Report on the Financial Statements

We have audited the accompanying financial statement of The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan, which comprise the statement of net assets available for benefits as of December 31, 2017, and the related statement of changes in net assets available for benefits for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2017, and the changes in net assets available for benefits of the Plan as of December 31, 2017, in accordance with accounting principles generally accepted in the United States of America.

Other Matter – 2016 Financial Statements

The financial statements of The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan as of December 31, 2016 were audited by another auditor who expressed an unmodified opinion on those statements on September 8, 2017.

Report on Supplementary Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of Schedule of Assets Held for Investment Purposes at End of Year is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

NOTES TO FINANCIAL STATEMENTS

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan

1 Description of Plan

The following description of The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan (the “Plan”) provides only general information. Participants should refer to the Plan document for a complete description of the Plan's provisions.

General:

The Great Lakes Construction Co. (the “Company”) established The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan on September 15, 1980.

The plan was amended January 1, 2016 to remove the 1,000 hour eligibility requirement and employees are now eligible upon hire date. The Plan operates as an employee stock ownership plan (ESOP) and is designed to comply with Section 4975(e)(7) and the regulations thereunder of the Internal Revenue Code of 1986, as amended (Code) and is subject to the applicable provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan is administered by the ESOP Committee comprised of five or more persons, including at least three non-management members of the Board of Directors of the Company and two Company management members, one of which is the Chief Executive Officer. ESOP committee members serve one-year terms.

Eligibility:

All employees of the Company, with the exception of college interns, are eligible to participate in the Plan. Employees whose employment is governed by a collective bargaining agreement and independent contractors are excluded from participation in the Plan. Participants who are not employed on the last day of the Plan year are generally not eligible for an allocation of Company contributions for such year.

Contributions:

Each year, the Company may make discretionary contributions to the Plan solely at the discretion of the Company's Board of Directors. Contributions are subject to limitations on annual additions and other limitations imposed by the Internal Revenue Code as defined in the Plan agreement.

Participants' Account:

Each participant's account is credited with an allocation of the Company's discretionary contribution and Plan earnings and losses thereon. Contributions to the Plan are allocated to each eligible participant based upon the participant's eligible compensation for the Plan year, as defined by the Plan. Plan earnings or losses are allocated annually based on each participant's account balance.

Diversifications:

Any participant or former participant who has attained the age of 55 with at least 10 years of service/participation may diversify a portion of the assets in their account. Diversification is offered to each eligible participant over a six-year period. In each of the first five years, a participant may diversify up to 25% of the Company stock allocated to their account, less any shares previously diversified. In the sixth year, the percentage increases to 50%. The election to diversify is made subsequent to year-end based upon the shares of Company stock in the participant's account at year-end.

NOTES TO FINANCIAL STATEMENTS

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan

1 Description of Plan, Continued

Vesting:

Vesting in the participant's account balance is based on years of service. A participant is vested as follows:

Years of Service	Vested %
Less than One Year	0%
One Year but less than Two Years	20%
Two Year but less than Three Years	40%
Three Year but less than Four Years	60%
Four Year but less than Five Years	80%
Five or More Years	100%

Forfeitures:

The non-vested portion of a terminated participant's account under the Plan shall constitute a forfeiture. Forfeitures are allocated to the accounts of active participants based on the same formula used to allocate Company contributions. During 2017 and 2016, approximately \$16,800 and \$45,700, respectively, were forfeited into the suspense account and redistributed to eligible participant accounts. The outstanding forfeiture balance was \$0 for both years.

Payment of Benefits:

Upon termination of service by reason of retirement, death or total and permanent disability, a participant may elect to receive a lump sum amount equal to the value of his or her account or annual installments over a future period not longer than the life of the participant or participant's beneficiary. Payment of benefits will be in the form of cash or Company stock, or both. A participant may designate that the entire payment be in the form of Company stock. If cash is required for distributions, the Company may make additional contributions or the Plan has the ability to obtain a loan collateralized by the Company stock.

If the participant's account balance is less than \$1,000, the Plan may make an automatic lump-sum distribution to the participant equal to the participant's vested interest in his or her account. The Plan requires the mandatory repurchase by the Company of terminated participants' holdings of the Company stock. The repurchase schedule is based on a participant's continuous years of service prior to termination. The repurchase period ranges from one lump-sum repurchase in the first year following separation to installment repurchases over a five-year period, as defined. The mandatory repurchase period begins on the last day of the Plan year following the Plan year in which a participant's termination occurs. Proceeds from the sale of Company stock for terminated participants that did not elect a distribution from the Plan are transferred into a Qualified Default Investment Account which is currently held in a mutual fund.

