INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Stevens Transport, Inc. 401(k) Plan and Trust

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Stevens Transport, Inc. 401(k) Plan and Trust, which comprise the statements of net assets available for benefits – modified cash basis as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits – modified cash basis for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Massachusetts Mutual Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the information described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements and supplemental schedule.

Other Matter

The supplemental schedule of assets held (at end of year) as of the year ended December 31, 2017, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

As described in Note 2, these financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

STEVENS TRANSPORT, INC. 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2017 AND 2016

Note 1 – Plan Description

The following description of the **STEVENS TRANSPORT, INC. 401(k) PLAN AND TRUST** provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Stevens Transport, Inc. (the Company), Paragon Leasing, Stevens Transport TL, Inc. and Stevens Tanker Division, LLC who are at least 21 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administration – The Plan is administered by the Company (the "Plan Administrator"). The duties of the Plan Administrator are to oversee the operations and administration of the Plan in accordance with the specific terms of the Plan, provide for prudent investment of Plan assets and keeping accurate records and reports. The Plan's trustee, Massachusetts Mutual Life Insurance Company, (the "Trustee"), is responsible for the custody and management of the Plan's assets.

Contributions – Participants may make tax deferred contributions of up to 100% of their covered compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the plan. The Company will contribute 50% of the first $800 of each participant's elective deferrals as a matching contribution. Participants are not eligible for employer matching until one year of employment. The Company may also make an annual discretionary contribution. Contributions are subject to federal statutory limits. Forfeitures of matching contributions are applied to reduce administrative costs. The Plan does allow for rollover distributions from other qualified plans.

Participant Accounts – Each participant's account is credited with the participant's contributions, the employer matching contributions, and an allocation of the Company's discretionary contribution, if any, plan earnings, and charged with losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions is based on years of service. A participant is 100% vested after six years of credited service based on increases of 20% per year beginning after two years. A participant will also become 100% vested when that participant dies, becomes disabled or reaches 65 years of age.

Payment of Benefits – Upon retirement, death, disability, or termination of services, a participant (or participant's beneficiary in the event of death) may elect to receive a distribution equal to the participant's vested account balance made in the form of a single lump-sum payment of the participant's vested account balance. In addition, in-service and hardship distributions are permitted if certain criteria are met. A participant has the right to receive all or any portion of their vested accounts upon attainment of age fifty-nine and a half (59 ½), disability, death, or termination of employment. Hardship distributions are subject to meeting strict hardship guidelines established by the Internal Revenue Service. Participants may not make contributions for at least six months after the receipt of a hardship distribution. Benefits are recorded when paid.

Note 1 – Plan Description (Continued)

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 6.00%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investment Options – Upon enrollment in the Plan, a participant may direct the contributions made to the Plan to any one or more of the investment alternatives maintained by the Trustee, determined at the discretion of the participant and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Forfeited Accounts – Forfeitures represent unvested portions of terminated participants' accounts. At December 31, 2017 and 2016 forfeited non-vested accounts totaled $9,687 and $2,908, respectively. These accounts may be used to reduce Company contributions or pay Plan expenses. For the year ended December 31, 2017, no Plan expenses were paid and no Company contributions were reduced from forfeited non-vested accounts.

Note 2 – Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting – The accounting records of the Plan are maintained on the modified cash basis. Under this basis, revenues are recognized when received rather than when earned, and expenses are recognized when paid rather than when incurred. Accordingly, the financial statements are not intended to present the net assets and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America. Certain administrative expenses of the Plan are paid by the Plan. The remaining administrative expenses are paid by the Company. The Plan is under no obligation to reimburse the Company for those expenses.

Use of Estimates – In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition – Investments are stated at fair value, with the exception of the fully benefit-responsive investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). Mutual funds and common/collective trusts represent investments with various investment managers. The respective values of these investments are determined by reference to the underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are traded on national securities exchanges and are valued at the net asset value at year end. The fair values of units held in common/collective trusts are based on their net asset values, as reported by the custodians and as supported by the unit prices of actual purchase and sales transactions occurring as of or close to the financial statement date. The fair values are determined by reference to the respective fund's underlying assets, with the investment manager specifying the source(s) to use for underlying investment assets prices. Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the modified cash basis. The net appreciation (depreciation) in the market value of investments held at year-end, is presented in the statement of changes in net assets available for benefits.

