The Plan is a type of qualified retirement plan commonly referred to as a 401(k) plan and covers all employees of the Company who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan allows other commonly owned employers to adopt its provisions. Ohio MC Riders, LLC, Erie Riders, LLC, Lakeview Motorsports, LLC and TDG Management Company, all of whom are related to the Company through common ownership, have adopted the Plan.

Contributions - Each year participants may contribute up to 100% of their pre-tax or post-tax (Roth) annual compensation, subject to the maximum amount allowed by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company has elected to match 100% of the participants' voluntary contributions for the first 3% of compensation and 50% of the participants' voluntary contributions for the next 2% of compensation, which resulted in matching contributions of $155,922 for the year ended December 31, 2017. Each year, the Company may make discretionary non-elective contributions to each participant. The Company shall provide the Plan administrator with written notification of the amount of the contribution to be allocated to each participant. Discretionary non-elective contributions amounted to $104,643 for the year ended December 31, 2017. Approximately $51,700 of employer contributions were funded in 2018 by forfeitures available at December 31, 2017.

With the consent of the Plan administrator, the Plan may accept participant rollover contributions from other qualified retirement plans.

Participant Accounts - Each participant's account is credited with the participant's contributions including elective deferrals and rollover contributions and an allocation of the Company's contributions and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All investments of the Plan are fully participant-directed.

Forfeited Accounts - Forfeitures which occur pursuant to the Plan may be used to pay any administrative expenses of the Plan, then to reduce profit sharing contributions, then to reduce company matching contributions. As of December 31, 2017 and 2016, there were available forfeitures of approximately $51,900 and $44,000, respectively. During the year ended December 31, 2017, approximately $52,400 were transferred into the forfeiture account and approximately $44,300 of forfeitures were used to reduce company contributions.

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF THE PLAN (CONTINUED):

Payment of Benefits - Upon termination of employment due to death, disability or retirement, a participant having a balance of more than $5,000 may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. A participant having a vested account balance less than $5,000 will receive a lump-sum distribution regardless of whether they consent to receive it.

Non-terminated employees may make withdrawals of a minimum of $1,000 up to 100% of their vested account balances as a hardship withdrawal prior to reaching normal retirement age. Hardship withdrawals are subject to additional rules and conditions as outlined in the Plan agreement.

Non-terminated employees who have reached age 59 ½ may make withdrawals of a minimum of $1,000 up to 100% of their vested account balances as an in-service distribution.

Vesting - A participant is fully vested immediately in elective wage deferrals and in amounts rolled over from other qualified plans. Vesting attributable to employer matching and profit sharing contributions is as follows:

Years of Service	Vesting %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting - The Plan's financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold, as well as held, during the year.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain investment management and other fees are paid directly by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Subsequent Events - The Company has evaluated subsequent events through October 8, 2018, which is the date the financial statements were available to be issued.

C. INFORMATION PROVIDED BY THE CUSTODIANS:

Information including investments held as shown on the statement of net assets available for benefits, and interest and dividend income and net appreciation in fair value as shown on the statement of changes in net assets available for benefits as of December 31, 2017 and 2016 and for the year ended December 31, 2017, was prepared by or derived from information provided by the Nationwide Financial Services, Inc. and Nationwide Life Insurance Company, the custodians, and furnished to the plan administrator. The plan administrator obtained certifications of this information from the custodians that the information provided to the plan administrator was complete and accurate.

D. FAIR VALUE MEASUREMENTS:

The authoritative accounting guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the authoritative accounting guidance are described as follows:

Level 1 - Fair values are based on quoted prices (unadjusted) in active markets for identical assets that the plan has the ability to access at the measurement date.

Level 2 - Fair values are based on inputs other than quoted price included within level 1 that are observable for valuing the asset or liability, either directly or indirectly. Observable inputs include quoted price for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

Level 3 - Fair values are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the plans own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances.

D. FAIR VALUE MEASUREMENTS (CONTINUED):

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are valued at the daily closing prices as reported by the fund and adjusted upon conversion into units to be allocated to participant accounts, as determined by the custodians.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

All assets measured at fair value as of December 31, 2017 and 2016 were mutual funds that were level 2 assets within the fair value hierarchy.

E. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT:

The Plan offers the Nationwide Fixed Select Option, which is a group fixed annuity contract issued by Nationwide Life Insurance Company as custodian. The Nationwide Fixed Select Option is a traditional investment contract guaranteed by Nationwide Life Insurance Company that guarantees a rate of interest that will be credited to participant accounts. This contract meets the fully benefit-responsive investment contract criteria and is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Due to the nature of the contract, there are no specific underlying assets assigned. As a result, the average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract. Under the terms of the existing contract, the crediting rate is reset on a quarterly basis. The crediting interest rate is net of administrative fees.

The contract is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of the issuer and not on the value of the securities within the insurer's general account. Key factors that could influence future crediting interest rates are changes in interest rates, and default or credit failures of the securities in the insurer's general assets. Past interest rates are not indicative of future interest rates.

The Fixed Select Option contract does not have a maturity date. The provisions do not provide for a distribution at book value at some specified future date. A contract holder can request a lump sum distribution with a market value adjustment, or an installment payout, at book value, over a period of years. The Fixed Select Option contract continues in force until all assets have been distributed, or no further payments are due. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the plan participants are probable of occurring.

F. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

G. INCOME TAX STATUS:

The Plan has adopted a volume submitter profit sharing plan document. The volume submitter practitioner obtained a determination letter dated March 31, 2014, in which the Internal Revenue Service stated that the volume submitter profit sharing plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter, however the plan administrator believes that the Plan is designed and currently operating in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. TRANSACTIONS WITH PARTIES-IN-INTEREST:

Nationwide Financial Services, Inc. and Nationwide Life Insurance Company are the custodians of the Plan and hold all of the Plan's investments. Nationwide Financial Services, Inc. and Nationwide Life Insurance Company are parties-in-interest of the Plan as defined by ERISA Section 3(14), and accordingly investment transactions in the funds are parties-in-interest transactions. Certain legal and accounting fees and certain administrative expenses relating to the maintenance of participant eligibility records are absorbed by the Company.

I. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

A. DESCRIPTION OF THE PLAN:

The following description of the Ohio Motorcycle Group 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement and summary plan description for a more complete description of the Plan's provisions.

General - H & M Acquisitions, LLC (the "Company" and "Plan Sponsor") established the Ohio Motorcycle Group 401(k) Profit Sharing Plan and Trust effective January 1, 2014. The Plan is a type of qualified retirement plan commonly referred to as a 401(k) plan and covers all employees of the Company who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan allows other commonly owned employers to adopt its provisions. Ohio MC Riders, LLC, Erie Riders, LLC, Lakeview Motorsports, LLC and TDG Management Company, all of whom are related to the Company through common ownership, have adopted the Plan.

Contributions - Each year participants may contribute up to 100% of their pre-tax or post-tax (Roth) annual compensation, subject to the maximum amount allowed by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company has elected to match 100% of the participants' voluntary contributions for the first 3% of compensation and 50% of the participants' voluntary contributions for the next 2% of compensation, which resulted in matching contributions of $155,922 for the year ended December 31, 2017. Each year, the Company may make discretionary non-elective contributions to each participant. The Company shall provide the Plan administrator with written notification of the amount of the contribution to be allocated to each participant. Discretionary non-elective contributions amounted to $104,643 for the year ended December 31, 2017. Approximately $51,700 of employer contributions were funded in 2018 by forfeitures available at December 31, 2017.

With the consent of the Plan administrator, the Plan may accept participant rollover contributions from other qualified retirement plans.

Participant Accounts - Each participant's account is credited with the participant's contributions including elective deferrals and rollover contributions and an allocation of the Company's contributions and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All investments of the Plan are fully participant-directed.

