common collective trust*: Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, was used as a practical expedient to estimate fair value. The NAV was based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient would not be used if it was determined to be probable that the fund would sell the investment for an amount different from the reported NAV. Participant transactions (purchases and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the issuer reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.
- *Cash and cash equivalents*: Valued at cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2016:

Assets at Fair Value as of December 31, 2016

Investments Measured Using the Net Asset Value per Share Practical Expedient

The following table summarizes investments measured at fair value based on NAV per share practical expedient as of December 31, 2016. There were no participant redemption restrictions for these investments; the redemption notice period was applicable only to the Plan.

5. FORFEITED ACCOUNTS:

There were no forfeited nonvested accounts as of December 31, 2017. Forfeited nonvested accounts were \$129,971 at December 31, 2016. During 2017, administrative expenses were reduced by forfeited nonvested accounts of \$19,902. During 2017 and 2016, Employer discretionary profit sharing contributions were reduced by forfeited nonvested accounts of \$131,135 and \$92,441, respectively.

6. TAX STATUS:

The Employer elected to adopt a volume submitter plan of the plan administrator. The Internal Revenue Service issued an opinion letter dated March 31, 2014 which stated the volume submitter plan was in compliance with the applicable requirements of the IRC. The prototype plan had been amended since receiving the opinion letter. However, the plan administrator believed that the Plan was currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, they believed that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

7. NONEXEMPT TRANSACTIONS:

During 2016, certain participant elective deferral contributions totaling \$223,015 were not remitted to the Plan on a timely basis within the Department of Labor guidelines. Those contributions constituted nonexempt prohibited transactions. The Employer took corrective actions for all the affected participants during 2017.

8. RECONCILIATION OF FINANCIAL STATEMENTS TO SCHEDULE H OF FORM 5500:

The following is a reconciliation of net assets available for benefits per the financial statements to total assets per Schedule H of Form 5500 as of December 31, 2017 and 2016:
