NOTES TO FINANCIAL STATEMENTS
As of December 31, 2017 and 2016 and for the Year Ended December 31, 2017

1. Description of Plan

The following description of the Orora Visual Communications Retirement Savings Plan (formerly the IntegraColor, Ltd. Retirement Savings Plan) (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution 401(k) plan available to qualifying employees of IntegraColor, LLC. (the "Company" or "Plan Sponsor). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). In conjunction with the transfer of assets of the Graphic Tech 401(k) Plan and the Garvey Companies' Savings and Retirement Plan, the Plan was amended and restated effective April 1, 2017 to update certain provisions of the Plan. Refer to Note 11 for details on the plan mergers during the year.

Eligibility

An employee is eligible to contribute to the Plan on the first day of the Plan quarter coinciding when the employee has completed three months of service within a 12 month period and attained the age of 18. Employees covered by a collective bargaining agreement that does not provide for Plan participation are not eligible to participate in the Plan.

Effective April 1, 2017, the Plan was amended and restated to allow for immediate participation of employees certain employers, provided such employees completed the age and service requirement as of a specific day. Years of service with those employers was credited to the employees for purposes of eligibility, vesting, and immediate participation:

- Employees of Orora Clifton, LLC, Register Lithographic, Regency Display and Graphic Tech entered the Plan on March 1, 2017.
- Employees of Ed Garvey and Company entered the plan April 1, 2017.

Contributions

Participant Contributions

Employees may elect to defer up to 92% of their annual pre-tax compensation to the Plan, subject to Internal Revenue Service ("IRS") limitations. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified plans.

Employer Matching Contributions

The Company, at the discretion of its board of directors, may elect to make matching contributions. The allocation of Company matching contributions is based on the proportion an individual participant's elective deferral contributions bear to the total elective deferral contributions of all participants employed by the Company for the plan year. Prior to April 1, 2017, employees were required to complete three months of service to be eligible to receive employer matching contributions. Effective April 1, 2017, the service requirement was increased to six months. No such contributions were made for the year ended December 31, 2017.

1. Description of Plan (continued)

Employer Matching Contributions for Union Employees
In conjunction with certain business acquisitions during the year, the Company assumed a collective bargaining agreement with a local union in Carson, California (refer to Note 11). The CBA requires the Company to make matching contributions to members of union whom are employees of the Company equal to 100% of the respective elective pre-tax contributions made by the union employee who participates in the Plan, limited to 2.5% of such employee's wages during the year. During the year ended December 31, 2017, the Company made a matching contribution to these union employees equal to $48,417, which is included in the Statement of Changes in Assets Available for Benefit.

Employer Profit Sharing Contributions
The Company, at the discretion of its board of directors, may also make discretionary profit sharing contributions to the Plan. The allocation of discretionary profit sharing contributions is based on the proportion an individual participant's compensation bears to the compensation of all eligible participants employed by the Company for the plan year. Prior to April 1, 2017, employees were required to complete three months of service to be eligible to receive employer profit sharing contributions. Effective April 1, 2017, the service requirement was increased to six months, defined as 1,000 hours of service. Additionally, employees must be employed on the last day of the Plan year to be eligible to receive employer profit sharing contributions. No such contributions were made for the year ended December 31, 2017.

Participant Accounts
Each participant's account is credited with the participant's contributions and the participant's allocation of any Company contributions. Earnings and losses are credited to each participant account based on the performance of the underlying investments. Contributions and earnings are allocated among investment options, which include a guaranteed investment contract and various pooled separate accounts, as selected by the participant.

Vesting
Participants are always fully vested in their deferral contributions and any earnings thereon. Participants vest in employer contributions over five years at a rate of 20% each year, beginning in year two. Participants also become fully vested upon termination of employment because of death, disability, or attainment of age 65, the Plan's normal retirement age. Forfeited balances of terminated participants' nonvested accounts are used first to pay administrative expenses incurred by the Plan. Any remaining forfeitures are then used to reduce employer contributions or pay Plan expenses.

