Note 1 - Plan Description

The following description of the Glasforms, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Glasforms, Inc. (the "Company") who have completed 90 days of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Plan provides for employee 401(k) contributions up to the maximum tax-deferred limitations established by the Internal Revenue Code. The Plan provides an option for participants to make Roth contributions on an after-tax basis. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

In addition, the Plan provides for employer matching contributions to a participant's account. The Plan provides a matching contribution each payroll period equal to 100 percent of the first 3 and 50 percent of the next 3 percent of the participant's eligible deferred compensation.

The Company may also make discretionary profit-sharing contributions to the Plan for all participants. No discretionary profit-sharing contributions were made during 2017.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contributions and plan earnings. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting

Participant contributions and Company matching contributions are fully vested immediately, including any related income or loss thereon. Vesting in the Company's discretionary contribution portion of the participants' accounts, plus actual earnings thereon, is based on years of service. Participants vest in discretionary contributions made by the Company beginning at 20 percent after two years of service and an additional 20 percent per year thereafter until they became fully vested after six years of service.

Participant Notes Receivable

Participants may borrow from their accounts subject to certain maximum and minimum amounts, as prescribed in the Plan and in the Internal Revenue Code. Notes receivable are collateralized by the participant's account balance and bear interest at a market rate.

Benefit Payments

Distributions are payable upon the retirement, death, disability, or termination of employment in the form of a lump-sum amount or installment payments equal to the vested balance of the participant's account.

Forfeitures

If a participant is not fully vested on his or her termination date, the nonvested amount of the account is forfeited. Forfeitures are used to pay plan administrative expenses and reduce future company contributions. At December 31, 2017 and 2016, the forfeiture account in the Plan totaled $0 and $30,248, respectively.

Note 1 - Plan Description (Continued)

Party-in-interest Transactions

Certain plan assets are in investment funds managed by John Hancock Trust Company LLC (the "Custodian") or its affiliates. These transactions qualify as party-in-interest transactions, as defined under ERISA guidelines.

Administrative Expenses

The Plan has entered into agreements with certain service providers for the Plan to receive certain fee rebates, which are generally used to pay administrative expenses of the Plan. Participants are charged investment management fees, which are netted with the returns of the respective investment.

Note 2 - Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Benefit Payments

Benefit payments are recorded when paid.

Participant Notes Receivable

Participant notes receivable are recorded at their unpaid principal balances plus any accrued interest. Participant notes receivable are written off when deemed uncollectible.

Investment Valuation and Income Recognition

Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (an exit price). See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Subsequent Events

The financial statements and related disclosures include evaluation of events up through and including June 29, 2018, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

The Custodian held the Plan's investments and participant notes receivable and executed all related transactions. The income and losses on investments and participant notes receivable for the year ended December 31, 2017 and included in the accompanying financial statements are based solely on information certified by the Custodian. As a result of the merger described in Note 5, there were no investments or participant notes receivable held at December 31, 2017.

Note 4 - Fair Value Measurements

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e., an exit price). The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value. In accordance with Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, assets and liabilities measured at fair value are categorized into the following fair value hierarchy:

Level 1

Fair value is based on quoted prices in active markets that are accessible to the Plan at the measurement date for identical assets.

Level 2

Fair value is based on inputs other than quoted prices in active markets for identical assets that are observable, either directly or indirectly for substantially the full term of the asset. These Level 2 inputs include quoted prices for similar assets in active markets and other inputs, such as interest rate and yield curves, that are observable.

Level 3

Fair value is based on unobservable inputs for the assets. Level 3 inputs include the Plan management's own assumption about the assumptions that market participants would use in pricing the assets (including assumptions about risk).

The level in the fair value hierarchy within which the fair value measurement is classified is determined based on the lowest level input that is significant to the fair value measure in its entirety. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such assets pursuant to the valuation hierarchy.

The Plan's investments are stated at fair value. Mutual funds are valued based on quoted active market prices and are classified within Level 1 of the valuation hierarchy. The Plan held interests in a Stable Value Fund, which consists of an investment in the New York Life Insurance Company Anchor Account, which is not traded in an active market, and is valued at net asset value (NAV) per share of the fund.

Due to the plan merger as described in Note 5, there were no assets measured at fair value at December 31, 2017.

Note 4 - Fair Value Measurements (Continued)

The fair values of the Plan's investments at December 31, 2016, by asset category, are as follows:

	Total	Quoted Prices (Level 1)
Mutual funds	$ 5,236,025	$ 5,236,025
Investments measured at NAV - Pooled separate account - Stable Value Fund	347,086	
Total investments at fair value	$ 5,583,111	

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period. There were no significant transfers between levels of the fair value hierarchy during 2017 and 2016.

Investments in Entities that Calculate Net Asset Value per Share

Participants in the New York Life Insurance Company Anchor Account (the "Anchor Account") may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Withdrawals and transfers resulting from certain events, including employer-initiated events, may limit the ability of the fund to transact at contract value. These events may cause liquidation of all or a portion of a contract at market value. The plan administrator believes that the occurrence of any event, which would limit the Plan's ability to transact at contract value, is not probable. Furthermore, the Plan is required to provide a one-year redemption notice to liquidate its entire share in the fund. There were no unfunded commitments related to the Anchor Account.

Note 5 - Plan Merger

Effective December 31, 2017, the Plan merged with PolyOne Retirement Savings Plan, a defined contribution plan sponsored by PolyOne Corporation. Accordingly, all assets, participants, and their related account balances were accounted for in PolyOne Retirement Savings Plan on December 31, 2017.

Note 6 - Tax Status

The Plan obtained its latest determination letter on March 14, 2011, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code (IRC). The Plan has been amended since receiving the determination letter. The Company has applied for a new determination letter, and the plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements. The Plan is no longer subject to income tax examinations for years prior to 2014.