Risk and Uncertainties - Investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with such investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and affected the short- term liquidity associated with certain investments held by the Plan which could impact the value of investments after the date of these financial statements. Because the values of individual investments fluctuate with market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined.

Note 3 – Investments

The Plan has a benefit responsive investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). MassMutual maintains the contributions in several pooled separate accounts and in a Fixed Account, which is invested in the general account of MassMutual. The accounts are credited with earnings on the underlying investments (see below) and are charged with losses, withdrawals and expenses. The contract is included in the financial statements at contract value as reported to the Plan by MassMutual. Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for the net assets available for benefits. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value and the fair value are the same for the pooled separate accounts. In the event that the contract for the Fixed Account is terminated, a market value adjustment would be made which could limit the Plan's ability to transact at contract value with participants.

The average yield for the Fixed Account was approximately 2.9% for 2017 and 2016. The crediting interest rate for the Fixed Account was approximately 3.0% for 2017 and 2016. The crediting interest rate on the Fixed Account may be changed from time to time by MassMutual. There are no reserves against contract value for credit risk of the contract issuer.

Note 4 - Information Certified by the Plan's Trustee - The Plan Administrator has elected the method of annual reporting compliance permitted by Section 2520.103-8 of the United States Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of and for the years ended December 31:

	2017	2016
Investments, at fair value:		
Mutual funds	$ 10,446,272	$ 8,734,911
Common / collective trusts	27,508	16,372
Investments, at contract value:		
Fixed account	2,476,952	2,596,085
Notes receivable from participants	427,780	489,313
	$ 13,378,512	$ 11,836,681

	2017
Investment income:	
Net appreciation in fair value of investments	$ 1,856,395
Interest	75,981
	$ 1,932,376

The Plan's independent accountant did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

Note 5 – Notes Receivable from Participants

Notes receivable from participants are due at various dates through December 2022. Payments include interest at a reasonable and fair rate based on the prevailing rates charges by reputable financial institutions. The notes are collateralized by the participant's vested interest in the Plan. Notes receivable from participants are held at amortized cost which approximates fair value.

Participant loans earned interest of $24,225 for the year ended December 31, 2017.

Note 6 – Reportable Transactions

During the years ended December 31, 2017 and 2016, there were no reportable transactions, loans in default or uncollectible, investment assets acquired and disposed of within the Plan or non-exempt transactions with parties-in-interest which would require supplemental presentation under United States Department of Labor regulations.

Note 7 – Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds or units of common/collective trusts and a fixed account managed by affiliates of the Trustee, and therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and the IRC. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9 – Tax Status

The Company has adopted the Massachusetts Mutual Life Insurance Company Defined Contribution Volume Submitter Plan and Trust (Massachusetts Mutual Basic Plan Document No. 4 and the Adoption Agreement together comprise the Defined Contribution Volume Submitter Plan and Trust). The Internal Revenue Service has issued a determination letter dated March 31, 2014 stating that the plan is acceptable under section 401(a) of the IRC. The Company is relying on the determination letter (in accordance with Announcement 2001-77) that the Plan meets the qualification requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note 10 – Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 10 – Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2017 and 2016, there were no significant transfers in or out of levels 1, 2 or 3.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2017.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common / collective trusts: Valued at the NAV of units held by the Plan, as reported by managers of the common/collective trust and as supported by the unit prices of actual purchase and sales transactions occurring as of or close of the financial statement date. The NAV is based on the fair value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of units outstanding. The NAV is calculated based on a compilation of primarily observable market information, with the investment manager specifying the source(s) to use for underlying investment asset prices. The number of units of the trust that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at contract value:

Fixed account: Valued at contract value. The fixed account investment option is provided through a group annuity contract. Under the terms of the group annuity contract, a crediting rate is established for amounts invested in the fixed account. Participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees.

Note 10 – Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 10,446,272	$ -	$ -	$ 10,446,272
Total assets in the fair value hierarchy	$ 10,446,272	$ -	$ -	10,446,272
Common / collective trusts (a)				27,508
Total investments at fair value				$ 10,473,780

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 8,734,911	$ -	$ -	$ 8,734,911
Total assets in the fair value hierarchy	$ 8,734,911	$ -	$ -	8,734,911
Common / collective trusts (a)				16,372
Total investments at fair value				$ 8,751,283

(a) These investments are valued using net asset value as a practical expedient, and therefore have not been classified in the fair value hierarchy.

Fee and Compensation Disclosure Report

This document is intended to assist a plan administrator ("you") in completing the Form 5500 Schedule C[1] by identifying different types of compensation paid with respect to the product utilized by your plan.