Notes Receivable from Participants
Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum amount equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at a rate of Prime plus 1% at the time of inception. The loans are repaid ratably through payroll deductions over a period of five years or less, unless such loan is for the purchase of a participant's primary residence. Participants may not have more than one loan outstanding at a time.

1. Description of Plan (continued)

Payment of Benefits
Upon termination of service due to death, disability, retirement or termination of employment, a participant may elect to receive a lump-sum distribution, installment payments or a direct rollover distribution. A participant may withdraw part of the vested interest in his or her account upon attainment of age 59 ½, subject to Plan provisions.

Forfeited Accounts
As of December 31, 2017 and 2016, the amounts of unallocated forfeitures available for future use were $9,240 and $3,142, respectively. Participant forfeitures during the year ended December 31, 2017 totaled $2,812 and $0 in forfeited amounts were utilized to reduce Plan expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting
The accompanying financial statements have been prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America ("U.S. GAAP").

Use of Estimates
The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Accordingly, actual results could differ from those estimates.

Investment Valuation and Income Recognition
Investments held by the Plan are required to be reported at fair value, except for fully benefit-responsive investment contracts. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Contract value is the relevant measure for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants normally would receive if they were to initiate permitted transactions under the terms of the Plan. Refer to Note 4 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the plan's gains and losses on investments bought and sold, as well as held during the year.

Payment of Benefits
Benefits are recorded when paid.

2. Summary of Significant Accounting Policies (continued)

Notes Receivable from Participants
Notes receivable from participants are measured at their unpaid principal balance plus an accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded directly to participant's accounts and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 or 2016. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Expenses
Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in appreciation or depreciation of fair value of investments.

Excess Contributions Payable
The Plan failed a discrimination test for the year ended December 31, 2017. Excess contributions amounting to $8,786 are recorded as a liability in the accompanying statement of net assets available for benefits and as a reduction of employee contributions on the statement of changes in net assets available for benefits. The Plan distributed these excess contributions to the applicable participants prior to the end of the time period allowable by law.

Subsequent Events
Subsequent events have been evaluated through the date of the report of independent auditors, which is the date these financial statements were available to be issued. Other than the matter in Note 12, there were no material subsequent events that required recognition or additional disclosure in these financial statements.

3. Information Certified by the Plan's Custodian (unaudited)

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. As permitted under such election, the custodian instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by Voya Retirement Insurance and Annuity Company, the custodian of the Plan, as complete and accurate, except for comparing such information certified by the custodian with information included in the Plan's financial statements and supplemental schedule:

As of December 31,	**2017**	2016
Pooled separate accounts, at fair value	**$ 29,821,464**	$ 10,668,249
Guaranteed investment contract, at contract value	**1,982,677**	1,985,973
Notes receivable from participants	**751,084**	437,103

3. Information Certified by the Plan's Custodian (unaudited)

For the year ended December 31,		**2017**
Net appreciation in fair value of investments	$	**3,254,135**
Interest and dividend income		**63,392**
Interest income on notes receivable from participants		**30,751**

4. Fair Value Measurements

Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. The fair value hierarchy prioritizes the inputs used to measure fair value, giving the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB accounting guidance are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

4. Fair Value Measurements (continued)

Pooled separate accounts: Valued at the net asset value (or unit value) of the units held by the Plan at year-end based on information reported by the custodian. The NAV of each of the separate accounts is calculated in a manner consistent with the U.S. GAAP for investment companies and is determinative of their fair value and represent the price at which the Plan would be able to initiate a transaction. Several of the separate accounts invest in publicly quoted mutual funds or actively managed stocks. Some of the separate accounts also invest in fixed income securities. The fair value of the underlying mutual funds or stocks and of the underlying securities, which is based on quoted prices of similar assets, is used to determine the NAV of the separate account which is not publicly traded. Investments in these funds can be redeemed daily upon request.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table summarizes investments for which fair value is measured using the net asset value per share practical expedient. There are no participant redemption restrictions or redemption notice periods for these investments.

As of December 31, 2017:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled Separate Accounts	$ 29,821,464	N/A	Daily	N/A

As of December 31, 2016:

Investment	Fair Value	Unfunded Commitments	Redemption Frequency (If Currently Eligible)	Redemption Notice Period
Pooled Separate Accounts	$ 10,668,249	N/A	Daily	N/A

5. Guaranteed Investment Contract

The Plan offers a guaranteed investment contract, the Voya Fixed Account, with Voya Retirement Insurance and Annuity Company. The custodian maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by the custodian. Contract value is equal to contributions received plus interest credited, less payments withdrawal or transfers. The interest rate credited on the unallocated annuity contract varies based on a formula determined by the Plan custodian, but will not be less than a guaranteed floor interest rate determined annually. Participants may ordinarily direct the withdrawal or transfer of all or portion of their investment at contract value. The custodian may not terminate the contract at any amount less than contract value. The following represents the disaggregation of contract value between types of investment contract held by the Plan. In a traditional investment contract, the Plan owns only the contract itself, not the underlying assets.

As of December 31,	**2017**	2016
Traditional investment contract	**$ 1,982,677**	$ 1,985,973
Total	**$ 1,982,677**	$ 1,985,973

Certain events limit the ability to the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan); (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions; (3) bankruptcy of the Plan sponsor or other Plan sponsor events that cause a significant withdrawal from the Plan; or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable.

Each calendar year, the Voya Retirement Insurance and Annuity Company limits the sum of partial surrenders plus transfers, from the Voya Fixed Account, to 20% of that portion of the current value of the unallocated account held in the Voya Fixed Account as of January 1 of the calendar year. Partial surrender or transfer requests for amounts invested in the Voya Fixed Account that exceed the Voya Fixed Account surrender and transfer limit will not be honored by Voya. Voya may, on a temporary basis, allow any larger percentage as a Voya Fixed Account surrender and transfer limit.

6. Related Party and Party-in-Interest Transactions

The Plan invests in a group annuity contract and pooled separate accounts issued by Voya Retirement Insurance and Annuity Company. Voya is the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Fees incurred by the Plan for the investment management services are included in net appreciation or depreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA. In the event of plan termination, participants' accounts will become fully vested and non-forfeitable.

8. Tax Status

The Plan uses a volume submitter profit sharing plan document ("VSP") sponsored by Continental Benefits Group, Inc. ("CBGI"). Continental Benefits Group, Inc. ("CGBI") received an opinion letter from the Internal Revenue Service (IRS) dated September 30, 2014, which states that the VSP document satisfies the applicable provisions of the Internal Revenue Code ("IRC"). The Plan itself has not received a determination letter from the IRS; however, the Plan's management believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRS. Therefore, no provision for income tax has been included in the Plan's financial statements.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits taken by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2014.

9. Risks and Uncertainties

The Plan offers a variety of investment options to participants. These investment options are exposed to various risks, such as interest rate, credit, and overall volatility risk. Due to the level of risk associated with certain investments, and the level of uncertainty related to changes in the value of investment securities, it is at least reasonably possible that changes in the values of investments in the near term could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

11. Asset Transfer

During the year ended December 31, 2017, assets previously held in the Graphic Tech 401(k) Plan and the Garvey Companies' Savings and Retirement Plan were transferred into the Plan as a result of the Company's acquisition of those plans' sponsors. Refer below for a summary of relevant items related to the transfer:

Graphic Tech 401(k) Plan	**May 18, 2017**	$	4,587,665
Garvey Companies' Savings and Retirement Plan	**May 25, 2017**		12,175,831
		$	16,763,496

12. Subsequent Events

Subsequent to year end, the Plan was amended and restated to update the Plan entry date. Effective August 1, 2018 employee may enroll in the Plan on the first day of the month following when eligibility requirements are met. Prior to this amendment, Plan entry dates were on the first day of each calendar quarter following when eligibility requirements were met.
