401(k) RETIREMENT PLAN

NOTES TO FINANCIAL STATEMENTS
For the Year Ended December 31, 2017

Note 1 - Description of Plan

The following description of the Florida Roads Contracting, Inc's (the Company) 401(k) Retirement Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General - The Plan, effective July 1, 1998 is a defined contribution plan covering all employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Each year, participants may contribute up to 20 percent of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover contributions). The Company may contribute a discretionary matching contribution of that which a participant contributes to the Plan. This contribution is to be allocated based on the ratio of each participant's elective deferral to the total elective deferral. Additional amounts may be contributed at the option of the Company's board of directors. All employer contributions are invested as directed by the participants. Contributions are subject to certain limitations established by ERISA and the Plan.

Qualified matching and non-elective contributions, as defined, are also permitted for non-highly compensated employees at the discretion of the sponsor.

Participant Accounts - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings and expenses. Allocations are based on account balances, as defined. The benefit, to which a participant is entitled, is the benefit that can be provided from the participant's vested account.

Vesting - Participants are immediately vested in their contributions plus actual earnings. Vesting in the Company's matching and discretionary contribution portion of the participants' accounts plus actual earnings thereon is based on years of continuous service. A participant is fully vested after six years of continuous service.

Investment Options - Upon enrollment in the Plan, a participant may direct employee contributions in many investment options. Each of these has specific charges and restrictions that apply when a participant removes money or transfers funds.

Participant Loans – Participants loans are not permitted.

NOTES TO FINANCIAL STATEMENTS
For the Year Ended December 31, 2017

Note 1 - Description of Plan (continued)

Payment of Benefits - Upon termination of service due to death, disability, or retirement a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over his or her life expectancy. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Expenses - The Plan's expenses are paid either by the Plan or the Company, as provided by the plan document. Expenses that are paid directly by the Company are excluded from these financial statements. Certain expenses incurred in connection with the general administration of the Plan that are paid by the Plan are recorded as deductions in the accompanying statement of changes in net assets available for benefits.

Forfeited Accounts – These accounts are used to reduce future employer contributions and plan expenses. There were no forfeited non vested accounts at December 31, 2017.

Funding Options - All assets are held in trust with the trustees being employees of the plan sponsor.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting - The financial statements of the plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition - The Plan's investments are stated at fair market value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Participant loans are valued at their outstanding balances, which approximate fair value. Shares of registered investment companies are valued at quoted market prices that represent the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits - Benefits are recorded when paid.

Operating Expenses - For plan year ended December 31, 2017, the employer paid all administrative expenses of the plan.

Estimates - The preparation of these financial statements, in conformity with generally accepted accounting principles, requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

NOTES TO FINANCIAL STATEMENTS
For the Year Ended December 31, 2017

Note 2 - Summary of Significant Accounting Policies (continued)

Cash and Cash Equivalents - For the purposes of these financial statements, the company considers cash and cash equivalents to include all liquid investments with an original maturity at investment of three months or less.

Subsequent Events – Subsequent events were evaluated through October 10, 2018, which is the date the financial statements were available.

Note 3 – Tax Status

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by tax authorities; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for years prior to 2014.

Note 4 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts. Any unallocated assets of the Plan shall be allocated to participant accounts and distributed in such manner as the Company may determine.

Note 5 - Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The method used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its instruments. When available, the Plan measures fair value using Level 1 input because they generally provide the most reliable evidence of fair value. No level 2 inputs were available to the Plan, and Level 3 inputs were only used when Level 1 or Level 2 inputs were not available.

Note 5 -Fair Value Measurements (continued)

Level 1 Fair Value Measurements – The fair value of mutual funds is based on quoted net asset values of the shares held by the Plan at year-end. The fair values of common stocks, corporate bonds and U.S. Government securities are based on the closing price reported on the active market where the individual securities are traded.

Level 3 Fair Value Measurements – The investment contract with an insurance company, guaranteed interest accounts are not actively traded and significant other observable inputs are not available. Thus, the fair value of the investment contract and guaranteed interest account are determined by discounting the related cash flows based on current yields of similar instruments with comparable durations considering credit worthiness of the issuer.

The fair value of the Plan at December 31, 2017 is as follows:

		Fair Value Measurements Using	
Plan Assets	Fair Market Value	Significant Observable Inputs (Level 1)	Significant Unobservable Inputs (Level 3)
Investment Contract	$ 6,687		$ 6,687
Pooled Separate Accounts	595,367	$ 595,367	
Total	$ 602,054	$ 595,367	$ 6,687

The following provides details of the Plan's Level 3 value measurements at December 31, 2017.

Note 9 - Related Party Transactions

There were no related party transactions during the plan years ended December 31, 2017.

Note 10 - Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term, and that such changes could materially affect participants' account balances and the amount reported on the comparative statement of net assets available for benefits.

NOTE 11 – Plan Amendment

The Internal Revenue Service (IRS) has determined and informed the Company by a letter dated March 31, 2014, that the Plan is designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC and therefore believe that the Plan is qualified and is tax-exempt.