Forfeited Accounts - Forfeitures which occur pursuant to the Plan may be used to pay any administrative expenses of the Plan, then to reduce profit sharing contributions, then to reduce company matching contributions. As of December 31, 2017 and 2016, there were available forfeitures of approximately $51,900 and $44,000, respectively. During the year ended December 31, 2017, approximately $52,400 were transferred into the forfeiture account and approximately $44,300 of forfeitures were used to reduce company contributions.

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF THE PLAN (CONTINUED):

Payment of Benefits - Upon termination of employment due to death, disability or retirement, a participant having a balance of more than $5,000 may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. A participant having a vested account balance less than $5,000 will receive a lump-sum distribution regardless of whether they consent to receive it.

Non-terminated employees may make withdrawals of a minimum of $1,000 up to 100% of their vested account balances as a hardship withdrawal prior to reaching normal retirement age. Hardship withdrawals are subject to additional rules and conditions as outlined in the Plan agreement.

Non-terminated employees who have reached age 59 ½ may make withdrawals of a minimum of $1,000 up to 100% of their vested account balances as an in-service distribution.

Vesting - A participant is fully vested immediately in elective wage deferrals and in amounts rolled over from other qualified plans. Vesting attributable to employer matching and profit sharing contributions is as follows:

Years of Service	Vesting %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting - The Plan's financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold, as well as held, during the year.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain investment management and other fees are paid directly by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Subsequent Events - The Company has evaluated subsequent events through October 8, 2018, which is the date the financial statements were available to be issued.

C. INFORMATION PROVIDED BY THE CUSTODIANS:

Information including investments held as shown on the statement of net assets available for benefits, and interest and dividend income and net appreciation in fair value as shown on the statement of changes in net assets available for benefits as of December 31, 2017 and 2016 and for the year ended December 31, 2017, was prepared by or derived from information provided by the Nationwide Financial Services, Inc. and Nationwide Life Insurance Company, the custodians, and furnished to the plan administrator. The plan administrator obtained certifications of this information from the custodians that the information provided to the plan administrator was complete and accurate.

D. FAIR VALUE MEASUREMENTS:

The authoritative accounting guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the authoritative accounting guidance are described as follows:

Level 1 - Fair values are based on quoted prices (unadjusted) in active markets for identical assets that the plan has the ability to access at the measurement date.

Level 2 - Fair values are based on inputs other than quoted price included within level 1 that are observable for valuing the asset or liability, either directly or indirectly. Observable inputs include quoted price for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

Level 3 - Fair values are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the plans own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances.

D. FAIR VALUE MEASUREMENTS (CONTINUED):

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are valued at the daily closing prices as reported by the fund and adjusted upon conversion into units to be allocated to participant accounts, as determined by the custodians.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

All assets measured at fair value as of December 31, 2017 and 2016 were mutual funds that were level 2 assets within the fair value hierarchy.

E. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT:

The Plan offers the Nationwide Fixed Select Option, which is a group fixed annuity contract issued by Nationwide Life Insurance Company as custodian. The Nationwide Fixed Select Option is a traditional investment contract guaranteed by Nationwide Life Insurance Company that guarantees a rate of interest that will be credited to participant accounts. This contract meets the fully benefit-responsive investment contract criteria and is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Due to the nature of the contract, there are no specific underlying assets assigned. As a result, the average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract. Under the terms of the existing contract, the crediting rate is reset on a quarterly basis. The crediting interest rate is net of administrative fees.

The contract is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of the issuer and not on the value of the securities within the insurer's general account. Key factors that could influence future crediting interest rates are changes in interest rates, and default or credit failures of the securities in the insurer's general assets. Past interest rates are not indicative of future interest rates.

The Fixed Select Option contract does not have a maturity date. The provisions do not provide for a distribution at book value at some specified future date. A contract holder can request a lump sum distribution with a market value adjustment, or an installment payout, at book value, over a period of years. The Fixed Select Option contract continues in force until all assets have been distributed, or no further payments are due. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the plan participants are probable of occurring.

F. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

G. INCOME TAX STATUS:

The Plan has adopted a volume submitter profit sharing plan document. The volume submitter practitioner obtained a determination letter dated March 31, 2014, in which the Internal Revenue Service stated that the volume submitter profit sharing plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter, however the plan administrator believes that the Plan is designed and currently operating in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. TRANSACTIONS WITH PARTIES-IN-INTEREST:

Nationwide Financial Services, Inc. and Nationwide Life Insurance Company are the custodians of the Plan and hold all of the Plan's investments. Nationwide Financial Services, Inc. and Nationwide Life Insurance Company are parties-in-interest of the Plan as defined by ERISA Section 3(14), and accordingly investment transactions in the funds are parties-in-interest transactions. Certain legal and accounting fees and certain administrative expenses relating to the maintenance of participant eligibility records are absorbed by the Company.

I. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

A. DESCRIPTION OF THE PLAN:

The following description of the Ohio Motorcycle Group 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement and summary plan description for a more complete description of the Plan's provisions.

General - H & M Acquisitions, LLC (the "Company" and "Plan Sponsor") established the Ohio Motorcycle Group 401(k) Profit Sharing Plan and Trust effective January 1, 2014. The Plan is a type of qualified retirement plan commonly referred to as a 401(k) plan and covers all employees of the Company who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan allows other commonly owned employers to adopt its provisions. Ohio MC Riders, LLC, Erie Riders, LLC, Lakeview Motorsports, LLC and TDG Management Company, all of whom are related to the Company through common ownership, have adopted the Plan.

Contributions - Each year participants may contribute up to 100% of their pre-tax or post-tax (Roth) annual compensation, subject to the maximum amount allowed by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company has elected to match 100% of the participants' voluntary contributions for the first 3% of compensation and 50% of the participants' voluntary contributions for the next 2% of compensation, which resulted in matching contributions of $155,922 for the year ended December 31, 2017. Each year, the Company may make discretionary non-elective contributions to each participant. The Company shall provide the Plan administrator with written notification of the amount of the contribution to be allocated to each participant. Discretionary non-elective contributions amounted to $104,643 for the year ended December 31, 2017. Approximately $51,700 of employer contributions were funded in 2018 by forfeitures available at December 31, 2017.

With the consent of the Plan administrator, the Plan may accept participant rollover contributions from other qualified retirement plans.

Participant Accounts - Each participant's account is credited with the participant's contributions including elective deferrals and rollover contributions and an allocation of the Company's contributions and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All investments of the Plan are fully participant-directed.

Forfeited Accounts - Forfeitures which occur pursuant to the Plan may be used to pay any administrative expenses of the Plan, then to reduce profit sharing contributions, then to reduce company matching contributions. As of December 31, 2017 and 2016, there were available forfeitures of approximately $51,900 and $44,000, respectively. During the year ended December 31, 2017, approximately $52,400 were transferred into the forfeiture account and approximately $44,300 of forfeitures were used to reduce company contributions.

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF THE PLAN (CONTINUED):

Payment of Benefits - Upon termination of employment due to death, disability or retirement, a participant having a balance of more than $5,000 may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. A participant having a vested account balance less than $5,000 will receive a lump-sum distribution regardless of whether they consent to receive it.

Non-terminated employees may make withdrawals of a minimum of $1,000 up to 100% of their vested account balances as a hardship withdrawal prior to reaching normal retirement age. Hardship withdrawals are subject to additional rules and conditions as outlined in the Plan agreement.

Non-terminated employees who have reached age 59 ½ may make withdrawals of a minimum of $1,000 up to 100% of their vested account balances as an in-service distribution.