As permitted under the Schedule C rules, compensation is disclosed in the attached report as an actual dollar amount, an estimate or a formula or rate.

- Where an actual dollar amount of compensation is disclosed, no further notation regarding compensation calculations is generally provided.
- Where an estimate of the compensation amount is disclosed, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount.
- Where a formula or rate is provided to report compensation, we have used a reasonable method to arrive at the estimate and we have described the method used to arrive at the estimated amount. This formula or rate may be disclosed to describe the compensation to which it applies under the Schedule C rules. Alternatively, for purposes of Schedule C disclosure or in connection with your fiduciary review of the compensation paid with respect to the services, products and investment options utilized by the plan, you may calculate and disclose an actual or estimated dollar amount by multiplying the rate by the total assets to which it applies.

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2017 - 12/31/2017 and indirect compensation is presented on a calendar year basis ending 12/31/2017.

This report includes compensation actually paid to or by MassMutual within the indicated plan year as part of your MassMutual-serviced product. *(Note: If the plan year period or plan year end indicated in this Schedule C reporting package is incorrect, please notify your MassMutual customer service representative immediately).* This report does not include amounts deducted from plan assets and paid to third parties (other than MassMutual). In addition, the report does not include compensation related to investments held by the plan that are not serviced on our recordkeeping system. You should contact your other service providers for reportable compensation information. You may also receive information on the compensation reported here from other service providers as is described below.

Please note that we have provided suggested service codes with respect to services provided through our product. Please review all Schedule C and other Form 5500 materials with your experienced benefits counsel and other professionals to determine the most appropriate codes for your plan. In addition, please note that because plans with fewer than 100 participants (as of the beginning of the plan year) are generally not required to file Schedule C, you should refer to the instructions provided by the IRS for Schedule C and/or review the applicability of Schedule C to your plan with your experienced tax/benefits counsel, to determine whether it is necessary for the plan to report the information contemplated by this report.

Please contact your MassMutual Service Team should you require additional information regarding the compensation paid to or by MassMutual with respect to your plan.

Information provided in this document and related materials we provide are not intended to be and shall not be deemed tax advice, tax form preparation services, legal advice, advice to plans regarding compliance with ERISA reporting compliance, or accounting or other professional services. As described above, the information contained in this report may not cover all of the compensation received by the plan's service providers. We strongly encourage you to review all Schedule C and other Form 5500 materials with experienced benefits counsel and other professionals.

---

[1]Please refer to the Schedule C of the Form 5500 and its instructions (available at: http://www.dol.gov/ebsa/5500main.html), and please confer with experienced benefits counsel and other professionals, to determine the applicability of Schedule C to your plan.

FORM 5500 SCHEDULE C REPORT
SCHEDULE C, LINE 2(h) AND LINE 3(e) FORMULA DESCRIPTION

STEVENS TRANSPORT, INC. 401(K) PLAN & TRUST (006726)
EIN #: 75-1302273

Please note that, unless otherwise indicated in the descriptions contained in this report, direct compensation is presented on a plan year basis 01/01/2017 - 12/31/2017 and indirect compensation is presented on a calendar year basis ending 12/31/2017.

For use with lines 2(h), 3(c), 3(d), 3(e)

Total Direct Compensation Paid **$1,750.00**

The total amount identified above reflects all fees deducted from plan assets at the plan administrator's direction for the plan year. Service providers which have received portions of these direct fees are listed below, along with the amount of fees they received. Please note that if there is a discrepancy between the total direct fees reported above and the sum of the direct fees reported below, you should contact your other service providers or your plan records to identify the recipient(s) of the fees and any other information relevant to your Schedule C filing.

Recipient: Massachusetts Mutual Life Insurance Company EIN: 04-1590850

Service Codes: 15, 23, 37, 38, 54, 55, 59, 60, 62, 63, 64, 65, 66, 99, 50 (if direct compensation amount reflected below)

Direct Compensation **$1,750.00**

The total amount identified above reflects fees deducted from plan assets at the plan administrator's direction for the 2017 plan year for the above named recipient. Please review other service providers, below, to determine whether direct fees were also paid to them. Also, please review your records to determine whether other service providers may have received any compensation not reported below (e.g., a reimbursement paid to any plan fiduciary, your employee benefits counsel, or a plan auditor).

