Note 1 - Description of the Plan and Significant Accounting Policies

The following description of Fastaff 401(k) Plan (the "Plan") provides only general information. Participants and all others should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established November 1, 1999 and restated effective January 1, 2016. The Plan is available to all employees age 21 years or older who have completed three months of service. The entry date for eligible participants is the first day of the month coincident with or following 90 days after their date of hire following obtaining eligibility. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

The Board of Directors of U.S. Nursing Corporation (the "Company") administers the Plan. Colorado State Bank and Trust ("CSBT") serves as trustee, manages Plan assets, and maintains the Plan's records. CSBT offers Plan participants a variety of investment options through various money market accounts and mutual funds. Individual accounts are invested in the various investment options at the direction of the participants.

Basis of Presentation

The accompanying financial statements have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Contributions

Participants may make before-tax contributions up to 75% of their annual eligible compensation. This maximum percentage may be reduced by the Plan administrator in certain circumstances. Eligible employees who have reached age 50 during the Plan year may elect to make catch-up contributions, as limited by the IRS. The Plan also permits rollover contributions from other qualified retirement plans. Employee contributions to the Plan are made through regular payroll deductions. Participants may change their elective deferral contributions at any time during the year.

The Company makes non-discretionary matching employer contribution equal to 100% of the first 3% of employee deferral contributions and an additional 50% up to 5% (for a maximum of 4% deferred) of eligible compensation to the Plan on a per-pay-period basis. Participants are eligible to receive non-discretionary matching employer contributions on the first day of the month coincident with or following the date one year after their date of hire. Non-discretionary matching employer contributions were $516,644 for the year ended December 31, 2017.

The Company may also make discretionary matching employer contributions to the Plan on a per-pay-period basis. Participants are eligible to receive discretionary matching employer contributions on the first day of the month coincident with or following the date one year after their date of hire.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Contributions (continued)

Effective January 1, 2017, participants were eligible to defer on an after-tax basis through regular payroll deductions from 0% to 75% of eligible compensation as Roth 401(k) deductions. Provided requirements are met, withdrawals of contributions and any earnings are tax free to the participant. A participant's combined pre-tax and after-tax contributions cannot exceed the maximum annual amount allowed by law.

Participants' Accounts

Each participant's account is credited or debited with the participant's contributions and withdrawals, as applicable, and an allocation of the Company's contributions, Plan earnings or losses, forfeitures, and Plan expenses. Allocations are based upon Plan earnings or losses and account balances, as defined by the Plan. The benefit to which a participant is entitled is the vested portion of the participant's account.

Vesting

Participants are 100% vested in their voluntary contributions, allocated earnings or losses thereon. Effective January 1, 2016, non-discretionary matching employer contributions made to the Plan are 100% vested. Any discretionary matching employer contributions made on or after January 1, 2010 (including forfeitures) and the earnings or losses thereon vest as follows:

Years of Service	Vested Interest
Less than 1	0%
1	25%
2	50%
3 or more	100%

A participant's account becomes 100% vested upon death, attaining normal retirement age of 65 while an employee, retirement due to disability, or termination of the Plan.

Payment of Benefits

Upon death, disability, retirement, or termination of service, a participant or his or her beneficiary may receive, at his or her election, within a reasonable period of time, a lump sum payment in the amount equal to the participant's vested account balance. Benefits are recorded when paid.

The Plan allows in-service distributions and partial distributions to participants age 59½ or older who have not terminated employment with the Plan sponsor. The Plan also provides for hardship withdrawals for defined hardship events. Participants who are granted a hardship withdrawal are not allowed to make contributions for the six months following such withdrawal. The Plan allows for terminated participant vested account balances of $1,000 or less to be automatically distributed and balances of $1,000 to $5,000 to be automatically rolled out of the Plan. The IRS has required minimum distributions once a participant reaches age 70½ during the previous Plan year and is no longer employed by the Company.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Participant Termination and Forfeitures

If at the time of termination of employment the participant is not 100% vested, the non-vested portion ("forfeitures") of the participant's account shall be placed in a separate account. Forfeitures can be used to pay non-discretionary matching employer contributions, discretionary matching employer contributions, or pay Plan expenses. Forfeitures in the amount of $19,120 were applied to pay Plan expenses during the year ended December 31, 2017. The balance of this account at December 31, 2017 and 2016 was $6,623 and $2,801, respectively.