Vesting - A participant is fully vested immediately in elective wage deferrals and in amounts rolled over from other qualified plans. Vesting attributable to employer matching and profit sharing contributions is as follows:

Years of Service	Vesting %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting - The Plan's financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold, as well as held, during the year.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain investment management and other fees are paid directly by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Subsequent Events - The Company has evaluated subsequent events through October 8, 2018, which is the date the financial statements were available to be issued.

C. INFORMATION PROVIDED BY THE CUSTODIANS:

Information including investments held as shown on the statement of net assets available for benefits, and interest and dividend income and net appreciation in fair value as shown on the statement of changes in net assets available for benefits as of December 31, 2017 and 2016 and for the year ended December 31, 2017, was prepared by or derived from information provided by the Nationwide Financial Services, Inc. and Nationwide Life Insurance Company, the custodians, and furnished to the plan administrator. The plan administrator obtained certifications of this information from the custodians that the information provided to the plan administrator was complete and accurate.

D. FAIR VALUE MEASUREMENTS:

The authoritative accounting guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the authoritative accounting guidance are described as follows:

Level 1 - Fair values are based on quoted prices (unadjusted) in active markets for identical assets that the plan has the ability to access at the measurement date.

Level 2 - Fair values are based on inputs other than quoted price included within level 1 that are observable for valuing the asset or liability, either directly or indirectly. Observable inputs include quoted price for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

Level 3 - Fair values are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the plans own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances.

D. FAIR VALUE MEASUREMENTS (CONTINUED):

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are valued at the daily closing prices as reported by the fund and adjusted upon conversion into units to be allocated to participant accounts, as determined by the custodians.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

All assets measured at fair value as of December 31, 2017 and 2016 were mutual funds that were level 2 assets within the fair value hierarchy.

E. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT:

The Plan offers the Nationwide Fixed Select Option, which is a group fixed annuity contract issued by Nationwide Life Insurance Company as custodian. The Nationwide Fixed Select Option is a traditional investment contract guaranteed by Nationwide Life Insurance Company that guarantees a rate of interest that will be credited to participant accounts. This contract meets the fully benefit-responsive investment contract criteria and is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Due to the nature of the contract, there are no specific underlying assets assigned. As a result, the average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract. Under the terms of the existing contract, the crediting rate is reset on a quarterly basis. The crediting interest rate is net of administrative fees.

The contract is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of the issuer and not on the value of the securities within the insurer's general account. Key factors that could influence future crediting interest rates are changes in interest rates, and default or credit failures of the securities in the insurer's general assets. Past interest rates are not indicative of future interest rates.

The Fixed Select Option contract does not have a maturity date. The provisions do not provide for a distribution at book value at some specified future date. A contract holder can request a lump sum distribution with a market value adjustment, or an installment payout, at book value, over a period of years. The Fixed Select Option contract continues in force until all assets have been distributed, or no further payments are due. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the plan participants are probable of occurring.

F. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

G. INCOME TAX STATUS:

The Plan has adopted a volume submitter profit sharing plan document. The volume submitter practitioner obtained a determination letter dated March 31, 2014, in which the Internal Revenue Service stated that the volume submitter profit sharing plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter, however the plan administrator believes that the Plan is designed and currently operating in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. TRANSACTIONS WITH PARTIES-IN-INTEREST:

Nationwide Financial Services, Inc. and Nationwide Life Insurance Company are the custodians of the Plan and hold all of the Plan's investments. Nationwide Financial Services, Inc. and Nationwide Life Insurance Company are parties-in-interest of the Plan as defined by ERISA Section 3(14), and accordingly investment transactions in the funds are parties-in-interest transactions. Certain legal and accounting fees and certain administrative expenses relating to the maintenance of participant eligibility records are absorbed by the Company.

I. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

A. DESCRIPTION OF THE PLAN:

The following description of the Ohio Motorcycle Group 401(k) Profit Sharing Plan and Trust (the "Plan") provides only general information. Participants should refer to the Plan agreement and summary plan description for a more complete description of the Plan's provisions.