Note: Due to system accounting protocols (including 'cash basis' accounting), amounts reported as Direct Compensation and amounts reported as paid to Massachusetts Mutual Life Insurance Company ("MMLIC") are the net result of aggregating direct compensation after the effects of adjustments processed in 2017, some of which may have pertained to prior years.

Please review the detailed breakdown at the end of the report for further information.

Indirect Compensation

Float compensation **$918.99**

Bank accounts and investments associated with short-term investment pool

This is an estimate based on the annual average rate of float (1.367% for 2017) earned on the bank accounts and investments associated with the short-term investment pool for the 2017 calendar year multiplied by an estimate of the assets related to uncashed checks.* This estimate does not include float earned for any other reason (e.g., if amounts remitted cannot be immediately invested because they are not in good order). Please review or request a copy of the current float disclosure for more information about the other circumstances in which float is earned.

* A complete listing of distribution checks that remain outstanding for your plan is available on the Retirement Plan Access web site under the Standard Reports section (Report R03998-Outstanding Distribution Checks). Uncashed check assets will continue to remain in a float-earning bank account until such time direction is received from the Plan Sponsor, subject to applicable regulation. The Plan Sponsor should consult with the Plan's/Plan Sponsor's tax advisor or benefits counsel to determine if assets attributable to uncashed checks should be included on the Form 5500 filing.

Non Monetary Compensation

Please note that items of nonmonetary compensation need to be reported for Schedule A or C (Form 5500) purposes if they exceed certain *de minimus* amounts. Transactions generating nonmonetary compensation may include gifts, gratuities, or certain types of in-kind benefits. MassMutual's Code of Conduct generally restricts MassMutual employees from giving to or receiving gifts from customers and/or business partners having a value of over $100, in any individual situation, without prior approval. However, it is possible that one or more of your service providers for the calendar year, including MassMutual, engaged in transactions generating nonmonetary compensation. Information concerning reportable transactions undertaken between or among non-MassMutual parties may not be available to MassMutual.

Please consult with your legal or tax advisors if you have any questions.

Under the variable investment options available through your plan's group annuity contract or funding agreement, contract values are invested in Massachusetts Mutual Life Insurance Company separate accounts that, in turn, invest in underlying registered investment companies (i.e., mutual funds) and collective investment funds.

The above list includes any investment option held by the plan on at least one month end during the 2017 calendar year. To arrive at an estimate of the dollar amount that MassMutual received from each investment option, multiply the rate of fees received from each investment option by your plan's year-end balance (or if the investment option was liquidated prior to year end, the balance on the liquidation date) and, if applicable, the per participant fee by the number of participants in the investment option at year end (or the liquidation date if earlier). This will be an estimate because your plan's balance and number of participants will vary over the course of the year, so the year-end balance and number of participants may be higher or lower than the daily balance. In addition, these fees are calculated on a daily basis.

[*] This amount is the sum of the fund's distribution, management and other fees, which are also identified in the fund's prospectus. Please note that some of the funds available through your service contract or arrangement are funds from The Hartford Financial Services Group, Inc.'s proprietary family of mutual funds (The Hartford Mutual Funds). These proprietary mutual funds have contracts for services with companies that are affiliated with Hartford Securities Distribution Company Inc.

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Stevens Transport, Inc. 401(k) Plan and Trust

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Stevens Transport, Inc. 401(k) Plan and Trust, which comprise the statements of net assets available for benefits – modified cash basis as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits – modified cash basis for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Massachusetts Mutual Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the information described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements and supplemental schedule.

Other Matter

The supplemental schedule of assets held (at end of year) as of the year ended December 31, 2017, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

As described in Note 2, these financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

STEVENS TRANSPORT, INC. 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2017 AND 2016

Note 1 – Plan Description

The following description of the **STEVENS TRANSPORT, INC. 401(k) PLAN AND TRUST** provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Stevens Transport, Inc. (the Company), Paragon Leasing, Stevens Transport TL, Inc. and Stevens Tanker Division, LLC who are at least 21 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administration – The Plan is administered by the Company (the "Plan Administrator"). The duties of the Plan Administrator are to oversee the operations and administration of the Plan in accordance with the specific terms of the Plan, provide for prudent investment of Plan assets and keeping accurate records and reports. The Plan's trustee, Massachusetts Mutual Life Insurance Company, (the "Trustee"), is responsible for the custody and management of the Plan's assets.