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan

1 Description of Plan, Continued

Parties-in-Interest:

The Great Lakes Companies, Inc. stock is held by the ESOP and is a party-in-interest to the Plan. In addition, the Plan has a number of service providers, these providers qualify as parties in interest under ERISA.

Put Option:

Under federal income tax regulations, Company stock that is held by a Plan and its participants and is not readily tradeable on an established market or subject to trading limitations, must include a put option. The put option provided by the Company allows participants and beneficiaries to require the Company to repurchase any shares distributed to them within a sixty-day period from the date of distribution at the most recent annual fair market value as reported by an independent third party appraiser. If the put option is not exercised within the initial sixty-day period it may be exercised within an additional sixty-day period in the following Plan year. If the put option is not exercised in either period, the mandatory repurchase of terminated participants' holdings of Company stock will occur over a one to five year period, as defined.

Voting Rights:

The trustee, a designated individual at the Plan Sponsor, votes on behalf of the Plan and is required to vote on behalf of the collective best interest of Plan participants and beneficiaries. Plan participants may vote directly on issues related to the merger, sale or liquidation of the Company.

2 Summary of Significant Accounting Policies

Basis of Accounting:

The Plan's transactions are reported on the accrual basis of accounting.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Company common stock is valued by an independent third party appraiser.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments purchased and sold as held during the year.

Use of Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan

2 Summary of Significant Accounting Policies, Continued

Administrative Fees:

Substantially all administrative fees are paid by the Company.

Benefit Payments:

Benefit payments are recorded when paid or stock is distributed.

Plan Termination:

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

Risks and Uncertainties:

The Plan's investment include investments in mutual funds and employer stock. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and such changes could materially affect the amounts reported in the statement of net assets available for plan benefits.

Subsequent Events:

Management evaluates subsequent events occurring subsequent to the date of the financial statements in determining and the accounting for and disclosure of transactions and events that affect the financial statements.

Subsequent events have been evaluated through October 8, 2018, which is the date the financial statements were available to be issued.

3 Tax Status

On September 17, 2013, the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue code. The Plan has been amended, however, the Plan Administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue code. Therefore, they believe that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken uncertain tax positions that more-likely-than-not would not be sustained upon examination by applicable taxing authorities. The Plan administrator has analyzed tax positions taken by the Plan and has concluded that, as of December 31, 2017, there are no uncertain tax positions taken, or expected to be taken, that would require recognition of a liability or that would require disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions. However, currently no audits for any tax periods are in progress.

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan

4 Investment in Company Stock

Plan investments are carried at fair market value and consist of voting common stock. The fair market value per share of the stock, as determined by an independent appraiser, was \$80.60 and \$71.35 at December 31, 2017 and 2016, respectively.

A summary of the Plan's investments is as follows:

	December 31 2017	December 31 2016
Number of Shares	621,595	675,956
Cost	\$ 8,280,396	\$ 8,127,238
Market Value	\$ 50,100,594	\$ 48,229,522

5 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. The three levels of the fair value hierarchy under Topic 820 are described as follows:

- * Level 1: Inputs to the valuation methodology are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan can access at the measurement date.
- * Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly, such as:
 - * Quoted prices for similar assets or liabilities in active markets
 - * Quoted prices for identical or similar assets or liabilities in inactive markets
 - * Inputs other than quoted prices that are observable for the asset or liability
 - * Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- * Level 3: Inputs that are unobservable inputs for the asset or liability.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

NOTES TO FINANCIAL STATEMENTS

The Great Lakes Construction Co. and Related Companies Employee Stock Ownership Plan

5 Fair Value Measurements, Continued

Mutual Funds:

The fair value of the mutual funds are based on quoted market prices. This investment is classified within Level 1 of the valuation hierarchy.

Common Stock:

The fair value of the Company common stock held by the plan is valued at fair value based upon an independent appraisal. These instruments are classified within Level 3 of the valuation hierarchy. This appraisal was based upon the market valuation method consistent with prior years. The appraiser took into account historical cash flow and net income, return on assets, return on equity, revenue multiples, EBIT multiples, EBITDA multiples, and public company comparables. Plan management has concluded that a market participant would also recognize a discount for lack of marketability. The valuation process involves plan management's selection of an independent appraiser. Plan management accumulates the data for the appraiser from the audited financial statements of the Company. The appraiser prepares a preliminary report which the ESOP Committee, along with the Board of Directors, reviews in detail, discusses and approves. The results of this process are documented in minutes of the Plan. The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016. Classification within the fair value hierarchy table is based on the lowest level of any input that is significant to the fair value measurement.
