Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

The Company may make discretionary qualified nonelective employer contributions and/or discretionary matching contributions. For the year ended December 31, 2017, the Company made discretionary matching contributions up to 2.5 percent of eligible compensation that a participant contributed to the Plan. Contributions are subject to certain limitations.

Participant accounts: Participants direct the investment of their contributions into various investment options offered by the Plan.

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions, if any, and Plan earnings and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: Participants are vested immediately in their contributions and actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of continuous service. Company contributions have a five-year graded vesting period as follows:

Completed Years of Service	Vested Percentage
Less than two years	0%
Two years	25%
Three years	50%
Four years	75%
Five years	100%

Payment of benefits: On termination of service, a participant may elect to receive a lump-sum distribution equal to the value of the participant's vested interest in his or her account. Any balance under $5,000 is automatically paid out as soon as administratively possible. In-service withdrawals are also permitted for certain financial hardships or when a participant attains age 59½. . Plan assets allocated to the accounts of terminated participants with balances under $5,000 were approximately $37,713.

Note 1. Description of Plan (Continued)

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest, as determined by the Plan Administrator. Principal and interest are paid through payroll deductions.

Forfeitures: Participant forfeitures of nonvested balances will be used to reduce future employer contributions or pay the expenses of the Plan. During 2017, employer contributions and expenses were reduced by $131,482 from forfeited nonvested accounts. At December 31, 2017 and 2016, unallocated forfeitures totaled $88,623 and $40,306, respectively.

Note 2. Summary of Significant Accounting Policies

Basis of accounting: The accompanying financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities and changes therein and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be recognized to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for disclosure of the fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

The Retirement Plan Committee determines the Plan's valuation policies utilizing information provided by the trustee.

Stable value fund: Investments held by a defined contribution plan are reported at fair value except for fully benefit-responsive investment contracts. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts as contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus accrued, but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2017 and 2016. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Notes receivable from participants have been classified as an investment asset for Form 5500 reporting purposes and, accordingly, have been included as an investment in the supplemental schedule, Schedule H, Line 4i—Schedule of assets (held at end of year).

Payment of benefits: Benefits are recorded when paid.

Note 2. Summary of Significant Accounting Policies (Continued)

Administrative expenses: Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment-related expenses are included in the net appreciation in fair value of investments.

Subsequent events: The Plan has evaluated subsequent events through October 10, 2018, the date the financial statements were available to be issued.

Note 3. Information Certified and Provided by Lincoln Financial Group Trust Company (Lincoln)

The following is a summary of the Plan's asset information as of December 31, 2017 and 2016, and for the year ended December 31, 2017, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by trustee and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustee as of December 31, 2017 and 2016, that information provided to the Plan Administrator by the trustee related to the following assets is complete and accurate to the best of their knowledge. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information that appears throughout the financial statements and supplemental schedule related to the following assets:

	December 31	
	2017	2016
Investments at fair value:		
Mutual funds	$ 16,219,878	$ 12,871,829
Investments at contract value:		
Stable value fund	973,303	1,153,715
	17,193,181	14,025,544
Notes receivable from participants	1,024,757	981,251
	$ 18,217,938	$ 15,006,795

The trustee also certified to the completeness and accuracy of $1,975,422 of net appreciation in fair value of investments, $461,388 of interest and dividend income related to the aforementioned investments and $45,892 of interest income on notes receivable from participants for the year ended December 31, 2017.

Note 4. Fair Value Measurements

The *FASB Accounting Standards Codification* (ASC) Topic 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under ASC Topic 820, Fair Value Measurements and Disclosures, are described below.

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Note 4. Fair Value Measurements (Continued)

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means

If the asset or liability has a specific (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques that are used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2017 and 2016.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The following table sets forth, by level within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2017 and 2016:

	Investments at Fair Value as of December 31, 2017			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 16,219,878	$ -	$ -	$ 16,219,878

	Investments at Fair Value as of December 31, 2016			
	Level 1	Level 2	Level 3	Total
Mutual funds	$ 12,871,829	$ -	$ -	$ 12,871,829

Note 5. Stable Value Fund

The Plan entered into a benefit-responsive investment contract with Lincoln in 2016. Lincoln maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The benefit-responsive investment contract issuer is contractually obligated to repay the principal and specified interest rate at a minimum of 1.5 percent that is guaranteed to the Plan.

Because the benefit-responsive investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the benefit-responsive investment contract. Contract value, as reported to the Plan by Lincoln, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan Sponsor or other Plan Sponsor events (for example, divestures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe any events which would limit the Plan's ability to transact at contract value with participants is probable.

Note 6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their Plan Sponsor contributions and related earnings.

Note 7. Tax Status

The Plan has adopted a form of a volume submitter plan sponsored by Lincoln Retirement Services Company, LLC. The Plan has received an opinion letter dated March 31, 2014, from the Internal Revenue Service (IRS) as to the Plan's qualified status. The volume submitter plan opinion letter has been relied upon by the Plan. The Plan has been amended subsequent to the version covered by the volume submitter plan's determination letter. However, the Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

U.S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 8. Risks and Uncertainties

The Plan invests in various investments. Investments are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.