Contributions – Participants may make tax deferred contributions of up to 100% of their covered compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the plan. The Company will contribute 50% of the first $800 of each participant's elective deferrals as a matching contribution. Participants are not eligible for employer matching until one year of employment. The Company may also make an annual discretionary contribution. Contributions are subject to federal statutory limits. Forfeitures of matching contributions are applied to reduce administrative costs. The Plan does allow for rollover distributions from other qualified plans.

Participant Accounts – Each participant's account is credited with the participant's contributions, the employer matching contributions, and an allocation of the Company's discretionary contribution, if any, plan earnings, and charged with losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions is based on years of service. A participant is 100% vested after six years of credited service based on increases of 20% per year beginning after two years. A participant will also become 100% vested when that participant dies, becomes disabled or reaches 65 years of age.

Payment of Benefits – Upon retirement, death, disability, or termination of services, a participant (or participant's beneficiary in the event of death) may elect to receive a distribution equal to the participant's vested account balance made in the form of a single lump-sum payment of the participant's vested account balance. In addition, in-service and hardship distributions are permitted if certain criteria are met. A participant has the right to receive all or any portion of their vested accounts upon attainment of age fifty-nine and a half (59 ½), disability, death, or termination of employment. Hardship distributions are subject to meeting strict hardship guidelines established by the Internal Revenue Service. Participants may not make contributions for at least six months after the receipt of a hardship distribution. Benefits are recorded when paid.

Note 1 – Plan Description (Continued)

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 6.00%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investment Options – Upon enrollment in the Plan, a participant may direct the contributions made to the Plan to any one or more of the investment alternatives maintained by the Trustee, determined at the discretion of the participant and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Forfeited Accounts – Forfeitures represent unvested portions of terminated participants' accounts. At December 31, 2017 and 2016 forfeited non-vested accounts totaled $9,687 and $2,908, respectively. These accounts may be used to reduce Company contributions or pay Plan expenses. For the year ended December 31, 2017, no Plan expenses were paid and no Company contributions were reduced from forfeited non-vested accounts.

Note 2 – Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting – The accounting records of the Plan are maintained on the modified cash basis. Under this basis, revenues are recognized when received rather than when earned, and expenses are recognized when paid rather than when incurred. Accordingly, the financial statements are not intended to present the net assets and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America. Certain administrative expenses of the Plan are paid by the Plan. The remaining administrative expenses are paid by the Company. The Plan is under no obligation to reimburse the Company for those expenses.

Use of Estimates – In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition – Investments are stated at fair value, with the exception of the fully benefit-responsive investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). Mutual funds and common/collective trusts represent investments with various investment managers. The respective values of these investments are determined by reference to the underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are traded on national securities exchanges and are valued at the net asset value at year end. The fair values of units held in common/collective trusts are based on their net asset values, as reported by the custodians and as supported by the unit prices of actual purchase and sales transactions occurring as of or close to the financial statement date. The fair values are determined by reference to the respective fund's underlying assets, with the investment manager specifying the source(s) to use for underlying investment assets prices. Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the modified cash basis. The net appreciation (depreciation) in the market value of investments held at year-end, is presented in the statement of changes in net assets available for benefits.

Risk and Uncertainties - Investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with such investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and affected the short- term liquidity associated with certain investments held by the Plan which could impact the value of investments after the date of these financial statements. Because the values of individual investments fluctuate with market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined.

Note 3 – Investments

The Plan has a benefit responsive investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). MassMutual maintains the contributions in several pooled separate accounts and in a Fixed Account, which is invested in the general account of MassMutual. The accounts are credited with earnings on the underlying investments (see below) and are charged with losses, withdrawals and expenses. The contract is included in the financial statements at contract value as reported to the Plan by MassMutual. Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for the net assets available for benefits. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value and the fair value are the same for the pooled separate accounts. In the event that the contract for the Fixed Account is terminated, a market value adjustment would be made which could limit the Plan's ability to transact at contract value with participants.

The average yield for the Fixed Account was approximately 2.9% for 2017 and 2016. The crediting interest rate for the Fixed Account was approximately 3.0% for 2017 and 2016. The crediting interest rate on the Fixed Account may be changed from time to time by MassMutual. There are no reserves against contract value for credit risk of the contract issuer.