Valuation of Investments and Income Recognition

Investments are recorded at fair value as reported to the Plan by the trustee. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Investment Committee determines the Plan's valuation policy utilizing information provided by the investment advisers, including the appointment of investment managers, and the monitoring of the performance of the Plan's investment funds. See Note 3 for discussion of fair value measurements.

Investments in mutual funds are reported at the last reported sales price at the end of the respective periods using quoted market values.

The net realized and unrealized investment gain or loss (net appreciation or depreciation in fair value of investments) is reflected in the accompanying statement of changes in net assets available for benefits and is determined as the difference between fair value at the beginning of the year (or date purchased if during the year) and selling price (if sold during the year) or year-end fair value. Purchases and sales of investments are recorded on a trade-date basis. Interest income is recognized on the accrual basis. Dividends are recognized on the ex-dividend date.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits and disclosures. Accordingly, actual results could differ from those estimates.

Risks, Uncertainties, and Concentrations

The Plan provides for various investments that, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investments, it is reasonably possible that changes in the value of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 1 - Description of the Plan and Significant Accounting Policies (continued)

Risks, Uncertainties, and Concentrations (continued)

Additionally, some investments held by the trustee are invested in the securities of foreign companies, which involve special risks and considerations not typically associated with investing in U.S. companies. These risks include devaluation of currencies, less reliable information about issuers, different securities transaction clearance and settlement practices, and possible adverse political and economic developments. Moreover, securities of many foreign companies and their markets may be less liquid and their prices more volatile than those of securities of comparable U.S. companies.

During the year ended December 31, 2017, one investment accounted for 18% of investment income. At December 31, 2017 and 2016, two and three investments accounted for 24% and 32% of total investments at fair value, respectively.

Subsequent Events

The Plan administrator has evaluated all subsequent events through the auditors' report date, which is the date these financial statements were available to be issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

Note 2 - Assets Certified by the Trustee

CSBT has certified in writing to the Plan administrator that the stated amounts for investments at fair value as of December 31, 2017 and 2016 and the income earned or losses incurred thereon for the year ended December 31, 2017, as reflected in the accompanying financial statements and the supplemental schedule of assets (held at end of year), are complete and accurate.

The Plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's auditors not to perform any auditing procedures with respect to the investment information certified by the trustee, except for comparing the information contained therein to information included in the financial statements and the supplemental schedule of assets (held at end of year).

Note 3 - Fair Value Accounting

Generally accepted accounting principles require disclosure about how fair value is determined and establish a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). The three levels of the fair value hierarchy are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Note 3 - Fair Value Accounting (continued)

Level 2: Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments measured at fair value on a recurring basis.

As of December 31, 2017:

Description	Level 1	Level 2	Level 3	Total
Money market accounts	$ 620,932	$ -	$ -	$ 620,932
Mutual funds	12,288,672	-	-	12,288,672
Total investments at fair value	$ 12,909,604	$ -	$ -	$ 12,909,604

As of December 31, 2016:

Description	Level 1	Level 2	Level 3	Total
Money market accounts	$ 822,881	$ -	$ -	$ 822,881
Mutual funds	9,132,512	-	-	9,132,512
Total investments at fair value	$ 9,955,393	$ -	$ -	$ 9,955,393

There were no changes to the valuation techniques used during the period.

Note 4 - Income Taxes

The Plan obtained its latest determination letter from the IRS, dated September 30, 2014, stating that the Plan was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since the date of this letter; however, the Plan administrator believes that the Plan continues to be operated and administered in compliance with the applicable requirements of the IRC.

Generally accepted accounting principles require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 5 - Administration of the Plan

The Company provides, at no cost to the Plan, certain administrative, accounting, and legal services to the Plan and also pays the cost of certain outside services for the Plan.

Note 6 - Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA.