General - H & M Acquisitions, LLC (the "Company" and "Plan Sponsor") established the Ohio Motorcycle Group 401(k) Profit Sharing Plan and Trust effective January 1, 2014. The Plan is a type of qualified retirement plan commonly referred to as a 401(k) plan and covers all employees of the Company who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan allows other commonly owned employers to adopt its provisions. Ohio MC Riders, LLC, Erie Riders, LLC, Lakeview Motorsports, LLC and TDG Management Company, all of whom are related to the Company through common ownership, have adopted the Plan.

Contributions - Each year participants may contribute up to 100% of their pre-tax or post-tax (Roth) annual compensation, subject to the maximum amount allowed by the Internal Revenue Code. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. The Company has elected to match 100% of the participants' voluntary contributions for the first 3% of compensation and 50% of the participants' voluntary contributions for the next 2% of compensation, which resulted in matching contributions of $155,922 for the year ended December 31, 2017. Each year, the Company may make discretionary non-elective contributions to each participant. The Company shall provide the Plan administrator with written notification of the amount of the contribution to be allocated to each participant. Discretionary non-elective contributions amounted to $104,643 for the year ended December 31, 2017. Approximately $51,700 of employer contributions were funded in 2018 by forfeitures available at December 31, 2017.

With the consent of the Plan administrator, the Plan may accept participant rollover contributions from other qualified retirement plans.

Participant Accounts - Each participant's account is credited with the participant's contributions including elective deferrals and rollover contributions and an allocation of the Company's contributions and Plan earnings. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All investments of the Plan are fully participant-directed.

Forfeited Accounts - Forfeitures which occur pursuant to the Plan may be used to pay any administrative expenses of the Plan, then to reduce profit sharing contributions, then to reduce company matching contributions. As of December 31, 2017 and 2016, there were available forfeitures of approximately $51,900 and $44,000, respectively. During the year ended December 31, 2017, approximately $52,400 were transferred into the forfeiture account and approximately $44,300 of forfeitures were used to reduce company contributions.

NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF THE PLAN (CONTINUED):

Payment of Benefits - Upon termination of employment due to death, disability or retirement, a participant having a balance of more than $5,000 may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. A participant having a vested account balance less than $5,000 will receive a lump-sum distribution regardless of whether they consent to receive it.

Non-terminated employees may make withdrawals of a minimum of $1,000 up to 100% of their vested account balances as a hardship withdrawal prior to reaching normal retirement age. Hardship withdrawals are subject to additional rules and conditions as outlined in the Plan agreement.

Non-terminated employees who have reached age 59 ½ may make withdrawals of a minimum of $1,000 up to 100% of their vested account balances as an in-service distribution.

Vesting - A participant is fully vested immediately in elective wage deferrals and in amounts rolled over from other qualified plans. Vesting attributable to employer matching and profit sharing contributions is as follows:

Years of Service	Vesting %
Less than 2	0%
2	20%
3	40%
4	60%
5	80%

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES:

Basis of Accounting - The Plan's financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition – Investments held by a defined contribution plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Trustees determine the Plan's valuation policies utilizing information provided by the investment advisers, custodians, and insurance company.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold, as well as held, during the year.

B. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED):

Payment of Benefits - Benefits are recorded when paid.

Administrative Expenses - Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Certain investment management and other fees are paid directly by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Subsequent Events - The Company has evaluated subsequent events through October 8, 2018, which is the date the financial statements were available to be issued.

C. INFORMATION PROVIDED BY THE CUSTODIANS:

Information including investments held as shown on the statement of net assets available for benefits, and interest and dividend income and net appreciation in fair value as shown on the statement of changes in net assets available for benefits as of December 31, 2017 and 2016 and for the year ended December 31, 2017, was prepared by or derived from information provided by the Nationwide Financial Services, Inc. and Nationwide Life Insurance Company, the custodians, and furnished to the plan administrator. The plan administrator obtained certifications of this information from the custodians that the information provided to the plan administrator was complete and accurate.