Note 4 - Information Certified by the Plan's Trustee - The Plan Administrator has elected the method of annual reporting compliance permitted by Section 2520.103-8 of the United States Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of and for the years ended December 31:

	2017	2016
Investments, at fair value:		
Mutual funds	$ 10,446,272	$ 8,734,911
Common / collective trusts	27,508	16,372
Investments, at contract value:		
Fixed account	2,476,952	2,596,085
Notes receivable from participants	427,780	489,313
	$ 13,378,512	$ 11,836,681

	2017
Investment income:	
Net appreciation in fair value of investments	$ 1,856,395
Interest	75,981
	$ 1,932,376

The Plan's independent accountant did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

Note 5 – Notes Receivable from Participants

Notes receivable from participants are due at various dates through December 2022. Payments include interest at a reasonable and fair rate based on the prevailing rates charges by reputable financial institutions. The notes are collateralized by the participant's vested interest in the Plan. Notes receivable from participants are held at amortized cost which approximates fair value.

Participant loans earned interest of $24,225 for the year ended December 31, 2017.

Note 6 – Reportable Transactions

During the years ended December 31, 2017 and 2016, there were no reportable transactions, loans in default or uncollectible, investment assets acquired and disposed of within the Plan or non-exempt transactions with parties-in-interest which would require supplemental presentation under United States Department of Labor regulations.

Note 7 – Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds or units of common/collective trusts and a fixed account managed by affiliates of the Trustee, and therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and the IRC. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9 – Tax Status

The Company has adopted the Massachusetts Mutual Life Insurance Company Defined Contribution Volume Submitter Plan and Trust (Massachusetts Mutual Basic Plan Document No. 4 and the Adoption Agreement together comprise the Defined Contribution Volume Submitter Plan and Trust). The Internal Revenue Service has issued a determination letter dated March 31, 2014 stating that the plan is acceptable under section 401(a) of the IRC. The Company is relying on the determination letter (in accordance with Announcement 2001-77) that the Plan meets the qualification requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note 10 – Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 10 – Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2017 and 2016, there were no significant transfers in or out of levels 1, 2 or 3.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2017.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common / collective trusts: Valued at the NAV of units held by the Plan, as reported by managers of the common/collective trust and as supported by the unit prices of actual purchase and sales transactions occurring as of or close of the financial statement date. The NAV is based on the fair value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of units outstanding. The NAV is calculated based on a compilation of primarily observable market information, with the investment manager specifying the source(s) to use for underlying investment asset prices. The number of units of the trust that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at contract value:

Fixed account: Valued at contract value. The fixed account investment option is provided through a group annuity contract. Under the terms of the group annuity contract, a crediting rate is established for amounts invested in the fixed account. Participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees.

Note 10 – Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 10,446,272	$ -	$ -	$ 10,446,272
Total assets in the fair value hierarchy	$ 10,446,272	$ -	$ -	10,446,272
Common / collective trusts (a)				27,508
Total investments at fair value				$ 10,473,780

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 8,734,911	$ -	$ -	$ 8,734,911
Total assets in the fair value hierarchy	$ 8,734,911	$ -	$ -	8,734,911
Common / collective trusts (a)				16,372
Total investments at fair value				$ 8,751,283

(a) These investments are valued using net asset value as a practical expedient, and therefore have not been classified in the fair value hierarchy.

INDEPENDENT AUDITORS' REPORT

To the Administrative Committee of
Stevens Transport, Inc. 401(k) Plan and Trust

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Stevens Transport, Inc. 401(k) Plan and Trust, which comprise the statements of net assets available for benefits – modified cash basis as of December 31, 2017 and 2016, the related statement of changes in net assets available for benefits – modified cash basis for the year ended December 31, 2017, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Massachusetts Mutual Life Insurance Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2017 and 2016, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the information described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements and supplemental schedule.

Other Matter

The supplemental schedule of assets held (at end of year) as of the year ended December 31, 2017, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

As described in Note 2, these financial statements and supplemental schedule were prepared on a modified cash basis of accounting, which is a comprehensive basis of accounting other than generally accepted accounting principles.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

STEVENS TRANSPORT, INC. 401(k) PLAN AND TRUST

NOTES TO FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2017 AND 2016

Note 1 – Plan Description

The following description of the **STEVENS TRANSPORT, INC. 401(k) PLAN AND TRUST** provides only general information. Participants should refer to the Plan Agreement for a more complete description of the Plan's provisions.

General – The Plan is a defined contribution plan covering all employees of Stevens Transport, Inc. (the Company), Paragon Leasing, Stevens Transport TL, Inc. and Stevens Tanker Division, LLC who are at least 21 years of age. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Plan Administration – The Plan is administered by the Company (the "Plan Administrator"). The duties of the Plan Administrator are to oversee the operations and administration of the Plan in accordance with the specific terms of the Plan, provide for prudent investment of Plan assets and keeping accurate records and reports. The Plan's trustee, Massachusetts Mutual Life Insurance Company, (the "Trustee"), is responsible for the custody and management of the Plan's assets.

Contributions – Participants may make tax deferred contributions of up to 100% of their covered compensation, as defined in the Plan. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants direct the investment of their contributions into various investment options offered by the plan. The Company will contribute 50% of the first $800 of each participant's elective deferrals as a matching contribution. Participants are not eligible for employer matching until one year of employment. The Company may also make an annual discretionary contribution. Contributions are subject to federal statutory limits. Forfeitures of matching contributions are applied to reduce administrative costs. The Plan does allow for rollover distributions from other qualified plans.

Participant Accounts – Each participant's account is credited with the participant's contributions, the employer matching contributions, and an allocation of the Company's discretionary contribution, if any, plan earnings, and charged with losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company's contributions is based on years of service. A participant is 100% vested after six years of credited service based on increases of 20% per year beginning after two years. A participant will also become 100% vested when that participant dies, becomes disabled or reaches 65 years of age.

Payment of Benefits – Upon retirement, death, disability, or termination of services, a participant (or participant's beneficiary in the event of death) may elect to receive a distribution equal to the participant's vested account balance made in the form of a single lump-sum payment of the participant's vested account balance. In addition, in-service and hardship distributions are permitted if certain criteria are met. A participant has the right to receive all or any portion of their vested accounts upon attainment of age fifty-nine and a half (59 ½), disability, death, or termination of employment. Hardship distributions are subject to meeting strict hardship guidelines established by the Internal Revenue Service. Participants may not make contributions for at least six months after the receipt of a hardship distribution. Benefits are recorded when paid.

Note 1 – Plan Description (Continued)

Notes Receivable from Participants – Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 6.00%, which are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Investment Options – Upon enrollment in the Plan, a participant may direct the contributions made to the Plan to any one or more of the investment alternatives maintained by the Trustee, determined at the discretion of the participant and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Forfeited Accounts – Forfeitures represent unvested portions of terminated participants' accounts. At December 31, 2017 and 2016 forfeited non-vested accounts totaled $9,687 and $2,908, respectively. These accounts may be used to reduce Company contributions or pay Plan expenses. For the year ended December 31, 2017, no Plan expenses were paid and no Company contributions were reduced from forfeited non-vested accounts.

Note 2 – Summary of Significant Accounting Policies

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Basis of Accounting – The accounting records of the Plan are maintained on the modified cash basis. Under this basis, revenues are recognized when received rather than when earned, and expenses are recognized when paid rather than when incurred. Accordingly, the financial statements are not intended to present the net assets and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America. Certain administrative expenses of the Plan are paid by the Plan. The remaining administrative expenses are paid by the Company. The Plan is under no obligation to reimburse the Company for those expenses.

Use of Estimates – In preparing financial statements, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Note 2 – Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition – Investments are stated at fair value, with the exception of the fully benefit-responsive investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). Mutual funds and common/collective trusts represent investments with various investment managers. The respective values of these investments are determined by reference to the underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are traded on national securities exchanges and are valued at the net asset value at year end. The fair values of units held in common/collective trusts are based on their net asset values, as reported by the custodians and as supported by the unit prices of actual purchase and sales transactions occurring as of or close to the financial statement date. The fair values are determined by reference to the respective fund's underlying assets, with the investment manager specifying the source(s) to use for underlying investment assets prices. Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the modified cash basis. The net appreciation (depreciation) in the market value of investments held at year-end, is presented in the statement of changes in net assets available for benefits.

Risk and Uncertainties - Investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with such investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and affected the short- term liquidity associated with certain investments held by the Plan which could impact the value of investments after the date of these financial statements. Because the values of individual investments fluctuate with market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined.

Note 3 – Investments

The Plan has a benefit responsive investment contract with Massachusetts Mutual Life Insurance Company (MassMutual). MassMutual maintains the contributions in several pooled separate accounts and in a Fixed Account, which is invested in the general account of MassMutual. The accounts are credited with earnings on the underlying investments (see below) and are charged with losses, withdrawals and expenses. The contract is included in the financial statements at contract value as reported to the Plan by MassMutual. Because the contract is fully benefit-responsive, contract value is the relevant measurement attribute for the net assets available for benefits. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract value and the fair value are the same for the pooled separate accounts. In the event that the contract for the Fixed Account is terminated, a market value adjustment would be made which could limit the Plan's ability to transact at contract value with participants.