D. FAIR VALUE MEASUREMENTS:

The authoritative accounting guidance establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the authoritative accounting guidance are described as follows:

Level 1 - Fair values are based on quoted prices (unadjusted) in active markets for identical assets that the plan has the ability to access at the measurement date.

Level 2 - Fair values are based on inputs other than quoted price included within level 1 that are observable for valuing the asset or liability, either directly or indirectly. Observable inputs include quoted price for similar assets or liabilities in active or non-active markets. Level 2 inputs may also include insignificant adjustments to market observable inputs.

Level 3 - Fair values are based on unobservable inputs used for valuing the asset or liability. Unobservable inputs are those that reflect the plans own assumptions about the assumptions that market participants would use in pricing the asset, based on the best information available in the circumstances.

D. FAIR VALUE MEASUREMENTS (CONTINUED):

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds: Mutual funds held by the Plan are open-end mutual funds that are registered with the U.S. Securities and Exchange Commission. These funds are required to publish their daily net asset value ("NAV") and to transact at that price. The mutual funds held by the Plan are valued at the daily closing prices as reported by the fund and adjusted upon conversion into units to be allocated to participant accounts, as determined by the custodians.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation method is appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

All assets measured at fair value as of December 31, 2017 and 2016 were mutual funds that were level 2 assets within the fair value hierarchy.

E. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT:

The Plan offers the Nationwide Fixed Select Option, which is a group fixed annuity contract issued by Nationwide Life Insurance Company as custodian. The Nationwide Fixed Select Option is a traditional investment contract guaranteed by Nationwide Life Insurance Company that guarantees a rate of interest that will be credited to participant accounts. This contract meets the fully benefit-responsive investment contract criteria and is reported at contract value. Contract value is the relevant measure for fully benefit-responsive investment contracts because this is the amount received by participants if they were to initiate permitted transactions under the terms of the Plan. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Due to the nature of the contract, there are no specific underlying assets assigned. As a result, the average yield earned by the Plan is the yield earned (i.e. interest credited) on the group annuity contract. Under the terms of the existing contract, the crediting rate is reset on a quarterly basis. The crediting interest rate is net of administrative fees.

The contract is backed by the full faith and creditworthiness of the issuer. Guarantees are based on the claims-paying ability of the issuer and not on the value of the securities within the insurer's general account. Key factors that could influence future crediting interest rates are changes in interest rates, and default or credit failures of the securities in the insurer's general assets. Past interest rates are not indicative of future interest rates.

The Fixed Select Option contract does not have a maturity date. The provisions do not provide for a distribution at book value at some specified future date. A contract holder can request a lump sum distribution with a market value adjustment, or an installment payout, at book value, over a period of years. The Fixed Select Option contract continues in force until all assets have been distributed, or no further payments are due. The plan administrator does not believe that any events that would limit the Plan's ability to transact at contract value with the plan participants are probable of occurring.

F. PLAN TERMINATION:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

G. INCOME TAX STATUS:

The Plan has adopted a volume submitter profit sharing plan document. The volume submitter practitioner obtained a determination letter dated March 31, 2014, in which the Internal Revenue Service stated that the volume submitter profit sharing plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter, however the plan administrator believes that the Plan is designed and currently operating in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the plan and recognize a tax liability if the plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

H. TRANSACTIONS WITH PARTIES-IN-INTEREST:

Nationwide Financial Services, Inc. and Nationwide Life Insurance Company are the custodians of the Plan and hold all of the Plan's investments. Nationwide Financial Services, Inc. and Nationwide Life Insurance Company are parties-in-interest of the Plan as defined by ERISA Section 3(14), and accordingly investment transactions in the funds are parties-in-interest transactions. Certain legal and accounting fees and certain administrative expenses relating to the maintenance of participant eligibility records are absorbed by the Company.

I. RISKS AND UNCERTAINTIES:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.