The average yield for the Fixed Account was approximately 2.9% for 2017 and 2016. The crediting interest rate for the Fixed Account was approximately 3.0% for 2017 and 2016. The crediting interest rate on the Fixed Account may be changed from time to time by MassMutual. There are no reserves against contract value for credit risk of the contract issuer.

Note 4 - Information Certified by the Plan's Trustee - The Plan Administrator has elected the method of annual reporting compliance permitted by Section 2520.103-8 of the United States Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Trustee of the Plan has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of and for the years ended December 31:

	2017	2016
Investments, at fair value:		
Mutual funds	$ 10,446,272	$ 8,734,911

The Plan's independent accountant did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

Note 5 – Notes Receivable from Participants

Notes receivable from participants are due at various dates through December 2022. Payments include interest at a reasonable and fair rate based on the prevailing rates charges by reputable financial institutions. The notes are collateralized by the participant's vested interest in the Plan. Notes receivable from participants are held at amortized cost which approximates fair value.

Participant loans earned interest of $24,225 for the year ended December 31, 2017.

Note 6 – Reportable Transactions

During the years ended December 31, 2017 and 2016, there were no reportable transactions, loans in default or uncollectible, investment assets acquired and disposed of within the Plan or non-exempt transactions with parties-in-interest which would require supplemental presentation under United States Department of Labor regulations.

Note 7 – Party-in-Interest Transactions

Certain Plan investments are shares of mutual funds or units of common/collective trusts and a fixed account managed by affiliates of the Trustee, and therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

Note 8 – Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan, subject to the provisions of ERISA and the IRC. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9 – Tax Status

The Company has adopted the Massachusetts Mutual Life Insurance Company Defined Contribution Volume Submitter Plan and Trust (Massachusetts Mutual Basic Plan Document No. 4 and the Adoption Agreement together comprise the Defined Contribution Volume Submitter Plan and Trust). The Internal Revenue Service has issued a determination letter dated March 31, 2014 stating that the plan is acceptable under section 401(a) of the IRC. The Company is relying on the determination letter (in accordance with Announcement 2001-77) that the Plan meets the qualification requirements of the IRC. Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2017 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2014.

Note 10 – Fair Value Measurements

Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") 820, Fair Value Measurements and Disclosures, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Note 10 – Fair Value Measurements (Continued)

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of the observable inputs and minimize the use of unobservable inputs. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2017 and 2016, there were no significant transfers in or out of levels 1, 2 or 3.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2017.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year end.

Common / collective trusts: Valued at the NAV of units held by the Plan, as reported by managers of the common/collective trust and as supported by the unit prices of actual purchase and sales transactions occurring as of or close of the financial statement date. The NAV is based on the fair value of the underlying assets owned by the trust, minus its liabilities, and then divided by the number of units outstanding. The NAV is calculated based on a compilation of primarily observable market information, with the investment manager specifying the source(s) to use for underlying investment asset prices. The number of units of the trust that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Following is a description of the valuation methodologies used for assets measured at contract value:

Fixed account: Valued at contract value. The fixed account investment option is provided through a group annuity contract. Under the terms of the group annuity contract, a crediting rate is established for amounts invested in the fixed account. Participants may direct permitted withdrawal and/or transfer transactions of all or a portion of their account balance at contract value. Contract value represents contributions plus credited interest less participant withdrawals and fees.

Note 10 – Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2017:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 10,446,272	$ -	$ -	$ 10,446,272
Total assets in the fair value hierarchy	$ 10,446,272	$ -	$ -	10,446,272
Common / collective trusts (a)				27,508
Total investments at fair value				$ 10,473,780

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2016:

	Level 1	Level 2	Level 3	Total
Mutual funds	$ 8,734,911	$ -	$ -	$ 8,734,911
Total assets in the fair value hierarchy	$ 8,734,911	$ -	$ -	8,734,911
Common / collective trusts (a)				16,372
Total investments at fair value				$ 8,751,283

(a) These investments are valued using net asset value as a practical expedient, and therefore have not been classified in the fair value hierarchy.

Schedule C Soft Dollar Compensation
Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, the funds listed below had soft dollar arrangements during the previous fiscal year-end. For details, please refer to the Portfolio Transactions and Brokerage section of the Statement of Additional Information ("SAI"). For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
